ESSA Status	CS&I

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

MISSION:

The mission of Buckingham Exceptional Student Center is to collect and study data relative to student progress, student and parental needs, and community involvement provide teachers and staff with appropriate training to maximize student performance foster a high degree of home/school communication and involvement

provide an environment that protects health, safety, and yet allows the dignity of risk, so that all students achieve their highest potential to function as independently as possible. We strive to make every minute count!

Provide the school's vision statement.

School Vision:

To provide each student the opportunity to achieve their highest potential in order to function as independently as possible in society.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Gohagen-Mosley, Vicki	Principal	<p>Principal</p> <p>The principal serves as the instructional leader for our building. As principal, she listens to her staff members, takes all comments into consideration and makes sure all employees have a voice. The principal shapes the culture and environment of the school with a vision for all students to succeed to their full potential, creates a climate where all people feel safe and secure within their positions and status, manages people, data, and processes within the building, and is responsible for the day to day operations of the building and school.</p>
Berg, Jeanette	Teacher, ESE	<p>Teacher</p> <p>Classroom teacher is included in the leadership team. The classroom teacher is a critical element in leadership. The teacher has a viewpoint that is different than the people who are not in classrooms. The classroom teacher brings concerns and needs to the team and is a voice for the teachers on campus. If teachers have concerns, they are asked to go to the teacher on leadership and they will bring it to the meetings. The department head and the teacher in the Leadership Committee also discuss needs and concerns from helping teachers and staff on the campus and bring those concerns to Leadership.</p> <p>Buckingham Exceptional Student Center uses the Performance Matters & Castle, and Focus are the data repositories of student, school, district and state assessment data, intervention data displayed graphically, online tests, and school improvement resources. Leadership and school teams use the above systems to analyze and interpret data, plan for instruction and monitor progress. Our school-wide goal is to strengthen core instruction and improve student response to core instruction. Administration, Instructional Coaches and LCSD office personnel will ensure that support is in place to plan effective instruction and provide differentiation sufficient to meet all learner needs. Student formative assessments will be analyzed in grade level meetings to determine which students need to participate in additional instruction or reteach of the benchmark. Students who have not mastered benchmarks will be discussed during the MTSS/RTI meetings to determine if tiered intervention is needed. If a tiered intervention is indicated, a Progress Monitoring Plan (PMP) is generated with support from the Intervention Support Specialist and the Instructional Coaches. Tiered intervention data will be monitored monthly during the MTSS/RTI grade level meetings and through MTSS/RTI Leadership meetings.</p> <p>Program Coordination:</p> <p>The Lee County School district provides a systematic and strategic approach to providing services through the District Strategic Plan, 3 Year Academic Plan, and the K-12 Comprehensive Reading Plan. Goals and objectives of each program and department are aligned with these overarching district plans.</p> <p>Additionally:</p> <p>Describe any coordination/integration with other Federal, State, and local resources such as grants, violence prevention programs, nutrition programs, housing programs, Head Start, adult ed, career & technical ed,</p> <p>Describe any consolidated Federal, State, and local education agency programs</p> <p>Using needs assessment, identify school needs and priorities</p> <ul style="list-style-type: none"> ● Using LEA, SAI, ESE and other funds meet min/max requirements and purchase district required materials; then use Title I and UniSIG funds to supplement personnel and resources, as needed

Name	Title	Job Duties and Responsibilities
		<ul style="list-style-type: none"> ● Meet META Consent Decree; then, hire additional ESOL teachers/paras using Title III resources ● If applicable, Head Start/VPK programs are co-located on the campus; classrooms integrated into school campus and functions ● Title I Parts A, C, D, and School Improvements (1003a and 1003g)/UniSIG, Title II, Part A and Title III are managed out of the Academic Services <p>Department Heads</p> <p>Department Heads lead students toward the fulfillment of their potential for intellectual, emotional, physical and social growth in a safe and cost effective manner that supports the goals of the district, establish and maintain an effective grade level program, coordinate art exhibits in schools and the community in a safe and cost effective manner that supports the goals of the District. The department head serves as a liaison between school and the Department of Environmental Education and provide dynamic, effective leadership in the operation of the school science fair, and ensuring that all department members have a voice within the school.</p> <p>Academic Services Division (School District of Lee County).</p> <p>Administrative staff share oversight, budgeting, staffing, and monitoring which provides efficient and effective coordination of services. Weekly Academic Cabinet meetings, administrator meetings and other informal communications provide for further collaboration in regards to program needs, issues and to coordinate efforts.</p> <p>Support staff of the Title I Part A, Title I Part C, Title I Part D, and Title X programs meet regularly to coordinate efforts and receive joint staff development for improving their services. Regularly scheduled department meetings are scheduled that include district level program coordinators, including IDEA, Perkins, Head Start, Supplemental Academic Instruction, Advanced Placement Initiative, Career and Technical education.</p> <p>Supplemental Staffing and Services:</p> <p>Title X, LEA, Title I Basic, Title I Migrant coordinate services to assist homeless children, to resolve problems concerning registration and provide support services at all schools. Title I and District jointly fund the Homeless Liaison staff position to support homeless students in all public schools. The District provides services in coordination with the McKinney-Vento Homeless Assistance Act. Title I Migrant, Title I Basic, Title III funds are coordinated to provide at risk students with supplemental instructional support and resources, such as, Tutors and Resource Teachers. Title I Basic, Title I Migrant and Head Start/VPK collaborate to provide PreK classes and in home literacy support to ensure school readiness for Lee County students.</p> <p>Title I Migrant and school collaboration occurs with local eye doctor to provide eye exams and glasses at no cost to migrant students in need or at a discounted price to our program. Title I Migrant also collaborates with a dentist to provide dentistry at no cost or discounted prices to migrant students in need.</p> <p>Coordination occurs with Homeless Liaison staff and Title I staff in identifying eligible students and families that can be served as homeless.</p> <p>Title I Basic and Title III collaborate in providing workshops and trainings to build the capacity of parents and foster strong connection and engagement between</p>

Name	Title	Job Duties and Responsibilities
		<p>home and school. In addition both grants provide translation services to ensure that non-English speaking parents are able to participate fully in the education of their children.</p> <p>Supplemental Staff Development: Title I Basic, Title I SIG 1003a and 1003g, and Title II Part A funds are coordinated to provide customized staff development that ensures students receive high quality, differentiated instruction. Title I Part A funds are used in collaboration with Title I SIG 1003g and 1003a, Title II Part A and Reading Categorical to fund Reading Coaches at all schools. Title I Part A and Title I SIG 1003g/1003a funds are used to provide additional Academic Coaches at Title I Elementary, Middle and High Schools. Supplemental coaches are provided to support lowest performing schools and those in differentiated Accountability Priority and Focus status. Title I Part A, Title II Part A and IDEA fund exam reimbursements to ensure staff meet HQT Requirements.</p>
Hickey, Katheline	Other	<p>The role of the Teacher on Assignment is varied at Buckingham. As the staffing specialist the role is to monitor compliance and act as the liaison between the district, school and parents. Staffing specialists are the remain objective, while facilitating an understanding of and compliance with all district, state and federal ESE regulations. Each new school year, Staffing specialists must formulate a weekly schedule based on the caseloads of the schools to which they are assigned. Staffing days should be coordinated with the school psychologist and related services at each building. The Teacher on Assignment is also responsible for ensuring that students have the proper credits and are scheduled into the correct classes.</p> <p>Technology Specialist</p>
Young, Jimmy	Other	<p>The technology specialist facilitates and supports the effective use of technology in the school for teaching and learning by ensuring the school's network and equipment is up and running. The technology specialist also supports all instructional and administrative applications based on the technology infrastructure and the integration of technology into the curriculum. Jimmy is involved in many aspects of the school's functions and assists the principal in tasks related to the day to day functioning of the school.</p>

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

For the past several years, the entire group of students at Buckingham have demonstrated 3 percentage points between all groups of Level 1 in English Language Arts, a 4% growth in level 2 from 2016/2017 to 2018/2019, and a decrease of 3% in Level 3. In mathematics, student scores have decreased 7% points from 2016.2017 to 2017/2018, but shown a 3% increase in the 2018/2019 scores in Level 1, positive 3 percent. In Level 2, data decrease of 1% from 2017/2018 to 2018/2019. Level 3 shows a decrease of Level 3 from 10% to 5%. The subgroup of Students with Disabilities is below the 41% for 2 consecutive years. The Students with Disabilities subgroup and the Federal Index score is 17%. Students with Disabilities subgroup had a 10% learning gain in English Language Arts and 35% learning gain in math. The White subgroup is one of the groups that has over 10 students and can be calculated. The Federal index score of the White subgroup is 20%. The White subgroup had a 20% learning gain in English Language Arts and a 50% learning gain in mathematics. The last subgroup is Economically Disadvantaged which includes a very large number of Buckingham students. This subgroup had a Federal index score of 18%. The Economically Disadvantaged subgroup had a 3% learning gain in ELA and a 38% learning gain in mathematics. All subgroups have been below the Federal Index for the past 2 years.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The greatest declines appear to be in the Level 2 and Level 3 in both English Language Arts and mathematics. According to the 2018/2019 school report card, the subgroup students with disabilities, which would include all students, Buckingham had a 10% gain in English Language Arts and a 35% learning gain in Mathematics. Data is suppressed when the total number of students within a subgroup (across all categories) is less than 10 and is noted by "Not Enough Data." Within the white subgroup in English Language Arts, Buckingham had 20% gains in English Language Arts and a 50% gain in Mathematics. No other subgroup is reported in race/ethnicity because numbers were below the 10 needed for data to count. These numbers show the school improvement ratings. The school did drop from maintaining to unsatisfactory by 3 percentage points. All subgroups need to be improved as they are all far below the Federal Index of 41%. The greatest improvement appears to be in the mathematics area. The decline in English Language Arts may be the methods used to

instruct this area and the lack of communication devices to reach all student needs. Teachers have been dedicated to standards-based instruction based on access point standards. The new writing assessment piece of the Florida Standards Alternate Assessment English Language Arts has presented new challenges for teachers. This may be a contributing factor to students not scoring as high as in the past when the writing portion was different.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Compared to the state average both English Language Arts and Mathematics have great gaps. The factors that contribute to this are that the school is a center school for students with disabilities. Comparing that data is not the same as comparing to typical setting schools. The subgroup that has more than 10 is the students with disabilities subgroup. The trend is very closely aligned with each year ebbing and flowing. We also were able to get multiple new devices for improving communication and this may have been a factor in students learning the new devices.

Which data component showed the most improvement? What new actions did your school take in this area?

Our biggest gains have been in Mathematics. Our school focused heavily on improving mathematics in the past year and exposing the students to standard aligned mathematics and providing the teachers with professional development both in mathematics and science. This may have had a contribution to the increase in scores. The mathematics area is more focused on specific and linear concepts; whereas, literacy has more aspects and all of our students have needs in communication which may contribute to the lack of increase in literacy skills. Mathematics is more systematically taught and was a major focus of our professional development and professional learning community time spent on developing math skills for students. Math is also more of a hands on activity than English Language Arts. Math is more visual in nature than English Language arts and is easily differentiated for students.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Improving the outcome for all students with disabilities and increasing Federal Index.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Improve the Federal Index score
2. Increase the Federal Index for Subgroup Students with Disabilities
3. Increase the Federal Index for Subgroup White students
4. Increase the Federal Index for Subgroup Economically Disadvantaged.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Professional Learning

Area of Focus Description and Rationale: Increase the overall Federal index score
 Rationale: Improving the Federal Index score will improve the overall rating of the school. The school needs to improve from unsatisfactory to a minimum of maintaining. Student scores are directly related to the Federal index. Subgroups of Economically Disadvantaged, White subgroup, and the Students with Disabilities subgroup will all need to improve to help increase the score.

Measurable Outcome: Increase the overall Federal index score from 17% to 20%

Person responsible for monitoring outcome: Katheline Hickey (kathelinemh@leeschools.net)

Evidence-based Strategy: Teachers will participate in monthly professional development activities related to the Unique Learning System and Blueprints to increase student scores and have monthly checks on the system using formative assessment.

Rationale for Evidence-based Strategy: Unique Learning System is the curriculum used for all students at Buckingham. Using formative assessment and formative assessment feedback, including informal assessment procedures conducted by teachers during the learning process will help drive the instruction of the classrooms to better meet the Access standards.

Action Steps to Implement

1. Work with the District Learning Resource Specialist for the Unique Learning System to facilitate monthly professional development.
2. Provide a common time for professional learning communities to analyze student data and create a plan to address areas of need.
3. Provide feedback to teachers using formal and informal feedback.
4. Hold quarterly data chats with teachers.

Person Responsible Katheline Hickey (kathelinemh@leeschools.net)

#2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Increase the Federal Index for Subgroup Students with Disabilities
Description and Rationale: Rationale: The school is comprised of all students with disabilities. Improving the score of this subgroup will help improve the overall Federal Index score for the school.

Measurable Outcome: Increase the Federal Index for Subgroup Students with Disabilities from 17% to 20%.

Person responsible for monitoring outcome: Jeanette Berg (jeanetteb@leeschools.net)

Evidence-based Strategy: Teachers will use formative data to identify the lowest percent of students within their perspective groups. Teachers will use summative and formative assessment to include diagnostic testing to improve targeting skills for specific students. Formative assessment can be integrated into the learning process throughout the school day, but teachers will also use the Unique Learning System to identify student needs within the standard areas. Teachers will examine the summative assessments of each of their students and determine that they are on the appropriate assessment for the end of year assessments.

Rationale for Evidence-based Strategy: Formative assessment is intended to modify teaching and learning to improve performance of the students. The goal of formative assessment is to help students become better learners and help teachers improve their instruction. Only when teachers utilize formative assessment data can they determine the need of the students.

Action Steps to Implement

1. Provide teachers time to learn from each other about how formative assessment drives their instruction.
2. Provide teachers with tools (Access Project) through professional learning communities to develop strategies.
3. Utilize classroom walkthroughs to provide feedback.

Person Responsible Vicki Gohagen-Mosley (drvickilg@leeschools.net)

#3. Instructional Practice specifically relating to Professional Learning Communities

Area of Focus Description and Rationale: Increase the Federal Index for Subgroup White student subgroup
 Rationale: The White subgroup has more than 10 students and can be measured. This subgroup will continue to be in a group that will have 10 students that can be tracked. Most subgroups have less than 10 so they cannot be tracked..

Measurable Outcome: Increase the Federal Index for Subgroup White student subgroup from 20% to 23%.

Person responsible for monitoring outcome: Vicki Gohagen-Mosley (drvickilg@leeschools.net)

Evidence-based Strategy: Provide focused instruction to improve student academic proficiency, including providing additional communication equipment and strategies to reach students who are non-verbal. Students will be provided with several alternative ways to determine which is best for the student to communicate an answer. Teachers will work with other professionals as needed (e.g. speech/language pathologist, occupational therapist) to have the method of communication assessed with fidelity. This will help the student effectively communicate an answer in the best way possible using augmentative and alternative communication devices. Determine what students would need assistive technology to best need their needs and improve their communication.

Rationale for Evidence-based Strategy: Augmentative and Alternative communication devices encourages collaboration between team members. Teachers will work with the speech/language pathologist and occupational therapist for assessment, treatment, environmental supports and/or communication training.

Action Steps to Implement

1. Schedule monthly wraparound team meetings for each student
2. Provide various alternative communication devices to use with students
3. Ensure student has access to various forms of augmentative and alternative communications devices to try
4. Use formative assessment to determine response rate of student answers

Person Responsible Katheline Hickey (kathelinemh@leeschools.net)

#4. Instructional Practice specifically relating to Instructional Coaching

Area of Focus Description and Rationale: Increase the Federal Index for Subgroup Economically Disadvantaged. Rationale: The Economically Disadvantaged subgroup is below expectations. This is a very large subgroup and gives the school an opportunity to improve the Federal Index of the subgroup and improve the rating.

Measurable Outcome: Increase the Federal Index for Subgroup Economically Disadvantaged from 18% to 21%.

Person responsible for monitoring outcome: Vicki Gohagen-Mosley (drvickilg@leeschools.net)

Evidence-based Strategy: Provide systematic instruction to teach academic skills.

Rationale for Evidence-based Strategy: Systematic instruction has shown to be an effective strategy for the subgroup identified. When teachers identify an observable, measurable skill to be taught, and provide a discrete set of steps to follow for students to meet that objective, students will improve and take successive steps toward the objective. Strong evidence supports task-analytic instruction to teach specific academic skills. Teachers will need to understand the method of systematic instruction and will be provided with a step by step guide through professional communities and discussion.

Action Steps to Implement

1. Define the instructional objective (teachers) for students
2. Choose the teaching method/prompting levels needed and materials
3. Determine the data collection method
4. Model the instructional strategy
5. Implement the instructional strategy and collect data
6. Evaluate the data and make decisions and refine the process

Person Responsible Jeanette Berg (jeanetteemb@leeschools.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

1. Professional Learning Communities
2. Principal walkthroughs and less plan checks
3. Formative and informal assessment procedures

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

At the beginning of the school year, families and students will be invited to a virtual open house, School Advisory Council meeting and the Annual Title I meeting, where staff will share the vision, mission, and culture of the school. Teachers stay in close contact with parents and return calls and questions within 24 hours. Families are invited and encouraged to attend and be part of the monthly School Advisory Council meetings, providing input on all aspects of the school's plan. The school has several virtual events throughout the year that encourage parents to attend. The parents are notified in both English and Spanish and all notifications are sent home according to the Title 1 requirements. All parents also are encouraged and invited to attend their child's individual education plan. A parent and family engagement plan has been completed. Any prospective organization wishing to partner with BESC shall meet with the principal and relevant staff, including, but not limited to the elementary and secondary department chairs, bookkeeper, volunteer coordinator, and building supervisor to develop a plan of service to best meet the needs of the students enrolled. Buckingham Exceptional Student Center has continued its partnerships with Riverdale High School also join in a cooperative effort of reverse inclusion called "Two Schools One Home." Riverdale students work with Buckingham students via Zoom (virtual platform) for special events at least once per month to increase social skills. This is an excellent opportunity for students to work together in a cooperative way, creating a culture of team and trust.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Professional Learning	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction	\$0.00
3	III.A.	Areas of Focus: Instructional Practice: Professional Learning Communities	\$0.00
4	III.A.	Areas of Focus: Instructional Practice: Instructional Coaching	\$0.00
Total:			\$0.00
