	I

\* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

#### **School Board Approval**

This plan is pending approval by the Hillsborough County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

#### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

### **Part I: School Information**

#### School Mission and Vision

#### Provide the school's mission statement.

Every student, everyday, no excuses

#### Provide the school's vision statement.

Armwood High School will work with our families and community to provide an atmosphere that challenges our students to be college and career ready.

#### School Leadership Team

#### Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Langston, Dina	Principal	
James, Stacey	Instructional Coach	Matthew Johnson-Assistant Principal for Curriculum Shannon Pilcher-Reading Coach Amy Hyers-Writing Coach Laura Widerberg-Science Coach Patrick Kelly-Student Success Coach Katherine Curtis-Social Studies Resource Lisa Young-Collegiate Academy Magnet Lead Stacey Bruton-AVID Coordinator

#### **Demographic Information**

#### **Principal start date**

Tuesday 6/9/2020, Dina Langston

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Economically Disadvantaged Students Subgroup Below 41% in the Current Year?	NO			
Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	0			

Analysis

#### **Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

# Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our math scores showed the lowest performance with Geometry decreasing by 3% and Algebra decreasing by 2%. We believe that there were several factors that contributed to the drop. We had several vacancies throughout the year and lour students lack of exposure to higher level math EOC style questions.

# Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Geometry. We believe this was again due to teacher vacancies and student movement within the classes.

# Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Algebra. Our students were not exposed to EOC style questioning enough over the course of the year so they did not know how to apply their knowledge to the types of questions. Teacher vacancies may have also contributed.

# Which data component showed the most improvement? What new actions did your school take in this area?

History EOC showed the most improvement. We increased our score by 10%. Our US History teachers were trained in pulling literacy data and reading/writing strategies. They also created and utilized differentiated lessons, held writing conferences with students and put an emphasis on targeting students based on several data sources.

#### Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

9th grade students with a GOA of 2.0 or higher. We know how closely tied 9th grade GPAs are to graduation rates so this is very important for us to monitor.

# Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Standard Based Instruction
- 2. Graduation Rates
- 3. English Language Learners
- 4.
- 5.

### Part III: Planning for Improvement

Areas of Focus:

#### **#1. Instructional Practice specifically relating to Standards-aligned Instruction**

Area of Focus Description and Rationale:	We have identified this as an area of need based on our FSA & EOC data being below the district and state averages.
Measurable Outcome:	Our goal is to be at 50% or higher for proficiency and gains on each FSA & EOC assessments.
Person responsible for monitoring outcome:	Dina Langston (dina.langston@hcps.net)
Evidence- based Strategy:	Through Professional Development, we will be exposing our teachers to TNTP's Opportunity Myth, Hattie, Fisher & Frey's Visible Learning framework and approaches, Achieve 3000, & Academic Moves. We also plan to help teachers create tasks aligned to cognitive complexity and ensure students' evidence of thinking is reaching the standard.
Rationale for Evidence- based Strategy:	We need to clarify the process for teachers and give them explicit strategies and tools to be successful. We want to equip our teachers with strategies to help them deconstruct standards and align tasks during lesson planning, After attending workshops and trainings, we feel that these will be the best routes to engage our teachers and students. We will monitor learning and implementation through informal and formal observations, PLCS logs, formative school data and through professional development evaluation forms.

#### Action Steps to Implement

1. Ongoing PLC leader trainings (department heads)

2. Teachers can attend Academic Moves & Achieve 3000 trainings through the district's PD offerings.

Follow up will occur through PLCs.

3. Create Support Facilitation in Science and Social Studies so that our VE teachers will able to check in with a smaller group, creating small groups, and remediating where needed for our SWD.

4. Group our ELL students in a cohort so that the instructor can incorporate specific strategies that better meet those students' needs. Strategy support will come from ESOL Resource Teacher.

5. Train our Department Heads so they can train their teachers on a resource through Google that helps to translate reading passages, worksheets, and other instructional strategies to better help our ELL students follow along.

Person

**Responsible** Dina Langston (dina.langston@hcps.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

We are hoping that through the house system, we can focus on the culture of our faculty, staff and students. We want to build a culture for teaching and learning in all aspects of our school. Our goal in having a parent liaison, assistant teachers and deans, is that more hands on deck will show students we care and provide more opportunities for positive adult role models and mentors. We also hope this, along with the house system, will help us with day to day behavior management and overall running of student affairs. Lastly, we are planning on training our teachers in culturally responsive teaching and intervention to address equity and diversity in our classrooms.

## Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

We send out a weekly newsletter to all parents with an email on file. Our newsletter highlights student life, athletics, important dates and information. We use our school twitter to send this same information via social media. We also make sure that our website stays up to date so that students, parents and community stakeholders can get the information they need. We hold a preprogramming breakfast for parents and community members so they can see what programs and electives we have to offer students. We make our open houses very special by showcasing our clubs and CTE programs throughout the hallways. We hold parent informational nights about completing the FAFSA/ getting financial aid. We also hold parents nights for our at-risk students. Our service clubs are out in the community performing service every weekend. We have also reached out to local businesses and organizations such as the Seffner Chamber of Commerce to partner with our school. We have created a Community Engagement Committee made up of teachers and administrators to discuss and implement ways to get parents, the community and local businesses more involved in our school but also to identify ways for our students and programs to get more involved with feeder schools and local businesses.

### Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

# Part V: Budget

## The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction	\$0.00
		Total:	\$0.00
