## School Board Approval

This plan is pending approval by the Hillsborough County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

**Analysis**

**Data Analysis**

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

**What trends emerge across grade levels, subgroups and core content areas?**

All content areas dropped significantly in achievement as well as all grade levels with the exception of 4th grade math.

**What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?**

All components demonstrate great need for improvement.

**What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?**

Teacher lack of rigorous instruction based on data and the implementation of eLearning, Achieve 3000, LAFs curriculum, and Canvas all at the same time proved to be detrimental to the achievement of all students. Focused instruction driven by data.

**What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?**

4th grade math proficiency and math gains for bottom quartile students showed the most improvements.

**What were the contributing factors to this improvement? What new actions did your school take in this area?**

Implementing the math monthlies contributed to this improvement.

**What strategies will need to be implemented in order to accelerate learning?**

We will implement common PLC time to review data and make instructional decisions. Hire a math resource teacher. ESE teachers will participate in the grade level PLC as well as administration and all leadership team members.

**Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.**

Teachers will receive coaching by the math resource teacher, Assistant Principal, and principal. Model classes will be utilized for improved instruction. ELA, Math, and Science PD provided by the district will be strongly encouraged and monitored.

**Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.**

Implementation of both an electronic data wall as well as a data wall in the PLC meeting room.

**Part III: Planning for Improvement**

**Areas of Focus:**

**#1. Instructional Practice specifically relating to ELA**

<b>Area of Focus Description and Rationale:</b>	ELA proficiency declined by 15% points from 2019 FSA as compared to 2021 FSA.
<b>Measurable Outcome:</b>	ELA proficiency will improve to 66% to its original state.
<b>Monitoring:</b>	We will utilize monthly lexile adjustments on Achieve 3000 to achieve the desired outcome.
<b>Person responsible for monitoring outcome:</b>	Beverly Smith (beverly.smith@hcps.net)
<b>Evidence-based Strategy:</b>	We will implement Common PLC time to disaggregate monthly data in order to identify instructional needs.
<b>Rationale for Evidence-based Strategy:</b>	By looking at the data after each progress monitoring, we will be able to deliver "in-time" instruction to close gaps in learning.

**Action Steps to Implement**

Common Grade level planning will be implemented for grades 3, 4, and 5.

**Person Responsible** Beverly Smith (beverly.smith@hcps.net)

For our students with disabilities, we will identify target goals that are needed to show a gain on the FSA. We will hold goal setting conferences with the students. Teachers and students will monitor progress towards goal.

**Person Responsible** Dhruvi Parikshak (dhruti.parikshak@hcps.net)

## #2. Instructional Practice specifically relating to Math

### Area of Focus

#### Description and Rationale:

Math proficiency dropped by 23 points in 3rd grade and 21 points in 5th grade.

#### Measurable Outcome:

Math proficiency will increase to 62%.

#### Monitoring:

We will utilize Math Monthlies to progress monitor student outcomes.

#### Person responsible for monitoring outcome:

Christina Berk (christina.berk@hcps.net)

#### Evidence-based Strategy:

We will implement common PLCs in order to look at trend data to establish instructional implications that will lead to increased student learning.

#### Rationale for Evidence-based Strategy:

By participating in common PLC, the group will strategize around best practices to increase learning.

### Action Steps to Implement

We will hire a math coach.

#### Person Responsible

Beverly Smith (beverly.smith@hcps.net)

Common grade level planning will be implemented.

#### Person Responsible

Beverly Smith (beverly.smith@hcps.net)

For our students with disabilities, we will identify target goals that are needed to show a gain on the FSA. We will hold goal setting conferences with the students. Teachers and students will monitor progress towards goal.

#### Person Responsible

Dhruvi Parikshak (dhruvi.parikshak@hcps.net)

### Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

**We had three students who had discipline records for the 2020 - 2021 school year. We will continue to provide quick timely interventions to maintain a safe and positive school culture and climate.**

### Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

#### Describe how the school addresses building a positive school culture and environment.

The school has a positive school culture and environment. We will implement CHAMPS to assist teachers who are already trained in Conscious Discipline and Love & Logic. Additionally, teachers will participate in Implied Bias training to address our own unconscious biases.

#### Identify the stakeholders and their role in promoting a positive culture and environment at the school.
