School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

A Schoolwide Improvement Plan (SIP) is a requirement for Comprehensive Support and Improvement (CSI) ungraded schools pursuant to 1001.42 F.S. and the Every Student Succeeds Act (ESSA) and for DJJ schools

receiving a rating of Unsatisfactory pursuant to Sections 1003.51 and 1003.52, F.S. and Rule 6A-1.099813, F.A.C.

CSI schools can be designated as such in 2 ways:

1. Have a graduation of 67% or lower; or
2. Have an overall Federal Index below 41%.

DJJ Unsatisfactory Ratings are based on percentages by program type:

- Prevention and Intervention: 0%-50%
- Nonsecure Programs: 0%-59%
- Secure Programs: 0%-53%

SIP Plans for Ungraded CSI schools and DJJ schools receiving an Unsatisfactory rating must be approved by the district and reviewed by the state.

Purpose and Outline of the SIP

The School Improvement Plan (SIP) provides schools and Local Educational Agencies (LEAs) the opportunity to identify the academic and priority goals along with strategies for each school. School leadership teams may refine their SIP annually to define their school's academic and priority goals to increase student achievement.

Schools and LEAs are strongly encouraged to collaborate in the development and implementation of this plan.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Our mission is to provide an environment that will maximize the potential of our students by providing challenging, realistic and functional goals in the areas of:

Academic Growth
Communication
Independent Functioning
Social Skills

We strive to cultivate awareness and acceptance and to provide a smooth transition into society that will improve the quality of life for students and their families.

Provide the school's vision statement.

“Learning to Live Life and Live it Abundantly”

Briefly discuss the population unique to your school and the specific supports provided to meet the mission and vision.

Mt. Hermon Exceptional Student Center serves students with severe disabilities. We provide students with specialized instructional, social and emotional supports. We work to provide skills that will enhance living functions for our student in a professional and caring environment

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.:

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

Reflect on the Areas of Focus from the previous school year. What progress monitoring was in place for low performing ESSA subgroups related to the Areas of Focus?

IEP Progress Monitoring
Baseline and PMA's

Classroom Observations
Datafolio Tracking tools

Based on ESSA subgroup progress monitoring, which data component showed the most improvement? What new actions did your school take in this area?

Most components non-measurable. Transitioning from FSAA to datafolio to measure future incremental gains.

What area is in the greatest need of improvement? What specific component of this area is most problematic? What is your basis (data, progress monitoring) for this conclusion?

Transitioning from FSAA to datafolio to measure future incremental gains.

What trends emerge across grade levels, subgroups and core content areas?

Most components non-measurable. Transitioning from FSAA to datafolio to measure future incremental gains.

What strategies need to be implemented in order to accelerate learning?

Strong rituals and routines. Appropriate use of assistive technology and consistent therapies

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Collaborative Planning**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

20 % of of grade level planning groups at Mt. Herman has shown marginal evidence of collaborative lesson planning. A review of surveys, exit slips and lesson plan products have shown limited understanding of lesson development in accordance with CAST domain 1. This has impacted student learning by limiting student exposure to standards.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

75% of Mt. Herman grade level groups will show evidence of collaborative lesson planning. Evidence of this increase will be shown by an increase in teacher ratings in CAST domain 1 and will also yield lesson plans that uniformly address the standards, contain systematic instruction, and differentiated to individual students.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Classroom walkthroughs and Administratively lead PLC

Person responsible for monitoring outcome:

Moses Williams (williamsm4@duvalschools.org)

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Implementation of facilitated common planning meetings will be held at minimum once a week. During this time we will review CAST domain 1 rubric, Quality Program Indicators, the lesson plan template, and walk-through rubric.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/ criteria used for selecting this strategy.

Teachers and classroom staff need to collaborate on classroom instruction to ensure all standards are being addressed. This will lead to improved learning gains for all students.

Action Steps to Implement:

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Provide time for faculty and staff to plan for areas of responsibility. Monitor effective use of this time.

Person Responsible

Joseph Mcdomick (mcdomickj@duvalschools.org)

Monitoring ESSA Impact:

If this Area of Focus is not related to one or more ESSA subgroups, please describe the process for progress monitoring the impact of the Area of Focus as it relates to all ESSA subgroups not meeting the 41% threshold according to the Federal Index.

Datafolio monitoring tools provided greater indicators for incremental gains.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Mt. Herman hosts several governing bodies to encourage a collaborative positive work environment. Below is a list of a few of these groups. All of these groups are designed to encourage collaboration relating to school improvement and overall success.
