Demographics

Principal: Melissa Stamper

Start Date for this Principal: 7/1/2020

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Black/African American Students Hispanic Students White Students Economically Disadvantaged Students
School Grades History	2018-19: C (52%) 2017-18: B (55%) 2016-17: C (52%)
2019-20 School Improvement (SI) Information*	
SI Region	Southwest
Regional Executive Director	
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Collier County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Collier County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Mike Davis Elementary School will provide a learning environment that will empower, inspire, and engage students while guiding our diverse population to create hope and academic success. This will be accomplished by all staff working to build positive supportive relationships with students and parents.

Provide the school's vision statement.

To educate future leaders by creating a positive and inspiring environment with opportunities for growth and success.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Stamper, Melissa	Principal	Provides a common vision for the use of data-based decision-making; verbalizes support of the MTSS process; ensures that MTSS is being implemented with fidelity; conducts assessment of MTSS skills of school staff, ensures implementation of intervention support and documentation; allows scheduling that supports common team planning and implementation of interventions; monitors curriculum, instruction, and assessment; ensures adequate professional development to support MTSS implementation; communicates with parents regarding school-based MTSS plans and activities. Systems for monitoring will include, but not limited to: iObservation (FTEM), Canvas learning management system, data warehouse, and iReady.
Lauriault, Judy	Assistant Principal	Assists the principal in providing leadership and support of the MTSS process; regularly attends meetings to support and provide assistance/resources to teams as needed. Systems for monitoring will include, but not limited to: iObservation (FTEM), Canvas learning management system, data warehouse, and iReady.
Doriety, Kimberly	Other	<p>Maintains a working knowledge of local, state, and federal laws and regulations related to compliance with the Individuals with Disabilities Education Act (IDEA), ESEA and English Language Learners (ELLs), as well as guidelines pertaining to eligibility, delivery of services, and individualized plan development. Attends all district required professional development activities aligned with specific position requirements, and demonstrates active participation and follow-through at the school(s) of assignment.</p> <p>Provides training and technical assistance in the use of the Enrich system, and consultation in the development of the Educational Plans (EP). Individual Educational Plans (IEP) and 504 plans according to individual student needs. Prepares, reviews and monitors the correct completion of educational documentation in student records pertaining to exceptional student (EP, IEP, 504) services to ensure compliance with federal, state, and local requirements. Participates in annual self-assessment monitoring of student records in compliance with all requirements of IDEA and its regulations; Florida Statutes related to Special programs for Exceptional students; and Exceptional Student Education/Florida Education Finance Program (ESE/ FEFP).</p> <p>Assists district and school- based administrators with F.T.E., student projections, compliance monitoring, and federal, state and local reports. Conducts meeting using components of effective meeting facilitation assisting IEP teams in reaching agreements that lead to education programs and beneficial outcomes for students.</p> <p>Gives information about organizations that offer support for parents of students with disabilities, information on agencies that can assist a student with a disability in transition from school, and offers parents training about Exceptional Student Education. Instructional Team Facilitators: Analyzes and</p>

Name	Position Title	Job Duties and Responsibilities
		provides information about Core instruction; participates in student data collection.
Lefever, Rachael	School Counselor	Provides quality services and expertise on issues ranging from program design to assessment and intervention with individual students; provides interventions to link child-serving and community agencies to the schools and families to support the child's academic, emotional, behavioral, and social needs.
Wherry, Meagan	Instructional Coach	Develops, leads, and evaluates CORE programs; models effective instruction and coaches teachers through the coaching cycle; identifies and analyzes literature on research-based intervention strategies; identifies systematic patterns of student need; assists with universal screening process; assists in the design and implementation for progress monitoring, data collection, and data analysis; participates in the design and delivery of professional development; and provides support for assessment and implementation monitoring.
Paula, Charlene	Instructional Coach	Develops, leads, and evaluates CORE programs; models effective instruction and coaches teachers through the coaching cycle; identifies and analyzes literature on research-based intervention strategies; identifies systematic patterns of student need; assists with universal screening process; assists in the design and implementation for progress monitoring, data collection, and data analysis; participates in the design and delivery of professional development; and provides support for assessment and implementation monitoring.
Pflaumer, Amy	Instructional Media	Fosters student achievement and development. Serves as an on-staff specialist with expertise in Library/Media services. Works with and through the department/grade level chairpersons, and all teachers and staff to support curriculum, technology, and student services. Collaborates with colleagues for the purpose of improving instruction and student performance. Adheres to the Code of Ethics and Principles of Professional Conduct of the Education Profession in Florida and the district's code of ethics policy, and the professional practices of the American Library Association Organizes and supervises use of the Library Media Center by all students and teachers, and supervises library personnel, media and equipment. Promotes and maintains a dynamic, richly diverse, up-to-date library collection in all formats; designed and continually evaluated to best support the school curriculum and meet the reading needs of the student community. Provides group and individual instruction to students in research, technology, reading selection, and information skills.

Demographic Information

Principal start date

Wednesday 7/1/2020, Melissa Stamper

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

3

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

11

Total number of teacher positions allocated to the school

46

Total number of students enrolled at the school

521

Identify the number of instructional staff who left the school during the 2020-21 school year.

6

Identify the number of instructional staff who joined the school during the 2021-22 school year.

6

Demographic Data**Early Warning Systems****2021-22**

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level														Total

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

ELA and Math proficiency trends demonstrated a decrease among Grades 3 and 4. In Grade 5 ELA and Math proficiency increased, however ELA proficiency was below the district average. ESE proficiency trends demonstrate a decrease in overall proficiency in ELA, Math, and Science. ELL proficiency trends in ELA and Science have demonstrated an increase, however Math has decreased. The greatest decrease was evident in 3rd grade math proficiency at 48%. The lowest proficiency was evident in 4th grade ELA at 43%.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The data component that showed the lowest performance was the Lowest 25% gains in reading, scoring at 46%.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

The factors that contributed to this decline resulted from the need for a more systemic approach to interventions and standards focused tier one instruction.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

The data component that showed the most improvement was the overall increase in third grade math proficiency. Third grade math proficiency was 64% compared to the state average of 62%.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Changes that were implemented to help struggling math students included the continued morning interventions with time allocated for remedial math instruction.

What strategies will need to be implemented in order to accelerate learning?

Our main focus for improving students is to implement the MTSS process with fidelity in order to make informed instructional decisions, as well as implement research based interventions in a timely manner. Focus will be used as the primary tool to house data.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Professional Learning opportunities provided to support teachers and leaders include Focus and MTSS training, iReady Deep Dive into Data, as well as ELA and Math trainings.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Regularly scheduled Academic Committee meetings and MTSS meetings will be implemented to ensure improvement.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale:	<p>The overall proficiency levels of students in the statewide standardized English Language Arts assessment is a concern. The percentage of students below Level 3 on the 2021 statewide, standardized English Language Arts assessment is at 50%. In addition, the percentage of students in Kindergarten through grade 3, based on 2020-2021 end of year screenings and progress monitoring data, who are not on track to score Level 3 or above on the statewide, standardized grade 3 English Language Arts assessment was 36%.</p> <p>Focusing differentiated interventions can assist to help increase proficiency. Using multiple assessment pieces from district benchmark scores, iReady, and weekly tests on the Florida Standards, careful monitoring of student progress throughout the year can be used to make adjustments to grouping as needed, and meet the needs of each individual student.</p>
Measurable Outcome:	<p>The intended outcome of providing and monitoring differentiated reading interventions is to increase the number of students that are proficient in reading from 50% to 53%. The Measurable Outcome that the school plans to achieve is to increase the percentage of third, fourth, and fifth grade scoring Level 3 on the 2022 statewide, standardized English Language Arts assessment by 3 percentage points. This would be seen both in improvement in an increase in points awarded in the overall school grade, as well as an increase in grade level data. In addition, the measurable outcome for students in grades K-2 is to increase the percentage of proficiency on the iReady Diagnostic assessment by 3 percentage points and decrease the percentage of students who are not on track to score Level 3 or above on the statewide, standardized grade 3 English Language Arts assessment from 36 to 33% or lower.</p>
Monitoring:	<p>Professional Learning Community meetings will be held monthly to closely monitor student achievement data. The primary platform that will be used to monitor student progress is the district's Data Warehouse platform. This strategy will allow teachers to track student data in regards to their iReady scale scores and district benchmark scores. By recording all of the student data in one platform, students performance will be graphed and discussed during PLC meetings. Likewise, if a student is not showing improvement in a reading intervention group, using the MTSS process to identify additional ways to provide support, or adjusting groupings to meet student needs will be brainstormed and implemented. Throughout the year, teachers will continue to work with students to record and track their own progress of the standards. This will give students the opportunity to take greater ownership of their learning and know where they are currently performing.</p>
Person responsible for monitoring outcome:	<p>Charlene Paula (paulach@collierschools.com)</p>
Evidence-based Strategy:	<p>Professional Learning Community meetings will be held regularly to closely monitor student achievement data. The primary platform that will be used to monitor student progress is the district's Data Warehouse platform.</p>
Rationale for Evidence-based Strategy:	<p>This strategy will allow teachers to track student data in regards to their iReady scale scores, district benchmark scores, and standards mastery scores in one location. By recording all of the student data in one platform, students performance will be graphed and discussed during PLC meetings. Likewise, if a student is not showing improvement in a reading intervention group, using the MTSS process to identify additional ways to provide support, or adjusting groupings to meet student needs will be brainstormed and implemented.</p>

Throughout the year, teachers will continue to work with students to record and track their own progress of the standards. This will give students the opportunity to take greater ownership of their learning and teachers and students will both know where they are currently performing and the goals that they are working toward reaching.

Action Steps to Implement

Utilizing the MTSS process to identify additional students, resources, and staff based on data.

Person Responsible Melissa Stamper (stampeme@collierschools.com)

Changing the process and the data collections tools for progress monitoring in order to support student achievement.

Person Responsible Charlene Paula (paulach@collierschools.com)

Goal setting and data chats implementation on a weekly basis.

Person Responsible Judy Lauriault (laurij2@collierschools.com)

Including all relevant staff members in Tier 2 and Tier 3 PLCs to solicit input from all staff members involved with the students.

Person Responsible Judy Lauriault (laurij2@collierschools.com)

#2. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale: The school performed lower than the district average in mathematics proficiency, earning a 53%. Upon analyzing grade level data, trends emerged between third and fourth grade. Third grade data decreased in proficiency in mathematics for students from 67% to 48%. Fourth grade data decreased in proficiency in mathematics for students from 50% to 44%. Targeting both core instruction in the math block and determining effective math support for students will help the school achieve its goal in improving mathematics proficiency.

Measurable Outcome: The intended outcome is to increase the overall proficiency in Mathematics by a minimum of 3% with 56% of students being proficient in mathematics for the 2021-2022 school year. Additionally, the overall improvement in mathematics core instruction and needs based interventions would increase the learning gains of all, including those in the lowest 25% and increase the number of students earning a level 4 or 5 on the mathematics state assessment.

Monitoring: Bi-weekly formative assessments will be administered in grades 3-5 in order to collect data and drive instruction.

Person responsible for monitoring outcome: Melissa Stamper (stampeme@collierschools.com)

Evidence-based Strategy: Data will be analyzed during Professional Learning Communities monthly with the Leadership Team.

Rationale for Evidence-based Strategy: This process will assist in both better tracking of student progress and more responsive targeted instruction to increase student proficiency in mathematics.

Evidence-based Strategy: After quarterly district math benchmarks, data dialogue meetings will take place with each grade level team to determine patterns outlining areas of strength and continuous improvement. Individual data chats will be held with students to review performance and to set new goals going forward specific to math sub skills and domains.

Action Steps to Implement

Administering standards based data collection tools for progress monitoring in order to support student achievement.

Person Responsible Meagan Wherry (wherrm@collierschools.com)

Goal setting and data chats implementation on a biweekly basis.

Person Responsible Melissa Stamper (stampeme@collierschools.com)

Increasing the frequency of PLCs related to math formative and summative assessments in order to consistently address math data and the instructional implications.

Person Responsible Judy Lauriault (laurij2@collierschools.com)

#3. Instructional Practice specifically relating to ELA**Area of****Focus****Description
and****Rationale:**

Our ELL students in Grades 3 and 4 scored low in their proficiency levels in the ELA FSA. Grade 3 was 20% proficient and Grade 4 was 7% proficient.

**Measurable
Outcome:**

The intended outcome of providing and monitoring differentiated reading interventions is to increase the number of students proficient in ELA for Grades 3 and 4 by increasing their proficiency by 5%. This would be seen both in improvement in an increase in points awarded in the overall school grade, as well as an increase in grade level data.

Monitoring:

This area will be monitored in the following ways for the desired outcome.

1. Progress Monitoring through District Benchmark Assessments, HMH Module Assessment, and iReady Assessment data is analyzed and discussed in monthly PLC meetings along with action steps for continued improvement.
2. Administration is a part of collaborative planning sessions along with teachers and coaches. Pacing and alignment of standards is discussed, student work samples analyzed, and best practices discussed.

**Person
responsible
for
monitoring
outcome:**

Melissa Stamper (stampeme@collierschools.com)

**Evidence-
based
Strategy:**

Our main focus for improving students proficiency is to implement the MTSS process every six to eight weeks with fidelity in order to make informed instructional decisions, as well as implement research based interventions in a timely manner. Focus will be used as the primary tool to house data.

**Rationale
for
Evidence-
based
Strategy:**

This strategy will allow teachers to track student data in regards to their iReady assessment data, HMH Module assessment data, and district benchmark scores. Students performance will be graphed and discussed during PLC monthly meetings. Likewise, if a student is not showing improvement in a reading intervention group, using the MTSS process to identify additional ways to provide support, or adjusting groupings to meet student needs will be brainstormed and implemented. Intervention teachers will meet regularly to drive their small group instruction through data analysis in order to ensure we are closing the achievement gaps for each student.

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

When compared to all elementary schools state-wide, it falls into the high category. Mike Davis Elementary reported 1.0 incidents per 100 students and ranked #970 out of 1,395 elementary schools state-wide. The school rank #25 out of 27 elementary schools in the county. The primary area of concern that the school will monitor during the upcoming school year will be incidents of physical attacks. The school leadership team, administration, and PBIS school-wide committee meets regularly to monitor discipline data and develop individualized positive behavior intervention plans and supports for students.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

The school builds positive relationships with parents, families, and community members in multiple ways. Throughout the year, parents have the opportunity to participate in many school wide virtual events including the Annual Title 1 Meeting held in August, Literacy Night, Math Night, Meet the Teacher, Student-Led Conferences. Throughout these events families partner with the school to take an active part in learning about their child's school's education, and spending time building positive family relationships through school based events.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Stakeholders which contribute to promoting a positive culture and environment at the school include members of the leadership team, teachers, students, parents, and staff.

Parents have multiple opportunities to participate throughout the year at the school in their child's education. Teachers and administration build strong relationships with parents and families through positive communication. Each family is personally contacted by his or her teacher during the first weeks of school, through Curriculum Night, before or after school conference, Webex video conferencing or a phone call home.

Additional strategies to promote a positive culture and maximize parent communication has included increasing staff use of Parent Link, Twitter and Facebook through the Leadership Social Media Team.

Through the Twitter and Facebook platforms family members are given access into a window of their child's classroom. Here they are able to see snapshots of lessons and learning going on in the classrooms, highlighting student accomplishments and video-clip of active learning.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA					\$336,311.64
	Function	Object	Budget Focus	Funding Source	FTE	2021-22	
	5100	130-Other Certified Instructional Personnel	0531 - Mike Davis Elementary School	Title, I Part A	3.0	\$241,241.48
