School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Pace provides girls and young women an opportunity for a better future through education, counseling, training and advocacy. Education will be provided for students to transitioning smoothly and positively to the next phase of their life

Provide the school's vision statement.

Pace values all girls and young women, believing each one deserves an opportunity to find her voice, achieve her potential and celebrate a life defined by responsibility, dignity, serenity and grace.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The highest level of deficiency is math among the Black/ African American population.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math showed the greatest decline from last year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA showed a largest gap when compared to district data.

Which data component showed the most improvement? What new actions did your school take in this area?

Although math was the lowest performing area, the most improvement was attained in this area as well.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

1. A focus on the economically disadvantaged and the Black/African American students in course performance areas is detrimental.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Course Performance in Math and ELA of the Black/ African American students.
2. Improved Attendance

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Differentiation

Area of Focus Description and Rationale: Teachers will use differentiated instruction to increase student achievement on the common assessment. Teachers will administer Achieve 3000 or other Computer based-applications to ascertain baseline scores, identify areas of academic deficiency, develop individualized academic improvement plans, conduct on-going progress monitoring and track academic progress.

Measurable Outcome: All students who take the Common and State-wide Assessments will increase their scores in Math by 5% over the course of a school year.
 All students who take the Common and State-wide Assessments will increase their scores in Reading 5% over the course of a school year.
 100% of Black/African American students not achieving level 3 or higher on statewide Math assessments will receive tier 2 academic instruction increasing academic performance by one bucket level over the course of a school year.

Person responsible for monitoring outcome: Earnest Wood (earnest.wood@hcps.net)

Evidence-based Strategy: Using differentiated Instruction
 Using the co-teach (FUSE) model for instruction.

Rationale for Evidence-based Strategy: HCPS offers this research based strategy as in-service for teachers throughout the school year. Youth Services can also provide in-service during faculty meetings.

Action Steps to Implement

In-service at Youth Services Faculty Meetings

Person Responsible Earnest Wood (earnest.wood@hcps.net)

#2. Other specifically relating to Attendance

Area of Focus Description and Rationale: Non-attendance significantly impacts student course performance. Research shows that student attendance of 90% or better significantly improves classroom behavior course performance and test taking skills.

Measurable Outcome: Current attendance rate is 78%, school leadership team will work to improve student attendance rate by 3% over the course of the school year.

Person responsible for monitoring outcome: Earnest Wood (earnest.wood@hcps.net)

Evidence-based Strategy: Pace has designed a comprehensive attendance monitoring plan which includes contacting the family by 10:00am (daily) for students reported as absent. For students reported as having 3 consecutive unexcused absences, a home visit is scheduled by the counselor. A 5 and 10 day letter is provided to the student and family alerting them to unexcused absences. For students that report as having 10 unexcused absences within a 90 day period, a meeting is scheduled with the family.

Rationale for Evidence-based Strategy: The rationale behind selecting this specific strategy is to identify the barriers that is preventing the student from attending school consistently and to provide the family with intervention strategies.

Action Steps to Implement

1. Contacting the parent/caregiver daily for any unexcused absences is the responsibility of the counselors
2. Students reported as having 3 consecutive unexcused absences a home visit is completed by the counselors
3. 5 day and 10 letter is generated by the Hillsborough County School District
4. 10 Unexcused absences within a 90 day period a meeting is scheduled by the Social Services Manager

Person Responsible [no one identified]

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

N/A

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Pace's culture work is centered around our 4 culture words of caring, purpose, learning and results. We incorporate this into the work that we do with the girls that we serve. In our Spirited Girl gender responsive course, we provide opportunities for girls to build upon their skills that ultimately enhance their social-emotional well-being, their self-esteem and caters to the need of each individual girl. Our Girl Circle curriculum fosters respect for diversity, inclusivity and respect for others. We also provide conflict resolution that focuses on mediation, positive and appropriate communication skills and learning/building healthy boundaries. Lastly, through our Community Partnerships with families and stakeholders, our mission is to build effective communication within the school and develop appropriate communication between home/school/facility.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Differentiation	\$0.00
2	III.A.	Areas of Focus: Other: Attendance	\$0.00
Total:			\$0.00
