## **Demographics**

Principal: Ebony Jarrett

Start Date for	this Principa	I: 7/1/2013
----------------	---------------	-------------

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Middle School 6-8
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	64%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners* Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (61%) 2017-18: A (62%) 2016-17: B (60%)
2019-20 School Improvement (SI) Info	rmation*
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

\* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

#### **School Board Approval**

This plan is pending approval by the Martin County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridacims.org">www.floridacims.org</a>.

#### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridaCIMS.org">https://www.floridaCIMS.org</a>.

#### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## **Part I: School Information**

#### School Mission and Vision

Provide the school's mission statement.

Be Equitable. Be Courageous. Be Proud.

Provide the school's vision statement.

ALL students high school ready without the need for remediation.

#### School Leadership Team

#### Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Aitken, Tim	Principal	
Axton, David	Assistant Principal	
McMurry, Diane	Assistant Principal	
Webster, Andrew	Teacher, K-12	Math department team leader
Belvin, Tonya	Teacher, K-12	Science department team leader
McGrath, Susan	Teacher, K-12	ELA department team leader
Sigmon, Jessica	Teacher, K-12	Social Studies department team leader
Lavere, Gina	Teacher, K-12	Related Arts department team leader
Kemler, Ashley	Teacher, ESE	ESE department team leader
Register, Kristen	Instructional Coach	
Hyde, Dino	Other	

#### **Demographic Information**

#### Principal start date

Monday 7/1/2013, Ebony Jarrett

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

16

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

41

Total number of teacher positions allocated to the school

62

Total number of students enrolled at the school

Identify the number of instructional staff who left the school during the 2020-21 school year.

Identify the number of instructional staff who joined the school during the 2021-22 school year.

20

**Demographic Data** 

#### **Early Warning Systems**

#### 2021-22

#### The number of students by grade level that exhibit each early warning indicator listed:

Indicator							Grad	le Le	vel					Total

## **Grade Level Data Review - Progress Monitoring Assessments**

## Provide the progress monitoring tool(s) by grade level used to compile the below data.

ELA and Math are progress monitored using the Adaptive Progress Monitoring (APM) which was administered in the Fall of 2020 and Spring of 2021. Civics (8th grade) and Science (8th grade) used district created Common Quarterly Assessments.

		Grade 6		
	Number/% Proficiency	Fall	Winter	Spring
	All Students	33.81		37.24
English Language Arts	Economically Disadvantaged	24.78		27.48
	Students With Disabilities	37.00		39.25
	English Language Learners	17.18		15.50
	Number/% Proficiency	Fall	Winter	Spring
	All Students	16.32		31.69
Mathematics	Economically Disadvantaged	12.12		26.07
	Students With Disabilities	28.99		30.86
	English Language Learners	9.81		18.42

		Grade 7		
	Number/% Proficiency	Fall	Winter	Spring
	All Students	33.45		37.79
English Language Arts	Economically Disadvantaged	23.99		28.15

#### **Analysis**

#### **Data Analysis**

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

#### What trends emerge across grade levels, subgroups and core content areas?

AMS continues to see a drop in proficiency for 7th grade ELA when compared to 6th and 8th grade, although the gap has decreased from 2019 to 2021 (2019=12 pt drop; 2021 = 2 pt drop). In ELA, ESE and ELL students report large gaps, with all sub-groups demonstrating a decline.

Math scores have seen a significant decline in proficiency (68% in 2019 to 52% in 2021). Similar to ELA, ESE and ELL students demonstrate a large gap in proficiency.

# What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

ELA and Math proficiency scores continue to be the areas that demonstrate the greatest need for improvement across all grade levels.

# What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

From 2019 to 2021, AMS experienced a significant loss of experienced teachers due to COVID-19. In addition, data for 2021, including progress monitoring data, was hindered by inconsistency in student attendance throughout the school year. Many students spent all or a significant portion of the year learning from home and teachers were adjusting to a new medium of teaching by using synchronous classrooms via Zoom.

In 2021-2022, our ELA and Math teachers are fully staffed; however, we will have 2 teachers on leave in each subject.

ELA teachers are using the newly adopted Savvas curriculum for ELA and following the district pacing calendar. Unit assessments will be given quarterly, with data analysis completed after each assessment for progress monitoring. Adaptive Progress Monitoring (APM) assessments will also be given in September, 2021 (baseline) and January, 2022 (growth).

Math teachers will use CQA assessments for progress monitoring quarterly. APM assessments will be given in September, 2021 (baseline) and January, 2022 (growth) for grades 6-8 math This year, we are also offering tiered levels of instruction in math with additional math supports offered through a elective class.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Civics EOC scores are continuing to improve, increasing from 70% proficiency in 2019 to 77% proficiency in 2021.

Pass rates for Algebra I and Geometry also remain strong.

# What were the contributing factors to this improvement? What new actions did your school take in this area?

The Civics team worked collaboratively to share lesson plans and ideas as well as CQA data was monitored. Two of the three Civics teachers were new to the subject in 2021 and worked collaboratively with the Social Studies team leader to deliver instruction.

#### What strategies will need to be implemented in order to accelerate learning?

Students are encouraged to take Algebra in eighth grade to accelerate their learning. To prepare students for this path, all students in 6th grade take an accelerated math course. In 7th grade, most students continue with the accelerated math course, which provides exposure to Pre-Algebra content. Students who indicate need for more support are offered a math class combined with a supporting elective class to allow them additional time to master the math standards. This practice carries over into 8th grade, for students who need additional support with Algebra.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

AMS continues to focus on AVID instructional strategies including WICOR (Writing to Learn, Inquiry, Collaboration, Organization, and Reading to Learn). Additionally, math teachers are incorporating P.E.E.R. which focuses on the Marzano elements of "Practicing" "Examining similarities and differences" "Examining errors in reasoning" and "Revising knowledge" as a structure to help students gain deeper understanding, particularly in math.

Many teachers have made P.E.E.R. a focus for their deliberate practice to deepen their instructional confidence in this strategy. This will be used as an instructional strategy, especially in ELA and math.

# Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

This year, we have an instructional coach dedicated to our school. The instructional coach assists in modeling instructional strategies, developing engaging lessons and analyzing content. The instructional coach is instrumental in developing new teachers as well as providing ongoing support for teachers of all experience levels.

Specifically, the instructional coach uses classroom walk-through data that is collected by the school's guiding coalition members and Literacy Leadership team to identify learning strategies that would benefit teachers. These strategies are presented in monthly sessions, "WICOR Wednesdays" for all teachers during the school day.

These practices align with the District Success Plan: Employee Success - Goal #4: Ensuring all employees receive meaningful and relevant professional development.

# Part III: Planning for Improvement

#### Areas of Focus:

#### #1. Instructional Practice specifically relating to ELA

The district provided new instructional materials to support the ELA classroom. In addition, a pacing calendar was provided by the district to align instruction district-wide. ELA teachers have adopted this calendar which will ensure that the new B.E.S.T. standards are

Area of Focus

presented to all students.

Description and Rationale:

After school tutoring will be offered to students for support in ELA. The tutoring will begin on October 17, 2021-December 17, 2021. The positions will be highly qualified ELA teachers with additional support from bilingual staff..

This area of focus aligns with the Martin County School District's Success Plan: Student Success - Goal #1 - Academic Achievement in ELA.

ELA students will demonstrate an increase in proficiency of 5% as measure by the APM

Measurable Outcome:

and ultimately the 2022 FSA. Although 2019 data shows AMS school proficiency at 52%, 2021 data indicates a

proficiency of 46%. The goal for ELA proficiency for 2022 is 51%, an increase of 5%.

Adaptive Progress Monitoring tests were given in September, 2021 to establish a baseline. Spring 2022 APM assessments will be used to evaluate progress. Additionally, all ELA classes will deliver Unit Assessments (UA) at the end of each quarter which will reflect

progress relative to the standards taught each guarter.

Monitoring:

Person responsible

**for** Diane McMurry (mcmurrd@martinschools.org)

monitoring outcome:

Teachers will use the PEER instructional strategy in the ELA classroom.

Evidencebased Strategy: Students who scored Level 1 on the ELA FSA in the prior year will use the Lexia Power Up reading program to help remediate reading skills in an Intensive Reading class in addition to the ELA class.

Students who scored Level 2 on the ELA FSA in the prior year will have a reading-centered elective class in addition to the ELA class.

Rationale for

PEER comes from the Marzano evaluation tool. It incorporates the elements of Helping students PRACTICE skills, strategies & processes, Helping students EXAMINE similarities and differences, Helping students EXAMINE their reasoning and Helping students REVISE knowledge.

Evidencebased Strategy:

The Unit Assessments are part of the SAVVAS curriculum, and the APM is provided by the

state.

#### **Action Steps to Implement**

The Literacy Leadership team will conduct weekly walkthroughs of ELA and Intensive Reading classes to ensure implementation matches the Savvas pacing guide. Results of the weekly walkthroughs will be shared with the Literacy Leadership team monthly.

Person Responsible

Diane McMurry (mcmurrd@martinschools.org)

Instructional Coach will meet with the ELA department during their weekly planning sessions and provide support to teachers.

Person Responsible

Kristen Register (registk@martin.k12.fl.us)

Grade level teacher teams will review student data from the Unit Assessments, given in October and December, and from APM, given in January, 2022. Data will be used to guide remediation and enrichment.

Person Responsible

Tim Aitken (aitkent@martinschools.org)

#### #2. Instructional Practice specifically relating to Math

From 2019 to 2021, math proficiency scores have seen a significant decline from 68% to 52%. Additionally, many students were affected by a loss of instructional time in the 4th quarter of 2020 and throughout the school year of 2020-2021 due to COVID-19. As a

Area of Focus

result, students may be lacking foundational math skills.

Description and Rationale:

After school tutoring will be offered to students for support in math and algebra. The tutoring will begin on October 17, 2021-December 17, 2021. The positions will be highly qualified math teachers with additional support from bilingual staff..

This area of focus aligns with the Martin County School District's Success Plan: Student Success - Goal #3 - Academic Achievement in Mathematics.

Math students will demonstrate an increase in proficiency of 5% as measure by the APM and ultimately the 2022 FSA.

Measurable Outcome:

Although 2019 data shows AMS school proficiency at 68%, 2021 data indicates a proficiency of 52%. The goal for math proficiency for 2022 is 57%, an increase of 5%.

Adaptive Progress Monitoring tests were given in September, 2021 to establish a baseline.

Spring 2022 APM assessments will be used to evaluate progress. Additionally, grade 6-8 **Monitoring:** math classes will deliver Common Quarterly Assessments at the end of each quarter which

will reflect progress relative to the standards taught each quarter.

APM will be used as progress monitoring in January, 2022

Person responsible for

Diane McMurry (mcmurrd@martinschools.org)

monitoring outcome:

> Teachers will incorporate the PEER strategy as an instructional strategy. Grade level teams will use data from CQA (Oct & Dec) to guide instruction.

Evidencebased Strategy:

Students who were identified by their previous years' math teacher as needing extra

assistance are scheduled into math classes as a block (2 class periods with the same math teacher).

For students who scored a Level 1 on the prior year FSA, a Critical Thinking elective class is provided to focus on remediating math skills.

Rationale for EvidencePEER comes from the Marzano evaluation tool. It incorporates the elements of Helping students PRACTICE skills, strategies & processes, Helping students EXAMINE similarities and differences, Helping students EXAMINE their reasoning and Helping students REVISE

based knowledge.

Strategy: The school district provides the CQA assessments, and the APM is provided by the state.

#### **Action Steps to Implement**

Math department will meet monthly to review student learning progress.

Person Responsible

Andrew Webster (webstea@martin.k12.fl.us)

Math department will review student data from the CQAs given in October and December, 2021 as well as the APM given in January, 2022.

Person Responsible

Diane McMurry (mcmurrd@martinschools.org)

#### #3. ESSA Subgroup specifically relating to English Language Learners

The population of students whose first language is not English is growing at a rapid pace. In 2019, 132 students participated in WIDA testing. In 2021, 163 eligible ELL students are currently enrolled.

Based on 2019 data, the ELL subgroup reported 19% proficiency in ELA, with learning gains at 46% and bottom quartile learning gains at 52%.

Based on 2019 data, the ELL subgroup reported 39% proficiency in Math, with learning gains at 49% and bottom quartile learning gains at 49%.

Area of Focus Description and Rationale:

While proficiency scores are substantially lower for ELL students compared to non-ELL students (ELA = 32% gap; Math = 26% gap), ELL students do show strong growth numbers, as reported above.

Our focus is to support ELL students to increase proficiency and growth performance by 5% in each subject area.

After school tutoring will be offered to students for support in ELA, math and science. The tutoring will begin on October 17, 2021-December 17, 2021. The positions will be highly qualified teachers with additional support from bilingual staff.

This area of focus aligns with the Martin County School District's Success Plan: Student Success - Goal #1 - Academic Achievement in ELA and Goal #3 - Academic Achievement in Mathematics.

Increase ELL proficiency in ELA by 5% to 25% as measured by APM, UA and ultimately

Measurable

2022 FSA.

Outcome: Increase ELL proficiency in Math by 5 % to 44% as measured by APM, CQA and ultimately

2022 FSA.

Monitoring: Use UA, CQA data quarterly to monitor ELL progress toward proficiency and identify areas

in need to remediation.

Person responsible

David Axton (axtond@martinschools.org)

monitoring outcome:

Evidencebased Strategy:

ELL support facilitators will provide assistance to students and classroom teachers to help facilitate learning for ELL students.

Ryan (2010) reports that "finding strategies that allow teachers to incorporate students' native languages into the classroom, even when the teacher does not speak the language, is a vital issue for educators today". Using WICOR strategies that are modified specifically

Rationale for

for ELL students uses best teaching practices with native language support.

#### **Action Steps to Implement**

Include ELL paras in the WICOR Wednesday PD each month to increase knowledge of instructional strategies.

Person Responsible

Kristen Register (registk@martin.k12.fl.us)

#### **Additional Schoolwide Improvement Priorities**

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The school incident ranking for AMS is "Very Low" based on 2019-2020 data.

The PBIS team reviews behavior and suspension data regularly, as does the MTSS team.

This year, AMS has a new School Resource Officer who maintains an active presence on the campus.

In addition to reporting major behavior offenses through the referral system, teachers use a "short form" referral that is designed to deliver immediate consequences to students for minor offenses such as dress code and technology infractions.

Teachers and staff are expected to maintain a presence in the hallways and courtyard during high traffic times to deter inappropriate student behaviors.

#### Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

#### Describe how the school addresses building a positive school culture and environment.

Building a positive culture is a multi-layered approach.

- + Building common beliefs, language, and expectations
- + Engaging in Collaborative Learning Teams
- + Creating cross-curricular teacher teams who share the same 110 students
- + Curriculum mapping and assessment writing
- + Weekly communication
- + Honoring teachers time with differentiated professional development (T4TPD)
- + Encourage risk-taking, reflection, and meta-cognition
- + Using Instructional coach to provide side-by-side support, modeling, and strategy sharing Teachers grow when they are trusted to make decisions, have some autonomy, and are given time to reflect on practices and decisions.

# Identify the stakeholders and their role in promoting a positive culture and environment at the school.

#### Stakeholders:

+ Teachers, Staff, Students, Parents, and community members Roles:

Engagement, participation, and input. Creating vision and mission statements to lead the school's culture and performance action steps keeps every stakeholder involved as decisions makers. When people are engaged, participate, and provide input in the direction of the school, they become empowered contributors. Engaged stakeholders will leave and help share inclusive and interactive messages in the community. This model also helps develop synergy among teachers and parents. A unified team of parents and teachers is the strongest foundation of learning for students.

## Part V: Budget

#### The approved budget does not reflect any amendments submitted for this project.
