School Board Approval

This plan is pending approval by the Putnam County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

In analyzing the data, the trends noted is with the following subgroups. The subgroups below the 40% achievement level in ELA are: SWD, ELL, African-American, Hispanic, as well as our Free/Reduced lunch. Even though these subgroups are below the 40% mark in achievement, it is also noted that the subgroups have improved in comparison to the year before. In looking at other trends, it is also noted that the above subgroups are also below the 40% mark in ELA Learning Gains, as well as ELA Bottom Quartile gains.

All subgroups are below the 40% mark in Math Achievement. On a positive note, all subgroups listed have achieved a 40% mark or higher in Social Studies Achievement.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Based upon the data components, the subgroups that demonstrate the greatest need for improvement are: SWD; African-Americans; ELL; and Hispanic subgroups. These subgroups need continuous improvement in all tested areas of ELA, Math, Science, and Social Studies.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Based upon the data, the leadership team of Crescent City Jr.-Sr. High School believe the contributing factors to this need of improvement are with the lack of accountability from the administration, the lack of professional development for teachers/staff, the issues with quarantining students due to COVID, Option 2 Learning being a barrier to hold students accountable for their learning from home, as well as overall attendance for faculty/staff/students.

New actions:

1. Providing continual professional development towards Academic Teaming and how to engage students in a collaborative setting.
2. Professional Development in teaching teachers how to break down the standard, not to create a student task that is truly aligned to the target of the standard, which we call target/task alignment. Continue to provide professional development on how to create a true Success Criteria that students can use to determine their own understanding of mastery of the standard through the support of the teachers. Finally scaffolding our coaching to support the above mentioned pieces but then also getting our teachers to understand the difference between monitoring and verifying of student learning and truly tracking student progress based upon the standard through the Success Criteria.
3. Observe classes through Conditions Walks (seeking if classrooms, teachers, and students have positive learning environment conditions for student success).
4. Completing Rigor Walks to determine trends of quality instruction that leads to student

improvement through our Progress Monitoring tools of: STAR Assessments; USA Test Prep Assessments; along with other formative and summative assessments.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Based upon the 2019 Data, our SWD students as well as our White subgroup showed the most improvement towards ELA achievement.

What were the contributing factors to this improvement? What new actions did your school take in this area?

The contributing factors to this improvement was with a focus on ELA core instruction, which resulted improved achievement as well as improved growth.

What strategies will need to be implemented in order to accelerate learning?

The following strategies are being implemented to accelerate learning. They are:

1. Teacher professional development towards Academic Teaming, too actively and purposefully engage our students within the core instructional day in all content areas.
2. Teacher professional development in breaking down the standards and aligning the teaching target, to the student task.
3. Teacher PLC's with a focus on instructional practices and analyzing data of students to determine next steps.
4. Administration conducting condition walks to analyze our environmental conditions within the class and determine if student learning can take place.
5. Administration completing Walkthroughs, which provide coaching support towards next steps based upon observed instructional practices.
6. Administration conducts Formal and Informal Observations.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

1. Teacher professional development towards Academic Teaming, too actively and purposefully engage our students within the core instructional day in all content areas.
2. Teacher professional development in breaking down the standards and aligning the teaching target, to the student task.
3. Teacher PLC's with a focus on instructional practices and analyzing data of students to determine next steps.
4. District led C4I Walks through the support of Learning Science International.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

We will continue to provide trainings towards Academic Teaming, Target/Task alignment, how to build Success Criteria per standard to help teachers and students understand mastery. Provide professional development toward explicit teaching, as well as how to use the graphic organizers as we move forward with the BEST Standards. Continue to provide district led professional learning communities in all core academic content areas.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Student Engagement

Area of Focus Description and Rationale:	<p>An area of focus is specifically related to student engagement for all students in all subgroups within all content areas. Our ESSA Subgroups are: SWD; ELL; Hispanic; and African American. These specific subgroups are an area of focus through the use of specific Instructional practices that relate to student engagement. Our focus is developing the whole student with engaging students in listening, reading, writing, and conversations related to rigorous instruction and rigorous student tasks. This is a critical need based upon our 2020-2021 data. Our ELA Achievement data was at 35%; our Math Achievement data was at 18%; our Science Achievement Data was at 25%; and our Social Studies data was at 48%. Our growth data was as follows:</p> <p>ELA growth: 41% ELA Bottom Quartile: 35% Math growth: 25% Math Bottom Quartile: 42%</p>
Measurable Outcome:	<p>Measurable outcomes based upon FSA Achievement for the 2022 school year are:</p> <p>ELA Achievement: 38% ELA Growth: 44% ELA Bottom Quartile: 40% Math Achievement: 28% Math Growth: 35% Math Bottom Quartile: 45% Science: 30% Social Studies: 50% Middle School Acceleration: 60%</p>
Monitoring:	<p>The area of focus will be monitored through:</p> <ol style="list-style-type: none"> 1. School and District Led PLC's. 2. Administrative Walkthroughs, Formal, and Informal Observations 3. Formative/Summative Assessments in the classroom 4. USA Test Prep District Assessments 5. ALEKS Data 6. STAR District Assessments

Evidence-based Strategy:	The evidence based strategies being implemented for our Area of Focus are with Academic Teaming professional development to ignite student engagement within our core instruction. Our subgroups that are an area of focus are: SWD; ELL; Hispanic; African-American.
Rationale for Evidence-based Strategy:	This specific instructional strategy of engaging students will help to develop the whole student both in academic core instruction as well as soft skills that students can use in every day life structures. Our ESSA Subgroups of focus are: SWD; ELL; Hispanic; and our African American Subgroup. The resources/criteria used for selecting this strategy is based upon our test data as well as through the support of professional development through our District with the use of a facilitator through Learning Science International.

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Crescent City Jr.-Sr. High School reported 5.6 incidents per 100 students. When compared with all high schools across the state, we fell into the very high category.

We are ranked 436 out of 505 high schools in Violent Incidents. 2.15 incidents per 100 students.

Crescent City Jr.-Sr. High School is ranked #1 out of 505 high schools towards property incidents.

Crescent City Jr. Sr. High School is ranked 424 out of 505 high schools in Drug/Public Order incidents. There were 3.47 incidents per 100 students.

Crescent City High School has recently transitioned back to a Jr.-Sr. High School with the closing of the middle school. We are now grades 7th-12th with 968 students. We receive a monthly school report from the Student Services Department to analyze and monitor our data based upon students and teachers. We have streamlined our supervision within the different areas of the school based upon discipline from the prior year. We have provided training to teachers in de-escalating student to student and student to teacher situations. We have also increased our Guidance Department from 1 to 3 counselors. We are also providing student engagement professional development to our teachers to help decrease "student boredom". The expectation is set for students to be successful as they know our expectations towards behavior and academic success. We share those expectations on a daily basis within our school announcements. We are meeting with each individual 12th graders to support our graduation initiatives. We are also conducting grade level parent nights to discuss ways to help our students both academically as well as behaviorally. Our theme across our entire campus is that we are "ALL IN" towards supporting our improved behaviors; improved academic student performance; improved academic student engagement; as well as improved teacher instruction towards behavior and academic content.

Due to the transition of becoming a Jr._Sr. High School as well as an increased student population, we believe our base line data is for the 2021-2022 school year.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Crescent City Jr.-Sr. High School addressed building a positive school culture and environment through the following opportunities. They are:

1. Conduct multiple Parent/Family Involvement Nights to inform and support parents with their child's individual educational needs.
2. We celebrate students success and achievement through academic, social, and athletic achievements. We have the Golden Spear Awards which recognize students for a positive school contribution.
3. We celebrate students of the month for academic and social success opportunities.
4. We celebrate our faculty/staff members.
5. We recognize student and faculty/staff birthdays as a way to promote a positive school culture and environment.
6. We celebrate teachers/staff members through shout-out opportunities.
7. We celebrate academic achievement through Honor Roll each quarter and a Principal's List for Straight A's.
8. Donuts with the Principal to enhance relationships with the administration, as well as with the other faculty/staff members.
9. We celebrate our Teacher of the Year/Support Person of the Year.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.
