ESSA Status	
* As defined under Rule 6A-1.099811, Florida Administrative Code. Fo	or more information, click here.

School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Create and sustain an educational system of support that drives, encourages, and promotes academic excellence and competence through high expectations from students and teachers.

Achieve exceptional, observable results in the arts consistently reflected in student performances and inspiring creative work- individually and collaboratively.

Adopt and adhere to the highest standards to ensure physical safety, personal health, and emotional well-being.

Support and invest in teachers and other key adults in the pursuit of attaining the highest levels of competence, professionalism, ethical behavior, and professional growth possible.

Invite, encourage and enlist the support and cooperation of parents and caretakers to foster and solidify collaborative partnerships between home and school that will align to maximize student learning and personal growth outcomes.

Provide students and teachers a voice and sufficient creative space to achieve breakthroughs. Provide program opportunities for teachers and students to experiment with new approaches and share them collectively. To uplift each person every day and allow the joy, wonder, and excitement of learning new things to prevail within our culture.

Create opportunities for exploration that will inspire students to identify and establish long-term life goals and career pathways. We will work actively to develop and support relationships that provide students a connection to the world around them and a clear path to success and fulfillment beyond their years with us.

Strive for a culture of inclusiveness and work toward achieving the most significant reach, supporting our community's educational needs and impacting the greatest number of students while recognizing and sharing our students' and teachers' remarkable achievements.

Manage our financial and human resources responsibly to continually strengthen our economic condition and the stability of our school. Establishing and growing ongoing revenue and capital sources from local, state, and national sources to support the school's programs, hire the best staff, and continually improve technology.

Provide the school's vision statement.

We strive to be the school where students dare to dream. We promise to make sure no doors for students are ever closed. We value the privilege of our role in shaping the future leaders of tomorrow. Together, we will create an inspiring environment that sparks curiosity in all students while developing intellectually and creatively. Free thought will always be protected so that students may pursue their purpose in the world. We will ensure that students always have a path to success in all that they do because they deserve a life full of choice. Since learning is for life and life is about learning, our wish is for our name always to be synonymous with excellence.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Delarosa, Alfredo	Principal	Develop and evaluate policies and procedures Responsible for Safety Instructional Leader Curriculum Development Day-to-Day Operations District and State Compliance Personnel Facilities Management Stakeholder Communications
Delarosa, Christine	Assistant Principal	Follow policies and procedures Curriculum Development Responsible for Safety Instructional Leader Teacher Training and Professional Development Personnel Teacher Observations Day-to-Day Operations Stakeholder Communications
Torres, Carolina	Assistant Principal	Follow policies and procedures Curriculum Development Responsible for Safety Instructional Leader Teacher Observations Day-to-Day Operations Academic Advisor Master Schedule Student Services Stakeholder Communications

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

The data indicates that students struggled through the pandemic. 18 months of virtual learning was extremely difficult for both students and teachers. There is a significant gap in learning and is evident in the proficiency across the core content areas.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The data components indicate that math across all grade levels showed a significant need for improvement.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

The contributing factor was the lack of consistency in virtual class attendance as well as the virtual learning environment.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

The data components indicate that Civics, although it did not show gains, it does show only 1% decrease in proficiency from the 2019 State Assessments.

What were the contributing factors to this improvement? What new actions did your school take in this area?

No improvement was indicated in any subject.

What strategies will need to be implemented in order to accelerate learning?

Miami Arts Charter has hired a testing/data coordinator to assist in data collection and management. All core subjects are now required to create and utilize Performance Matters for Progress monitoring. The school will also utilize the Adaptive Progress Monitoring tool provided by the State to analyze data more efficiently.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Through the Testing/Data coordinator and the Assistant Principal, instructional departments will meet regularly to discuss the data and provide opportunities for improvement and interventions. The Data will drive the Professional development needed to support teachers and leaders.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Miami Arts Charter has implemented a school-wide writing plan to include all content areas as well as the arts departments. Additional resources were purchased to increase the progress monitoring and support for Math and English across all grade-levels

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale:

Based on the collected data and the results of our progress monitoring, it is evident that Math Proficiency is in need of improvement.

Measurable Outcome:

The 20-21 School Grade Components indicates that 46% of students met Proficiency in Mathematics during the 20-21 school year. Miami Arts Charter's goal is to increase our Mathematics Proficiency by 25%.

Through our Student Assessment Coordinator, data analysis meetings will be held

Monitoring:

regularly to analyze student data. Core Teachers are required to utilize Performance Matters for all assessments in order to collect data quickly and effectively.

Person

responsible for monitoring

Aileen Phillips (aphillips@miamiartscharter.net)

outcome:

Evidencebased Strategy:

Effective and efficient collection of student progress in addition to data analysis

meetings will provide feedback and direction to drive instruction.

Rationale for

Evidencebased Continuous progress monitoring will provide direction and data-driven instruction to

teachers and school staff.

Strategy:

Action Steps to Implement

- 1- Provide Professional Development on Performance Matters and test creation and data analysis
- 2- Schedule Monthly Data Analysis meetings with each department to discuss the data and drive instruction.
- 3- Schedule regular PMP meetings with the Leadership Team to identify students in need of assistance and interventions.

Additional Schoolwide Improvement Priorities

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The Florida School Safety Dashboard indicates that 0.4 incidents were reported per 100 students. When compared to all high schools statewide, it falls into the very low category. Miami Arts Charter ranked #21 of 505 schools.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

The school plans to build positive relationships with parents, families and community stakeholders through a variety of outreach and informational sessions. Miami Arts Charter has started MACTalks, in which individuals from the community are brought in to share their talents and experiences to our students. This platform allows students to ask questions and interact with the guests. Regular parent meetings with the Principal and other members of the staff to discuss our vision, policies and progress. This will also allow for parents to ask questions and receive important information. Our Message and Text System, School Website and Social Media platforms provide timely information and announcements to all stakeholders and also celebrate and share the successes and activities of the school. School will also facilitate regular parent conferences through zoom or in person to discuss individual student progress and/or concerns.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

The Stakeholder for Miami Arts Charter are Faculty, Staff, students, parents and members of the community. The stakeholders play an important role in managing schools. They are the partners of the school leaders in making the schools conducive to teaching and learning. They are also responsible for the achievement of the learning outcomes through their active participation in school activities, programs and projects. Through the MACtalks and several school intiatives, the stakeholders will to build relationships with teachers and staff and include student voices to create policies and practices that promote student learning and a positive and safe school environment. These initatives will connect the student experience to the learning environment and focus on both instruction and systems to sustain a positive school environment.

Promote a shared vision, i.e., valuing culture and instruction by connecting with school staff about the school environment and academic expectations.

Establish clear and open communication with parents and guardians. Continue to encourage teachers to use Google Classroom and make a phone call home or share handwritten notes with parents. Connecting the school experience to the family environment creates consistency for students. This also involves others in reiterating classroom and learning expectations.
