Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Grade Level Data Review - Progress Monitoring Assessments

Provide the progress monitoring tool(s) by grade level used to compile the below data.

iReady was the tool used by English Language Arts and math to progress monitor their students. In Civics and Science, teachers used monthly, teacher-generated Common Formative Assessments.

Grade 6				
English Language Arts	Number/% Proficiency	Fall	Winter	Spring
	All Students	35.4	38.3	6.7
	Economically Disadvantaged	28.7	37	8.3
	Students With Disabilities	11.8	15.7	0
	English Language Learners	0	0	16.7
Mathematics	Number/% Proficiency	Fall	Winter	Spring
	All Students	30.4	36.4	9.8
	Economically Disadvantaged	21.5	18.1	18.2
	Students With Disabilities	10.7	11.1	0
	English Language Learners	2.1	2	0

Grade 7

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

All grade levels and subgroups showed a significant drop in proficiency in core content areas. One contributing factor was the fact that many students were on virtual learning due to the Covid-19 pandemic. They did not have the assistance from teachers that the in-classroom experience provides.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Math achievement dropped from 51% to 26% overall according to FSA scores. Science dropped from 42% to 25%, and Civics dropped from 62% to 47%.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

This drop in proficiency was a direct result of the amount of students that were not physically present in schools during the year of the Covid-19 pandemic. New actions include re-engaging students in the classroom and increasing attendance so that more students are physically present to receive instruction.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Acceleration scores from Geometry, Algebra, and Biology EOCs showed the most improvement with an increase of 8 points from 78% to 86% overall.

What were the contributing factors to this improvement? What new actions did your school take in this area?

The contributing factor was that the school provided extended learning opportunities for those high achieving students before and after school.

What strategies will need to be implemented in order to accelerate learning?

The school will need to provide extended learning opportunities for all students before and after school as well as on Saturdays to help them catch up on the learning.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Professional Development on the schoolwide reading strategies will be provided to teachers each Monday throughout the year. The reading strategies include IDEAS (inference, definition, example,

antonym/synonym), Cornell notes, Notice and Note, Teacher Read aloud, RACE (restate, answer, cite, explain).

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Additional services include more district support in the form of content coaches visiting the school as well as training in SEL (social and emotional learning) and mindfulness for both students and teachers.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus	The area of focus is to increase learning gains for the lowest 25%, ELL, and SWD Students in ELA. This will impact student achievement because it will increase literacy among our students.
Description and Rationale:	
Measurable Outcome:	By June of 2022, the percentage of students making a learning gain in the lowest 25%, ELL, and SWD subgroups will increase by 5% overall.
Monitoring:	This Area of Focus will be monitored through monthly Common Formative Assessments given through Growth Measure (new HMM ELA program).
Person responsible for monitoring outcome:	Charlene Ambroise (charlene.ambroise@browardschools.com)
Evidence-based Strategy:	Several schoolwide reading strategies will be implemented in the classrooms this year to assist with this area of focus. The reading strategies include IDEAS (inference, definition, example, antonym/synonym), Cornell notes, Notice and Note, Teacher Read aloud, RACE (restate, answer, cite, explain).
Rationale for Evidence-based Strategy:	According to research (Allen, 2000) A read-aloud—or shared reading—is one of the most effective ways for young adults to hear fluent reading. Our literacy plan advises that teachers read to their students every day in every class. Some teachers read the text aloud while students listen; other teachers read the text aloud while students read along. Most often, the selections are not from the textbook; instead, teachers select other materials that build students' background knowledge, provide them with interesting vocabulary words, and ensure they are hearing fluent reading.

Action Steps to Implement**Action Steps:**

1. Provide teachers with data and research on the rationale behind this strategy.
2. Provide teachers with examples/modeling of this strategy used correctly in the classroom (model teachers).
3. Administrators will conduct classroom walkthroughs to ensure that the strategy is being used with appropriate frequency.
4. Teachers will assess ELL and SWD students and progress monitor regularly.
5. Teachers will have data chats with students to ensure that students take ownership of the progress they are making.
6. Administrators will have data chats with the teachers to ensure that teachers are aware of the progress their students are making and are making adjustments based on that data.

Person Responsible Cheryl Reep (cheryl.reep@browardschools.com)

#2. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale: The area of focus is to increase learning gains for the lowest 25%, ELL, and SWD Students in Math. Based on the data, all three grade levels decreased due to being at home during the year of the Covid-19 pandemic. The most significant drop was in 8th grade where students only demonstrated 9% proficiency on the FSA.

Measurable Outcome: By June of 2021, ELL and SWD students in the lowest quartile will make learning gains in Math at a rate at or above 43%.

Monitoring: This Area of Focus will be monitored through monthly Common Formative Assessments given through iReady.

Person responsible for monitoring outcome: Amy Doyle-Bennett (amy.bennett@browardschools.com)

Evidence-based Strategy: One strategy that will be implemented is differentiated instruction which addresses different learning modalities in the classroom. Teachers will provide a learning environment where the academic needs of all students are met and thus increasing math proficiency and learning gains on the FSA.

Rationale for Evidence-based Strategy: During the 1990s, teachers were encouraged to present material differently according to a student's "learning style"—for example, visual, auditory, or kinesthetic. But while there have been studies that show students remember more when the same material is presented and reinforced in multiple ways, recent research reviews have found no evidence that individual students can be categorized as learning best through a single type of presentation. Source-Edweek.org

Action Steps to Implement

1. Provide teachers with data and research on the rationale behind this strategy.
2. Provide teachers with examples/modeling of this strategy used correctly in the classroom (model teachers).
3. Administrators will conduct classroom walkthroughs to ensure that the strategy is being used with appropriate frequency.
4. Teachers will assess ELL and SWD students and progress monitor regularly.
5. Teachers will have data chats with students to ensure that students take ownership of the progress they are making.

Person Responsible: Amy Doyle-Bennett (amy.bennett@browardschools.com)

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

According to the Safe Schools for Alex website, New River Middle reported 9.1 incidents per 100 students. This rate is greater than the Statewide middle/junior school rate of 4.2 incidents per 100 students. The areas of concern include the high number of discipline incidents and suspensions. This will be monitored more closely this year and there will be more of a focus on social and emotional learning and mindfulness to ensure that students are able to process their emotions more efficiently and not act before they think about the consequences. We have already implemented a minute of silence each morning, as well as Brain Smart Starts on the morning announcements to get students started on the right emotional path each day.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

It is our goal to provide an atmosphere where parents are able to express their views and assist in problem solving. We want parents to understand that we view them as joint policy and decision makers and plan to emphasize their roles as advocates. An area of improvement is to establish more positive and worthwhile relationships with parents as means to best impact the academic, social, and behavioral development of the whole child. These relationships will be built through periodic Title 1 parents nights in which strategies are shared and assistance in helping their children academically at home is provided.

The social-emotional needs of all students are being met through the implementation of Suite 360 school wide. In addition, the majority of our teachers have attended SEL training and learned strategies that encourage the social and emotional well being of students. In addition, we start each morning with a "Brain Smart Start" on the morning announcements. Lastly, we offer several SEL elective classes that selected 6th grade students rotate through each quarter. Teachers are also using Conscious Discipline and Second Step curriculum. The school also uses Naviance with all students in order to assist them in planning for high school, college, and career. In addition, students in our computer classes will have the opportunity to earn industry certifications before entering high school. Lastly, we have established partnerships with companies such as Marine Industries, who encourage and present career options to our students in marine or ocean exploration classes

We partner with the elementary schools and high schools in our feeder pattern to ensure that incoming students feel comfortable entering middle school and outgoing students are prepared for high school.

During the year prior to 5th graders entering, they are invited to our school for a tour to become acclimated to the campus and get a feel for how the classes look. We also offer a two day "Shark Camp" in the summer where the students learn all about middle school and meet some of their teachers and fellow students.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Stakeholders include the school leadership team (Ms. Wessinger, Ms. Reep, Mr. Reeves, Ms. Harris) who are involved in promoting a positive culture and environment by maintaining safety and security for all students. In addition, the teachers promote positivity by engaging in mindfulness activities with students, rewarding them with incentives for positive behavior (ICUs). The SEL (social and emotional learning) team (Mr. and Mrs. Garcia and cohorts) works on providing conscious discipline training to the staff, doing birthday celebrations for staff, and Brain Smart Starts on the morning announcements. We invite the parents to participate with us in promoting a positive environment at our monthly School Advisory Council meetings. We also remind students to start with "hello" and be kind to one another. Lastly, the school counseling team is very involved with promoting positivity with events like suicide prevention week and peace week.

School leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) during regular, monthly meetings in order to meet the needs of all students.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
