School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis
Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

EOC/FSA Reading and Math.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

What were the contributing factors to this improvement? What new actions did your school take in this area?

What strategies will need to be implemented in order to accelerate learning?

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

1. Moving level ones to level two in ELA
2. Moving level ones to level two in Math
3. Increasing number of students scoring level 3 in FSA/EOC to 40%

Part III: Planning for Improvement

Areas of Focus:

#1. Other specifically relating to Instructor attendance

Area of Focus Description and Rationale:	During the SY '18-'19, the instructional staff were absent an average of 13 days, excluding in-service and professional development. The average is 15 days if you include in-service and professional development training.
Measurable Outcome:	To maintain the amount of certified instructors contact with students from 215 days to 240 days by the end of June 2020.
Monitoring:	Instructor absenteeism will be monitored every 5 days via People Soft and individual meetings will be monitored every 45 days.
Person responsible for monitoring outcome:	James Buchanon (jameslb@leeschools.net)
Evidence-based Strategy:	Negotiate with Teacher Association of Lee County and provide instructors with documented research on the impact of instructors absenteeism on the academic advancement of students.
Rationale for Evidence-based Strategy:	

Action Steps to Implement

1. Meet with instructors to go over absenteeism
2. Review the data
3. Identify areas or reasons for absenteeism
4. Design an individual employee's plan to improve attendance
5. Provide incentives for perfect attendance

Person Responsible	James Buchanon (jameslb@leeschools.net)

#2. Other specifically relating to Social and Emotional Learning	
Area of Focus Description and Rationale:	Students who arrive at the Vince Smith Campus who are under-performing tend to lack motivation to continue with their education and often view the academic component of the program as a waste of their time.
Measurable Outcome:	Increase the number of students earning credits from 60% to 80% by June 2020.
Monitoring:	
Person responsible for monitoring outcome:	Theresa Lee (theresaal@leeschools.net)
Evidence-based Strategy:	Students goal setting for completion of assignments. Teachers and students will conference weekly regarding academic progress.
Rationale for Evidence-based Strategy:	Students engage and begin to value the educational opportunities provided.

Action Steps to Implement

1. Monitor student progress through the STAR assessment.
2. Students completion of assignment to be monitored bi-weekly.
3. Administration walk throughs to observe student engagement.

Person Responsible James Buchanon (jameslb@leeschools.net)

#3. Other specifically relating to Student's Reading Levels	
Area of Focus Description and Rationale:	In Reading, some students are two or more grade levels below their cohorts.

Measurable Outcome:	Level 1 and 2 students shall gain the same average amount or more percentile points on STAR as their grade level cohorts by June 2020. Last year, the average percentile gain for current Level 1 seventh graders was .84; either grades was 1.21; ninth graders was .12 and tenth graders was .71. The average percentile gain for Level 2 seventh graders was .75; eight graders was .97; ninth graders was .44 and tenth graders was 1.2
Monitoring:	
Person responsible for monitoring outcome:	James Buchanon (jameslb@leeschools.net)
Evidence-based Strategy:	All instructors teach reading and writing strategies. Provide constructive feedback/coaching. Implement three of Hattie's effective high yielding strategies.
Rationale for Evidence-based Strategy:	The plan is to monitor every 30 days via formatives and every 45 day via STAR.

Action Steps to Implement

1. Administer STAR assessment
2. Review lesson plans and feedback for engaging activities
3. The instructor will implement 3 of Hattie's high yielding strategies
4. The instructor will follow the District's Instructional Guide
5. The instructor and teacher's assistant need to scaffold and support students performing below their current grade level through teaching reading strategies and one-to-one intervention.

Person Responsible	James Buchanon (jameslb@leeschools.net)

#4. Other specifically relating to Math Levels	
Area of Focus Description and Rationale:	In Math, some/most of the students performing are two or more grade levels below their current grade-level.
Measurable Outcome:	Level 1 and 2 students shall gain the same average amount or more percentile points on STAR as their grade level cohorts by June 2020. Last year, the average percentile gain for current Level 1 seventh graders was 1.17; eight graders was .25; ninth graders was .32 and tenth graders was .16. The average percentile gain for Level 2 seventh graders was 1.78; eight graders was .99; ninth graders was -.06 and tenth graders was .30
Monitoring:	
Person responsible for monitoring outcome:	Theresa Lee (theresaal@leeschools.net)
Evidence-based Strategy:	Provide coaching to assist with tutoring, modeling, small and large group instruction. Provide professional development in mathematical strategies and curriculum resources.
Rationale for Evidence-based Strategy:	Monitored every 30 days via formative Monitored every 45 days via STAR

Action Steps to Implement

1. Provide opportunity for instructor collaboration in PLCs
2. Monitor instruction via lesson plans and observations
3. Review data from progress monitoring

Person Responsible	Theresa Lee (theresaal@leeschools.net)

#5. Other specifically relating to Proficient Math Levels	
Area of Focus Description and Rationale:	The majority of the students who are proficient or above in FSA-Math and/or EOCs Algebra 1 / Geometry struggle to maintain their proficiency.
Measurable Outcome:	Level 3 and above students shall gain the same average amount or more percentile points on STAR as their grade level cohorts by June 2020. Last year, the average percentile gain for current Level 3 and above seventh graders was .49; eight graders was .88; ninth graders was .49 and tenth graders was 1.05.
Monitoring:	
Person responsible for monitoring outcome:	James Buchanon (jameslb@leeschools.net)
Evidence-based Strategy:	Provide opportunities for differentiated instruction. Provide rigorous materials at various levels. Small group or possible individual one on one tutoring.
Rationale for Evidence-based Strategy:	Ensure students stay with current group level

Action Steps to Implement

1. Provide professional development on differentiated instruction techniques
2. Monitor instruction and provide coaching
3. Provide opportunity for instructors collaboration via PLCs
4. Introduce 3 of Hattie's High yielding strategies
5. Monitor every 45 days via formative and STAR
6. Summative every 60 day

Person Responsible	James Buchanon (jameslb@leeschools.net)

Additional Schoolwide Improvement Priorities

Using the SafeSchoolsforAlex.org, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.
