School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Some trends that emerge across grade levels are poor attendance due to medical issues, and students having a difficult time understanding and mastering abstract concepts due to their disability.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

According to Unique Learning System Curriculum Assessment, the data component that showed the greatest decline from the prior year was student performance in Math.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Some contributing factors to this are poor attendance due to medical issues, and students having a difficult time understanding and mastering abstract concepts due to their disability.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

According to the Functional Communication Checklist, communication showed the most improvement.

What were the contributing factors to this improvement? What new actions did your school take in this area?

The actions we took to improve communication scores were using a communication based curriculum, having our SLP push in to all classrooms, and focusing on communication across all disciplines.

What strategies will need to be implemented in order to accelerate learning?

1. Curriculum Map
2. Benchmark Assessments
3. Professional Development
4. Data Chats
5. Curriculum Assessment Remediation Enrichment Model

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Professional development opportunities will be provided based on Unique learning benchmark assessments, the math curriculum map, and the curriculum assessment remediation enrichment model.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Additional services that will be implemented to ensure sustainability of improvement are data chats, professional learning communities, curriculum trainings.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale:	This was identified as a critical need due to the results of the Math Florida Standards Alternative Assessment (FSAA).
Measurable Outcome:	By June of 2022, a minimum of 33% of K-12 learners will demonstrate an increase in achievement level on the FSAA Math Assessment.
Monitoring:	This area of focus will be monitored through the Unique Learning System assessments.
Person responsible for monitoring outcome:	Celeste Humphrey (celeste.humphrey@browardschools.com)
Evidence-based Strategy:	Unique Learning System is an evidence based strategy implemented for this area of focus.
Rationale for Evidence-based Strategy:	This strategy is evidence based and features a standards based curriculum unique to the needs of our students.

Using the [SafeSchoolsforAlex.org](https://www.SafeSchoolsforAlex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

According to SafeSchoolsforAlex.org, Wingate Oaks Center is not listed and there is no discipline data for the school due to 100% of learners being at an ESE center school.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

At Wingate Oaks Center, we promote a positive school culture and environment in many ways. We believe in providing a positive learning environment to enhance each learner's sense of identity, self-worth and individual potential; that high expectations lead to positive growth; and that all our learner have a valuable contribution to make to society. Positive behavior is reinforced whenever possible. Wingate oaks SIP goal is to increase communication skills , which is a key to effectively managing emotions. Wingate Oaks school improvement goal is to increase communication skills for all learners. Effective communication is the foundation for all social and emotional learning. We involve all stakeholders by using effective communication through parent link, newsletters, and daily home notes to make sure all information is presented.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.
