2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Orange County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

At the end of 2021 based on FSA data we ended the year with:

55% proficiency in ELA (2018-2019 was 62% proficiency for a 7 point loss)

51% proficiency in Math (2018-2019 was 63% proficiency for a 12 point loss)

50% proficiency in G8 Science (2018-2019 was 53% for a 3 point loss)

67% proficiency in Civics (2018-2019 was 71% for a 4 point loss)

79% proficiency in Acceleration (2019-2019 was 93% for a 14 point loss)

Algebra 1 EOC passing rate dropped significantly, impacting our overall math data and acceleration component.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

We had drops in all of our FSA math categories including learning gains and lowest 25%.

Most significant drops were with Math learning gains (-25 points) and lowest 25% math (-18 points).

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Due to COVID and the pivot to LaunchEd, SWD students struggled the most during online instruction without the added support of a face-to-face teacher. In addition, the ALG/GEO teacher went on maternity leave in November and students were placed with three other teachers.

New Actions -

- Individualized scheduling for algebra students to place in more leveled classes for stronger differentiated instruction.

- Move strongest 6th grade math teacher into 7th grade.

- Identify SWD students and prioritize schedules for all core classes.

- Staffing changes in our ESE department to better support these students.

- Instructional staff PD scheduled in areas such as effective student data tracking and data chats, deepening formative assessment practices, and interpreting data to drive instruction.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Civics and Science NGSSS scores slightly improved.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Civics -

1. Civics teams met on a weekly basis to discuss data from formative and summative assessments.
2. Teams utilized the CRM's as a resource to guide lesson plans and the implementation of best practices.
3. Team members identified areas of growth within our school-wide professional plan and seek coaching support.
4. The instructional coach conducted coaching cycles with the 7th grade Civics teachers, using skills learned from the Lastinger Center, so that they can reflect and improve upon their desired teaching practices and student outcomes.
5. Select Civics teachers attended the Civics Community Collaborative and share resources and instructional practices from this professional development with their team members.

Science -

1. Science teams met on a weekly basis to discuss data from formative and summative assessments.
2. Teams utilized the CRM's as a resource to guide lesson plans and the implementation of best practices.
3. Team members identified areas of growth within our school-wide professional plan and seek coaching support.
4. The instructional coach conducted coaching cycles with the 8th grade Science teachers, using skills learned from online modules and PD, so that they can reflect and improve upon their desired teaching practices and student outcomes.
5. A systematic plan for comprehensive review of 6th and 7th grade material was implemented by the 8th grade team.

What strategies will need to be implemented in order to accelerate learning?

Refresher course on Performance Matter (Data)
How to build classroom community and improve student engagement
Student talk and collaboration
Meaning data chats with students
Deepening Learning through questioning and student reflection
Small group collaboration

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Instructional coach and CRT will provide the following professional development to the staff throughout the year:

- the common features and functions for using Performance Matters to generate student data.
 - ways to build respect-driven classrooms, improve student engagement, and diversify our instructional practices in an effort to build a student-centered community in the classrooms.
 - how to build community in our classrooms by exploring student talk and collaborative learning practices, including areas such as non-verbal collaboration, purpose-driven student talk, and how to use rubrics to assess these areas.
 - discuss the steps for a successful data chat process with students, including some practical ways to implement this process in a teacher's instructional calendar.
 - discussion about how to deepen student reflection practices to get more academic use from them.
- We will discuss how note-taking can be beneficial in this process, along with how to structure and assess written reflections in any subject area.
- explore how to interpret instructional data and how to deepen questioning strategies in our lessons to get a more accurate understanding of what our students know.
 - how to implement student-centered small groups to help students demonstrate mastery of learning concepts.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Administration and instructional coaches will be implementing classroom walkthroughs on a weekly basis to identify areas of need and focus on classroom procedures; selected teachers will be going through the coaching cycle with the instructional coach; teachers will receive actionable feedback and specific positive feedback following every classroom visit; continuous plan for professional development for teachers to assist them with small group instruction; monitoring PLC data meetings to observe and assist with questions; continue to incorporate the SEL year 1 and 2 strategies to help improve student performance and increase student achievement through a more effective approach to instructional techniques and strategies

Part III: Planning for Improvement

Areas of Focus:

#1. Culture & Environment specifically relating to Social Emotional Learning

Integrate and monitor resources and strategies that strengthen a culture for social and emotional learning to grow every student academically, socially, and emotionally. Academic learning is enhanced when students have opportunities to interact with others and make meaningful connections to subject material. By strengthening our school’s culture for social and emotional learning, we will address the following school needs:

1. Establish a common language to support a culture of social and emotional learning with adults and students.
2. Use a process to examine the current school climate and culture.
3. Determine relevant strategies to strengthen team dynamics and collaboration across the school.
4. Implement strategies for social and emotional learning with adults and students to positively impact school climate and culture.
5. Understand the connections between social and emotional learning and instructional strategies.
6. The school will communicate the vision and mission with families and the community through the principal's weekly digital message, school website, annual open house and curriculum night, quarterly newsletter, and the school marquee.
7. Teachers communicate student progress with families through Skyward, Canvas, emails, phone calls, newsletters, and parent conferences.
8. Our families and community members are invited to attend our after and during school sponsored events by the Parent Teacher Student Association, National Junior Honor Society, Student Council, Fine and Performing Arts Department, district academic competitions, STEM activities and sports.

Area of Focus Description and Rationale:

Measurable Outcome:

Early Warning Systems indicator data
 Alex Incident/SESIR data
 Panorama survey data
 *Student Survey - School Climate, Sense of Belonging
 *Teachers and Staff - School Climate, School Leadership, Professional Learning About SEL
 *Family Members - Barriers to Engagement, School Climate
 Culture & Climate Continuum data

Monitoring:

Culture & Climate Continuum data
 Classroom Walkthrough trend data
 Evaluative instructional and leadership practice observational data
 Qualitative data from students, staff, and families

Person responsible for monitoring outcome:

Raymond Yockel (raymond.yockel@ocps.net)

Evidence-based Strategy:

Use distributive leadership and social and emotional learning to implement a continuous improvement plan for social and emotional learning focused on implementing a schoolwide SEL curriculum, intentionally integrating aligned instructional strategies, and deliberate school supports for families.
 Our school will plan and implement two cycles of professional learning to provide training, opportunities for safe practice, and examination of impact data. Our school will monitor and measure the impact of our implemented professional learning through analysis of the Culture and Climate continuum, needs assessments, classroom observations, school environment observations, and implementation surveys. We will modify our plan of action as indicated by data, student needs, staff needs, and family needs.

Rationale for Evidence-based Strategy:

In order to achieve large-scale and sustainable improvement, it is necessary to invest in the collective capacity of a school building, including its families. To strengthen a culture of social and emotional learning with families, staff, and students, it is critical to harness the professional skills and leadership capabilities of everyone in the school. Through a distributive leadership model, our school will strengthen the integration of instructional strategies and deliberate school supports necessary for collective organizational improvement and change.

Research indicates that for sustainable improvement efforts to be realized, collective ownership is necessary. Through a distributive leadership model our school can implement efficient and sustainable continuous improvement practices that will support the social, emotional, and academic development of every student.

Action Steps to Implement

Implement a school-wide SEL curriculum

- Ensure a school team receives training on implementation of a school-wide SEL curriculum
- Create a training plan that leverages the trained school team members to train all necessary stakeholders in implementation of the curriculum
- Implement a school-wide SEL curriculum

Person Responsible Raymond Yockel (raymond.yockel@ocps.net)

Integrating Aligned Instructional and SEL Strategies

- Identify student social and emotional learning needs to prepare for academic instruction
- Determine cognitive and conative strategies that align with the standard
- Interpret standards and student needs to intentionally integrate aligned instructional strategies

Person Responsible Raymond Yockel (raymond.yockel@ocps.net)

Deliberate School SEL Supports for Families:

Identify strategies to support family engagement based on Panorama Family Members Survey:

- *Strengthen Communication
- *Create and facilitate opportunities to welcome families and introduce key staff (back to school night, Open House, principal breakfast)
- *Develop school-wide digital communication outreach plan to inform students and families how they can connect to school events and resources.
- *Build Community
- *Establish family resource center where families can access resources and information to support success
- *Create welcoming environment where family culture and languages are recognized and respected (staff greetings, office appeal)
- *Host events, workshops and opportunities that are relational, connected to family interests and culture, and linked to learning
- *Create Connections
- *Establish family-friendly system with multiple ways to gather and respond to families' questions, suggestions and needs
- *Create flexible events and opportunities for families: e.g., different times throughout the day, face-to-face, virtual, pre-recorded sessions, multiple languages

Person Responsible Raymond Yockel (raymond.yockel@ocps.net)

Monitor, Measure, and Modify

- Evaluate the climate and culture for social and emotional learning to implement necessary responsive practices
- Implement a continuous improvement plan for social and emotional learning & leadership that uses

cycles of professional learning.

- Evaluate the impact of cycles of professional learning on improvement efforts
- Monitor, measure, and modify the plan for continuous improvement in social and emotional learning & leadership using data-based instructional leadership to positively impact climate and culture

Person Responsible Raymond Yockel (raymond.yockel@ocps.net)

#2. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups

Area of Focus Description and Rationale: Due to COVID and the pivot to LaunchED, SWD and Black students struggled the most during online instruction without the added support of a face-to-face teacher. In addition, one of the teachers went on maternity leave in November and students were place with three other teachers.

Measurable Outcome: By having clear, measurable goals for individual student achievement, the specific measurable outcome the school plans to achieve is raising the Math achievement gains for SWD from 49% to 65%, Math learning gains from 49% to 65%, and the Math lowest 25% from 41% to 60%. In addition to raising the Math scores for SWD, the school will raise the Math achievement gains for BLK students from 37% to 65%, Math learning gains from 53% to 65%, and the Math lowest 25% from 55% to 60%.

Monitoring: Core subject PLCs will meet weekly and discuss SBUA, PMA, and iReady data and how they are adjusting their instruction to meet the learning goals established for each student. Individualized scheduling will be done for algebra students to place in more leveled classes for stronger differentiated instruction and review CWT data to determine trends across the school and develop professional development to meet these needs.

Person responsible for monitoring outcome: Raymond Yockel (raymond.yockel@ocps.net)

Evidence-based Strategy: Teachers will be given planning days for PLC's to discuss data and goals. Teachers will analyze current data and review instructional calendar to make adjustments and to determine any additional strategy implementation such as small group scaffolded instruction and individual student progress monitoring. Additionally, teachers will be given a refresher course on Performance Matter (data), Professional Development (PD) on how to build classroom community and improve student engagement; PD on small group collaboration; and deepening learning through questioning and student reflection.

Rationale for Evidence-based Strategy: Now that schools are back in the building, face-to-face instruction allows teachers to focus more on student engagement, collaboration, and differentiation, all three components which directly impact our SWD and Black student subgroups. In an effort to improve these strategies which may or may not have been utilized over the past two year period, school-based professional development will focus on refreshing these concepts for teachers, as well as assisting with implementation in the classroom.

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Overall comparison of Southwest MS and the state indicates we are in the low category with an average discipline of 1.9 incidents per 100 students. We rank 153 out of 553 middle schools in the state. Our primary concern is in property incidents. Property incidents of vandalism were high although there were only 2 incidents per 100 students. Additionally, concern for violent incidents cannot be overlooked. The top five areas of concern are: fighting, physical attacks, sexual harassment, threats/intimidation, and bullying. Our school has created a Behavior Committee with an emphasis on the social and emotional learning of students and staff. The committee will work in conjunction with the Deans and Guidance counselors to discuss behaviors and concerns that affect the school campus. Students will also have access to counseling with our SAFE coordinator, Guidance counselors, Mental Health counselors, Social Workers, and referrals to outside agencies when needed.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

In order to establish a positive school culture and climate, all schools engage in ongoing, district-wide professional learning on leveraging social and emotional learning as well as leadership for student success. Through a distributive leadership model, schools use social and emotional learning to strengthen team dynamics and collaboration in order to build academic expertise in all students. Through this professional learning, schools across the district use the CASEL Core Competencies as a common language to support a positive culture of social and emotional learning and connect cognitive and conative strategies to support student success. A core team of teachers and administrators from each school, which includes a mental health designee, attend this district-wide professional learning throughout the year. The core team works with a broader school team and is charged with personalizing and implementing professional learning for staff and families, based on school and community needs. School leadership teams collaborate with students, staff, and families, through processes such as the School Advisory Council, to reflect on implementation and determine next steps. Development of positive culture and environment is further enhanced through school-based and district-wide opportunities focused on building capacity in families to support continuous school improvement and student success. Schools strategically utilize staff to bridge the community and school, connect families with resources, and build a culture for authentic family engagement in school staff.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Below is the core team of teachers and administrators from Southwest Middle School who will attend district-wide professional learning throughout the year. The core team will work with the broader school team (which consists of staff members from each department and classified staff) and will implement professional learning for staff and families, based on school and community needs. School leadership teams will collaborate with school stakeholders to determine next steps. Development of positive culture and environment is further enhanced through school-based and district-wide opportunities focused on building capacity in families to support continuous school improvement and student success.

- Raymond Yockel - Principal, SEL site based team member
- Jill Trimble - Assistant Principal, SEL site based team member
- Kelly-Anne Gash - SAFE Coordinator, SEL site based team member
- Sally Marjama - Teacher, SEL site based team member
- Lyndsey Russell - Teacher, SEL site based team member
- Shawn Rymer - Teacher, SEL site based team member

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Culture & Environment: Social Emotional Learning	\$0.00
2	III.A.	Areas of Focus: ESSA Subgroup: Outcomes for Multiple Subgroups	\$0.00
Total:			\$0.00
