School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Our mission is to provide a safe and supportive environment that will promote lifelong learning and prepare students to become productive members of society. Newsome High School will provide experiences and knowledge needed to succeed in a rapidly changing world.

Provide the school's vision statement.

Joe E. Newsome High School will be one of the top three high schools in Hillsborough county as measured by daily attendance rate, graduation rate, and FSA scores.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Rocha, Katie	Principal	
Peacock, Richard	Assistant Principal	
Lindstrom, Paul	Assistant Principal	
Jones, Chera	Assistant Principal	
Radebaugh, Grant	Assistant Principal	

Demographic Information

Principal start date

Monday 6/8/2020, Katarzyna "Katie" Rocha

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

7

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

11

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The data component that shows the lowest performance is math learning gains of the lowest 25%, which regressed 3%. Although we did lose 3% of learning gains this year, in the 17-18 school year math learning gains of the lowest 25% actually rose by 14%, so the overall performance of this quartile has improved over the last three years.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

While the math learning gains of the bottom quartile showed the greatest decline from the prior year, overall there has been an 11% gain in this area over the last three years. High-impact teachers have been moved to work with high-needs students and additional tutoring opportunities allow students to work with high-impact teachers outside the classroom.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The greatest gap when compared to the state average has been in ELA and Math achievement. Newsome data is significantly higher in both categories because of the specific pairing of higher achieving staff with high-needs students, ample tutoring opportunities, and a school culture of high achievement.

Which data component showed the most improvement? What new actions did your school take in this area?

Student acceleration showed the most improvement, with a 4 point increase in the area of college and career. 69% of students pursued industry certification or completed an AP or dual enrollment classes.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Even though we did not have an ESSA category below 41%, there are two areas of concern: Federal Index - Students With Disabilities - 53%

Federal Index - English Language Learners - 51%

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- Improve overall achievement in ELA and Math for bottom quartile students
- 2. Increase the learning gains for all students 1, 2, 3, 4, and 5 students in ELA and Math
- 3. Analyze data to find students capable of accelerated coursework and place them appropriately
- 4. Collect and analyze data to create plans to increase academic achievement of our Students with Disabilities
- 5. Collect and analyze data to create plans to increase academic achievement of our English Language Learners

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale:

Increase awareness of instructional impact by implementing formative assessments before, during or after a lesson to remediate, differentiate and extend learning for all students that perform on levels 1-5.

Measurable

We plan to see learning gains for all students when comparing previous FSA and EOC

Outcome:

scores.

Person

responsible for monitoring

Katie Rocha (katie.rocha@hcps.net)

Evidencebased

outcome:

We are using formative assessments and technological instructional strategies learned during e-learning to drive intentional and responsive instruction to increase our students

academic progress. Strategy:

Rationale for

Evidencebased

Strategy:

We believe using formative assessments and technological instructional strategies learned during e-learning will equip our staff with the data and tools necessary to provide effective and appropriate instruction to ensure our student's mastery of standards.

Action Steps to Implement

-Instructional leadership team will create professional development based on survey results given to instructional personnel to evaluate their areas of need.

-Professional Development will be differentiated based on the survey results that indicate individual teacher need and progress.

-Professional development will address the four critical components of differentiated instruction, content, process, product and environment to ensure student progress across all content areas.

Person

Responsible

Katie Rocha (katie.rocha@hcps.net)

#2. Leadership specifically relating to Leadership Development

Area of Focus Description and Rationale:

Collaboration with administration, staff and faculty to build trust and implement a unified vision.

Measurable Outcome:

We plan to include more stakeholders (faculty, staff, administration) in developing trust and a unified vision. We will see an increase in positive responses on the ASQi survey.

Person

outcome:

Strategy:

responsible for monitoring

Katie Rocha (katie.rocha@hcps.net)

Evidence-based Leadership development will be used by including more stakeholders in decision

making process, which will build trust and create a unified vision.

Rationale for Strategy:

We selected this strategy by analyzing our ASQi results. Although our ASQi scores Evidence-based were above the district average, we believe we can make an impact to improve our school's culture and climate by implementing this strategy.

Action Steps to Implement

-Summer leadership team and Instructional leadership team are comprised of instructional volunteers that have equal opportunity to voice their opinions, disaggregate data, share their expertise and lead initiatives.

Person Responsible

Katie Rocha (katie.rocha@hcps.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Although Newsome has no ESSA category below 41%, Students With Disabilities (SWD) and English Language Learners (ELL) remain student groups of concern. These students will benefit to an even greater extent from the improved instructional practices outlined in Area of Focus #1. In conjunction with this, department heads and school administrators will be conducting regular formative learning walks to document best practices in utilization of standards aligned objectives and related on-level work, formative assessments in every stage of instruction to assess student learning, and differentiation strategies ensuring all students make academic gains. These Learning Walks will serve not only to provide school wide data but also specific constructive and formative feedback to teachers to support their professional development. New technology is also available through our learning platforms to assist teachers in scaffolding work to support reading and language development, such as the accessibility checker and the immersive reader in Canvas.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Newsome partners with the community and has an active PTSA which ensure two-way communication is open and available so that the ideas, needs and concerns of all stakeholders can be heard and included in decision making. Likewise, the community is very supportive of student extracurricular activities, creating a robust school culture outside of the classroom as well as in. Within faculty, the Instructional Leadership Team (ILT) represents all departments and actively seeks input from every faculty member to assess needs and receive input in determining goals toward professional growth to support student learning. Professional Learning Communities are leveraged to support these goals and progress monitored using data reported on the PLC logs as a metric.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction			
2	III.A.	Areas of Focus: Leadership: Leadership Development	\$0.00		
		Total:	\$0.00
