School Board Approval

This plan is pending approval by the Suwannee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

When observing 20-21 progress monitoring data, we are seeing a dipping trend in our 2nd grade students in ELA. These students were kindergarteners during the last 9 weeks of 2020. Many of them continue to struggle with phonics and phonemic awareness skills. Our fourth grade students are also trending downward. ELL and SWD continue to score below 41%.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

In 2019, our school was a 2nd and 3rd grade only school. We reconfigured to a Pk - 5th grade school beginning with the 20-21 school year. The students in 2018-2019 are not the same students we have at this time so it is difficult to use that data to determine the greatest need for improvement. We can, however, use the progress monitoring data to determine areas for improvement. This years' 2nd and 5th grade students have the greatest need for improvement in ELA.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Our 2nd grade students were in kindergarten during the 19-20 school year and missed the last 9 weeks of school. Our current 5th grade students were in the 3rd grade, so most of the tier 3 students may have been retained that year. This contributes to the large number of tier 3 students in 5th grade.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Our third grade FSA ELA showed the most improvement.

What were the contributing factors to this improvement? What new actions did your school take in this area?

We had a focus on each child. In our data room, we created cards with their data and identified subgroup(s). This data was monitored all year. We moved students according to their new levels.

What strategies will need to be implemented in order to accelerate learning?

We will continue the data cards, with a more detailed focus on the K-2 early stages of learning to read like phonics and phonemic awareness.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Our staff will be offered additional PD in the new reading series, HMH as well as Reading Horizons. We will monitor the implementation for fidelity.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

We will work to ensure that all staff are reading endorsed. The staff members that are reading endorsed will be working with small groups of tier 3 students.

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to English Language Learners

Area of Focus Description and Rationale: Based on data from our 2019 school report card, one of the two under performing subgroups is our English Language Learners (ELL).

Measurable Outcome: Increase proficiency of our ELL students to 41%.

Monitoring: We will utilize our Academic Coach/Support Facilitator and an ELL para for additional support for students that are striving and have a previous retention in reading and math; utilize a data room to monitor progress of ELL students; Other students will benefit from this monitoring, as well; monthly professional development that will provide strategies for teachers to use with ELL students.

Person responsible for monitoring outcome: [no one identified]

Evidence-based Strategy: We will utilize our Academic Coach/Support Facilitator and an ELL para for additional support for students that are striving and have a previous retention in reading and math; utilize a data room to monitor progress of ELL students; Other students will benefit from this monitoring, as well; monthly professional development that will provide strategies for teachers to use with ELL students.

Rationale for Evidence-based Strategy: Increase support for teachers and students. FSA data and progress monitoring data.

Action Steps to Implement

No action steps were entered for this area of focus

#2. ESSA Subgroup specifically relating to Students with Disabilities

Area of Focus
Description and Rationale: Increase academic achievement with a focus on students of diverse backgrounds and abilities. Based on data from our school report card, the second underperforming subgroup is our Students with Disabilities (SWD).

Measurable Outcome: Increase the proficiency of SWD to at least 41%.

Monitoring: Create a schedule for support facilitator and para. Meet monthly to monitor student data and student progress. Schedule monthly professional development with district coordinators/data coach.

Person responsible for monitoring outcome: Amy Boggus (amy.boggus@suwannee.k12.fl.us)

Evidence-based Strategy: We will utilize our Academic Coach/Support Facilitator and para for additional support for students that are striving and have a previous retention in reading and math; utilize a data room to monitor progress of SWD; monthly professional development for teachers to help provide strategies for SWD and striving students.

Rationale for Evidence-based Strategy: Based on data from our school report card, the second underperforming subgroup is our Students with Disabilities (SWD).

Action Steps to Implement

Create a schedule for support facilitator and para. Meet monthly to monitor student data and student progress. Schedule monthly professional development with district coordinators/data coach.

Person Responsible: Amy Boggus (amy.boggus@suwannee.k12.fl.us)

#3. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale: Based on our 2019 science and math data, the science proficiency was 43% and math proficiency was 45%.

Measurable Outcome: Increase science and math proficiency to at least 50%.

Monitoring: Create STEM schedules and Exploration Stations schedules. At the end of the year, a STEMposium will be held to showcase the work done in math and science.

Person responsible for monitoring outcome: Perry Davis (perry.davis@suwannee.k12.fl.us)

Evidence-based Strategy: We will implement weekly STEM labs in grades K-5 with an integration of ELA, math and science with technology; Exploration Stations will include a variety of technology and project-based learning that incorporates the engineering and design process.

Rationale for Evidence-based Strategy: Increase critical thinking skills in all students through the engineering and design process.

Action Steps to Implement

No action steps were entered for this area of focus

#4. Other specifically relating to discipline

Area of Focus Description and Rationale: Our current discipline data indicates that we have reduced discipline incidents over the last year, however, this is still an area where we want to continue to improve.

Measurable Outcome: Decrease the discipline incidents to promote a positive school environment.

Monitoring: We will monitor students in all areas of the school, as well as track discipline data to determine the prime time/area for discipline behavior.

Person responsible for monitoring outcome: Perry Davis (perry.davis@suwannee.k12.fl.us)

Evidence-based Strategy: Implementation of Safety Patrol for 4th and 5th grade students stationed at various places around the school each day. Consistently teaching and reinforcing positive behavioral expectations; PAWS (Positive Action with Support) will be implemented. Students are rewarded for positive behavior. Positive, proactive behavior supports, Class challenge at PE for Character Ed.

Rationale for Evidence-based Strategy: To create a positive school culture, discipline must be under control. We want all students to feel safe and loved in a structured environment.

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safe-schools-for-alex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The discipline data for our school indicates that we are similar to other districts in our area. We are working to create a positive school environment for students and staff.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

We will build positive relationships with parents, families and other community stakeholders through the following activities as allowed following social distancing guidelines: Back to School Drive-through event with school supplies; Meet Your teacher at various times and days; Open House/Parent Nights; Dairy Queen nights, family book fair events; Dad's Day; Veteran's Day event; STEM Movie night events; Literacy Night; Mom's Day; End of Year Awards; APT meetings.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Our teachers and staff play an integral role in promoting a positive culture at SPE. By building relationships with parents, they are able to help meet the needs of their families, as well as their students. The APT promotes a positive environment at SPE by supporting our teachers, staff and students. Each Friday, members of the APT provide treats for staff members.
