School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The Lanier Elementary community will foster leadership skills while facilitating an education to develop each child to their fullest potential.

Provide the school's vision statement.

Lanier's students will become lifetime learners and leaders who are prepared for life.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Position Title | Job Duties and Responsibilities |
|----------------------|------------------------|--|
| Oansia | | The leadership team meets weekly to drive the work of the School Improvement Plan. We meet on Mondays to progress monitor each of our goals, objectives and action steps. The Leadership team also serves as the Problem Solving Team to identify barriers to success towards each goal and create strategies to overcome each barrier. |
| Garcia, Sarah | Principal | The principal's primary responsibility as an instructional leader is to ensure that our teaching and learning on campus are happening at a highly effective level every day. Daily walkthrough and regular feedback, along with targeted professional development are critical to achieving success for all students. Ensuring a safe and caring environment are equally critical to our student success and serves as a primary role for the principal. |
| Gattullo, Kristen | Assistant Principal | The assistant principal's primary responsibility as an instructional leader is to ensure that our teaching and learning on campus are happening at a highly effective level every day. Daily walkthrough and regular feedback, along with targeted professional development are critical to achieving success for all students. Ensuring a safe and caring environment are equally critical to our student success and serves as a primary role for the principal. |
| Scudder, Meagan | School Counselor | The school counselor leads our Student Service team and is primarily responsible for fostering a safe, caring and positive school environment. Facilitating social emotional learning is one of her main duties along with small group interventions, facilitating child study team meetings, and working with students who need additional support. |
| Millis, Maria | Staffing Specialist | The Staff Specialist works with our ESE students and teacher to ensure that the IEP goals are met. Duties include scheduling for ESE students, holding IEP meetings, and leading the planning for ESE services. |
| WIIIiams, Lori | Math Coach | The Math Coach is critical to the success of teaching and learning related to math. Duties include: facilitating weekly collaborative planning with each grade level team, supporting in class instruction through modeling, co-teaching, or observation/feedback cycles, and small group instruction. |

Demographic Information

Principal start date

Sunday 7/1/2018, Kevin Moon

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

19

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

6

Total number of teacher positions allocated to the school

31

Total number of students enrolled at the school

340

Identify the number of instructional staff who left the school during the 2020-21 school year.

3

Identify the number of instructional staff who joined the school during the 2021-22 school year.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Math Achievement in grades 3-5 increased significantly in 2021. Through use of data driven instructional techniques, our 3rd grade math achievement increased from 38% proficiency to 75%. In 4th grade, 62% of students met proficiency (12% increase) and in 5th grade 54% of students met proficiency. Also, 92% of our bottom quartile met learning gains.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Science Achievement in grades 5 stayed low at 44% of students scoring a L3+. Also, reading proficiency maintained similar to 2019 with overall proficiency of 51% and learning gains of 55% (BQ 62%).

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

We believe that there is a misalignment between ELA and science assessments to classroom instruction. This year we will implement data-driven instructional techniques that proved to be successful in math and use them in ELA and science. For example, monthly progress monitoring with common assessments that are aligned to the rigor of the standards and allow us to analyze for misconceptions and re-teach concepts that were not mastered.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Math Achievement in grades 3-5 increased significantly in 2021. Through use of data driven instructional techniques, our 3rd grade math achievement increased from 38% proficiency to 75%. In 4th grade, 62% of students met proficiency (12% increase) and in 5th grade 54% of students met proficiency. Also, 92% of our bottom quartile met learning gains.

What were the contributing factors to this improvement? What new actions did your school take in this area?

The use of data-driven instructional techniques to analyze common assessments, create action plans for re-teaching of concepts that were not mastered, and the use of aggressive monitoring of students to constantly monitor student learning and provide targeted instruction based on data.

What strategies will need to be implemented in order to accelerate learning?

Use of scaffolding to provide on grade level text as much as possible, previewing concepts in small group instruction prior to teaching them, and consistent spiral review of concepts in order to retain

learning. We are implementing several strategies from the Driven by Data in order to provide targeted whole group and small group instruction based on assessment analysis results.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

We will provide the following opportunities for Professional Development this year:

Driven by Data PD (series of 3 trainings after school)

Learning walks to observe colleagues using Data-driven instruction strategies

Books studies on The Knowledge Gap and Student Inquiry Assessment Edition

Lesson Study cycles for each grade level

Individual 1:1 teacher/admin coaching cycles to review student data and create action plans for student learning

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Social-Emotional Learning through Leader in Me curriculum
Goal setting and data tracking for all students
Math Coach support in planning and small group instruction
Frequent classroom observations with feedback cycles (4 per quarter for each teacher)

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Collaborative Planning

Area of **Focus** Description and

Collaborative planning allows us to analyze student data from common interim assessments and plan for differentiated, targeted instruction that meets the needs of all students. Collaborative planning will take place weekly by grade level and will be facilitated

by the Leadership Team. Rationale:

Measurable Outcome:

ELA proficiency will improve from 51% to 62% and Science proficiency will increase from

44% to 62% as measured by the FSA assessments in May 2022.

Monitoring:

Monthly progress monitoring through common math, science and ELA assessments will allow us to monitor all student progress and implement necessary interventions as needed.

Person responsible

Sarah Garcia (sarah.garcia@hcps.net) for

monitoring outcome:

Evidencebased Strategy:

Data-driven instructional strategies that allow us to plan for and provide targeted instruction that meets the needs of all students.

Rationale

for Evidencebased Strategy:

Research shows that data-driven instruction allows teachers to target specific needs of students and utilize strategies such as aggressive monitoring, small group instruction, spiral and reteach in order to ensure that students master content standards. We are using

the work from the book, Driven by Data.

Action Steps to Implement

Plan and organize monthly ELA and science assessments, to include:

- 1. Create calendar for monthly math assessments for each grade level
- Schedule PLC meetings each month to analyze assessment results and create action plans to address student learning needs.
- 3. Organize, copy, and distribute assessments for each grade every month.

Person Responsible

Sarah Garcia (sarah.garcia@hcps.net)

Create Systems to facilitate data analysis related to math monthly assessments, to include:

- 1. Create student goal setting and progress monitoring forms
- 2. Create online data spreadsheets to monitor student progress each month
- 3. Create agenda and data analysis forms to facilitate PLCs and dig deep into the data (item analysis, trends, misconceptions, action plan, etc.)

Person

Sarah Garcia (sarah.garcia@hcps.net) Responsible

Aggressively monitor ESSA subgroups performing below required federal index. These subgroups include SWD, ELL and Black. During weekly collaborative planning, teachers will track i-ready minutes and pass rates, along with gains from any recent assessments during the week prior. Data scoreboards will be updated and problem solving to identify barrier to success along with strategies to break barriers. Planning for small group instruction to include reteaching, spiral review, and acceleration will target the needs of these subgroups based on weekly data.

Person Responsible

[no one identified]

#2. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: Literacy is the heart of education and can be integrated into all subject areas. If literacy scores improve, all students will be better prepared for college and career. At Lanier, our ELA score increases have been minimal over the last 5 years. We seek to improve ELA planning and instruction in order to provide all students with high quality instruction in reading and writing that aligns with the state standards and best practices of literacy instruction.

Measurable Outcome:

ELA proficiency will improve from 51% to 62% as measured by the FSA assessments in

May 2022.

Monitoring:

weekly administrative observation and feedback cycles, monthly ELA assessment data

Person responsible

for Sarah Garcia (sarah.garcia@hcps.net)

monitoring outcome:

Evidencebased

Strategy:

targeted, small group instruction that provides acceleration to students in order to address

their academic needs while also maintaining high expectations.

Rationale for Evidence-based

We know that many students at our school have significant learning gaps that need to be addressed. Small group re-teaching and using below grade level text will not provide the rigorous instruction needed to close the gaps. Therefore, we will implement acceleration strategies to scaffold and support students with accessing grade level text in order to meet

Strategy: their needs while keeping high academic expectations for all.

Action Steps to Implement

Create common assessments for ELA monthly. Each team will implement the following steps for each monthly common assessment:

- -Meet 1 week prior to the assessment to preview the test and predict performance
- -Provide adequate time and environment for testing, as well as accomodations for those who need them
- -Meet within 72 hrs of each assessment to share data analysis findings (item analysis, action plans, next steps).
- -Hold data chats and allow time for students to reflect on their performance

Person

Responsible Sarah Garcia (sarah.garcia@hcps.net)

Provide PD on "The Knowledge Gap" through a 4 session Book Study.

Person Responsible

Sarah Garcia (sarah.garcia@hcps.net)

Provide PD through learning walk cycles 3 times per year to observe other ELA teachers and provide peer coaching and feedback.

Additional Schoolwide Improvement Priorities

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Lanier Elementary School ranked in the high risk category when compared to other school, with the majority of incidents falling into the violence category. However, one rationale for this ranking is that there were 6 incidents and because we are a small school with enrollment of approx. 375 the percentage per pupil is inflated. Another rationale is that we host ESE self-contained units on our campus specifically for Behavior Support and the majority of our incidents are reported in relation to these units as we continue to work on teaching behavior. Our Leader in Me program allows us to foster a positive and safe school environment and encourage a sense of belonging for all students. Our school culture Insight survey data supports that we have a positive learning environment where students feel safe.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

At Lanier, we place a strong emphasis on a positive school culture. We received an overall composite score of 94% on the 2021 ASQi culture survey, one of the highest rated in the district. The 2021-22 school year will begin our 7th year of implementation with Franklin Covey's Leader in Me program, a school-wide transformational process that focus on leadership, culture, and academics. Lanier was recently named a Leaders in Me Lighthouse School, one of 400 exemplar models for the school worldwide. This process allows us to address daily social-emotional lessons that are rooted in the 7 Habits of Highly Effective People, hold daily morning meetings in each classroom to build and strengthen classroom culture, and allow all stakeholders to have a voice in school-wide decision making. Each student participates in the 4 Disciplines of Execution goal setting process, where they set individual academic goals and monitor their own progress towards these goals. We also provide our staff annual training to empower student leadership and foster student-centered learning in each classroom.

According to our Measurable Results Survey results (performed by Franklin Covey), two areas we have identified to improve for the 2021-22 school year are School Belonging (rated 66/100) and Industry and Perseverance (rated 57/100). We will provide staff development on both of these topics to allow teachers to have specific strategies and action plans to address both of these areas, as well as monitor our progress through quarterly student surveys.

Finally, in order to continue to encourage family involvement and parent voice, we will create our first ever

Parent Lighthouse Team. This group of parents will meet monthly to support to the work of the school in all 3 areas (academics, leadership, culture) and provide feedback and suggestions for school improvement.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

School Leadership/Lighthouse Team- The School Lighthouse Teams consists of 20 staff members and drives the work of the Leader in Me program. Each of Lighthouse members have shared leadership roles to facilitate monthly Action Team meetings. Every staff member is a member of a action team, and these teams focus on promotion of positive school culture and learning environment. These action teams meet monthly to set goals, monitor progress, seek feedback, and take action to improve the the school.

Action Teams include:
Student Lighthouse
Shared Leadership
Physical * Emotional School Environment
Adult Learning and Modeling
Parent and Community Involvement
Student-led Events

Parent Lighthouse Team-

This year, our SAC team will also serve as our Parent Lighthouse Team to provide valuable stakeholder input on overall school improvement and initiatives. The Parent Lighthouse Team will meet monthly to set goals, monitor progress, give and receive feedback and create new initiatives that benefit the school.

Community Partnerships-

Grace Family Church is a close community partner for us. This year they will host 2 Beautification Days on campus, provide mentors to at-risk students, donate school supplies, and provide tutors for our KG students.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
