## **Demographics**

**Principal: Jeffrey Cooley** 

Start Date for this Principal: 6/17/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners* Black/African American Students* Hispanic Students* Economically Disadvantaged Students*
School Grades History	2018-19: D (35%) 2017-18: D (37%) 2016-17: C (42%)
2019-20 School Improvement (SI) Info	ormation*
SI Region	Central
Regional Executive Director	<u>Lucinda Thompson</u>
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	
* As defined under Rule 6A-1.099811, Florida Administrative Code. F	or more information, click here.

## **School Board Approval**

This plan is pending approval by the Hillsborough County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridacims.org">www.floridacims.org</a>.

#### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

#### **Part I: School Information**

#### **School Mission and Vision**

Provide the school's mission statement.

The community of scholars evolving into tomorrow's leaders!

Provide the school's vision statement.

Kenly ensures an equitable education that empowers students to be successful.

#### School Leadership Team

#### Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Wallace, Russell	Principal	The principal will have oversight over all programs and systems while responsible for monitoring all structures and outcomes.
Brown, Tiffany	SAC Member	Hold and conduct SAC meetings and communicate all items to stakeholders.

#### **Demographic Information**

#### Principal start date

Thursday 6/17/2021, Jeffrey Cooley

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

3

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

3

Total number of teacher positions allocated to the school

24

Total number of students enrolled at the school

481

Identify the number of instructional staff who left the school during the 2020-21 school year.

3

Identify the number of instructional staff who joined the school during the 2021-22 school year.

4

#### **Demographic Data**

### **Early Warning Systems**

2021-22

### The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													
indicator	K	1	2	3	4	5	6	7	8	9	10	11	12	Total
Number of students enrolled	79	67	62	83	62	80	0	0	0	0	0	0	0	433
Attendance below 90 percent	10	11	9	8	3	7	0	0	0	0	0	0	0	48

#### **Analysis**

#### **Data Analysis**

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

#### What trends emerge across grade levels, subgroups and core content areas?

Overall ELA data has remained stagnant in proficiency but with quality gains and quality bottom quartile gains. Math has shown great growth in proficiency and outstanding gains across the board.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The lowest data component is ELA proficiency and our only subgroup not meeting expectations is the ELL subgroup.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

COVID and elearning were huge obstacles for improvement in these areas. ELL had access to a new program, Imagine Learning but not for the full year. We anticipate great growth with a full year of access to the program.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Math gains and math bottom quartile gains especially were the most improved. Our math bottom quartile gains were number one in the entire state.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Planning sessions and data systems implemented by our new math coaches paid huge dividends. The work and systems by the coaches were effectively implemented by teachers in the classroom.

#### What strategies will need to be implemented in order to accelerate learning?

Foundational skills taught with fidelity in kindergarten through 2nd grade. Teachers having impeded vocabulary lessons as a consistent part of daily ELA curriculum. Core instruction with aggressive monitoring to engage student learning and understanding.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Data Driven Instruction
Aggressive Monitoring Techniques
LSI Thinking Maps

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Strong resource team; two math coaches, two reading coaches, RTI facilitator, ESE Specialist. This team will lead the curriculum and instruction initiatives.

### Part III: Planning for Improvement

**Areas of Focus:** 

#### #1. Instructional Practice specifically relating to Standards-aligned Instruction

Instructional Priority - Teachers will plan high quality lessons in ELA, Math, and Science during their common planning time in order to demonstrate clarity around the standards. Teachers will progress monitor students' progress towards mastery and provide specific feedback to help students reach proficiency.

#### Area of Focus Description and Rationale:

Rationale: Based on FSA data, we identified significant learning gains, but inadequate growth in proficiency. This can be contributed to the lack of teacher clarity of around standards. There were also a lack of frequent progress monitoring of student data. With the implementation of the new BEST standards for K-2, we feel standards-aligned instruction is necessary to help push our students to proficiency.

ELA FSA results indicate significant improvements in learning gains and bottom quartile learning gains. However, significant improvements are needed to for the number of kids reaching proficiency. ELA proficiency for the 2020-2021 school year was 24%.

#### Measurable Outcome:

Student FSA assessment data indicated great student learning gains but inadequate proficiency. Science 3+ was 26%, Math 3+ was 38% and reading 3+ was 24%. Teachers and staff will spend more time analyzing student outcomes and incorporating high impact influences to move significantly more students to proficiency.

ELA proficiency for 2020-2021 was 24% and our school goal for 2021-2022 is 62%.

The administration will conduct daily walkthroughs using a monitoring tool to provide targeted and specific feedback based on the instructional focus and task alignment.

#### **Monitoring:**

The administration will conduct daily walkthroughs of ELA classrooms to provide targeted and specific feedback based on the identified instructional priority and look fors.

# Person responsible

for monitoring outcome:

Russell Wallace (russell.wallace@hcps.net)

Data teams will meet every Tuesday for aggressive monitoring of students' progress master of standards towards proficiency.

Weekly planning sessions will be focused on standards with an emphasis on teacher clarity. The teachers will also develop a progress monitoring tool to ensure student mastery

### Evidence-

of the standards.

based Strategy: Administration will analyze walkthrough data to help determine coaching next steps for teachers.

ELA teachers will aggressively monitor standards based tasks for students within each lesson with frequent checks for understanding while using this information to determine data driven small group instruction.

## Rationale

for Evidence-

We will use planning with an emphasis on standards to strengthen teacher instructional practice in order to increase proficiency.

practice in order to increase proficiency

based Strategy: ELA instructional coaches will emphasize the aggressive monitoring techniques in planning and their effective use in daily instruction.

#### **Action Steps to Implement**

Reading Coach will focus on weekly coaching, modeling, and planning high quality lessons during their common planning time in order to demonstrate clarity around the standards. The coach will meet weekly

with administration to determine next steps for teachers. The coach will also provide professional development on High Impact Influences. The PD will take place throughout the year with a specific focus on which high impact strategies to implement with fidelity.

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

Assistant Teacher BD Level will provide targeted instruction for approximately 30 ELL LYA and LYB students in grades K-2. The Assistant Teacher will attend planning sessions with the teacher and implement specific strategies to move the LYA and LYB students to proficiency. The Assistant Teacher will push in to the classroom as an additional support to conduct small group lessons.

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

Teachers and coaches will need access to a variety of materials to plan and deliver high quality lessons so students' complete high-quality work. These materials include binders, binder clips, paper clips, copy paper, chart paper, pencils, pens, crayons, expo markers, post it notes, index cards, folders, highlighters, page protectors, tab dividers, notebook paper, rulers, colored pencils, permanent markers, erasers, card stock, construction paper, lamination rolls/sheets, butcher paper, and spiral notebooks. Purchase toner, flash drives, surge protectors, and headphones for K-5 teachers for academic usage.

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

To continue to increase proficiency in science, our students need to be exposed to relevant science content. We will purchase PENDA for K-5 students. PENDA is a science skills builder tool built around the standards. It is learning through engaging lessons that can be tailored for students. It generates data for monitoring student progress. PENDA will be used bi-weekly / weekly to progress monitor mastery of grade level standards in grades K-5 in science. The cost of the program is \$6,850.00

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

Hire a Resource Teacher that is split funded with Title 1 dollars. The Reading Resource Teacher is a new position at Kenly. Resource Teacher will provide daily small group instruction along side the classroom teacher. The Resource Teacher will target Tier 2 and Tier 3 students in grades 3rd-5th. The Resource Teacher will also will focus on weekly coaching, modeling, and planning high quality lessons during their common planning time in order to demonstrate clarity around the standards.

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

Our school is currently a 1 to 1 device for students in grades 2nd-5th purchase with Title 1 dollars. We would like to purchase 10 laptop carts at a cost of \$900 per cart to support the laptops. The carts will be housed in classrooms to allow students quick access as they are completing assessments as well as iReady, Achieve 3000 and PENDA.

## Person Responsible Russell Wallace (russell.wallace@hcps.net)

The instructional staff will plan professional development for staff members to take place during faculty meetings or after school. They will focus on planning and high impact strategies to ensure teacher clarity with standards as well as moving students to proficiency. This specific planning is for 6 resource teachers for 2 hours bi-weekly every quarter (4 hours per quarter will take place in September, December, February, and April).

#### #2. Instructional Practice specifically relating to ELA

Instructional Priority - Teachers will plan high quality lessons in ELA during their common planning time in order to demonstrate clarity around the standards. Teachers will progress monitor students' progress towards mastery and provide specific feedback to help students reach proficiency.

#### Area of Focus Description and Rationale:

Rationale: Based on FSA data, we identified significant learning gains, but inadequate growth in proficiency. This can be contributed to the lack of teacher clarity of around standards. There were also a lack of frequent progress monitoring of student data. With the implementation of the new BEST standards for K-2, we feel standards-aligned instruction is necessary to help push our students to proficiency.

ELA FSA results indicate significant improvements in learning gains and bottom quartile learning gains. However, significant improvements are needed to for the number of kids reaching proficiency. ELA proficiency for the 2020-2021 school year was 24%.

#### Measurable Outcome:

Student FSA assessment data indicated great student learning gains but inadequate proficiency, reading 3+ was 24%. Teachers and staff will spend more time analyzing student outcomes and incorporating high impact influences to move significantly more students to proficiency.

ELA proficiency for 2020-2021 was 24% and our school goal for 2021-2022 is 62%.

The administration will conduct daily walkthroughs using a monitoring tool to provide targeted and specific feedback based on the instructional focus and task alignment.

#### **Monitoring:**

The administration will conduct daily walkthroughs of ELA classrooms to provide targeted and specific feedback based on the identified instructional priority and look fors.

# Person responsible

for monitoring outcome:

[no one identified]

Data teams will meet every Tuesday for aggressive monitoring of students' progress master of standards towards proficiency.

Weekly planning sessions will be focused on standards with an emphasis on teacher clarity. The teachers will also develop a progress monitoring tool to ensure student mastery

### Evidence-

of the standards.

based Strategy: Administration will analyze walkthrough data to help determine coaching next steps for teachers.

ELA teachers will aggressively monitor standards based tasks for students within each lesson with frequent checks for understanding while using this information to determine data driven small group instruction.

#### **Additional Schoolwide Improvement Priorities**

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

According to School Safety Dashboard, we are ranked 109 out of 119 elementary schools in the county for disciplinary actions. As we review our data, we have a clear plan to ensure the safety of our students. During preplanning, we will review our schoolwide discipline with each faculty member. The schoolwide plan will focus on restorative practices. Each grade level will have classroom ambassadors. The classroom ambassadors will be there to help new students transition to the school as well as remind students of the school wide expectations. We will also develop a restorative practice committee and include parents. We want input from the parents and community on how we can support their child.

#### Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

#### Describe how the school addresses building a positive school culture and environment.

The 21-22 Theme at Kenly is, "we are not here to be average, we are here to be awesome". The focus will continue to focus on high expectations for student outcomes and teacher/staff performance. The school vision is to ensure an equitable education that empowers students to be successful. We will have a student first mentality with all decision making that takes place in and around the school. All students social emotional learning will be prioritized and all efforts will be made to meet all student needs.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Our school SAC team will meet with stakeholders on a regular basis, PTA will be fully function and serve as an outreach for parent involvement, and business and community partners will be asked to support our culture initiatives throughout the year.

## Part V: Budget
