School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Park Ridge Elementary shall be a community that nourishes academic excellence for all students and demonstrates leadership in character development. The mission statement is intended to serve as both the blueprint for improvement and the benchmark by which we will evaluate our progress.

Provide the school's vision statement.

We are dedicated to our students, their families, and our community by fostering respect, leadership, and lifelong learning in an environment that is safe, secure, and incorporates an innovative, hands-on approach to learning.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Position Title | Job Duties and Responsibilities |
|---------------------|---------------------|--|
| Balchunas, Joseph | Principal | To provide the leadership and management necessary to administer and supervise all programs, policies and activities of the school to ensure high quality educational experiences and services for the students in a safe and enriching environment. |
| Whitehead, Samantha | Assistant Principal | Assist the school principal in overall administration of instructional programs and campus level operations. Coordinate assigned student activities and services. |
| Heichen, Amanda | SAC Member | 4th Grade Team Leader SAC Chair Title I Liaison PLC Facilitator |
| Ragin, Trakina | Instructional Coach | The instructional coach will work as a colleague with classroom teachers to support student learning. The instructional coach will focus on individual and group professional development that will expand and refine the understanding about research-base effective instruction. |
| Turner, Susan | Instructional Coach | The instructional coach will work as a colleague with classroom teachers to support student learning. The instructional coach will focus on individual and group professional development that will expand and refine the understanding about research-base effective instruction. |

Demographic Information

Principal start date

Tuesday 9/28/2021, Samantha Whitehead

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

6

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

29

Total number of teacher positions allocated to the school

39

Total number of students enrolled at the school

546

Identify the number of instructional staff who left the school during the 2020-21 school year.

0

Identify the number of instructional staff who joined the school during the 2021-22 school year.

6

Demographic Data**Early Warning Systems****2021-22**

The number of students by grade level that exhibit each early warning indicator listed:

| Indicator | Grade Level | | | | | | | | | | | | | Total |
|--|-------------|----|----|-----|-----|----|---|---|---|---|----|----|----|-------|
| | K | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | |
| Number of students enrolled | 97 | 97 | 96 | 106 | 107 | 78 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 581 |
| Attendance below 90 percent | 48 | 35 | 31 | 29 | 40 | 31 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 214 |
| One or more suspensions | 1 | 0 | 0 | 2 | 2 | 3 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 8 |
| Course failure in ELA | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | |
| Course failure in Math | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | |

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Students in all grade levels overall demonstrated a decrease in student achievement based on school and district progress monitoring assessments.

Students engaged in learning from home since March 2020 scored significantly lower than students who attended school face to face on school and district progress monitoring assessments.

Based on 2021 district promotion retention criteria, we had more students than normal not meeting criterion for promotion.

Overall learning gains and lowest quartile learning gains were significantly lower than years past for students in grade 5.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The data component that showed the greatest decline are math learning gains. They went from 61% to 47%. Although proficiency in math increased, learning gains decreased.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

The factors that contribute to this decline are the lack of consistent and targeted on going data analysis and support for our struggling students. The new actions that would need to be taken are to increase the math block to 90 minutes, beginning small groups, pull out, and push in to start earlier as well as direct coaching provided in the classroom during instructional time.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

The data component that showed the most improvement are lowest quartile learning gains in ELA. They went from 60% to 67%.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Targeted instruction for the lowest quartile students in ELA. This includes push in and pull out, ELO after school camps as well as guided instructional intervention groups.

What strategies will need to be implemented in order to accelerate learning?

The strategies that will need to be implemented to accelerate learning is focusing on small group instruction, differentiated instruction, actionable feedback, strategically placing teachers to meet the needs of students. As well as, on going professional development, student and teacher data chats, current and relevant materials. Providing time for teacher planning, push in and pull out groups as well as afterschool camps.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

The professional development opportunities we will be offering include breaking down the new reading series and providing teachers with reading strategies to increase student achievement. In

math, we will be providing professional development focusing on small group instruction in math with a focus on chunking lessons into digestible bites.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

The additional services that will be implemented are revised instructional focus calendars to meet the current needs of students. We have 3 esser positions, one focused on intermediate math, one on primary reading and one on intermediate reading. There is a special focus on providing double a triple dosing to our tier 3 students.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: The school wide ELA data is keeping our school on the lowest 300 list. Although we have increased proficiency, we are still below the state and district average. Additionally, we would like to provide opportunity for students to earn adequate learning gains in ELA, including ESE, ESOL and lowest quartile students.

Measurable Outcome: By May 2022, 40% of students will demonstrate proficiency or above on the FSA in ELA.

Monitoring: The area of focus will be monitored through student and teacher data chats, observation with actionable feedback, double dosing in the classroom, small group push in and pull out during and after school. Use of progress monitoring assessments, providing intervention programs with fidelity. Providing current and standard focused materials as well as professional development.

Person responsible for monitoring outcome: Joseph Balchunas (joseph.balchunas@browardschools.com)

Evidence-based Strategy: The evidence based strategy that is being implemented is progress monitoring with on going feedback. We will be monitoring progress using ongoing formative assessment broken down into small chunks of standards. These assessments will include reteaching of the standards for students not meeting mastery. We will also be engaging teachers and students in on going data chats to discuss strengths and weaknesses. We will be providing necessary and targeted assistance via small group intervention. Intervention will take place in class as well as pull out with additional staff members.

Rationale for Evidence-based Strategy: Progress monitoring is mandatory for all students and all subgroups in order to determine student mastery, teacher effectiveness and program implementation. The resources being used are on going progress monitoring portfolio maintained by the ELA coach for every teacher and student.

Action Steps to Implement

Conduct on going data chats with teachers and students after each formative assessment.

Person Responsible Trakina Ragin (trakina.ragin@browardschools.com)

Create assessments aligned to the instructional focus calendar and the Florida standards as well as the Florida test specifications.

Person Responsible Trakina Ragin (trakina.ragin@browardschools.com)

Conduct teacher professional development in the following areas: data analysis, small group and guided reading, using question stems and test design summary.

Person Responsible Trakina Ragin (trakina.ragin@browardschools.com)

#2. ESSA Subgroup specifically relating to Students with Disabilities

Area of Focus Description and Rationale: Our area of focus is to increase proficiency in ELA for Students with Disabilities. This impacts student learning by providing students an opportunity to be on grade level in ELA. They are also able to close the achievement gap between them and students without disabilities. This area was chosen because on our schools' ESSA report card, students with disabilities are scoring substantially low.

Measurable Outcome: By May 2022, 40% of Students with Disabilities will score proficiently on the 2022 FSA in ELA.

Monitoring: The area of focus will be monitored through student and teacher data chats, observation with actionable feedback, double dosing in the classroom, small group push in and pull out during and after school. Use of progress monitoring assessments, providing intervention programs with fidelity. Providing current and standard focused materials as well as professional development.

Person responsible for monitoring outcome: Joseph Balchunas (joseph.balchunas@browardschools.com)

Evidence-based Strategy: The evidence based strategy that is being implemented is progress monitoring with on going feedback. We will be monitoring progress using ongoing formative assessments broken down into small chunks of standards. These assessments will include reteaching of the standards for students not meeting mastery. We will also be engaging teachers and students in on going data chats to discuss strengths and weaknesses. We will be providing necessary and targeted assistance via small group intervention. Intervention will take place in class as well as pull out with additional staff members. We will be incorporating various instructional strategies for comprehension and phonics like graphical representation, repeated practice as well as instructional focus calendar that allows for more teaching time.

Rationale for Evidence-based Strategy: Students with learning disabilities will have more flexibility in their learning. We will also ensure to meet all of their IEP requirements throughout the entire school year including their testing accommodations for all formative assessments given throughout the school year. Due to students with disabilities struggling with reading, breaking things down into smaller chunks and providing opportunity for repeated practice will provide an opportunity for students to master the standards and goals.

Action Steps to Implement

Conduct on going data chats with teachers and students after each formative assessment.

Person Responsible Trakina Ragin (trakina.ragin@browardschools.com)

Create assessments aligned to the instructional focus calendar and the Florida standards as well as the Florida test specifications.

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

According to the data provided by SafeSchoolsforAlex.org, Park Ridge Elementary did not have any reported incidents to the Department of Education. Park Ridge will continue to implement our school wide positive behavior plan and our plan for a positive school culture to ensure that our students are attending school and participating in a safe environment. The culture and environment of our school will be monitored by our administration with support of our behavior tech through the lens of the behavior and discipline data from the behavior dashboard in BASIS as well as annual survey results provided by parents, students and teachers.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

This year, Park Ridge will focus on building positive relationships with parents, families and other community members in many ways. We will be incorporating many different activities and events that will focus on various interests and groups of people. We will be hosting events in school while practicing social distancing. These events include Family Nights, Literacy Nights, Dad's Day, multiple music events, Math and STEM Nights, Mom's Day, Field Day and more. Each family member and student will have a chance to be a part of these events. Parent engagement will increase our student achievement.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

The following stakeholders provide support and funding to school wide events, initiatives and programs. This assist us with promoting a positive culture and environment at Park Ridge Elementary School.

Riverside Elementary School's PTA assists with promoting a positive culture and environment at Park Ridge Elementary School by donating supplies throughout the school year to assist our students in families. A few examples include, backpacks with school supplies, turkey dinners at Thanksgiving, toys for our annual Angel Tree drive as well as snacks for students to eat during after school camps.

The Kiwanis Club of Deerfield Beach sponsors our Terrific Kid awards given out quarterly, one per class, during our honor roll assemblies.

Afterschool Programs Inc. is one of our business partners who not only provides childcare to our families, but they sponsor and donate family nights, SAC meetings and many other school events by providing us with refreshments and complimentary child care to our families during these events.

In order to create college and career readiness awareness at Park Ridge Elementary School, business and community organization partnerships have been established. These partners are invited to attend our annual career day and present their chosen career path to our students.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
