School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Developing and maintaining a lifelong learner in a safe, accepting, and nurturing environment that the Bailey school community provides.

Provide the school's vision statement.

Preparing students for life

"90 X 20"

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Position Title | Job Duties and Responsibilities |
|---------------------|------------------------|---|
| Valdez, Scott | Principal | As specified by his contract and specifically with this SIP process, part of the decision making team supporting teachers, reviewing of data, giving targeted feedback to all teachers and ensure that all of our teachers meet the academic needs of all Bailey students |
| Willis, Kristin | Assistant Principal | As specified by her contract and specifically with this SIP process, part of the decision making team supporting teachers, reviewing of data, giving targeted feedback to all teachers and ensure that all of our teachers meet the academic needs of all Bailey students |
| Krout, Stephanie | Teacher, K-12 | Part of this SIP process, part of the decision making team supporting teachers, reviewing of school data, supporting teachers as a team member of this process to meet the academic needs of all Bailey students. Also the Chairperson of the SIP Committee. |
| Sabo, Stephanie | Teacher, ESE | Part of this SIP process, part of the decision making team supporting teachers, reviewing of school data, supporting teachers as a team member of this process to meet the academic needs of all Bailey students. Also the ESE School Contact/Lead for the school |
| Groubert, Cheryl | Teacher, K-12 | SAC Chairperson for the 2019-20; 2020-21 school years. Part of this SIP process, part of the decision making team supporting teachers, reviewing of school data, supporting teachers as a team member of this process to meet the academic needs of all Bailey students. Also the Chairperson of the SAC Committee. |
| Moyer, Staci | SAC Member | SAC Chairperson for the 2021-22 Part of this SIP process, part of the decision making team supporting teachers, reviewing of school data, supporting teachers as a team member of this process to meet the academic needs of all Bailey students. Also the Chairperson of the SAC Committee. |

Demographic Information

Principal start date

Wednesday 7/21/2021, Kristin Willis

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

2

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

9

Total number of teacher positions allocated to the school

36

Total number of students enrolled at the school

680

Identify the number of instructional staff who left the school during the 2020-21 school year.

Identify the number of instructional staff who joined the school during the 2021-22 school year.

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

| Indicator | Grade Level | | | | | | | | | | | | | Total |
|--|-------------|-----|-----|-----|-----|-----|---|---|---|---|----|----|----|-------|
| Indicator | K | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | Total |
| Number of students enrolled | 101 | 115 | 122 | 111 | 104 | 104 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 657 |
| Attendance below 90 percent | 5 | 21 | 19 | 14 | 18 | 13 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 90 |
| One or more suspensions | 0 | 0 | 2 | 1 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 3 |
| Course failure in ELA | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | |

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

We have seen trends for lower performance in ELA, Math and Science for all grades analyzed (grades 1-5) for ESSA Subgroups of Economically Disadvantaged students, Students With Disabilities, as well as English Language Learner students.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Students With Disabilities performance: In 2019 ELA Achievement for FSA (3 and Above) was 19 percent; Math Achievement was 14, and Science Achievement was 13 percent.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Authorized 5 ESE VE Resource teacher units; half of the year we had one vacancy; the second half of the year we had two vacancies that were not filled. This increased the caseload for the VE teachers to levels that were less than optimum for academic success in all curricular areas. The progress monitoring during PLCs, data chats, test performance disaggregation has focused specifically on all students including Bottom Quartile, ESE and ELL students. ESE/VE teachers are part of all data meetings and coaching sessions on site.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Based on the FSA performance of the overall gains for Math went from 51% (in 2019) to 80% (in 2021) which is a 29 point increase; the Bottom Quartile Gains for Math increased from 46% (in 2019) to 71% (in 2021) a 25 point increase.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Focused coaching by our grade levels teams in PLCs 2X per month; spiraling review and tests to keep standards continually monitored lead by our Math Coach.

What strategies will need to be implemented in order to accelerate learning?

Continued focus on Coaching by our Reading Coach and Math Coach; use of data to make decisions for improving students level of performance in all curricular areas in ELA, Math and Science. The lengthening of planning for all grade levels and curricular areas as a focused school planning will continue to provide opportunities for teachers to backwards plan for academic success. Also our Instructional Priorities which are focusing on Questioning and Discussion will provide opportunities for more robust instruction.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

As mentioned above - we are using our on-site PD for a book study as well as initial fidelity checks to see the use of questions and discussion as well as the quality of questioning and discussion. We are using our coaches as well as a former mentor to provide modelling, PD and implementation of more effective questioning and discussion techniques which will increase student achievement. These teachers that participate in our PD will become model classrooms to show that these strategies are indeed successful and effective.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Provide refresher PD on Questioning and Discussion during our pre-planning for the 2022-23 school year; use fidelity and environmental walkthroughs as a way to monitor and ensure more effective instructional techniques are used and the effect of this PD on student achievement as measured by state assessments in the spring of 2022.

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Students with Disabilities

Our ELA performance as measured by FSA in 2021 is as follows:

ELA proficiency for our ESE students 22% ELA gains for our ESE students is 33%

Area of Focus

ELA BQ gains for ESE is 38%

Description

Our Math performance as measured by FSA in 2021 is as follows:

and Rationale:

Math proficiency for our ESE students 37%

Our scores should be indicative of the focused instruction, using data as the measure of successes and areas of growth for ELA for all 3 categories for School Grade; and for the proficiency as measured by Math FSA.

Our ELA performance for success as measured by FSA in the Spring of 2022 targets are as follows:

ELA proficiency for our ESE students 45% ELA gains for our ESE students is 45%

ELA BQ gains for ESE is 45%

Measurable

Outcome:

Our Math performance as measured by FSA in the spring of 2022 target is as follows: Math proficiency for our ESE students 45%

Monitoring the success levels for Students with Disabilities for all of our formative assessments which include, Math Monthlies, PMAs, & iReady performance for both and ELA and Math.

Weekly coaching sessions before school - supported by content area coaches Weekly planning on Tuesdays after school - supported by content area coaches.

Administrative walkthroughs bi-weekly

iReady Reading progress monitored and analyzed monthly

Progress Monitoring Assessments (PMAs) given and analyzed as given according to the

Monitoring:

calendar

Math Monthlies given and analyzed according to the calendar.

They will be monitored by our Assistant Principal as well as our academic coaches the week of any of our progress monitoring assessments, and then disaggregated by each grade level team in coaching sessions and PLCs. This includes our ESE/VE teachers - monitoring our strengths and areas and opportunities for improvement.

Person responsible for

monitoring outcome:

Kristin Willis (kristin.willis@hcps.net)

Teacher clarity with a Hattie effect of .75. All members of the instructional community - which include our Reading Coach, the individual classroom teachers, as well as the Administrative team understand and be clear on: what is being learned, standard alignment with the lesson, how performance will be measured.

Evidencebased Strategy:

Feedback has a Hattie effect of .70. Teachers should be given targeted and specific feedback about how to improve instruction as a whole, small groups and individual

students receiving Tier 3 support.

Rationale for

Teacher clarity - students knowing what their learning target is or learning objective, then they know the purpose and outcome needed for success.

Feedback - Student success in all curricular areas - including the ELA and Math focus for our school, provides a clear path for teachers and students of what standards and skills need to be mastered, what level they are working toward and how to reach the goals set by teacher and/or the student.

Evidencebased Strategy:

Coaching as a High Quality Professional Development. Using our Academic coaches as leaders of instruction and academic achievement, they provide teachers with implementing of students understanding high level of academic expectations - all students are clear of the academic expectations, how they will learn and what they will learn, they are on a clear path to understanding success and understanding what they need to work on if they struggle in an area of misunderstanding.

Action Steps to Implement

Retain and provide support needed for our Reading Coach and Math Coach to stay at Bailey. They will continue to meet with our ESE Resource teachers embedded in her planning sessions to meet he needs of our ESE students in 3rd 4th and 5th grade. They will continue to plan for before school coaching as well as being the facilitator of after school planning and PLCs. This is a concentrated effort to blend standards, instruction, student performance as well as data analysis to indicate areas of strength and areas of growth opportunities. Student data will be collected by iReady performance and Progress Monitoring Assessments (PMAs), teacher made assessments as well as district created assessments. Planning for academic success, data disaggregation, and planning for re-teach and identifying academic successes AND continue to provide opportunities for our ESE students to keep content fresh by spiraling review and instruction on a daily basis.

#2. Instructional Practice specifically relating to ELA

Our ELA performance as measured by FSA is as follows:

Area of ELA proficiency for ELA 45%

Focus ELA gains 54%
Description ELA BQ is 40%

and

Rationale: Our scores should be indicative of the focused instruction, using data as the measure of

successes and areas of growth for ELA for all 3 categories for School Grade.

55% Proficiency ELA overall (3rd, 4th, 5th)

Measurable
Outcome:

60% Gains for ELA overall (retained 3rd graders, 4th and 5th graders)

50% Gains for BQ (retained 3rd graders, 4th and 5th graders)

Weekly coaching sessions before school - supported by content area coaches Weekly planning on Tuesdays after school - supported by content area coaches.

Administrative walkthroughs bi-weekly

Monitoring: iReady Reading progress monitored and analyzed monthly

Additional Schoolwide Improvement Priorities

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

We are ranked #202 out of 1395, in the DARK green area which indicates we are continuing to support progressive discipline and calm re-entry back into class as a way of work. When students are allowed to learn calming techniques as well as thinking through challenging situations, with support from parents, our Student Services team and all of the Bailey School family we will continue to repeat this success. We are ranked # 1 in our county in Property Incidents as well as Drug/Public order Incidents. This all contributes to a culture of success for teachers and students; Academic Achievement is our primary goal; during a Covid 19 year our school gained 64 points on our school grade and improved from a "C" rating to a "B".

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

High levels of school culture which are measured by our AsQi survey in the Spring of 2021 as well as the visible and performance demonstrated by our students in the Spring of 2021 on FSA and NGSSS assessments. We have a strong PTA, minimal union issues , high rates of High Quality Teacher Retention. Teachers WANT to teach here, students want to learn here. Our school grade raised from a "C" to a "B", we have a high level of Choiced in students which includes 9 former and current School level and District level administrators who - by word of mouth - know this is the place they want their family educated. We are ranked #! in 2 different discipline categories for the District. This indicates kids are safe; performance data indicates that we have high expectations for all teachers and students.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

PTA - parent and teachers working together to promote a positive environment;

Business partners with First Baptist Dover helps supply our kids a clothing closet;

Trendsetters school which provide our neighboring High School with Mentoring opportunities for our kids in a Big Brother/Big Sister approach. This program encourages students to become academic achievers.

Our use of Social Media supports getting information and requests for assistance for our students; response levels are high and getting the students what they need is provided through the use of FB and Twitter.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
