Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Students in grades 3-5 had a steady increase in proficiency on the ELA FSA between the 2015-2016 (from 44%) and 2018-2019 (to 55%) school years. These same students either maintained or demonstrated an increase on the Math FSA these same years (from 53% to 67%). Overall learning Gains in ELA (49% - 63%) and Math (58% - 77%) fluctuated between the 2015-2016 and 2018-2019 school years; with a significant increase in Math learning gains the 2018-2019 school year (from 58% the prior year to 77%). Students in fifth grade fluctuated in the Science FCAT proficiency between the 2015-2016 and 2018-2019 school years (between 42% and 53% in 2019). Data also revealed a slight decline in ELA and Math FSA proficiency as students matriculated from 3rd to 5th grade. There was a decline across grade levels and subject areas in 2020-2021 school year.

Our ESE, ELL and Black subgroups averaged lower than our White subgroup across subject areas each year. Hispanic students' averages were also lower than White students in most areas, with the exception on ELA Learning Gains.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

School City data indicated that reading was the area of greatest need for improvement. Anticipated growth analyzed from the BOY to MOY for 3rd through 5th grades was minimal with students

performing below grade level at 39%, while students more than a year below grade level decreased some, from 23% at the start of the year to 18% at the middle of the year. Although our third through fifth graders maintained their reading proficiency as expected, there was a decline in reading learning gains of 4 to 5 percentage points on the 2019 ELA FSA.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Factors that contributed to this need for improvement are some students in these grade levels were reading two or more years below grade level based on School City Assessment data. Data the year prior indicated the need to target math. There was a large focus on math mediation for these grade levels which decreased the allotted time for enrichment for ELA. Funding for after-school tutorials were limited and primarily focused on math remediation.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Students in grades three and five had a significant increase in proficiency and math learning gains on the 2019 Math FSA. We increased 9 percentage points in proficiency, 19 percentage points in math learning gains and 31 percentage points in the lowest quartile learning.

What were the contributing factors to this improvement? What new actions did your school take in this area?

We targeted math in for our push-in and after-school tutorials. Teachers also meet weekly to discuss Math lessons and Small group reteach lessons. Teachers also discussed Math interventions and emphasized the use of manipulatives. The math coach shared weekly strategies and resources to support classroom teachers.

What strategies will need to be implemented in order to accelerate learning?

Our teachers have received and will be utilizing the new materials that are aligned with the B.E.S.T. standards. Differentiated small group instruction will be utilized to meet the varying needs of students. The University of Florida Literacy Initiative (UFLI) will be incorporated to improved phonemic awareness, comprehension, vocabulary and writing skills.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

We also have partnered with the University of Florida, who is supporting our school with their UFLI program, which focuses on struggling readers. Teachers receive support through PLCs, modeling, classroom visits and one-on-one mentorships. There will be a focus on effective small group instruction throughout our school.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

The University of Florida coaches are mentoring our school-based coaches and gradually release the support as the year goes on. Our school-based coaches are also supporting classroom teachers with B.E.S.T. standards implementation and small group strategies. Teachers will continue to receive support through PLCs, modeling, and classroom visits from our leadership team

Part III: Planning for Improvement

Areas of Focus:**#1. Instructional Practice specifically relating to ELA****Area of Focus****Description and Rationale:**

Reading directly impacts all the other content areas. If students cannot comprehend the questions, they cannot effectively demonstrate their understanding.

Measurable Outcome:

62% of our third-fifth grade students will score at or above a level 3 on the 2022 Florida Standards English Language Arts Assessment.

Monitoring:

Professional Learning Communities and Lesson Study

Person responsible for monitoring outcome:

Patricia Moore (patricia.moore@browardschools.com)

Evidence-based Strategy:

Implementation of the University of Florida Literacy Initiative (UFLI) for all grade levels impacting all students including those in all subgroups. In primary grades, balanced literacy instructional strategies, as well as Fountas and Pinnell Phonics, Spelling, and Word Study lessons will be the core instructional strategies for the whole group and small group guided reading. The UFLI ELA instructional strategies will be utilized during the one-hour intervention block school-wide. In the intermediate grades, standards-based instruction for the whole group will be taught using the District Scope and Sequence for standards and Document-Based Questioning resources (DBQ). Primary teachers will utilize the UFLI lesson framework for small group instruction and intermediate teachers will use the framework for intervention.

Rationale for Evidence-based Strategy:

The rationale for utilizing the UFLI program:

1. Researched based instructional strategies
2. In-depth professional development provided
3. Year-long coaching support provided by the grant
4. Continued growth monitoring of students
5. Ability to utilize human and material resources already in-house

Action Steps to Implement

1. Yearlong professional learning communities to monitor student reading progress
2. UFLI Coach and Literacy Coach will meet with teachers as needed
3. Data will be monitored and growth measured at the end of each unit cycle using School City standards-based assessments.
4. BAS assessments will be given and analyzed for teaching targets based on the District guidelines or more frequent as needed.

Person

Responsible [no one identified]

#2. Instructional Practice specifically relating to Math

Area of Focus The area of focus is mathematics. Instruction in the content area of math at the elementary level is foundational and impacts future student learning in mathematics as they progress to the secondary level.

Measurable Outcome: 70% of grades 3-5 students will score at or above a level 3 on the 2022 Florida Standards Math Assessment.

Monitoring: Professional Learning Communities and Lesson Study

Person responsible for monitoring outcome: Shannon Mills (shannon.mills@browardschools.com)

Evidence-based Strategy: Utilize the Elementary Learning District Focus Calendar, Lesson Plans, and Assessments in conjunction with the 60-minute standards-based effective math block. We will also add 30 minutes to the Math block to address learning gaps.

Rationale for Evidence-based Strategy: Teachers need support in planning standards focused lessons at the level of rigor needed for students to acquire the knowledge and understanding of mathematical concepts in order to apply the math skills to problem solve.

Action Steps to Implement

1. Introduce the District Scope and Sequence, lesson plans, and assessments to team leaders.
2. Roll out the focus calendar and lesson plans to the staff.
3. Provide professional development review of the 60-minute standards-based effective math block for new staff.
4. Implement the Standards-based School City Assessments for grades 2-5 and Go Math chapter tests for K and 1 to monitor student growth and determine gaps.
5. Implement a lesson study/data monitoring focused Professional Learning Community for all grade levels
6. Provide District training for higher-order questioning, Standards-based instruction, and use of manipulatives for instruction

Person Responsible [no one identified]

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

During the 2019-2020 school year, Margate Elementary reported 0.2 incidents per 100 students, which is less than the statewide rate of 1.0 incidents per 100 students. The suspension rate of Margate Elementary was 1.6 per 100 students; a significantly lower rate than the statewide rate of 3.9 per 100 students.

Our school continues to monitor our demographic sub-groups and work with our Equity Team to find strategies to decrease the levels of disproportionality in the Black and Multi-Race sub-groups. We have already begun the work of expanding Social Emotional Learning lessons and we utilize mentoring to provide students with additional advocates.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Margate Elementary believes in the power of building positive relationships which will, in turn, create a fulfilling environment where students feel safe, valued, and respected. With this optimum environment, students will have the opportunity to succeed in their social-emotional and academic learning.

To achieve this positive culture, Margate Elementary's plan is based on our mission statement: Our mission at Margate Elementary is to create a nurturing environment so that our students will become independent, successful life-long learners by providing a high quality differentiated and innovative curriculum based on the B.E.S.T standards and the Florida State Standards.

First, our students' social-emotional learning begins in the classroom with lessons on regulating emotions and behavior through the use of breathing techniques, yoga, exercise, and Zones of Regulation. In addition, our Guidance Counselor and social worker are available to our students and families on a regular basis. Our guidance counselors provide Counseling Conversations specials to all of our students on one on one basis.

Our school has a School-wide positive behavior program including a positive rewards system, where students can earn tokens for positive behavior, class participation, and academic achievement. Students may also receive positive recognition by participating in the Principal's Lunch bunch and Student of the Month. We utilize the acronym, ROAR (Ready to Learn, Own my Behavior, Act Responsibly and Respect Others) We honor the ROAR students of the week on a weekly basis.

Students may participate in extracurricular activities both within the school day and beyond the regular school day through our varied menu of clubs including the following: Debate Club, Student Government, Music Club, Safety Patrol. Students and their families also have opportunities to participate in the many Parent family nights including Sunday Storytime. Margate Elementary knows the importance of keeping the lines of communication open and we do this through our various social media platforms (Facebook, Twitter, Parent Links and, Website), as well as providing and supporting Virtual Parent Informational Zoom meetings, Parent Academies, School Advisory Council/Forum meetings, School Advisory Forum meetings, and the Parent-Teacher Association.

The administration also nurtures the positive culture among staff through incentive programs such as preferred teacher appreciation, and voluntary "Principal Chats" with the administration team.

Finally, Margate Elementary continues to build partnerships with local businesses and the local city government and public safety groups by encouraging participation in Margate's school parent/ community groups, Family School Nights, Celebrations, as well as classroom speakers and guest presenters.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

The Principal and the Assistant Principal as well as the entire Margate staff are responsible for promoting a positive culture and environment at Margate Elementary.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
