School Board Approval

This plan is pending approval by the Palm Beach County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Atlantic Community High School's purpose is to serve the educational needs of the community and its students. Our mission is to enable all students to become positive and productive citizens and members of a global society. To achieve this, we aim to develop the student intellectually, socially, ethically and physically. The overall climate encourages life-long learning through self-discipline, tolerance, leadership and service to others.

Provide the school's vision statement.

Atlantic Community High School is:

a school that is a safe, secure, and orderly place that provides a positive and comfortable learning and working environment for all:

- a school that stresses academic achievement as well as involvement in extra-curricular activities.
- a school that prepares all students to function cooperatively and productively in the global community.
- a school that functions effectively and cooperatively with parents, businesses and community members.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Position Title | Job Duties and Responsibilities |
|-------------------|---------------------------|---|
| Edwards, Sandra | Principal | Monitor the execution of the SIP of students and teachers in reading through data analysis, classroom visits, and Professional Learning Communities (PLCs). |
| Slydell, Robert | Assistant Principal | Monitor the execution of the SIP of students and teachers in the ESE program through data analysis, School Based Team (SBT), classroom visits, and Professional Learning Communities (PLCs). |
| Bruce, Kelly | School Counselor | Execution of the SIP with students in the IB program through data analysis, guidance and counseling. |
| Williams, Chelsea | Assistant Principal | Monitor the execution of the SIP of students and teachers in the ESE program through data analysis, classroom visits, Department/District meetings, and Professional Learning Communities (PLCs). |
| Maxwell, Tricia | ELL Compliance Specialist | Monitor the execution of the SIP of students and teachers in the ELL program through data analysis, classroom visits, and Professional Learning Communities (PLCs). |
| Mitchell, Adria | Administrative Support | Execution of the SIP with students in the ESE program through data analysis, SBT, small group instruction, and Professional Learning Communities (PLCs). |
| Mose, Tammy | Instructional Coach | Monitor the execution of the SIP with students and teachers in reading, ELA and mathematics through data analysis, testing, and Professional Learning Communities (PLCs). |
| Rodriguez, Susan | Administrative Support | Monitor the execution of the SIP of students and teachers in the ESE program through data analysis, classroom visits, Department/District meetings, and Professional Learning Communities (PLCs). |

| Name | Position Title | Job Duties and Responsibilities |
|----------------|----------------|---|
| Wallace, Marcy | Other | Monitor the execution of the SIP in all areas through PLCs, data analysis, classroom visits, tutorials, and professional development. |

Demographic Information

Principal start date

Tuesday 7/20/2021, Sandra Edwards

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

3

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

16

Total number of teacher positions allocated to the school

134

Total number of students enrolled at the school

2,012

Identify the number of instructional staff who left the school during the 2020-21 school year.

6

Identify the number of instructional staff who joined the school during the 2021-22 school year.

14

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

| Indicator | Grade Level | | | | | | | | | | | | | Total |
|--|-------------|---|---|---|---|---|---|---|---|-----|-----|-----|-----|-------|
| | K | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | |
| Number of students enrolled | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 432 | 532 | 513 | 527 | 2004 |
| Attendance below 90 percent | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 19 | 30 | 30 | 147 | 226 |
| One or more suspensions | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 57 | 57 | 63 | 44 | 221 |
| Course failure in ELA | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 81 | 136 | 73 | 108 | 398 |

Grade Level Data Review - Progress Monitoring Assessments

Provide the progress monitoring tool(s) by grade level used to compile the below data.

Progress monitoring also allows teachers and administrators to track students' academic progress or growth across the entire school year. Teachers use student performance data to continually evaluate the effectiveness of their teaching and make more informed instructional decisions. If the rate at which a particular student is learning seems insufficient, the teacher can adjust instruction. Various reports will be used to monitor and support student learning: District Diagnostics for Fall, Winter, and Spring.

| Grade 9 | | | | |
|-----------------------|----------------------------|------|--------|--------|

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

There was a drop in all tested content areas, with the exception of Biology (increased 2% points from 60% to 62%) and in all grade levels 9-12. ELA and United States History had the least percentile of students decline in performance. ELA dropped 3% points from 59% to 56%, while United States History decreased by 6% from 68% to 62%. The ELA and Reading departments worked collaboratively to increase comprehension and build capacity with the reading and writing processes. This contributed to a lower percentage in the decrease of student performance on FSA and EOC's in ELA, United States History and Biology.

For ELL and SWD, they fell well below the required 41% proficiency. ELL scored 37% FPPI across measured subcategories. The SWD subgroup scored significantly lower at 31% for FPPI across measured subcategories.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The Algebra EOC and the Geometry EOC demonstrate the greatest need for improvement. Algebra had a 25% rate of proficiency with students scoring a Level 3 or above, while Geometry had 29% of the students assessed performing at a Level 3 or higher. The mathematics department for tested content areas had the largest decrease in student performance with an overall drop of 9% from 50% to 41% achieving the required score to pass the respective End-of-Course assessment in each content.

This index for ELL and SWD respectively at 37% and 31% is based on the student's performance on the FSA, EOC, ACCESS assessments, graduation rates, and acceleration rates for the site.

According to these performance indicators, the ELL and SWD subgroups have been identified as Targeted Support and Intervention (TSI) for ESSA reporting in FY19.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

The most significant contributing factor was the loss of in-person instructional class time. Due to Covid closing the 2020 SY with no record of assessments, the SY21 year was fractured with the implementation of 'blended instruction'. Some students were not motivated to engage and virtual lessons were not as effective as in-class instructional time.

The site has been given a full-time Algebra resource teacher to work closely with the Algebra team while we are focusing on Liberal Arts mathematics with a second part-time resource teacher to more fully prepare the students for Algebra and for success on the Spring administration of the EOC. Geometry is meeting weekly and working collaboratively to enrich instruction. ESSA subgroup data, for the ELL and SWD, indicate that the greatest needs of improvement need to be made in the areas of ELA for FSA, including Reading and Writing, Algebra 1 EOC, Biology EOC, and USH EOC. When looking at our subgroup data in FY19, the lowest scores in ELA achievement at only 15% for the SWD subgroup. along. There was growth with our ELL students in ELA Achievement from FY2018-2019 with an increase from 13% to 24%. Our SWD students did drop 5% in FY19. Our Math diagnostics in FY20 showed a concern within our students without a math graduation/ concordance requirement. One of the contributing factors was the lack of differentiated instruction across all grade levels and content areas.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Biology led the site with an increase in their proficiency levels by 2%. The Biology End-of-Course assessment was successful for the site. SWD gained +8 points in Sciences and ELL remained steady at 29%. SWD +13 points in SS and ELL increased +6 points.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Focusing on reading and writing comprehension site-wide and with all four grade levels provided opportunities for acceleration and enrichment. These higher-level courses led to a higher level of comprehension and allowed for the students to perform successfully. The SWD and ELL populations were given enrichment and acceleration opportunities. There was targeted support on-site daily from an intervention teacher with ELL expertise.

What strategies will need to be implemented in order to accelerate learning?

Acceleration is taking place with the implementation of multiple AICE (Cambridge) courses being added to our course selections for each grade level. The goal is to have all students achieve exposure in a college-level course before graduation. SWD and ELL subcategories are receiving exposure to critical content in all areas and all concentrations. Biology has included the Reading and ELA stems from Integration of Knowledge and Craft and Structure Reporting Categories in order to further support the need for comprehensive reading intervention.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Teachers will continue to attend Professional Development in teaching AICE courses. Teachers will attend biweekly Professional Learning Communities and Common Planning in order to share out resources and to analyze the results of common formative and district assessments. The ELA department is given full-day planning once each nine weeks in order to work together to create Unit Planners, lesson plans, instructional activities and to share best practices used in different classes. There will be two full-day Professional Development days scheduled to further focus on site-wide strategies and practices that will best meet the needs of every learner. An instructional specialist with targeted ELL and SWD subcategories expertise is on-site to provide support and professional development in every content area for the year. Additionally the District ESOL Instructional Specialist provides professional coaching and instructional support to individual

teachers. A district Algebra Specialist is supporting the Algebra teachers with weekly classroom and professional development to increase student performance.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

The site has already started the after-school SY22 tutorial and is completing during the day pull-out tutorial in addition. After-school tutorials will be offered for all tested content areas including ACT and SAT. The pull-out tutorial taking place twice weekly will consist of five separate cycles that will run from the middle of September 2021, through the first week of April 2022. The pull-out tutorial will target students that have been identified as most ready to meet proficiency for a required content assessment or for graduation requirements. There are 7 scheduled Saturday tutorials that will be offered monthly and allow for further enrichment and reteaching for all tested content areas and for all End-of-Course assessments as well.

Writing boot camps will be held starting in November to target the writing process and to help the students writing scores increase to meet the 7 points necessary to successfully pass the Writing FSA. An instructional specialist with targeted ELL and SWD subcategories expertise is on-site to provide support and professional development in every content area for the year. Additionally the District ESOL Instructional Specialist provides professional coaching and instructional support to individual teachers. A district Algebra Specialist is supporting the Algebra teachers with weekly classroom and professional development to increase student performance.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Student Engagement

| | |
|---|---|
| Area of Focus Description and Rationale: | <p>Increase high school graduation rate (Strategic Plan LTO 3) by increasing achievement in all students including ELL and SWD in the areas of ELA and Mathematics. This area of focus will impact student learning by allowing additional instructional strategies that will be used to engage our various subgroups within our school not achieving success. ELA and Mathematics are two areas where there is a bigger achievement gap for many of our student populations.</p> <p>For both the ELL and SWD subcategories identified there is a support educator and a District Specialist on-site daily/weekly to provide classroom and instructional support.</p> |
| Measurable Outcome: | <p>ELA Achievement for SWD will increase from 15 points to 20% for a +5 point increase and ELL will improve by from 24% to 29%. ELA LG Lowest 25% with SWD will increase from 19% to 25%, and ELL LG Lowest 25% will increase from 32% to 37%.</p> |
| Monitoring: | <p>The Area of Focus will be monitored by FSQ's, USA's, Diagnostics, IXL, Study Island, Algebra Nation, and ACHIEVE 3000.</p> |
| Person responsible for monitoring outcome: | <p>Sandra Edwards (sandra.edwards@palmbeachschools.org)</p> |
| Evidence-based Strategy: | <ol style="list-style-type: none"> 1. Data folders (digital paper) for all students including SWD and ELL students. 2. Provide yearlong support all students including SWD and ELL identified in the lowest 25% by our intervention specialist along with all classroom teachers. 3. Standard-based lessons will be developed during the PLC's. Departments will develop standards-based bellringers to be utilized with students. 4. Math, ELA, Reading, Biology, and US History teachers will collaborate through PLC's. 5. In-school/after school tutorials to support closing the achievement gaps. 6. FSQ/USA assessments will be administered and monitored for student progress routinely. 7. Adaptive Technology in ELA, Math, Biology classroom will be utilized to assist students along with ACHIEVE 3000 for ELL students. 8. Utilize AVID strategies to provide rigorous, engaging instruction to students. All content area teachers will use vocabulary academic strategies to increase language acquisition for all students. |
| Rationale for Evidence-based Strategy: | <ol style="list-style-type: none"> 1. Students will have data portfolios (digital or paper) to help monitor their own progress. 2. Support personnel will push into classrooms to support students based upon data and teacher recommendations. 3. Standard-based bell ringers will be used to offer additional practice on tested standards. Standard-based lessons will be used daily to meet the needs of our diverse learners. 4. Teachers will meet bimonthly with Dr. Wallace, SSCC, and department specific administrator to utilize PLC's to focus on data analysis and research-based practices to increase student achievement. 5. Based upon the results of FSQ, USA assessments, tutorial groups will be used during the day and/or after school to receive additional support. 6. To assist, reteach, enrich, and assess students. 7. Teachers will use IXL, Study Island, Algebra Nation, and ACHIEVE 3000 (ELL students). 8. AVID strategies will provide best practices and improve language academic skills. |

Action Steps to Implement

1. Ensure teachers are utilizing the data portfolios in each classroom. Each teacher will analyze data from classroom and other sources and put in these data folders which can be

virtual or paper. The teachers will utilize data chats with their students on a routine basis (at least every month) in which the administration will monitor that this process is happening.

Person Responsible Chelsea Williams (chelsea.l.williams@palmbeachschools.org)

2. Support personnel and those assigned to supporting our students will review and analyze data based upon classroom performance, assessment data, and other data points. The support personnel will push into classrooms (google meets or in-person) to support these students based upon data and teacher recommendations. The administration will match the teachers to the students and will be monitored by walkthroughs by the administration.

Person Responsible Sandra Edwards (sandra.edwards@palmbeachschools.org)

3. During the PLC's with the School Culture Coordinator, teachers will create standard-based bellringers that will be utilized to offer additional practice on tested standards. All teachers will create standard-based lessons daily to ensure that they are meeting the needs of the diverse learners in their classes. Single School Culture Coordinator is providing opportunities for teachers to share best practices and assists teachers with analyzing data for all of their classes to increase student achievement.

Person Responsible Marcy Wallace (marcy.wallace@palmbeachschools.org)

4. Ensuring the attendance of teachers to appropriate meetings (PLC, Department, faculty, etc) by the administration where professional development opportunities will be offered both virtually and/or face-to-face to ensure teachers have the necessary tools to be successful in both virtual learning and in the classroom. Teachers will be able to share best practices during these meeting times.

Person Responsible Marcy Wallace (marcy.wallace@palmbeachschools.org)

5. Tutorials are ongoing and targeted students are chosen by data specific to the content. Fall diagnostics, FSQ, USA, PBPA, and other data points from adaptive technology will be utilized to identify the appropriate subgroups to target either virtually or face-to-face to ensure student achievement. Tutorials will begin determined by administration and will be ongoing throughout that specified time period. Teachers will be chosen based upon their availability to assist with these targeted tutorials.

Person Responsible Marcy Wallace (marcy.wallace@palmbeachschools.org)

6. FSQ/USA assessments will be administered and monitored for student progress routinely. Each tested subject area will be required to administer these district assessments according to the scope and sequence set by the district in Blender. The administration and leadership team will monitor that they are being completed and will analyze the results in their weekly meetings as they are completed.

Person Responsible Marcy Wallace (marcy.wallace@palmbeachschools.org)

7. Monitoring the fidelity of technology programs among ELA, Reading, Math, & Biology classrooms will assist students in learning the necessary standards tested on their state assessment. ELA and Reading will use IXL and Reading Plus, Math will use IXL, Biology will use Study Island. Administration will monitor the fidelity of the usage of these programs on a biweekly basis.

Person Responsible Chelsea Williams (chelsea.l.williams@palmbeachschools.org)

8. AVID strategies will provide best practices and improve language academic skills. The AVID Site Team along with the AVID elective teacher will share AVID strategies with teachers to assist them in using interactive and engaging strategies to help improve reading comprehension and language academic skills especially among our targeted ELL and SWD subgroups. Administration will monitor the use of AVID strategies by observation in walkthroughs or in their lesson plan books when they are collected routinely by them.

Person Responsible Robert Slydell (robert.slydell@palmbeachschools.org)

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

When looking at SafeSchoolsforAlex.org we see our school ranks 170 out of 505, Low when compared to all high schools statewide. We reported 2.2 incidents per 100 students. This rating was for a total enrollment of 2,211, with 49 incidents for 2019-2020 school year. When looking at the ranking details the incidents rated high are violent incidents. Our issues fall under Fighting, Physical Attack, Sexual Harassment, Threat or Intimidation, 27 incidents. We had two property incidents and ranked Low for Drug/Public Order incidents 135/505 for the State and for the County. The incidents we ranked for are Disruption on Campus, Tobacco, Trespassing, Other Major Offenses, Drug sale or distribution- excluding alcohol, and drug use or possession, except alcohol. Our total reported suspension ranked middle. We had 160 in-school suspensions and 146 out of school suspensions in 2019-2020. To support our students and make an impact on incidents we will integrate a Single School Culture by sharing our Universal Guidelines for Success and communicating these expectations to parents via student handbook, and monitoring SwPBS through data and AVID strategies, lessons and resources. We will provide mentoring of our male students to support and foster positive relationships with all. In the International Baccalaureate program, IB learners strive to become inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, and balanced and reflective individuals. We have corrective behavior forms for teachers to fill out as first interventions to decrease the number of discipline referrals, in school suspensions, and out of school suspensions. We have a Behavior Coach on campus to facilitate Restorative Justice and student reflection. We have a Behavior Health Professional on campus to meet with students who need additional interventions and can refer them to outside agencies also on campus.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Our school integrates Single School Culture by sharing our Universal Guidelines for Success and communicating these expectations to parents via student protocols, and monitoring SwPBS through data. Our SWPBS Team conducted a behavior matrix and posted expectation posters throughout the school, as well as kid friendly videos. In alignment, to school board 2.09 and Florida State statute 1003.42 our school highlights multicultural diversity within the curriculum and the arts. We also have parent/family multicultural nights.

Our PBIS universal school guidelines and matrix is evident through specific practices and students will be responsible to abide by the guides to be a Safe, Optimistic, Achieving, and Respectful student. A single school culture of excellence will also be achieved by using our advisory sessions throughout the year.

Suite 360 is the curriculum that the school district selected to implement the five-hour state mandated instruction

related to youth mental health and awareness. Throughout the suite 360 curriculum, students participated in lessons on the following topics: Mental Health Awareness and Assistance, Healthy Coping Skills for Teens, #STOPTHESTIGMA- The Truth About Mental Health Conditions, Supporting Someone with a Mental Health Condition, Prevention of Substance Misuse, Child Trafficking, and Awareness of Resources and the Process of Assessing Treatment. The School Behavioral Health Professional (SBHP) supports the behavioral and mental health of students. The SBHP position started for the 2019-2020 school year as part of the Marjory Stoneman Douglas High School Public Safety Act to have more mental health professionals in schools and is funded through local referendum dollars. All schools in Palm Beach County have a SBHP.

Advancement Via Individual Determination's (AVID) mission is to close the achievement gap by preparing all students for college readiness and success in a global society. It is designed to ensure all students, especially the least served students who are in the academic middle to succeed in a rigorous curriculum, complete a rigorous college preparatory path, enter mainstream activities of the school, enroll in four-year colleges, and become educated and responsible participants and leaders in their communities and our society.

We promote a Single School Culture for Academics and Behavior by implementing our Universal Guidelines for Success, Single School Culture Student Expectation Scripts, Grade Level Assemblies, SwPBS, Family Curriculum and Education Nights, Family Workshops, and SAC meetings. The effectiveness of these efforts on student achievement and student discipline are monitored using data from Performance Matters and the Educational Data Warehouse.

Our ESOL Coordinator and ESOL School Counselor work in conjunction with the District's Multicultural Department to ensure the implementation with fidelity of programs and services designed to improve the outcomes of our English Language Learners.

Safe and Drug Free Schools initiatives such as Red Ribbon Week and other programs that support prevention of violence in and around the school are implemented on an ongoing basis.

We have a co-located therapist, behavior health specialist, and a behavior coach on campus. campus, along with a co-located therapist, behavioral health specialist, and case manager. These staff and programs work in concert to prevent the use of alcohol, tobacco, drugs, and foster a safe, drug free learning environment supporting student wellness, student achievement, and appreciation for diversity.

The school nurse provides support and nutrition information for those students who have food allergies or have been diagnosed with diabetes.

Teaming is leveraged across all school staff to ensure the effective implementation of school initiatives and other programs, including weekly PLCs, weekly Administrative Collaboration, monthly Instructional Leadership Team meetings, monthly Wellness / Safety Meetings - to name a few.

Monitoring of attendance, including late drop-offs and early pick-ups by our teachers, the councilors, and the SBT is key to building a positive culture. To address the issue, the school-based team currently meets to discuss truancy with students and families. When appropriate, attendance contracts are signed and/or a home visit is made. On a daily basis, robo call is used to call the homes of students that are absent.

School-wide Positive Behavior is used to encourage students' academic and behavioral success. To celebrate that success students, receive brag tags, certificates, individual reward tickets, and incentives. To highlight teachers' contributions to students' success, the School-wide Positive Behavior Team will provide incentives to teachers throughout the year for going above and beyond.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Administration: Promoting collaboration among staff members, with proper focus and leadership, creates a positive environment in which teachers can share best practices that are responsive to student needs. Thus, principals can positively influence their school culture with strategies that encourage collaboration.

School Counselors: Supports a positive culture and environment through lessons the lesson they teach that are unique and different from academic instruction. Through the small group interactions and experience for students, our councilor ensure students feel safe, welcome, and included.

Teachers: incorporate SwPBS; a framework that brings together school communities to develop positive, safe, supportive learning cultures. SWPBS assists schools to improve social, emotional, behavioral and academic outcomes for children and young people. to ensure all students have equitable and equal opportunity to learn in a positive environment. Tier 1: Universal Prevention (All) Tier 1 supports serve as the foundation for behavior and academics. Tier 2: Targeted Prevention (Some) support focuses on improving specific skill deficits students have. Tier 3: Intensive, Individualized Prevention (Few).

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
