Demographics

Principal: James Presley

Start Date for this Principal: 7/1/2021

2021-22 Status (per MSID File)	Active
School Function (per accountability file)	Alternative
School Type and Grades Served (per MSID File)	Combination School 1-12
Primary Service Type (per MSID File)	Alternative Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	
School Improvement Rating History	2021-22: Maintaining 2020-21: No Rating 2018-19: Unsatisfactory 2017-18: Maintaining 2016-17: Maintaining
DJJ Accountability Rating	2023-24: No Rating

School Board Approval

This plan is pending approval by the Sumter County School Board.

SIP Authority

A Schoolwide Improvement Plan (SIP) is a requirement for Comprehensive Support and Improvement (CSI) ungraded schools pursuant to 1001.42 F.S. and the Every Student Succeeds Act (ESSA) and for DJJ schools

receiving a rating of Unsatisfactory pursuant to Sections 1003.51 and 1003.52, F.S. and Rule 6A-1.099813, F.A.C.

CSI schools can be designated as such in 2 ways:

1. Have a graduation of 67% or lower; or
2. Have an overall Federal Index below 41%.

DJJ Unsatisfactory Ratings are based on percentages by program type:

- Prevention and Intervention: 0%-50%
- Nonsecure Programs: 0%-59%
- Secure Programs: 0%-53%

SIP Plans for Ungraded CSI schools and DJJ schools receiving an Unsatisfactory rating must be approved by the district and reviewed by the state.

Purpose and Outline of the SIP

The School Improvement Plan (SIP) provides schools and Local Educational Agencies (LEAs) the opportunity to identify the academic and priority goals along with strategies for each school. School leadership teams may refine their SIP annually to define their school's academic and priority goals to increase student achievement.

Schools and LEAs are strongly encouraged to collaborate in the development and implementation of this plan.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Sumter P.R.E.P. Academy is to establish a culture that fosters a safe learning environment for all levels of learners, provide instructional leadership for classroom instruction, and build positive relationships with all stakeholders.

Provide the school's vision statement.

"Keep Moving The Academic Needle"

Briefly discuss the population unique to your school and the specific supports provided to meet the mission and vision.

Students are assigned to Sumter Prep Academy for the following programs- academic placement, alternate to expulsion, disciplinary program, or drop out-retrieval. Sumter Prep Academy is allocated for 100 students. Students are assigned to Sumter Prep Academy for either a semester or one school year. We provide services to students from the three secondary zoned schools for Sumter County. Sumter Prep Academy utilizes a variety of supports geared towards meeting the diverse needs of our students. In the area of specialized instruction, we have a two paraprofessionals designated for every teacher that assist in meeting academic and behavior needs. Sumter Prep Academy provides a flexible master schedule that is designed to meet academic needs via a virtual hold placement, or designated credit recovery courses. A school-wide P.B.I.S. program is implemented to address each of the three tiers of the MTSS pyramid, The majority of the students at Sumter Prep Academy are recognized weekly for demonstrating positive behaviors in all school settings. To meet the mental health needs of our students, Sumter Prep Academy utilizes these counseling programs that provide services at school or at home. These three agencies provide mental health counseling to our students- Potentials and Children's Advocacy Center offer school based counseling. Additionally, C.C.O.S offers more intensive services to the students in both school and at home.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Presley, James	Principal	The school leadership team consists of the principal, assistant principal and guidance counselor. The role of each member is to establish and maintain a positive, effective learning environment, build a cohesive team, schedule classes within established guidelines to meet individual scholar needs, and supervise the support programs to enhance individual scholar education and development.
Farrow, Wayne	Assistant Principal	The school leadership team consists of the principal, assistant principal and guidance counselor. The role of each member is to establish and maintain a positive, effective learning environment, build a cohesive team, schedule classes within established guidelines to meet individual scholar needs, and supervise the support programs to enhance individual scholar education and development.
Gordon, Lorraine	School Counselor	The school leadership team consists of the principal, assistant principal and guidance counselor. The role of each member is to establish and maintain a positive, effective learning environment, build a cohesive team, schedule classes within established guidelines to meet individual scholar needs, and supervise the guidance program to enhance individual scholar education and development.

Is education provided through contract for educational services?

No

If yes, name of the contracted education provider.**Demographic Information****Principal start date**

Thursday 7/1/2021, James Presley

Number of teachers with professional teaching certificates?

5

Number of teachers with temporary teaching certificates?

2

Total number of teacher positions allocated to the school.

8

Total number of students enrolled at the school.

93

Identify the number of instructional staff who left the school during the 2020-21 school year.

4

Identify the number of instructional staff who joined the school during the 2021-22 school year.

4

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

Reflect on the Areas of Focus from the previous school year. What progress monitoring was in place for low performing ESSA subgroups related to the Areas of Focus?

The previous school year, we used a variety of tools for monitoring student progress. For students 4th through 8th, we used the i-Ready platform. USA Test Prep was used for students in grades 9th through 12th. In addition we used digital platforms for both virtual school and credit recovery. To strengthen the monitoring progress, a full-time lab manager was designated to track and report data to administration, guidance counselors, teachers, and teacher assistants on a weekly basis. Students that were progressing were recognized school-wide by administration and teachers. Students that were not making progress would meet with the guidance counselor to address academic concerns and make plans for needed interventions. Teachers would use data to develop learning walls and conduct data checks in ELA and Math to open up progress discussions with the students.

Based on ESSA subgroup progress monitoring, which data component showed the most improvement? What new actions did your school take in this area?

The area that has shown the most improvement is ELA. In ELA proficiency, the scores improved from 0% in 2018-2019 to 14% in 2021. In ELA, the school year 2018-2019 had 0% in learning gains. In 2021, that number improved to 36% of our students demonstrating learning gains. The actions that were implemented last year will continue. For the upcoming school year, our teachers will be meeting weekly with administration to review and discuss i-Ready data. In addition, this school year vocabulary will be the focus school-wide. Weekly vocabulary terms will be chosen by teacher committee and will be acknowledged in all classes. In addition to a weekly list, a vocabulary "word for the week" will also be emphasized in each classroom.

What area is in the greatest need of improvement? What specific component of this area is most problematic? What is your basis (data, progress monitoring) for this conclusion?

The greatest need of improvement is in the area of mathematics. For the school year 2020-2021 the proficiency score for math as 0%. The learning gains for the school year 2020-2021 were also 0%. The shortage of 6-12 certified math teachers has been most problematic in this area. This issue has left a schoolwide negative impact on our academic programs.

What trends emerge across grade levels, subgroups and core content areas?

The percentage of enrolled students that meet the following- level 1 students in ELA and math, the number of economically disadvantaged students, and the number of students that are one or more grade levels behind their zoned school cohort.

What strategies need to be implemented in order to accelerate learning?

An array of strategies to address this area are implemented and utilized school-wide. Each instructional class has "instruction" boards that are set up identically. Included in these boards will be daily lesson focus, short term learning goals, vocabulary, and essential questions. Frequent assessments, both formal and informal, will be given, with at least one assessment given daily. Lastly, "the ticket out the door" is a strategy that allows teachers to quickly evaluate lesson effectiveness.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Our teachers are offered a myriad of professional development opportunities that are offered by the school, the district, and/or state. These opportunities may be in-person trainings, virtual trainings, or through extended course studies. Sumter Prep Academy teachers get weekly i-Ready training provided at school by school based administration. Additionally, our staff receives frequent training in lesson planning, the teacher evaluation process, classroom/student management, and other educational concerns that may need to be addressed. The Sumter County School District Tech Services staff offer monthly technical training on a variety of topics ranging from data management, application of data, and use of virtual platforms. Throughout the year, trainings on Learning Focused Strategies are offered to assist teachers in planning and delivering quality lessons. Sumter County Schools Professional Development Department offers a catalog of webinars and virtual trainings. Lastly, Sumter County teachers have access to Florida Diagnostic and Learning Resources System (FDLRS) and the Multiagency Network for Students with Emotional and/or Behavioral Disabilities (SEDNET), which offer many training opportunities to assist teachers in providing the most effective education to a diverse population with diverse needs.

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Students with Disabilities**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

Students with disabilities make up 37% of the student population at Sumter PREP. The prior year's ESSA data has shown that these students met 15% of the federal index and have been below the 41% requirement ESSA calculations. Intensive remediation and supplemental support will lead to increased performance and overall success for students in their academic classes.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

100% of Students With Disabilities will show learning gains on the Mathematics state assessment.

100% of Students With Disabilities will show learning gains on the ELA state assessment.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Academic and behavior data reviews are conducted each 4 1/2 weeks. These data reviews include information provided by the threat assessment team, Acceleration Team, instructional and support staff. Data based decisions are made for individual students as well as student groups.

Person responsible for monitoring outcome:

[no one identified]

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Students will use i-Ready for ELA and Mathematics twice a week for 25 minutes each session. Teachers will instruct students on vocabulary through small group instructions to build background knowledge and assist with reading comprehension in both Mathematics and ELA. Data walls will be implemented in every classroom based on the baseline diagnostic assessment, Fall growth monitoring assessment, mid-year diagnostic, Spring growth monitoring and final diagnostic assessment to determine if the student's academic needle is positively progressing. Sumter PREP will use i-Ready for 5th grade through 12th grade for these diagnostics. This will provide students with goals needed for proficiency while also serving as a guide for instruction.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

We believe that the use of these strategies will allow the students at Sumter PREP to show increased achievement due to the supplemental support they will receive through i-Ready. This will be monitored through weekly graphing of scores that will allow students to monitor their own progress. By self-monitoring students will be able to see their progress as they advance through the program.

Students will be acknowledged for success through the Sumter PREP's PBIS program.

Action Steps to Implement:

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

No action steps were entered for this area of focus

Monitoring ESSA Impact:

If this Area of Focus is not related to one or more ESSA subgroups, please describe the process for progress monitoring the impact of the Area of Focus as it relates to all ESSA subgroups not meeting the 41% threshold according to the Federal Index.

#2. ESSA Subgroup specifically relating to Black/African-American**Area of Focus****Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

African American students account for approximately 31% of the scholar population at Sumter PREP. Prior year's ESSA data has shown that these students meet 0% of the federal index and have been below the 41% requirement ESSA calculations. Intensive remediation and supplement support will lead to increased performance and overall success for the students' academic classes.

Measurable**Outcome:**

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

100% of African American scholars will show learning gains on the ELA state assessment.

100% of African American scholars will show learning gains on the Mathematics state assessment.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Person responsible for monitoring outcome:

[no one identified]

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Students will use the computer program i-Ready for ELA and Mathematics twice a week for 25 minutes. Teachers will instruct scholars on vocabulary to build background knowledge and assist with reading comprehension in both Mathematics and ELA. Students are presented with grade-level material and are provided the necessary scaffolds to be able to find success with their ELA work. Students will be given tutoring time for core academic classes every Friday to improve academic performance. Data charts are implemented in every classroom based on the baseline diagnostic assessment, Fall growth monitoring, mid-year diagnostic assessment, Spring growth monitoring assessment and final diagnostic. Sumter PREP will use iReady for fifth through twelfth grade. These diagnostics will provide students with goals needed for proficiency while also serving as a guide for instruction.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

We believe that the use of these strategies will allow the students at Sumter PREP to show increased achievement due to the supplemental support they will receive through iReady programs.

This will be monitored through weekly graphing of scores that will allow students to monitor their own progress. By self-monitoring, students will be able to see their progress grow as they advance through the program. Students will be acknowledged for success through the Sumter PREP's PBIS program.

Action Steps to Implement:

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

No action steps were entered for this area of focus

Monitoring ESSA

Impact:

If this Area of Focus is not related to one or more ESSA subgroups, please describe the process for progress monitoring the impact of the Area of Focus as it relates to all ESSA subgroups not meeting the 41% threshold according to the Federal Index.

Academic and behavior data reviews are conducted each 4 1/2 weeks. These data reviews include information provided by the threat assessment team, Acceleration Team, instructional and support staff. Data based decisions are made for individual students as well as student groups.

#3. ESSA Subgroup specifically relating to Economically Disadvantaged**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

Economically Disadvantaged Students make up 94% of the student population of Sumter PREP Academy; this is the largest percentage of our student population. The ESSA data from 2018 shows that these students met

5% of the federal index and have been below the 41% requirement ESSA calculations. Sumter PREP aims to support these students when they are on campus as well at home with various resources we have received and donations from community stakeholders. These supports will combat barriers which cause our students to miss school, under-perform in academics, and also hinders their success in meeting requirements to return to their zoned school.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

At least 45% of economically disadvantage student students will show proficiency on the ELA state assessment.

At least 45% of economically disadvantage students will show proficiency in the Mathematics state assessment. At least 50% of economically disadvantage students will show proficiency on the End of Course

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Person responsible for monitoring outcome:

[no one identified]

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Students will use the computer program i-Ready for both ELA and Mathematics twice a week for 25 minutes. Teachers will instruct students on vocabulary to build background knowledge and assist with reading comprehension in both Mathematics and ELA. Sumter PREP will promote increased attendance through our Never Be Absent (N.B.A.) program which will rewards students for good attendance by qualifying for prizes through a partnership with the Orlando Magic. All teachers are trained to use Learning-Focused Strategies which incorporates instructional strategies for improving academic performance. This includes Activating Strategies, Lesson Activities and Assessment Prompts, Graphic Organizers, and a major assignment as an assessment. The different components of the LFS lesson plan allow for formative assessments to be built into each lesson activity. We continue to utilize Z space science units that will provide students with a life-like virtual reality science experience.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

We believe that the use of these strategies will allow the students at Sumter PREP to show increased achievement due to the supplemental supports they will receive through the i-Ready program. This will be monitored through weekly graphing of scores that will allow students to monitor their own progress. By self-monitoring, students will be able to see their progress grow as they advance through the program. Students will be acknowledged for success through the Sumter PREP's PBIS program. Sumter PREP will also consistently address barriers outside our environment to get the student more engaged in their academic success.

Action Steps to Implement:

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

No action steps were entered for this area of focus

Monitoring ESSA Impact:

If this Area of Focus is not related to one or more ESSA subgroups, please describe the process for progress monitoring the impact of the Area of Focus as it relates to all ESSA subgroups not meeting the 41% threshold according to the Federal Index.

Academic and behavior data reviews are conducted each 4 1/2 weeks. These data reviews include information provided by the threat assessment team, Acceleration Team, instructional and support staff. Data based decisions are made for individual students as well as student groups.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

All parents and students are invited to a school-wide orientation. During the orientation, the parents complete paperwork, meet the teachers, and receive a presentation in regards to the new transition plan that is in place to ensure student success once they return to their zoned school.

For the past eight years, Sumter PREP Academy has implemented a school-wide PBIS system that has received state, national and international recognition. This system's motto is "Striving To Create a Positive RAP". The system is built on a 3:1 ratio.:

1. We believe that a student should have an opportunity to be recognized three times as much for positive behaviors than written up for negative behaviors, weekly. Each week, the faculty, staff, bus drivers, and bus aides receive three positive green cards to recognize students for positive behaviors. The green cards are celebrated with students in our weekly PBIS Positive Friday Celebrations.

2. We believe that parents should have an opportunity for three times as many positive phone calls for positive behaviors than negative phone calls , weekly. Teachers call parents weekly to communicate positive behavior cards that their child received for positive behaviors that align with the school-wide

expectations and rules

3. We also believe that teachers should intervene three times for minor distraction instead of write ups for minor infractions. In short, the positive behaviors are recognized and celebrated three times as much as the negative behaviors are written up.

Each month we have a PBIS Breakfast Club for all students through-out the school year. Parents, district staff, zoned school liaisons, the PBS Breakfast business sponsor and any community leaders that are working with the student within the community are invited to attend and support the student with their successes and areas of concern. Sumter The breakfast club is used for monthly progress monitoring and support.

Sumter P.R.E.P. Academy collaborates with Sonny's "Kids with Character" program to recognize nine (9) scholars bi-weekly who are demonstrating positive behaviors that align with the school-wide expectations and rules. Sumter P.R.E.P. Academy recognizes scholars every Friday with positive behavior cards. In addition, scholars who received a positive behavior card are put in a drawing for a chance to go to Sonny's Real Pit Bar-B-Q for lunch to celebrate their positive behaviors.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Sumter PREP Academy has community sponsors who support the PBIS vision. These sponsors contribute financial support and attend school activities to encourage the students to "Strive for a Positive RAP". The School Advisory Committee meets quarterly to discuss and make decisions that results in opportunities for success for all students. The faculty, parents and students complete school climate surveys that provide information that allows for continuous improvement of the school. Lastly, the superintendent, school board, and district staff support the vision of the school.
