School Board Approval

This plan is pending approval by the Collier County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The goal of Phoenix is to provide an alternative route for students that have not been successful in the traditional school setting, due to disciplinary reasons. They may also be behind their cohort, have failed state assessments, have low GPAs, or have chronic absenteeism. Students are encouraged to reclaim responsibility and become active participants in their educational experience.

Provide the school's vision statement.

All students will complete school prepared for ongoing learning, as well as community and global responsibilities.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Title | Job Duties and Responsibilities |
|---------------------|------------------------|--|
| Janssen, Cynthia | Principal | Dr. Janssen monitors the Assistant Principals and handles all staff hiring for the two Phoenix sites. She delegates the leadership team's duties and manages the finances. She reports to the district and ensures that Phoenix is in compliance with all state and district requirements. She does an evaluation on each staff member. Dr. Janssen ensures that her three assistant principals are up to date with program and district information by holding weekly debriefs, along with leadership team meetings bi-weekly will all of the lead teachers and key people in leadership roles. |
| Cox, Dan | Assistant Principal | Dr. Daniel Cox serves at the on site leader for Phoenix Immokalee. He completes the staff evaluations and monitors the data for this program. He serves in both the curriculum and instruction role and attendance and discipline role. He is responsible for the textbook distribution, instructional supplies and laptops, and the facilities. He is implementing the Social Emotional Learning program and training the teachers and staff. He is supervising the site based testing coordinator for Phoenix Immokallee. |
| Tim, Sharon | Teacher, K-12 | Lead Teacher |

Demographic Information

Principal start date

Monday 7/2/2012, Brent Klein

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Total number of teacher positions allocated to the school

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Due to Covid-19 related school closure, we did not take state tests. Therefore, there is no applicable data to reference.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Due to Covid-19 related school closure, we did not take state tests. Therefore, there is no applicable data to reference.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Due to Covid-19 related school closure, we did not take state tests. Therefore, there is no applicable data to reference.

Which data component showed the most improvement? What new actions did your school take in this area?

Due to Covid-19 related school closure, we did not take state tests. Our attendance data did however see great substantial gains. Our overall attendance rate improved.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Two areas of concern are number of students who scored a level 1 on the 2019 statewide ELA & Math assessments.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Decrease the number of students scoring level 1 on state ELA & Math assessments.
- 2. Continue to improve overall attendance rates.
- 3. Continue our Social Emotional Learning Initiatives from SY19.
- 4. Decrease suspension rates

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of
Focus
Description
and
Rationale:

Our goal is to increase the rate at which students successfully complete End of Course Exams (EOC's). This has an impact on students staying on track to graduate, their overall GPA's, and enables them to have the opportunity to graduate and pursue post-secondary education. This area was identified as a critical area of need based on the district data comparing our student performance on EOC's to the other schools across the district.

Measurable Outcome:

Increase student EOC pass rates by 10% for the school year.

monitoring outcome:

Evidence-

based

We will have teachers supplement the online learning platform with direct instruction, we are scheduling intensive reading and math support for state mandated tests, we are planning multi-tiered support for students based on their specific needs, including test prep and small group intensive support.

Rationale

Strategy:

for Our rationale for selecting these strategies is based on Learning Sciences International's research on effective instructional strategies. We chose these specific strategies based on our school needs and capabilities.

based Strategy:

Action Steps to Implement

Review of student data from pre-assessments and post assessments with teachers in PLC's. Analyze QB1 and QB2 data to guide instruction for grades 7-9. Remediation as needed with Read 180/System 44. The reading coach will give the science teacher and social studies teacher specific strategies. Teachers will track reading progress on these strategies while the reading coach will remediate where needed.

#2. Other specifically relating to End of Course Assessment Pass Rates

Area of Focus Description and Rationale:

Our goal is to increase the rates at which students take and successfully complete (level 3 or higher) End of Course and FSA Exams (Civics, Biology, Algebra 1, History, & Geometry EOC's/FSA ELA, Math, & Science). We aim to improve our testing rate by at least 10%. This has an impact on students staying on track to graduate, their overall GPA's, and enables them to have the opportunity to graduate and pursue post-secondary education. This area was identified as a critical area of need based on the district data comparing our student performance on EOC's to the other schools across the district and state.

Measurable Outcome:

If 100% of teachers adhere to district curriculum/pacing guides while monitoring student progress and providing differentiated support, then overall proficiency on the 20/21 EOC & FSA Exams (Civics, Biology, Algebra 1, History, & Geometry EOC's/FSA ELA, Math, & Science) will increase by a minimum of 10%.

Evidencebased

outcome:

We will have teachers supplement the online learning platform with direct instruction, we are scheduling intensive reading and math support for state mandated tests, we are planning multi-tiered support for students based on their specific needs, including test prep and small group intensive support.

Rationale

Strategy:

for Evidencebased Strategy:

Our rationale for selecting these strategies is based on Learning Sciences International's research on effective instructional strategies. We chose these specific strategies based on our school needs and capabilities.

Action Steps to Implement

- 1. Intentional Master Scheduling
- Create collaborative planning teams for curriculum creation
- 3. Planning student groups
- 4. Progress Monitoring (Periodic) & Feedback
- 5. Monitor Quarter Benchmark Testing result to drive instruction.

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

We will have teachers supplement the online learning platform with direct instruction, we are scheduling intensive reading and math support for state mandated tests, we are planning multitiered support for students based on their specific needs, including test prep and small group intensive support.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

The school includes all stakeholders to help increase input, involvement, and sense of ownership. Our practices our ingrained into our daily practices. Specific details are outlined in our Parent Family and Engagement Plan.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

| 1 | III.A. | Areas of Focus: Instructional Practice: ELA | | | | \$50,438.40 |
