School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Data: Algebra EOC scores dropped in the 19-20 school year (-15%)

Due to state regulations regarding the future of concordant scores for the Algebra EOC, the math teachers, along with the Instructional Leadership Team, decided to move all students into a course where they would take the EOC. This included students that would normally be in Algebra 1A. This provides an additional opportunity for students to take the test and increased the number of students EOC testing.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Algebra EOC (-15%)

Due to state regulations regarding the future of concordant scores for the Algebra EOC, the math teachers, along with the Instructional Leadership Team, chose the option to move all students into a course in which they would take the EOC. This included students who would normally be in Algebra 1A, thus increasing the number of students that sat for the EOC in the 19-20 school year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Algebra Data

Data Year School Score District Score Difference State Score Difference

2019 30% (-15%) 63% -33% 61% -31%

2018 45% 63% -18% 62% -17%

Subgroups - data falling below 41%

SWD – 38%

The number of SWD that took the Algebra EOC last year increased. We wanted to maximize the opportunities for them to sit for the Algebra EOC.

ELL – 40%

The number of ELL students that took the Algebra EOC last year increased. We wanted to maximize the opportunities for them to sit for the Algebra EOC.

Which data component showed the most improvement? What new actions did your school take in this area?

Social Studies

2019 2018

81% 75%

Through the US History PLC, teachers collaborated to create ongoing formative common assessments. The standard based assessments provided ongoing data for the PLCs to make accommodations and differentiate instruction throughout the year

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

- Number of students earning a Level 1 on a statewide assessment by grade level:

9th - 125 10th - 107 11th -91 12th - 56 Total = 348

- Attendance below 90% by grade level

9th - 71 10th -78 11th -85 12th - 114 Total number of students = 348

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. The Instructional Leadership Team will collaborate to create professional development opportunities for our staff so that we may reach optimum student achievement on the Florida State Assessment and other high stakes testing. Provide an instructional model that ensures rigorous, culturally relevant instruction for all students using assignments aligned to challenging state standards, engagement strategies and student-centered practices.
2. Providing additional professional development to staff, and outreach for students and families, in order to reach a minimum of a 1% gain in FSA scores for Students with Disabilities (SWD) in order to meet the state standard of 41% for the ESSA requirement. Support teachers during leadership meetings and Professional Learning Communities on reviewing and analyzing student work and data based on item analysis and standards/learning targets, so that instruction may be differentiated, as needed, to meet individual student needs.
3. Providing additional professional development to staff, and outreach for students and families, in order to reach a minimum of a 3% gain in FSA scores for English Language Learners (ELL) in order to meet the state standard of 41% for the ESSA requirement. Provide targeted professional development and additional coaching to teachers and leaders on culturally responsive strategies such as oral language, storytelling, cooperative and small group settings, music and movement, morning meetings, explicit vocabulary instruction, monitoring with feedback and deliberate use of cultural references in lesson plans.

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to English Language Learners**Area of Focus Description and Rationale:**

Our school scored below a 41 (score of 40) in the area of English Language Learners and did not satisfy the Every Student Succeeds Act (ESSA) requirement. One way to address that challenge is through effective lesson planning. Depending on their different stages of English proficiency and literacy, ELLs will benefit from the skills that a well-designed lesson can address. Data from the FSA, FAIR, and EOCs were reviewed to determine the rationale for these strategies. Empirical research evidence indicates the practices above correlate with increased achievement scores on high stakes testing such as the Florida State Assessment. It also provides a functional action plan for the administration and faculty to follow in order to achieve the desired results.

Measurable Outcome:

The school plan is to achieve measurable outcomes by tasking the Instructional Leadership Team to review and disseminate strategies targeting and improving specific domain standards. The data inquiries derived from assessments will be evaluated and the data will drive teacher instruction. The team will review student impact data per inquiry cycle, create action plans, assist with teacher planning and reflections during PLCs, and collect student feedback.

Person responsible for monitoring outcome:

Jamal Crook (jamal.crook@hcps.net)

Evidence-based Strategy:

The school plan is to use multiple data sources to drive instructional practice to produce higher levels of ELL student achievement. Data will be reviewed departmentally based on formal and informal assessments through weekly PLC's and weekly walkthrough's. Trends identified by the leadership team and departments will drive monthly professional development opportunities presented by teacher leaders with exemplar strategies in the identified areas.

Rationale for Evidence-based Strategy:

Our focus for this year is school-wide efforts to improve classroom practices used to strengthen ELL students' literacy skills. With this focus, coupled with high engagement strategies, students will develop the skills and tenacity to conquer grade level text and rigorous tasks in all subject areas.

Action Steps to Implement

Challenge students with higher levels of rigor and autonomy for learning through intentional planning and differentiation.

Person Responsible

Jamal Crook (jamal.crook@hcps.net)

Expand opportunities for oral language and vocabulary development across all content areas. Provide professional development opportunities for newly adopted curriculum and standards.

Person Responsible

Jamal Crook (jamal.crook@hcps.net)

Build on the collaboration and sharing in Professional Learning Communities (PLCs) to include sharing strategies for differentiation.

Person Responsible

Jamal Crook (jamal.crook@hcps.net)

Increase culturally responsive and relevant instruction to all instructional staff by providing professional development opportunities to all staff.

Person Responsible Jamal Crook (jamal.crook@hcps.net)

#2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale:	The school plan is to use multiple data sources to drive instructional practice to produce higher levels of student achievement. Data will be reviewed departmentally based on formal and informal assessments through weekly PLC's and frequent walkthrough's. Trends identified by the leadership team and departments during data analysis and walkthrough's will drive monthly professional development opportunities presented by teacher leaders with exemplar strategies in the identified areas. Strategies will be modeled for other teachers using instructional learning walks.
Measurable Outcome:	<ul style="list-style-type: none"> - Increase the number of students earning a proficient score on FSA and EOC exams. - Increase bottom quartile learning gains in ELA by 3% - Increase math proficiency, math learning gains, and math bottom quartile learning gains by 3% each - Increase the knowledge and skill set of instructional staff members to help support all students through teacher led PD and instructional learning walks
Person responsible for monitoring outcome:	Marcos Rodriguez (marcos.rodriguez@hcps.net)
Evidence-based Strategy:	<ul style="list-style-type: none"> - Developing teacher leaders - Standards driven instruction and lesson planning - PLC focus on student data, content, and instruction - Ongoing PD
Rationale for Evidence-based Strategy:	An intense focus on teacher development through The PLC's and guidance from the Instructional Leadership Team (ILT), will provide teachers the opportunity to share best practices, assess student data, and utilize data from walkthroughs to drive ongoing professional development. This should have a positive impact on student learning.

Action Steps to Implement

Create walkthrough schedule, PD schedule and instructional learning walk schedule for each nine week period.

Person Responsible Donald Peek (donald.peek@hcps.net)

Train all stakeholders in the process during pre-planning and throughout the school year based on need.

Person Responsible Donald Peek (donald.peek@hcps.net)

Review data in all aspects of this area of focus weekly to create action plans. Actions plans will turn into action steps that will be monitored periodically.

Person Responsible Donald Peek (donald.peek@hcps.net)

Create a data wall that highlights progress in the areas above.

Person Responsible Donald Peek (donald.peek@hcps.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Our school has scored below a 41% (score of 38) in the area of Students with Disabilities and did not satisfy the ESSA requirement. Key areas for improvement in aligning instruction to state standards and increasing rigor and student engagement include the following (data collected from FSA scores)

Increase student-centered learning opportunities

Challenge students with higher levels of rigor and autonomy for learning through intentional planning and differentiation.

Expand opportunities for oral language and vocabulary development across all content areas

Build on the collaboration and sharing in Professional Learning Communities (PLCs) to include sharing strategies for differentiation

Increase culturally responsive and relevant instruction to all instructional staff

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

The goal for the 20-21 school year is to strengthen the positive perception and culture of the school by cultivating relationships within the school environment and all stakeholders. This goal will focus on improving culture for all stakeholders (student, staff, and community). Progress monitoring and action plans will take place using quarterly culture surveys which will be administered by the Instructional Leadership Team.

Student-

Increase opportunities to provide feedback regarding students' concerns regarding school. These will include, but are not limited to, steering meetings with administration and access to electronic as well as physical feedback forms identifying problems and solutions.

-Increased celebrations and recognition of accomplishments and positive behavior.

Staff-

Increase opportunities to provide feedback regarding staff concerns regarding the school environment. These will include, but are not limited to, steering meetings with administration and access to electronic as well as physical feedback forms identifying problems and solutions.

-Increased celebrations and recognition of professionalism.

Community-

Increase opportunity to provide feedback regarding our communities concerns regarding our public school.

These will include access to electronic, as well as physical feedback forms, identifying problems and solutions.
-Increased visible reciprocity of support.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: ESSA Subgroup: English Language Learners	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction	\$0.00
Total:			\$0.00
