ESSA Status	
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Dade County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Academy for International Education is to create student-leaders who are empowered by challenging academic experiences while solving real-world problems in a culture of innovation and collaboration. Our students think critically, discover relentlessly, and act ethically, in service of humanity.

Provide the school's vision statement.

AIE will immerse its students in science, technology, engineering, arts and mathematics (STEAM) as a way of seeking facts and making sense of the world around them. At AIE learning is focused on active exploration of major concepts, ideas and theories through hands-on learning and real-life problem solving. Students will be challenged to use scientific knowledge and critical thinking skills as they take ownership of their personal academic exploration and growth.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Hirsh, Vera	Head of Schools	<p>Vera Hirsh, Head of Schools, ensures that all leadership members attend the Leadership Weekly Meetings in order to discuss school's concerns, instructional strategies, lesson plan development, parents' concerns, textbooks orders, technology, software usage, etc. Vera Hirsh makes sure that the implementation of intervention is in place. In addition, Mrs. Hirsh supports and suggests professional developments based on a needs assessment survey to increase the school-based team's knowledge of essential strategies that are vital to the implementation of RTI. She makes decisions for the use of data driven instruction which allows her to confer with parents regarding academics and activities in order to provide support and effectively inform about student achievement. Mrs. Hirsh ensures commitment and allocates resources.</p>
Fajet, Walter		<p>Dr. Walter Fajet, Principal, provides a common vision for the use of data based decision making; ensures implementation of intervention support and documentation; ensures adequate professional development; communicates with parents regarding school-based plans and activities; and provides support to the teachers and staff to ensure fidelity of instructional delivery and use of grade level materials. Dr. Fajet makes sure all middle school students are scheduled appropriately in the corresponding classes based on their FSA scores and performance.</p>
Canelo, Dorremi		<p>Dorremi Canelo, Dean of Curriculum and Student Services, plans and implements an anti-bullying program, meets with students for individual and group counseling, provides support to the Counseling and Special Education Departments. She consults and collaborates with students on their progress and performance as the school sets action plans to assist students to their meet academic and socio-emotional success. Students receive academic advising, socio-emotional support, and college and career advising as well. Ms. Canelo ensures that all students are on track with their high school graduation requirements and alerts them and their parents when they are not meeting expectations. She assists Dr. Fajet with the decision making on the Upper School's academic tracks and ensures that students are placed in the proper courses based on their academic data. She selects eligible students for the school's college preparation programs, Dual Enrollment and Advanced Placement, and she provides teachers and students with support when needed. Ms. Canelo works with the ESOL liaison to ensure that students are placed in their proper ESOL level courses and advocates for them when necessary. She ensure that teachers are providing students the proper accommodations and assists them with strategies and techniques. She also collaborates with parents to ensure all students are successful and their concerns are heard. Ms. Canelo meets with students and their parents to discuss the possibility of failing a class or being retained and works on a plan to help students succeed. She analyzes student grades, comes up with a list of students who must summer school, and ensures that they get enrolled. She also supports teachers in their endeavors to provide high quality instruction by collaborating with department chairs, providing guidance on curriculum, reviewing lesson plans, performing observations and providing constructive feedback.</p>

Name	Position Title	Job Duties and Responsibilities
Curiel, Brandy		Brandy Curiel, Dean of Students and STEM, directs the execution of the principal's vision for the use of data based decision-making, ensures implementation of intervention support and documentation, ensures adequate professional development, and communicates with parents regarding school-based plans activities. Mrs. Curiel monitors student behaviors on Kickboard and provides appropriate interventions, such as assigning student consequences, scheduling student conferences, and communicating with parents. Mrs. Curiel investigates special cases involving the well-being and safety of students, such as threats, harassment, and bullying, and communicates accordingly with appropriate stakeholders. Mrs. Curiel ensures all teachers and staff are assigned to a morning and afternoon post to promote student's safety.
Camji, Carlos		Carlos Camji, Exceptional Student Education (ESE) teacher, collaborates with general education teachers to plan activities and accommodate students' IEP' Mr. Camji assists with MTSS/RTI TIER 3 implementation and data collection. In addition, he works in collaboration with teachers to monitor students' progress. Mr. Camji meets with other professionals such as Psychologists, Speech Pathologists, Social Workers, and other agencies. In order to revise, update, and evaluate student's IEP's, logs are initiated as needed.
Guiu-Garcia, Gabriela		Ms. Gabriela Guiu-Garcia is the Testing Coordinator, Social Sciences Department Chair, and School Data Analyst. She directs the execution of the principal's vision for the use of data based decision-making. Ms. Guiu collects school-wide assessment data from district-based assessments in all subject areas. She disaggregates data and analyzes data trends, growth, and areas of improvement before sharing with teachers. In addition, she leads the social sciences department by leading department meetings and supports teachers with lesson planning, informal observations and feedback, gathering resources, and implementing research-based strategies throughout the department.
Germain, Matania		Ms. Matania Germain, Mathematics Department Chair and Gradebook Manager, participates in student data collection, integrate core instructional activities/ materials into after-school tutoring, and collaborate with general education teachers for such activities. Additionally, she leads the mathematics department by leading department meetings and supports teachers with lesson planning, informal observations and feedback, gathering resources, and implementing research-based strategies throughout the department.

Demographic Information

Principal start date

Saturday 6/1/2019, Vera H IR Sh

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

2

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

2

Total number of teacher positions allocated to the school

23

Total number of students enrolled at the school

490

Identify the number of instructional staff who left the school during the 2020-21 school year.

6

Identify the number of instructional staff who joined the school during the 2021-22 school year.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Across the upper school grades 6-11, there appears to be lower performance in 8th grade mathematics and language arts when compared to previous years and/or district and state performance. The subject area that performed much lower than the district and state was Geometry.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The areas that is the greatest need for improvement is Geometry.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Some contributing factors to this need for improvement was inconsistency in instructional strategies due to changes in the instructor. There were also challenges with monitoring progress of virtual students consistently.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Science areas showed the most improvement. 8th grade science scores improved 24 percentage points from the previous data.

What were the contributing factors to this improvement? What new actions did your school take in this area?

As part of the previous SIP action plan for improvement, changes were made in instructional practices, student progress monitoring, and student support.

What strategies will need to be implemented in order to accelerate learning?

Changes in instructional practices and supplemental resources and support will be essential to accelerate learning.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Teachers are provided with a school-based professional development prior to the start of the school year that focuses on strategies for success.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Teachers will have ongoing development through department meetings and district professional developments. Students will receive support through tutoring, supplemental programs, and intensive classes.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale: Recent performance data indicates a need for improvement in several math areas, especially Geometry because this area had the greatest difference between school and district, as well as state, in achievement scores. Thus, instructional practices in mathematics is a major area of focus to maximize student learning and produce positive outcomes for student achievement.

Measurable Outcome: As a result of instructional improvement, student achievement in Geometry will increase to a score of at least 64%, a 15 percentage point increase from the previous year's score.

Monitoring: The leadership team will consistently review lesson plans and perform regular classroom observations. Teachers will be provided feedback and have multiple opportunities to

Person responsible for monitoring outcome: Walter Fajet (walterfajet@dadeschools.net)

Evidence-based Strategy: Explicit instruction with cumulative practice, visual representation, schema-based instruction, and peer interaction are instructional practices that will be implemented for this area of focus. Explicit instruction is a way of teaching that makes the learning process completely clear for students, and students don't need to guess what they have to do. Visual representation is a way for students to see math and help students understand abstract math concepts. Schema-based instruction is one of the most effective ways to help students solve word problems by teaching them to identify word problem types. Peer interactions can develop students' math language and vocabulary, as well as helping students express their reasoning.

Rationale for Evidence-based Strategy: Research has shown that explicit instruction with cumulative practice, visual representation, schema-based instruction, and peer interaction significantly improve students' abilities to correctly solve problems. These effective, evidence-based strategies can be used with current curriculum for all students, particularly those that have more difficulty with mathematical skills and concepts.

Action Steps to Implement

Teachers will meet monthly with the department for ongoing development for evidence-based strategies and to share best practices.

Person Responsible Dorremi Canelo (dorremi4@yahoo.com)

Teachers will incorporate strategies in their lesson plans and implement these strategies in their classrooms. Leadership team will observe and provide feedback.

Person Responsible Dorremi Canelo (dorremi4@yahoo.com)

Teachers will use assessments and observation feedback to reflect on instructional practice and to plan for changes in instructional practices.

Person Responsible Matania Germain (magermain@dadeschools.net)

#2. Leadership specifically relating to Specific Teacher Feedback

Area of Focus Description and Rationale:	Results on the school climate survey indicated the need to consistently use teacher observations and evaluations to drive improvement in performance. As observations and evaluations are a critical part of developing high quality teachers, it is essential to improve practices that target this area of focus.
Measurable Outcome:	The Leadership Team will commit to making informal observations followed by constructive feedback at a rate of at least 2 per quarter and a minimum of 1 formal evaluation per teacher.
Monitoring:	Dr. Fajet will hold the Leadership Team accountable by scheduling windows to observe and monitoring the observation-feedback cycles that occur throughout the year.
Person responsible for monitoring outcome:	Walter Fajet (walterfajet@dadeschools.net)
Evidence-based Strategy:	The Leadership Team will observe each teacher throughout the year by scheduling windows to observe and provide feedback, sharing the feedback provided, having ongoing conversations with teachers, and discussing areas of improvement among the Leadership Team.
Rationale for Evidence-based Strategy:	Classroom observations and evaluations are key to improving instructional practice and pedagogy. The expectations and goals are clarified for teachers and helps them meet those expectations through cycles of feedback and support.

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The school has a low incident rating. It falls below the state average and is ranked #129 out of 505 schools statewide. The factor that impacts the school rating the most is the violent incidents category with 4 reported incidents of bullying and harassment. This will be the primary area of concern that the school will monitor during the upcoming school year. Currently the behavior and discipline system works effectively to monitor students behaviors within the school and behaviors outside the school that impact the classroom through open lines of communication among students, staff, faculty, and administration as well as digital monitoring on the Kickboard application. A positive behavior intervention and support system is in place through the use of the Kickboard app.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

A positive school culture is a key element of school success. Thus, AIE Charter Upper school encourages positive relationships and a shared vision for school success among teachers, staff, students, and parents. The 2021-2022 school culture outcome is to empower students and encourage them to take ownership of their success with the involvement of all stakeholders. Throughout the school year, specific school programs and organizations established communication and interaction among all stakeholders in the school and community through school events, such as fundraisers, curriculum nights, parent nights, and PTO. In addition, students are given autonomy and responsibilities for event organization and execution, which entailed getting other stakeholders involved; they performed at events or were involved in essential duties; and they were recognized for their accolades and achievements.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

The Leadership Team approves a multitude of activities sponsored by teachers throughout the year. Teachers encourage student involvement in these various activities, and together, teachers and students recruit parents and other members of the community to engage in school events and activities.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Math	\$0.00
2	III.A.	Areas of Focus: Leadership: Specific Teacher Feedback	\$0.00
Total:			\$0.00
