SI Region	Central
Regional Executive Director	Lucinda Thompson
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	CS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more inform	ation, <u>click here</u> .

School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Provide support to empower student communication and understanding to be successful citizens.

Provide the school's vision statement.

Preparing self-advocating independent students for life through engaging interactions.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Schwanzl, Sara	Principal	
Montgomery, Kasandra	Teacher, ESE	SAC Chair and SIP think partner

Demographic Information

Principal start date

Friday 8/3/2018, Sara Schwanzl

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

0

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

1

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Due to the levels of our students at Lopez, our data reflection throughout this next year will be based on comuncation and self-advocacy skills. We do not have enough data from this past year to show facts to why performance in these areas may have been low. Throughout this next school year we wul begin doing walkthroughs to collect data on how communication and self-advocacy skills are being used in the classroom.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our vision statement changing in the prior two years, we have not seen a decline in our goals as a school. During our meetings we look for ways to improve our data and so far have not seen a decline in our data of communication and self-advocacy.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

All of our data will be much different than what the state's data because of what kind of data we ae focused on at our specials needs enter. We focus on our students communication and self-advocacy needs rather than on academic needs.

Which data component showed the most improvement? What new actions did your school take in this area?

Our communication skills have seen the most growth due to a generous donation of iPads to our school. These iPads had a communication device added on to them for our students to clearly communicate their wants and needs. Our hope is to continue to train our staff and students in this program in order for them to leave our school one day being able to communicate in the community around them. We are excited for the changes in behavior we saw just this past year from the use of these new devices

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

With these new devices come challenges as well. Not having students who want to learn how to use the communication programs can make it difficult, but also having teachers and staff that do not put the work in to train our students on these devices could be an area of concern. We plan on having trainings on how to use these devices and hopefully enrich our teachers and get them excited about the chance to use this in their classrooms.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Communication skills (through the use of technology and other devices)
- 2. Self-Advocacy skills (creating an environment for our students to practice daily living skills)
- 3. Incentive Program (providing incentives for our students to reach their goals)
- 4. Parent Involvement (involving more parents/guardians in after school activities and programs)

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Student Engagement				
Area of Focus Description and Rationale:	We want to increase student engagement through increased communication. The more our students are able to communicate, the more they can learn and the better their behavior is.			
Measurable Outcome:	Increase in FSAA scores and decrease in violent student behavior.			
Person responsible for monitoring outcome:	Sara Schwanzl (sara.schwanzl@hcps.net)			
Evidence-based Strategy:	Teacher's using assistive technology to improve student communication			
Rationale for Evidence-based Strategy:	The more assistive technology teachers are using the more we can teach students to communicate.			
Action Steps to Implement				

Action Steps to implemen

1. Increase the amount of technology available.

- 2. Increase the amount of referrals done for ACAT.
- 3. Provide monthly training for teachers on how to use it.
- 4. Increase the amount of low-tech communication devices.
- 5. Increase parent involvement in the use of communication devices at home.

Person Sara Schwanzl (sara.schwanzl@hcps.net) Responsible

Area of Focus Description and Rationale:	Through our area of focus, we will support the needs of our white, students with disabilities, and economically disadvantaged students by providing access to communication boards (both high and low tech) throughout the campus and at home. We have scheduled implementation of core words for communication weekly, integrated throughout the campus uniformly amongst all teachers and staff . Access to a common communication system will ensure fidelity within progress monitoring. Individual student progress will be accessed through Florida State Alternative Assessments, Hillsborough County Significant Cognitive Disabilities assessment and/or the Brigance and through on-going monitoring through The Communication Matrix.
Measurable Outcome:	Individual student progress as monitored by Florida State Alternative Assessments, Hillsborough County Significant Cognitive Disabilities assessment and/or the Brigance and through on-going monitoring through The Communication Matrix.
Person responsible for monitoring outcome:	Sara Schwanzl (sara.schwanzl@hcps.net)
Evidence- based Strategy:	Increasing self-advocacy through communication as monitored through progress documented on assessments and through Individual Education Plan (IEP) goals and objectives related to communication, self-advocacy, behavior or independent functioning.
Rationale for Evidence- based Strategy:	The strategies were selected to assist our communication/ self-advocacy goals for our school. Our students lack the skills needed to effectively communication their wants and needs. The goal of our strategies is to address lack of skills and reduce the number of maladaptive behaviors due diminished communication abilities.

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Through our area of focus, we will also increase self-advocacy skills throughout our campus. With the use of communication devices, we can better understand our students and their needs on a day to day basis. This will also help the students in their community around their families and peers. Once a student can communicate their wants and needs, the behaviors will stop and then we can help them take the necessary steps to self advocate for themselves in the world.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

The school plans to build positive relationships with parents, families, and other community stakeholders by completing the following:

*Invitation for parents and community members to join the School Advisory Committee (SAC) *Provide each parent with a condensed version of the Parent and Family Engagement Plan. (Condensed PFEP)

*Parent input for the Parent and Family Engagement Plan (PFEP), Compact, use of Title I funds, and improvement of Title I programs will be solicited by surveys and various opportunities for parents to provide comments and suggestions. (Barrier and Compact Survey Information)

*School Advisory Committee (SAC) minutes will reflect parent input into the development/improvement of the *PFEP and the compact. (SAC Minutes)

*2019-2020 Compact

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A. Areas of Focus: Instructional Practice: Student Engagement			
2	III.A.	Areas of Focus: Instructional Practice: Differentiation	\$0.00	
		Total:	\$200.00
