Demographics

Principal: Joshua Phillips

Start Date for this Principal: 7/1/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Combination School PK-8
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	No
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	48%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: C (53%) 2017-18: B (56%) 2016-17: A (63%)
2019-20 School Improvement (SI) Information*	
SI Region	Central
Regional Executive Director	Lucinda Thompson
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Lutz Elementary School: Building tomorrow's leaders through responsibility, effort, attitude, and leadership.

Provide the school's vision statement.

Lutz Elementary: Learning Today...Leading Tomorrow

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Phillips, Joshua	Principal	Principal Lutz K8
Alsum, Melanie	Teacher, K-12	TTD 1/2 and ELA 5th 1/2

Demographic Information

Principal start date

Thursday 7/1/2021, Joshua Phillips

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

1

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

14

Total number of teacher positions allocated to the school

45

Total number of students enrolled at the school

700

Identify the number of instructional staff who left the school during the 2020-21 school year.

5

Identify the number of instructional staff who joined the school during the 2021-22 school year.

4

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level														Total

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Across grade levels, our economically disadvantaged students performed at or near other subgroups for certain grade levels, but third grade shows a need for growth and sixth grade economically disadvantaged students performed significantly below their grade level peers. Middle school economically disadvantaged students are performing below their grade level peers. Grade 5 science economically disadvantaged dropped from the beginning of the year to the end of the year in proficiency. 8th grade reading stayed stagnant with proficiency throughout the school year. 8th grade math showed a decrease in proficiency from fall to spring.L

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

The bottom quartile shows the largest need for improvement based on the 2019 FSA scores as only 36% of students in our bottom quartile showed learning gains. Math learning gains overall dropped by 7% in 2019. 8th grade math students in 2020 progress monitoring showed a 5% decrease throughout the school year.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Lack of foundational skills and the pandemic were contributing factors to the decrease in grade 8. The bottom quartile decreases were due to a lack of progress monitoring in the area of math and stronger differentiation in math. To move forward, intense progress monitoring, skill based lessons, acceleration, and instructional based small groups need to be implemented to address these needs for improvement.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Math proficiency for the whole school showed a 1% increase in proficiency. First through fifth grade math showed the greatest proficiency according to the 2020 progress monitoring data. Civics showed a 12% increase. Sixth, seventh, and eight grade reading showed increases of around 20% in proficiency on progress monitoring.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Grades K-5 used i-Ready for specific individual instruction in the areas of reading of reading and math and in reading it was part of their curriculum. Grades K-8 utilized Brainspring for students with disabilities that needed targeted specific instruction. Grades 3-8 utilized Achieve 3000 for specific

instruction in the area of reading. Grades 6-8 utilized Brightfish for specific gaps in reading for students.

What strategies will need to be implemented in order to accelerate learning?

All grade levels will have data monitoring meetings with administration and coaches and planning sessions with coaches. Small group instruction will be utilized daily in all grade levels and academic areas. There will be a focus on district created instructional calendars to meet all curriculum needs and teachers will have access to acceleration resources.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Monthly ILT meeting with instructional leaders looking at grade level data which will provide opportunities for discussions regarding strategies and action plans for improvement. Grade level data chats and PLC's to identify individual and grade level student needs. Content specific vertical action teams will be present on school site to create action plans for each academic subject area. Each grade level will be represented to help support the curriculum subject area in improvement.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Administrative walkthroughs and feedback cycles and regular planning with coaches and grade level teams. Monthly job embedded professional development will be available for staff.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Student Engagement

Area of Focus Description and Rationale:	We will have a focus on rigorous core instruction and ensure the fidelity of small group, differentiated instruction, and acceleration in all content areas
Measurable Outcome:	Increase our subgroup performance for students with disabilities and African American students to improve beyond the state expectation of an overall 41. We will work to increase the bottom quartile by 15% during this school year.
Monitoring:	We will have progress monitoring count sheets and grade level data meetings with administration and support staff. Action plans will be created to monitor our bottom quartile throughout the school year.
Person responsible for monitoring outcome:	Joshua Phillips (joshua.phillips@hcps.net)
Evidence-based Strategy:	Small group and differentiated instruction, standard based lessons and lesson plans, ILT, MTSS, Regular data meetings, administrative feedback to staff, and goal setting with teachers and students.
Rationale for Evidence-based Strategy:	When these school wide systems are in place, research shows it allows opportunities for increases in student engagement and achievement

Action Steps to Implement

Monthly PLC's with grade levels and or content specific meetings and data meetings with coaches and administration

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

Vertical subject area content teams developing an action plan around improvement of the content area

Person Responsible Melanie Alsum (melanie.alsum@hcps.net)

Grade level RTI/ MTSS progress monitoring meetings

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

On site professional development

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

Student goal setting with students and staff and administration goal setting with students throughout the year

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

#2. Culture & Environment specifically relating to Positive Behavior Intervention and Supports

Area of Focus Description and Rationale: Our current behavior committee had action plans and areas for positive student incentives, but they were not being implemented with fidelity school-wide.

Measurable Outcome: We will have a PAW Pride behavior committee that will work to identify positive behavior incentives inside and outside the classroom and set expectations for classroom behavior, lunchroom behavior, etc. Students will be awarded PAW bucks to utilize as rewards and participate in positive based incentives regarding behavior. We will also develop a staff based culture committee to analyze student survey and staff survey data to create an action plan for improvement.

Monitoring: We will regularly monitor discipline data monthly during administrative meetings and also analyze the increase in students responding to our positive behavior incentives as they are implemented to support both elementary and middle school students.

Person responsible for monitoring outcome: Joshua Phillips (joshua.phillips@hcps.net)

Evidence-based Strategy: We will utilize a PBIS system to support student needs through the PAW Pride committee

Rationale for Evidence-based Strategy: Research shows that a positive based intervention helps to decrease disruptive behaviors and can contribute to an increase in overall student performance.

Action Steps to Implement

Develop a culture committee and redesign the Paw Pride committee to ensure all grade levels and student services are represented when making action steps for implementation

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

Create action plans for Paw behavior expectations in various locations of the school

Person Responsible [no one identified]

Develop more opportunities for student leadership on campus through student government and the implementation of the National Elementary Honor Society.

Person Responsible Joshua Phillips (joshua.phillips@hcps.net)

#3. Instructional Practice specifically relating to ELA**Area of Focus Description and Rationale:**

Based on the 2021 ELA FSA Scores, 44% in grade four scored at proficiency, which is a level 3 or higher. This score was due to over 50% of students one or more grade levels below in reading, lack of teacher clarity, and continuous rigorous instruction in the ELA instructional block. By focusing on ELA, the instructional improvements will include instruction with rigorous tasks at or above complexity level expected for the grade, small group instruction, frequent monitoring of student levels and reading abilities, and feedback given to teachers on core rigorous instruction through walkthroughs. These steps will help create an improvement in student proficiency on grade 4 FSA ELA in 2022.

Measurable Outcome:

The percent of fourth grade students scoring at a 3 or above on the FSA ELA assessment will increase to 55% as measured by progress monitoring tools and the FSA ELA assessment in 2022.

Monitoring:

This will be monitored through data chats, classroom walkthroughs, RTI/ MTSS meetings with the grade level, and through planning sessions with administration. We will also aggressively monitor data as an administrative team by utilizing i-Ready, ELA minis, and other district created assessments to monitor student performance on ELA tests in order to prepare for the grade 4 FSA ELA assessment in 2022.

Person responsible for monitoring outcome:

Joshua Phillips (joshua.phillips@hcps.net)

Evidence-based Strategy:

We will work to improve the accuracy and alignment of the daily learning target so that it is standards aligned and grade level appropriate in order to drive instruction and create an environment of rigorous core instruction.

Rationale for Evidence-based Strategy:

We want to be ensure that student learning tasks are aligned to the grade level appropriate standards and also analyze if core instruction is rigorous to create opportunities for productive student struggle which helps increase engagement. .

Action Steps to Implement

Analyze student and grade level data with teachers and leadership team

Person

Responsible Joshua Phillips (joshua.phillips@hcps.net)

Conduct beginning of the year data chats to review data with teachers and create an action plan for improvement with grade 4 teachers and to monitor progress of all subgroups.

Person

Responsible Tiffany Truman (tiffany.truman@hcps.net)

Conduct ongoing grade level data chats, focused collaborative planning sessions, and classroom walkthrough feedback to progress monitor and create next steps. Subgroup progress will be monitored and incorporated in our school data count sheets to be analyzed regularly.

Person

Responsible Joshua Phillips (joshua.phillips@hcps.net)

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

At Lutz K-8 School we had an average of 2.4 student incidences per 100 students. We do currently serve EBD students on site grades K-5 which contribute to a higher level of incidences. Our focus will be to decrease disruptive behavior through our positive behavior committee

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

During ILT, we will provide a space for grade levels to share concerns and areas of improvement that may impact their grade level. We will also have a school culture committee that will analyze student culture results and staff culture results which will allow us to address deficits and create an action plan on improvement for students and staff. The PAW Pride committee will help with ensuring students feel a sense of pride coming to school and we can use the PAW expectations when attempting to address student behavior concerns.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Administration will work with ILT, the Culture Committee, and the Paw Pride committee to monitor implementation and regularly plan next steps as needed.

Students will be part of student government to help make decisions at school and the culture committee members will be teachers helping to implement solutions to areas of weaknesses of our surveys.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Student Engagement	\$0.00
2	III.A.	Areas of Focus: Culture & Environment: Positive Behavior Intervention and Supports	\$0.00

3	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
Total:			\$0.00
