ESSA Status	
* As defined under Rule 6A-1.099811, Florida Administrative Code. Fo	or more information, click here.

School Board Approval

This plan is pending approval by the Union County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Union County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of the Union County School District is to provide a collaborative learning culture where students are dedicated to excel with commitment from staff, families, and community.

Provide the school's vision statement.

The vision of Lake Butler Middle School is to become a foundation of educational excellence for all.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Ricks, Denise	Assistant Principal	Assistant Principal - Collaborates with Principal in order to provide a vision and leadership for data based decision making. Oversees student based curriculum, monitors teachers' implementation of the Florida Standards, facilities, safety and security as well as discipline at LBMS.
Peeling, Bob	School Counselor	Guidance - Facilitates communication through teacher/parent conferences. Develops and maintains master schedule and classroom roster assignments for LBMS. Provides counseling as needed.
Woodall, Chrystal	Staffing Specialist	Guidance - Oversees implementation of ESE support services, including but not limited to planning and program evaluation. Facilitates communication through teacher/parent conference. Provides counseling as needed.
Thompson, Robert	Other	Guidance - LBMS testing coordinator. Facilitates communication through teacher/parent conferences. Develops and maintains master schedule and classroom roster assignments for LBMS. Provides counseling as needed. Drop out prevention coordinator.
Riherd, Barbara	Math Coach	Math Coach Develops, leads, and evaluates school math content standards and programs. Supports math department with support for effective implementation and delivery of Florida Math Standards. Analyzes math data so that the appropriate professional development is planned. Assists with school progress monitoring assessments. Develops, leads, and facilitates teacher professional development. Supports new teachers and teachers needing improvement by modeling, coaching of best practices and instructional strategies.
Neville, Judy	Reading Coach	Reading Coach - Develops leads, and evaluates school reading content standards and programs. Identifies and supports intervention strategies suggested by team. Assists with school progress monitoring assessments. Assist with school wide screening programs that provide intervention for "at risk students". Develops professional development including daily classroom coaching/ modeling of best practices and instructional strategies for teachers. MTSS Coordinator- Coordinates the MTSS program. Identifies students that need to be monitored by the program and suggests intervention strategies. Assist with school wide screening programs that provide intervention for "at risk students".

Demographic Information

Principal start date

Tuesday 6/30/2020, Marcie Tucker

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

13

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

17

Total number of teacher positions allocated to the school

55

Total number of students enrolled at the school

690

Identify the number of instructional staff who left the school during the 2020-21 school year.

Identify the number of instructional staff who joined the school during the 2021-22 school year.

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Decrease in gains in both overall and in the lowest quartile for both math and reading as based on the 2021 FSA data.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

After data analysis of progress monitoring, vocabulary and comprehension of informational text were the two lowest areas in reading.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Covid quarentines and Distance Learning were major factors contributing to learning challenges this year. It caused gaps in instruction and affected learning gains across the board. We are tracking students with the objective of monitoring and addressing thier deficits.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

This was a challenging year. We dropped in every area, however, ELA had the smallest decrease on FSA Achievement.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Tier 3 reading groups with a ratio of 5 to 1, with certified reading teachers, were implemented with all level 1 reading students based on the previous years FSA data.

What strategies will need to be implemented in order to accelerate learning?

LBMS is continuing the Tier 2 intensive reading and math groups as additional intervention supports. LBMS is continuing the Tier 3 intensive reading groups, as well as adding one Tier 3 math group in each grade.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

We have scheduled professional development to analyze data to help teachers identify students that need extra monitoring. We have scheduled data chats with teacher to help analyze data and come up with interventions. LBMS will focus on providing standards training to both math and ela teachers to deepen their understanding of the Best standards.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Teachers will be provided in depth professional development of the new Florida Best Standards to ensure effective implementation in their classrooms.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of **Focus** Description and Rationale:

LBMS is Focusing on increasing learning gains - This area of focus was selected becaue ELA learning gains dropped frrom 56% in 2019 to 45% including the ELA lowest quartile learning gains dropped from 46% in 2019 to 32% in 2021 as based on the ELA FSA Assessement.

Measurable Outcome:

LBMS will increase the number of students with learning gains to 55% and learing gains of the lowest quartile to 50% as based on the 2022 ELA FSA.

ELA teachers adopted a new curriculum which will be implemented for tier 1 instruction this year. Teachers will focus on using this curriculum to bridge to the new Best ELA standards. Progress moinitoring using i-Ready and Savvas will be implemented to ensure student

Monitoring:

success with the new standards. Coaches will push into classrooms to observe and offer guidance to teachers on best practices. Administration will conduct literacy walkthroughs to ensure quality instruction. Admistration and coaches will facilitate data chats with teachers to ensure data driven instruction.

monitoring outcome:

Data Driven instruction: Monitoring achievement gaps through data analysis to help reduce

students deficits and increase student skills on grade level standards.

Evidencebased Strategy:

Placing Level 1 and Level 2 Reading students in an additional intensive reading classes, in order to enhance prior grade level skills that are prerequisites to current grade level

standards.

Increasing teachers knowledge on standards and teaching strategies through professional

development.

Rationale for

According to Hattie's Influences on Student Achievement using data to drive instruction was selected because data driven instruction is condered to accellerate student

Evidence-

achievement. The intensive reading classrooms were developed to focus on students who

have additional learning needs. based Increasing teachers knowledge in both content and strategies improves their ability to affect

Strategy: student outcomes.

Action Steps to Implement

Provide additional intensive reading classes to provide scaffoled supports for tier 2 and tier 3 students. Tier 3 classes having a 5:1 ratio.

#2. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale:

Their was a decrease in learning gains in both overall and lowest quartile in math as based on the 2021 FSA when compared to previous year's learning gains. Learning gains had a 30 point overall decrease, with the lowest quartile having a 20 point drop in learing gains as compared to the 2019 FSA.

Measurable Outcome:

LBMS will Increase overall learning gainsl 67% on the 2022 Mathematics FSA.

LBMS will increase learning gains for the lowest quartile math students to 50% as based on the 2022 Mathematics FSA..

on the 2022 Mathematics FSA.

Teacher will provide data driven instruction and remediation to close any achievement gaps.

Academic Coaches and adiministration will facilitate data meetings with teachers to monitor student progress.

Monitoring:

iReady data will be used to monitior the lowest quartile student's progress and growth

through the year.

Academic Coaches will push into classrooms to observe and offer guidance to teachers on

best practices. Administration will conduct literacy walkthroughs to ensure quality

instruction.

Additional Schoolwide Improvement Priorities

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
