## School Board Approval

This plan is pending approval by the Broward County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

## Analysis

### Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

**What trends emerge across grade levels, subgroups and core content areas?**

Student proficiency levels have been consistent but learning gains have not.

**What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?**

Math Learning Gains and Math Lowest 25th Percentile both showed the greatest decline from last year. They both declined by 26%.

**What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?**

The data component with the greatest gap compared to the state is the Math Learning gains. There was 28% gap. Factors contributing to this gap is lack of rigorous standard based instruction by teachers.

**What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?**

ELA Lowest 25th Percentile showed the most improvement. Our Literacy Coach facilitated the ELA Professional Learning Communities with an emphasis on creating standards-based rigorous lessons and activities.

**What were the contributing factors to this improvement? What new actions did your school take in this area?**

Professional Learning Communities have contributed to the gains.

**What strategies will need to be implemented in order to accelerate learning?**

1. Teacher Development in Instructional Practices
2. Teacher Development in the creation of standards-based lessons, activities and class assignments
3. Progress monitoring of student achievement
4. Progress monitoring of our MTSS
5. Strengthen the school-home connection

**Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.**

Understanding Florida Standards and Improved Teaching Strategies.

**Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.**

PLC's and PD Opportunities.

## **Part III: Planning for Improvement**

**Areas of Focus:**

**#1. Instructional Practice specifically relating to ELA**

<b>Area of Focus</b>	Teachers continue to need professional development on delivering high quality instruction in increase student achievement, technology integration and implement rigorous, standards-aligned instruction and lessons.
<b>Description and Rationale:</b>	
<b>Measurable Outcome:</b>	Teachers will deliver high quality instruction to increase student achievement and reach our school goals of: ELA - 45% Proficient Math - 50% Proficient Science - 40% Proficient ELA Learning Gains - 65% ELA Lowest Quartile Gains - 60% Math Learning Gains - 65% Math Lowest Quartile Gains - 60%
<b>Monitoring:</b>	Monitoring will take place via the following formats: Classroom observations; Student Common Formative Assessment Data Collection; Teacher and Administration Data Analysis Meetings
<b>Person responsible for monitoring outcome:</b>	Michael Billins (michael.billins@browardschools.com)
<b>Evidence-based Strategy:</b>	The implementation of explicit and systematic standards-based instruction to increase student achievement in ELA, Math and Science.
<b>Rationale for Evidence-based Strategy:</b>	The teachers need professional development on standards-based instruction to ensure that their instructions are aligned to the ELA and MATH shifts linked to the FSA Standards. Teachers will then be able to determine their students' specific weaknesses and strengths per standard covered, and they will be used the evidence-based strategy in order to inform their daily instruction. The teachers will analyze the data per student based on performance levels ( deficient, struggling, proficient) and remediation and enrichment activities will be assigned based on each student's performance on the assessment.

**Action Steps to Implement**

1. Leadership team will collect and analyze student achievement data to identify areas of strengths and weakness.
2. Based on areas of weaknesses, the leadership team will collaborate with teachers to implement research-based strategies and interventions needed to address areas of weakness while continuing to develop strengths.
3. Teachers will implement the balance literacy program and interventions during their ELA instructional block, differentiating instruction to meet the needs of students.
4. Schedule daily push in Math and ELA support (paraprofessional) assigned to lowest quartile students in grades three, four and five.
5. Extended Learning Opportunities 3 days weekly for 24 weeks, to provide remedial instruction in ELA, Science and Math.
6. Administration will procure additional resources (if necessary) through District resources, school budget resources, grants and partnerships.
7. Professional Learning Communities will center on the implementation of writing, BAS calibration, whole group instructional practices of Balanced Literacy Program and Guided Reading Groups.
8. Teachers will receive professional development in small group instruction, guided reading, quality math

instruction and quality science instruction.

9. Teachers will receive training on the Promethean Board and use it as a medium to infuse technology.
10. Lenovo Laptops will be purchased to increase to a 1:1 allocation to students.
11. Curriculum Associates, iReady Site Licenses, iReady Toolbox, LAFS and MAFS will allow teachers to support students through the implementation of high quality instructional materials and progress monitoring.
12. The use of Acaletics Math and Acaletics Science will help increase Math and Science proficiency.
13. The use of Renaissance Accelerated Reader will help increase ELA proficiency and increase learning gains.
14. SchoolCity will be used to progress monitor student achievement and learning gains.
15. J & J Educational Bootcamp will work with student groups to conduct hands on labs with students.

**#2. ESSA Subgroup specifically relating to Students with Disabilities**

<b>Area of Focus Description and Rationale:</b>	Students with disabilities (SWD) are not progressing when compared to other subgroups tested.
<b>Measurable Outcome:</b>	The school plan to achieve at least 50% of SWD achieving learning gains on the 2020 FSA.
<b>Monitoring:</b>	Monitoring will take place via the following formats: Classroom observations; Student Common Formative Assessment Data Collection; Teacher and Administration Data Analysis Meetings

### Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

**Thurgood Marshall Elementary School reported 0.7 incidents per 100 students. When compared to all elementary schools statewide, it falls into the moderate category. This school ranked #81/116 elementary schools in the county.**

### Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

#### Describe how the school addresses building a positive school culture and environment.

The school builds and sustains partnerships by:

1. Provide high-quality instruction for our students and increase collaboration and communication with our parents and community through, but limited to parent letters, telephone calls, emails, quarterly parent nights and parent conferences to support the family and the student.
2. Providing on site wrap around services in the form of a full-time school social worker and full-time community liaison.
3. Partnering with community and business partners to provide parent engagement events.

#### Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Parents, Business Partners, Teachers and Faculty meet monthly and discuss creating a positive environment at the School Advisory Committee Meeting.

### Part V: Budget
