Demographics

Principal: Jessica Mastromatto

Start Date for this Principal: 7/29/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School 9-12
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	90%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities English Language Learners Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (55%) 2017-18: B (57%) 2016-17: B (58%)
2019-20 School Improvement (SI) Information*	
SI Region	Northeast
Regional Executive Director	Cassandra Brusca
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Mission

Provide an equitable, high quality academic and career-technical education, and support the development of our students' work ethic, personal responsibility, and respect for others.

Provide the school's vision statement.

Vision

All students will graduate with an appreciation for life-long learning, prepared to enter the work force and/or pursue higher education.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Mastromatto, Jessica	Principal	
Akande, Christine	Assistant Principal	
Dixon, Karen	School Counselor	Serves on leadership team, all responsibilities of a school counselor
boddie, denise	Teacher, K-12	PDF--Provides support for new teachers and maintains all records for professional development done in house.

Demographic Information

Principal start date

Thursday 7/29/2021, Jessica Mastromatto

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

3

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

5

Total number of teacher positions allocated to the school

61

Total number of students enrolled at the school

1,273

Identify the number of instructional staff who left the school during the 2020-21 school year.

6

Identify the number of instructional staff who joined the school during the 2021-22 school year.

6

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level												Total	
	K	1	2	3	4	5	6	7	8	9	10	11		12
Number of students enrolled	0	0	0	0	0	0	0	0	0	328	343	289	229	1189
Attendance below 90 percent	0	0	0	0	0	0	0	0	0	53	79	78	50	260
One or more suspensions	0	0	0	0	0	0	0	0	0	27	79	46	40	192
Course failure in ELA	0	0	0	0	0	0	0	0	0	11	76	46	40	173
Course failure in Math	0	0	0	0	0	0	0	0	0	14	41	36	22	113
Level 1 on 2019 statewide FSA ELA assessment	0	0	0	0	0	0	0	0	0	67	80	51	46	244

Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Math continues to be our lowest performing area. We are trending downward in every area. Covid may have played a role in this with increased absenteeism by both students and teachers.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Math, both algebra and geometry need most improvement. We need our students to see math every day.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

New action would be two positions to be added to afford double-blocking all math, while not blowing up class sizes in upper level math classes. Instructional coach who can support teachers' instruction would also be beneficial. tutors to help students fill gaps and master new standards would also be incredibly beneficial.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

No areas demonstrated improvement.

What were the contributing factors to this improvement? What new actions did your school take in this area?

No improvements were made.

What strategies will need to be implemented in order to accelerate learning?

Implementing school-wide emphasis on literacy. All elective teachers will have students read 15 minutes per period. Instructional coach to be able to work with teachers to improve practices. Small group and individual interventions for students until they gain mastery. Bi-weekly progress monitoring using common assessments.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

All teachers will receive training in using the data system Performance Matters to be able to input their assessments, pull the data, and figure out which students need help and on what based on that data to be able to do small groups within classrooms. These will be monthly. Culturally responsive strategies training for teachers to help increase time on task and to elevate expectations for all students' learning at high levels. Instructional coach added to provide support to teachers to improve instruction and student outcomes. Hope to use funds to pay teachers on their planning periods to conduct small group and individual instruction to students.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Add instructional coach to provide support to teachers by way of instructional techniques and helping teachers evaluate data, determine specific students' needs and how to address those in small and individual groups.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus
Description and Rationale: Proficiency in Algebra and Geometry dropped to 14% in both areas.

Measurable Outcome: Proficiency in Algebra and Geometry will increase by 15% on the EOCs Spring 2022.

Monitoring: Bi-weekly/Unit common assessments that will be used to determine next steps before the district PMAs. District PMA data will be used to determine common assessment and next step actions' effectiveness.

Person responsible for monitoring outcome: Christine Akande (bickslerc@duvalschools.org)

Evidence-based Strategy: Using standards-based curriculum and common assessments to evaluate where students still need work and remediating those in small group and individual sessions within the school day. The math Title 1 teacher will implement this in class.

Rationale for Evidence-based Strategy: Using this strategy hones in on immediate student needs on specific standard deficits.

Action Steps to Implement

PD on using performance matters for the common assessments.

Person Responsible Christine Akande (bickslerc@duvalschools.org)

Using common planning time to study results and determine which students need remediation/intervention before next CA.

Person Responsible Christine Akande (bickslerc@duvalschools.org)

Implement small group and individual instruction using Title 1 instructor in Math classes.

Person Responsible Christine Akande (bickslerc@duvalschools.org)

Utilize part-time tutor to work with students in small groups on standards-based Algebra 1 skills.

Person Responsible Christine Akande (bickslerc@duvalschools.org)

#2. Instructional Practice specifically relating to ELA

Area of Focus
Description and Rationale: ELA proficiency and growth decreased from 2019.

Measurable Outcome: ELA proficiency will increase to 40% on the 2022 Spring FSA.

Monitoring: Standards-based bi-weekly common assessments will be given to students and data will be used to determine next steps. District PMA data will be used to determine whether common assessments and steps taken are working to increase proficiency.

Person responsible for monitoring outcome: Jessica Mastromatto (parrishj@duvalschools.org)

Evidence-based Strategy: Using standards-based instruction and common assessment data to determine students needs and interventions.

Rationale for Evidence-based Strategy: Teachers need to evaluate frequently which students are moving and which students are not to be able to make adjustments early enough on to impact growth.

Action Steps to Implement

Develop common assessments with teachers.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Study results from common assessments , plan and implement small group/individual interventions for specific students identified.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Utilize Title 1 reading instructor to implement small group and individual interventions for students showing lack of progress.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Utilize full-time para-professional to work with teachers and students in ECE and Auto Academies on literacy skills.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

#3. Instructional Practice specifically relating to Science

Area of Focus

Description and Rationale: Biology proficiency decreased.

Measurable Outcome: Biology proficiency will increase by 15% on the spring Bio EOC.

Monitoring: Standards-based bi weekly common assessments will be used to determine progress and lack of progress.

Person responsible for monitoring outcome: Jessica Mastromatto (parrishj@duvalschools.org)

Evidence-based Strategy: Using standards-based instruction and common assessment data to determine students needs and interventions.

Rationale for Evidence-based Strategy: Teachers need to evaluate frequently which students are moving and which students are not to be able to make adjustments early enough on to impact growth.

Action Steps to Implement

Utilize Title 1 science teachers to help develop and implement use of common assessments in biology.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Study and evaluate results of CAs to determine which students need interventions/small group instruction.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Help teachers develop and implement the interventions to students who are showing lack of progress following each CA.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Utilize Title 1 supply funds to ensure teachers and students are equipped with necessary supplies.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

#4. Culture & Environment specifically relating to Equity & Diversity

Area of Focus Description and Rationale: Only 54% of our students are earning their industry certs before graduating, and black students perform 20% points less than white counterparts on English and math FSA and EOC exams and the gap widens for PSR tests, we must do better to prepare minority students for post-secondary options.

Measurable Outcome: Industry certifications passed will increase 5% this year and each year upcoming. The achievement gap between white and black students will decrease by 10% with an increase in white student's performance as well by 5%:
 ELA proficiency for white students will increase to 53% and black student proficiency to 43%
 Math proficiency for white students will increase to 54% and black student proficiency to 44%

Monitoring: EEAs, Common Assessment Data, and PMA data will be monitored by subgroups in PLCs.

Person responsible for monitoring outcome: Jessica Mastromatto (parrishj@duvalschools.org)

Evidence-based Strategy: Small-group instruction focused on standards; achieve articles for lower level reading students to increase reading levels; delta math in math; reading 15 minutes of every CTE and elective class.

Rationale for Evidence-based Strategy: Each of the strategies will hone in on gaps that need to be closed in academic areas and/or build on strengths.
 Resources and criteria: Need to accelerate progress of these students, so regular classroom or unfocused tutoring will not close the gaps. Targeted small group instruction and working in programs regularly that adjust levels as the student progresses will accelerate the learning.

Action Steps to Implement

Identify students that will help close the racial gaps in reading and math.

Person Responsible Jessica Mastromatto (parrishj@duvalschools.org)

Provide the identified students to teachers in the form of their seating charts so that they can easily pull these students into small groups and assign appropriate achieve and delta math lessons.

Person Responsible Christine Akande (bickslerc@duvalschools.org)

Use EEA, CA, and PMA data to evaluate growth of the identified students in leadership team meetings and in PLCs.

Person Responsible [no one identified]

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The school's discipline data in comparison to the state indicates a need to reduce fighting and overall suspensions. Ranking in the very high category of all high schools in Florida for violent incidences indicates a dire need to evaluate interventions to avoid such behavior on campus. Weekly discipline data will be discussed with leadership, along with strategies to help reduce incidences of fighting. The dean of students, counselors, and security along with admin will identify areas of concern and develop monitoring plans that help reduce the incidences. 1) Identify times and areas of student incidences and ensure monitored by an adult. 2) Implement teens offering peer support to help reduce anxiety and concerns of students 3) Utilize restorative justice practices prior to escalation of a conflict 4) Use monthly small group discussions with students to ensure students' concerns are being heard and addressed.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

- Culturally responsive professional development for teachers and staff.
- De-escalation professional development for teachers.
- Utilize restorative justice practices, including teen court and teens offering peer support
- Culture sensitivity small group discussions with students
- Address individual academic needs of students
- Developing five and ten year plans for students, revisiting annually
- Celebrating events throughout the year, ie honor roll, diversity, scholarship, college acceptances, career offers
- Team building within academies

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

- PTSA generates funds through various fund-raisers to provide scholarships to our seniors.
- Academy Advisory Boards with business, community, and faith-based partners guide planning events and experiences for academy students
- School Advisory Board helps with decision-making and planning for student engagement and instruction
- Students serve as school ambassadors

Student government plans and implements fun events and service opportunities for students
Academy teachers plan events and experiences for students above and beyond the school day quarterly
