Demographics

Principal: Denise Phillips Luster

Start Date for this Principal: 9/20/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: C (46%) 2017-18: C (44%) 2016-17: C (47%)
2019-20 School Improvement (SI) Information*	
SI Region	Southwest
Regional Executive Director	
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The Hancock Creek Elementary family will inspire and cultivate all learners to their fullest potential through the implementation of engaging and relevant learning experiences.

Provide the school's vision statement.

To be a 1st choice school of excellence for students, parents and educators.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Phillips-Luster, Dr. Denise	Principal	
Conley, Jessica	Assistant Principal	

Demographic Information

Principal start date

Monday 9/20/2021, Denise Phillips Luster

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

0

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

6

Total number of teacher positions allocated to the school

Total number of students enrolled at the school

723

Identify the number of instructional staff who left the school during the 2020-21 school year.

Identify the number of instructional staff who joined the school during the 2021-22 school year.

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Number of students enrolled	104	124	102	139	132	122	0	0	0	0	0	0	0	723
Attendance below 90 percent	7	29	21	32	26	25	0	0	0	0	0	0	0	140
One or more suspensions	1	0	1	1	2	1	0	0	0	0	0	0	0	6
Course failure in ELA	0	2	0	34	4	0	0	0	0	0	0	0	0	40
Course failure in Math	0	0	0	23	5	1	0	0	0	0	0	0	0	29
Level 1 on 2019 statewide FSA ELA assessment	0	0	0	8	17	26	0	0	0	0	0	0	0	51
Level 1 on 2019 statewide FSA Math assessment	0	0	0	7	26	32	0	0	0	0	0	0	0	65
Number of students with a substantial reading deficiency	0	0	0	0	0	0	0	0	0	0	0	0	0	

The number of students with two or more early warning indicators:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students with two or more indicators	1	1	0	30	20	30	0	0	0	0	0	0	0	82

The number of students identified as retainees:

Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Students in the L25% subgroup for ELA and Math showed the lowest performance. In FY19 45% of the L25% students made learning gains and only 33% of the subgroup improved in ELA during FY21. In FY19 35% of the L25% math subgroups made learning gains and the group percentage decreased to 18% during FY21.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Based on third-quarter iReady diagnostic, FY19 FSA, and FY21 FSA figures, the L25 ELA and Math data components are the greatest need for improvement.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

The students have missed key instruction due to chronic absenteeism and/or online instruction. Intervention teachers were required to teach classes when homeroom instructors were absent and substitute teachers did not accept open positions. As a result, the intervention teachers were unavailable to provide small groups instruction and reduce the class sizes during the intervention blocks. Increased student/adult attendance, the discontinuation of online instruction, and the consistent utilization of intervention teachers to instruct L25% category students would aid in increasing the number making learning gains in ELA and Math.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Based on the FY21 state assessment data, there was no improvement show in the seven categories. However, the ELA category showed only a 1% decrease from FY 2019 to FY 21.

What were the contributing factors to this improvement? What new actions did your school take in this area?

During the 2018-19 school year, the Academic Department, with input from teachers, created and made available Instructional Guides for each core subject area. Beginning FY19 teachers received implementation professional development and slowly began mastering the ELA content. In addition, several third, fourth, and fifth-grade teachers earned their reading endorsement. FY20 and 21 professional development continued and Reading PLCs were implemented with fidelity.

What strategies will need to be implemented in order to accelerate learning?

Daily targeted small group reading and math instruction would need to be implemented in order to accelerate learning. In addition, afterschool and one-on-one reading and math instruction would help accelerate learning.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

1. iReady training: Interpreting Data, Identifying Resources for Differentiated Instruction, and Progress Monitoring
2. Really Great Reading Training: Phonic
3. High-Yield Strategies Training: Modeling, Coaching, and Feedback
4. Reading and Math Instructional Guides Training: Implementation, Standards-based instruction, Coaching, Modeling, Feedback, Differentiated Instruction

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

1. Continue Really Great Reading, High-Yield Strategies, iReady, ELA, and Math training.
2. Continue weekly PLC meetings
3. Continue modeling, coaching, and providing feedback
4. Continue Plan, Do, Study, Act cycle of improvement

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups

Area of Focus Description and Rationale:	An average of thirty-three percent of the Black/African American, Multiracial, SWD, and ELL students made learning gains in the L25 category on the 2021 ELA standardized assessment, and 57% of the K-2 students made learning gains as measured by the Quarter 2 iReady Diagnostic assessment. Students across the grade levels struggled with foundational skills, fluency, vocabulary, and comprehension. The students have missed key instruction due to chronic absenteeism and/or online instruction.
Measurable Outcome:	Hancock Creek Elementary School personnel will increase the percentage of Black/African American students making learning gains in the L25 category from 31% to 37%, Multiracial students making learning gains in the L25 category from 30% to 36%, Students with Disabilities making learning gains in the L25 category from 34% to 40%, and ELL students making gains in the L25 category from 37% to 42% as measured by the FY22 ELA FSA.
Monitoring:	Hancock Creek Elementary School personnel will use the iReady Baseline/Quarterly diagnostics and FY22 ELA FSA to monitor the percentage of Black/African American, Multiracial, SWD, and ELL students making learning gains.
Person responsible for monitoring outcome:	Dr. Denise Phillips-Luster (denisedp@leeschools.net)
Evidence-based Strategy:	High-Yield Instructional Strategies: 1. Numbered Heads Collaborative Pairs 2. Distributed Summarizing 3. Text-Dependent Questioning 4. Writing to Raise Achievement 5. Higher-Order Thinking
Rationale for Evidence-based Strategy:	High-Yield Instructional Strategies are researched-based practices linked to increased student achievement. The strategies are implemented to support the students' higher-level thinking with the goal of using a Level 3 or Level 4 question on Webb's Depth of Knowledge High-Yield Strategies can be applied across all content areas and enable teachers to focus on improving the quality of instruction students will receive; filling phonics gaps, building student vocabulary, and ensuring students are using the newly acquired skills to build comprehension of grade-level text.

Action Steps to Implement

1. Train teachers and paraprofessionals in the implementation of High-Yield Strategies
2. Monitor the implementation of High-Yield Strategies
3. Progress monitor using iReady Diagnostic assessments
4. Analyze student diagnostic data
5. Form Tier II and Tier III small groups
6. Utilize iReady Toolbox materials to provide differentiated small group instruction
7. Implement an afterschool tutoring program
8. Implement the Continuous Improvement Model (Plan, Do, Study, Act)

Person Responsible Dr. Denise Phillips-Luster (denisedp@leeschools.net)

#2. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale:	Forty-eight percent of the students made learning gains on the 2021 ELA standardized assessment and 49% of the K-2 students made learning gains as measured by the Quarter 2 iReady Diagnostic assessment. The percentage of 3 -5 students making learning gains in ELA has decreased from 54% in FY19 to 48% in FY21. Students across the grade levels struggled with foundational skills, fluency, vocabulary, and comprehension. The students have missed key instruction due to chronic absenteeism and/or online instruction.
Measurable Outcome:	Hancock Creek Elementary School personnel will increase the percentage of students making learning gains from 48% to 54% as measured by the FY22 ELA FSA.
Monitoring:	Hancock Creek Elementary School personnel will use the iReady Baseline/Quarterly diagnostics and FY22 ELA FSA to monitor the percentage of Black/African American, Multiracial, SWD, and ELL students making learning gains.
Person responsible for monitoring outcome:	Dr. Denise Phillips-Luster (denisedp@leeschools.net)
Evidence-based Strategy:	High-Yield Instructional Strategies: 1. Numbered Heads Collaborative Pairs 2. Distributed Summarizing 3. Text-Dependent Questioning 4. Writing to Raise Achievement 5. Higher-Order Thinking
Rationale for Evidence-based Strategy:	High-Yield Instructional Strategies are researched-based practices linked to increased student achievement. The strategies are implemented to support the students' higher-level thinking with the goal of using a Level 3 or Level 4 question on Webb's Depth of Knowledge High-Yield Strategies can be applied across all content areas and enable teachers to focus on improving the quality of instruction students will receive; filling phonics gaps, building student vocabulary, and ensuring students are using the newly acquired skills to build comprehension of grade-level text.

Action Steps to Implement

1. Train teachers and paraprofessionals in the implementation of High-Yield Strategies
2. Monitor the implementation of High-Yield Strategies
3. Progress monitor using iReady Diagnostic assessments
4. Analyze student diagnostic data
5. Form Tier II and Tier III small groups
6. Utilize iReady Toolbox materials to provide differentiated small group instruction
7. Implement an afterschool tutoring program
8. Implement the Continuous Improvement Model (Plan, Do, Study, Act)

Person Responsible Dr. Denise Phillips-Luster (denisedp@leeschools.net)

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The implementation of Positive Behavior Intervention and Support (PBIS) and Restorative Justice practices will be implemented with fidelity to reduced the number of infractions and out-of-school suspensions. We will communicate common expectations, implement targeted instruction for appropriate social and academic skills, define support strategies for classroom behavior expectations, provide positive reinforcement, work collaboratively, attend social-emotional learning professional development, and have data-driven dialogues to better inform our decision-making. Most importantly, we will empower our students to resolve conflicts on their own and in small groups.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

NA

Identify the stakeholders and their role in promoting a positive culture and environment at the school.
