## School Board Approval

This plan is pending approval by the Hillsborough County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Analysis

**Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

Lowest 25th percentile in ELA  
Down 50% to 44%

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

One area of decline was ELA learning gains from 58% TO 53%

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

Greatest gap Algebra EOC with negative 12%

**Which data component showed the most improvement? What new actions did your school take in this area?**

Biology showed most improvement- reading and biology collaboration

**Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?**

Lowest 25th percentile in Math and ELA

**Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.**

1. Increase bottom quartile in Math
2. Increase bottom quartile in ELA
3. Maintain Biology growth
4. Increase Algebra EOC
- 5.

## Part III: Planning for Improvement

**Areas of Focus:**

**#1. Instructional Practice specifically relating to ELA**

**Area of Focus**  
**Description and Rationale:** Through the implementation of action steps initiated by ILT and TTD's, will provide ongoing professional development to all staff concentrating on checks for understanding, analyzing student work, and differentiating instruction.

**Measurable Outcome:** Through the implementation of action steps initiated by ILT and TD's, all teachers instructional practices will develop affecting positive student achievement. The goal is to increase ELA learning gains by 3% or 47% respectively.

**Person responsible for monitoring outcome:** Jill Horner (jill.horner@hcps.net)

**Evidence-based Strategy:** Teachers will work with coaches and TTD's on Analyzing Student Work, a formative assessment tool from the Framework for Teaching. This tool provides insight for teachers to drive their instruction according to students who are below the standard, meeting the standard, or exceeding the standard.

**Rationale for Evidence-based Strategy:** The Analysis of Student Work strategy comes from the research by the Framework for Teaching. It is a tool that provides teachers with information of which students are grasping the standards and to what level.

**Action Steps to Implement**

1. School-wide professional development on differentiation. ILT, TTD, and Coaches
2. Coaching cycles with individual teachers using ASW- ILT, TTD, and Coaches
3. Teachers drive instruction and differentiate according to data collected.
4. Focus on academic conversations and writing.

**Person Responsible** Jill Horner (jill.horner@hcps.net)

**#2. Instructional Practice specifically relating to Math**

<b>Area of Focus Description and Rationale:</b>	Through the implementation of action steps initiated by ILT and TTD's, will provide ongoing professional development to all staff concentrating on checks for understanding, analyzing student work, and differentiating instruction.
<b>Measurable Outcome:</b>	Through the implementation of action steps initiated by ILT and TD's, all teachers instructional practices will develop affecting positive student achievement. The goal is to increase Math learning gains by 3%.
<b>Person responsible for monitoring outcome:</b>	[no one identified]
<b>Evidence-based Strategy:</b>	Teacher will work with the Math Coach on spiraling instruction which is an effective method found according to the University of Chicago. Teachers will spiral their instruction to include re-teaching past concepts to those not meeting the standard.
<b>Rationale for Evidence-based Strategy:</b>	The rationale for selecting this strategy came from the Math PLC's since they often go ahead before all students have master the concepts.

**Action Steps to Implement**

1. Focusing on Algebra 1 A and B with Math Coach
2. Include ILT members and TTD's to assist in planning for the strategy.

**Person Responsible** [no one identified]

**Additional Schoolwide Improvement Priorities**

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

N/A

**Part IV: Positive Culture & Environment**

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

We strive to brand our school as one of the best high schools in Hillsborough County. From the time anyone steps onto our campus, we want them to feel welcome and valued. As a school, we are in the people business. Taking pride in our customer service is a valuable resource when dealing with others and getting answers to their questions. As the saying goes, "you only get one chance to make a first impression."

Students do not care how much you know until they know how much you care, is a staple of ours here at Riverview High School, and we take that seriously now more than ever as we navigate this pandemic together. Our school motto is #WeSwimTogether, reminding us that no one is alone.

Providing parents with weekly updates through parent links and newsletters has been wonderful with keeping them in the loop of weekly events and expectations here at RVHS. With updated communication, the parents are abreast of academic expectations as our goal is for every student to graduate and be college and career ready. Our teachers work tirelessly to help every student, but all students will be successful as they move through their high school careers with everyone on the same page.

Having partnerships with many local businesses is a great asset for our faculty and staff, along with our students. Many of them provide resources from food to job opportunities, and by the end of the year, the partnership will have flourished and catapulted into the next school year. Building positive relationships is key to our success and goal of becoming an "A" school and helping Hillsborough County become an "A" district.
