School Board Approval

This plan is pending approval by the Lee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

What were the contributing factors to this improvement? What new actions did your school take in this area?

What strategies will need to be implemented in order to accelerate learning?

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Economically Disadvantaged

Area of Focus Description and Rationale:	During the 20-21 school year, 85 students missed more than 20 days of school. Of these students 65% were identified as receiving free and reduced lunch.
Measurable Outcome:	For the 2021-22 school year, GHS Economically Disadvantaged subgroup will achieve an attendance daily average of 95% as measured by the 20 day attendance cycle report sent to the school's electronic folder each attendance survey period. GHS will create an Attendance Committee that will meet monthly. The committee will include administration, school counselors, attendance specialist, career specialist, and the school social worker. Attendance will be monitored daily by the Attendance Specialist.
Monitoring:	Teachers will call home on each student's second absence then email the attendance committee. The school social worker and Attendance Specialist will generate 3,5 and 10 day letters. Parent conferences will be set up for students who miss 5 days of school. PBIS committee will meet monthly with one of it's focus on attendance.
Person responsible for monitoring outcome:	[no one identified]
Evidence-based Strategy:	20 day attendance cycle report sent to the school's electronic folder each attendance survey period will be compared to the previous cycle to determine improvement in the right direction.
Rationale for Evidence-based Strategy:	Student's attendance is directly related to student engagement and academic success.

Action Steps to Implement

No action steps were entered for this area of focus

#2. ESSA Subgroup specifically relating to Economically Disadvantaged

Area of Focus Description and Rationale:	During the 20-21 school year, 99 students received 1 or more referrals. Of these students 55% qualified for free and reduced lunch.
Measurable Outcome:	For the 2021-22 school year, GHS economically disadvantaged students will not exceed 5% of OSS for the total student population in discipline resultant action.
Monitoring:	GHS will create a PBIS Committee that will meet monthly. The committee will include administration, school counselors, teachers, and office staff that will analyze discipline data and create positive supports for students in addition to restorative practices.
Person responsible for monitoring outcome:	[no one identified]
Evidence-based Strategy:	School discipline data will be discussed monthly during PBIS meetings and faculty meetings.
Rationale for Evidence-based Strategy:	Student's attendance is directly related to student engagement and academic success. When students are suspended from school, they lose invaluable time in the classroom learning.

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.SafeSchoolsforAlex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

GATEWAY HIGH SCHOOL reported 1.0 incidents per 100 students. This rate is less than the Statewide high school rate of 3.3 incidents per 100 students. School culture will be monitored through restorative practices and PBIS.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
