School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

ELA and Algebra EOC. Transient population it the contributing factor to the low performance.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA has the greatest decline. Professional development, effective teacher planning and delivery contributed to this decline.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA had the greatest gap when compared to the state average. Transient population contributed to the to this gap.

Which data component showed the most improvement? What new actions did your school take in this area?

History EOC showed the most improvement. Implementation of digital tools and project-based learning were some new actions we implemented in this area.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

High level of students failed ELA course of Math in 2020.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increase Levels 3-5 in ELA and Math for our ESSA subgroups
2. Decrease Levels 1-2 in ELA and Math for our ESSA subgroups
3. Increase learning gains for the lowest 25th percentile in ELA and Math
4. Increase middle school acceleration
5. Increase Science achievement

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to African-American

Area of Focus Description and Rationale:	Students' population lack core academic skills, socio-emotional, and have behavior challenges.
Measurable Outcome:	10% of the subgroup will increase in learning gains for ELA
Person responsible for monitoring outcome:	Janet Jackson (janet.d.jackson@browardschools.com)
Evidence-based Strategy:	Conduct monthly cycle assessments and teacher & student data discussions Pull-out / push-in for struggling learners Provide academic and behavior support to new teachers Morning Meetings, SEL, and individual counseling
Rationale for Evidence-based Strategy:	Students' population lack core academic skills, socio-emotional, and have behavior challenges

Action Steps to Implement

1. Our instructional focus calendar is designed by cycles. Each cycle is 3 weeks long. At the end of each cycle the students take an assessment for the cycle. Teachers fill out a data sheet and meet with administration for data chats. At the data chats teachers discuss their plan for students scoring at each level.
2. Literacy Coach and math teacher leader will identify students for weekly pullouts/pushins
3. All teachers will participate in PLCs designed to incorporate BEST strategies through our school-wide literacy initiative in reading and vocabulary.
4. The PLCs that the teachers will participate in will incorporate three main components of our students' special needs. Those components are mental health counseling, behavioral strategies, and our school-wide literacy initiative to improve reading and writing proficiency.
5. When students enroll they are assigned a case manager. Students are given a personalized plan and the case manager meet with them bi-weekly to discuss progress academically and behaviorally. Parents will be contacted and made aware of how child doing.

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

All content area teachers will use grade-level Florida Standards to plan and deliver lessons in the classroom. Each teacher follows the district pacing guide for the respective discipline. Each week teachers participate in PLCs which focus on understanding, unwrapping, and planning using the Florida Standards. Teachers use Canvas to share work as well as best practices with colleagues.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

To build a positive school culture we have implemented many programs to recognize and celebrate students and stakeholders. Students get shout-outs and rewards on a daily basis and a student of the month is selected to participate in monthly celebration. Students are nominated for displaying positive character traits identified during each month. Staff members are recognized weekly, monthly, and quarterly for outstanding performance or for going above and beyond. Stakeholders are also celebrated on their birthdate.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
