Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	TS&I

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

To provide an education and the supports which enable each student to excel as a successful and responsible citizen.

Provide the school's vision statement.

Preparing students for life.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Brown, Joseph	Principal	

Demographic Information

Principal start date

Thursday 7/2/2020, David Parker

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

4

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

10

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

As we did not test in the Spring of 2020, I will have to reflect on the 2019 data. We made gains in every scoring category except for gains in the bottoms quartile for both math and ELA. Both of these were taught by substandard teachers who were not with us during the 2019-2020 school year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Same as above

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

same as above

Which data component showed the most improvement? What new actions did your school take in this area?

Based on 2019 data, we saw gains in all areas except for BQ gains. We saw nice gains in proficiency in both ELA and Math

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

The number of students below proficiency in ELA and Math

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increase achievement of Bottom Quartile in ELA
2. Increase achievement of Bottom Quartile in Math
3. Increase Proficiency in Civics
4. Increase Proficiency in Science
5. Increase proficiency in Reading

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Our Focus on the BQ in Reading is hampered by the turnover in the Int. Reading instructor. The pool of candidates is not deep. Our reading coach will have to work closely with the new teacher, supporting her instruction. We will also work to improve to reading instruction in all content areas. The inclusion of Achieve 3000 will be an asset in this regard.

Our work will also focus on improving the proficiency rate of the following sub-groups: African American, ELL and SWD.

Area of Focus Description and Rationale: The ELL students will have a new model of English and Reading instruction, in which they will be in a specific reading class, in lieu of an ELL reading class. The plan is that this change will result in a more rigorous atmosphere for the ELL students.

The SWD will be served in the most rigorous classes afforded by their IEP. By being in a traditional classes, students will not have the stigma of the ESE label. We have created a system of support for the ESE students, using both a co-teach, support facilitation and academic support models.

The African American students will continue to be challenged in the classroom. We have removed regular level of instruction. The mindset is that if we want students to perform at higher levels we must teach at higher levels. This model has been shown to be effective based on the past couple years of FSA achievement.

Measurable Outcome: Through the use of monthly formative data provided by BrightFish and Achieve 3000, we will see growth for 85% of our students. Based on the 2021 FSA ELA, we will have 50% of our students scoring in the proficient range.

Person responsible for monitoring outcome: Joseph Brown (joseph.brown@hcps.net)

Evidence-based Strategy: Achieve 3000
Bright Fish

Rationale for Evidence-based Strategy: District adoption of Achieve 3000, which has shown success in other schools and districts

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The School Leadership team will actively monitor student progress across content area. As the Area of Focus is on the BQ, we will also be sensitive to the entire student population in regards to progress. We will use data from on-going formative assessments, which will also include semester exams.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

The school is organized by grade level teams. Each team has incentives based on attendance, behavior, achievement. In addition, the school has a school-wide PBIS using Mustangs Bucks. Students earn Bucks for doing the right thing, making the honor roll, etc.. These bucks can then be spent at the Stampede Store for a variety of items.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA				\$169,577.00
