Demographics

## **Principal: Paulette English**

Start Date for this Principal: 1/27/2020

<b>2019-20 Status</b> (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	No
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	28%
<b>2020-21 ESSA Subgroups Represented</b> (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: A (77%) 2017-18: A (67%) 2016-17: A (67%)
2019-20 School Improvement (SI) Inf	ormation*
SI Region	Central
Regional Executive Director	Lucinda Thompson
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

\* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

#### **School Board Approval**

This plan is pending approval by the Hillsborough County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

#### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

#### **Part I: School Information**

#### School Mission and Vision

#### Provide the school's mission statement.

Pride Elementary will prepare students for life.

#### Provide the school's vision statement.

Pride Elementary will provide an education and the supports which enable each student to excel as a successful and responsible citizen.

#### School Leadership Team

#### Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
English, Paulette	Principal	Leadership team meetings can include the following: Principal Assistant Principal / ELP Coordinator Guidance Counselor SAC Chairs School Psychologist/ Behavior team Representative Academic Coaches (Reading, Math, etc. and other specialists on an ad hoc basis) ESE teachers PLC Liaisons for each grade level and/or content area District support (including Area Superintendents, Support Specialist, District Coaches) The Leadership team meets regularly (e.g., bi-weekly/monthly). The purpose of the core Leadership Team is to: 1. Collaborate and problem solve to ensure the implementation of high quality instructional practices utilizing the RtI/MTSS process: at the core (Tier 1) and intervention/enrichment (Tiers 2/3) levels. 2. Support the implementation of high quality instructional practices at the core (Tier 1) and intervention/enrichment (Tiers 2/3) levels. 3. Review ongoing progress monitoring data at the core to ensure fidelity of instruction and attainment of SIP goal(s) in curricular, behavioral, and attendance domains. 4. Communicate school-wide data to PLCs and facilitate problem solving within the content/grade level teams. A collaborative culture of shared responsibility is established through Leadership Team Meetings and PLCs. Research consistently bears out that the school leader is the most important element in teachers choosing to go to, and then remain at, a school site. To that end, HCPS works to develop strong leaders through the Hillsborough Principal Pipeline. As stated above, The Hillsborough Principal Pipeline offers unique and valuable opportunities for teachers to experience and prepare for a school leadership position by helping them gain the skills, experience and confidence that are crucial to becoming a high-performing leader. Pursuing school leadership provides the opportunity to make a direct impact on school culture and positively influence instructional quality, which will result in improved outcomes and highly effective principal in every school. This vision is founded in the research

Name	Position Title	Job Duties and Responsibilities
		throughout the summer months, under the oversight of Human Resources. All applicants must be pre-approved by the District to attend these events. Certified teachers with an Effective or Highly Effective performance evaluation, teaching in field, at our highest needs schools are eligible for salary differential. This program was established with the purpose of helping to create stability and equity in harder to staff schools, recruiting and retaining highly qualified instructional staff, increasing student achievement, and promoting a culture of ongoing professional development. Compensation is grounded in a performance-based salary structure that explicitly ties salary increases to sustained high-level performance, while career ladder positions, such as Instructional Mentors, are available to effective educators. The base teacher salary schedule is designed to provide substantial increases in compensation to teachers who have demonstrated positive student impact. Once hired, teacher induction and teacher retention are supported through fully-released instructional mentors assigned to every new educator for up to two years to increase effectiveness and decrease recidivism. Educator effectiveness ratings that differentiate educator quality are used to assist principals in determining teachers' transfer options and promotion into leadership positions. HCPS has linked PD opportunities to HR functions so that school-level and district-level trainings are developed and deployed in response to areas of need identified by educator evaluations. Training course completions can also be tracked by HR Partners to inform human capital decisions

Alvarez, Christopher	Assistant Principal	The Assistant Principal will assist with the instructional, administrative, and operational leadership of the school.
Noll, Elizabeth	SAC Member	The SAC Chair supports the school improvement efforts at the school and facilitates the School Advisory Council.

#### **Demographic Information**

#### Principal start date

Monday 1/27/2020, Paulette English

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.* 

6

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

8

**Total number of teacher positions allocated to the school** 65

**Total number of students enrolled at the school** 841

Identify the number of instructional staff who left the school during the 2020-21 school year. 8

Identify the number of instructional staff who joined the school during the 2021-22 school year. 12

#### Analysis

#### **Data Analysis**

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

#### What trends emerge across grade levels, subgroups and core content areas?

Our lowest performance was in the bottom 25% with 53% making gains in ELA and 45% making gains in Math. This was a decrease from the prior prior year (2019 - 69% BQ gains in ELA and 64% in BQ Math gains). The 2021 BQ gains in both ELA and Math were similar to the 2018 gains.

# What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

overall Math gains and BQ ELA and Math gains

# What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Virtual learning, lack of continuity (switching from virtual to face-to- face and vice versa, change in teacher assignments and high absenteeism) contributed to gaps in learning. Learning gaps will be addressed through acceleration and other differentiated practices.

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Based on 2019 assessments and other progress monitoring tools, proficiency in ELA and Math did not increase compared to prior, prior year data, but was consistent with proficiency in 2018 and 2017.

# What were the contributing factors to this improvement? What new actions did your school take in this area?

The increases in both proficiency and gains for the 2019 school year were attributed to focused instruction and targeting students needs through differentiated practices. These practices will continue to be implemented as we transition back to on-campus instruction during the 2021-2022 school year.

#### What strategies will need to be implemented in order to accelerate learning?

data driven small group instruction, differentiation, goal setting and monitoring, after school tutoring

# Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Utilizing data to plan for small group instruction Managing classroom rotations in order to facilitate small group instruction Understanding BEST standards/planning for instruction & facilitating learning using the BEST standards Utilizing the Wonders curriculum materials iReady tools - Prerequisite Reports/Toolbox

# Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

grade level content and vertical content PLCs collaborative planning goal setting progress monitoring systematic data review

#### Part III: Planning for Improvement

Areas of Focus:

Area of Focus Description and Rationale:	A slight decrease in overall proficiency and significant decrease in BQ gains in both ELA and Math indicate that learning gaps will be evident as students are presented with grade level standards. Providing small group instruction will be necessary to accelerate learning.
Measurable Outcome:	BQ Math gains will increase from 45% to 55%. BQ ELA gains will increase from 53% to 58% .
Monitoring:	focused walk-throughs, feedback and follow-up
Person responsible for monitoring outcome:	Christopher Alvarez (christopher.alvarez@hcps.net)
Evidence- based Strategy:	Pride Elementary will implement the evidence-based strategy of differentiation through small group instruction.
Rationale for Evidence- based Strategy:	Hattie's research on influences and effect sizes related to student achievement Scaffolding82 Interventions for students with learning needs77 clear goal intentions48 small group learning47

#### **#1. Instructional Practice specifically relating to Small Group Instruction**

#### **Action Steps to Implement**

Teacher survey to determine support/PD needed to successfully implement small groups and accelerate learning

Person

Responsible Paulette English (paulette.english@hcps.net)

Provide professional development on group structures, utilizing data to plan for groups and acceleration.

Person Responsible Christopher Alvarez (christopher.alvarez@hcps.net)

Create opportunities for teachers to collaborate with colleagues and improve practice.

Person

Responsible Paulette English (paulette.english@hcps.net)

Facilitate the collection of walk-through data regarding facilitating small groups and acceleration (including teacher learning walks/ admin. feedback walkthroughs)

Person Responsible Paulette English (paulette.english@hcps.net)

#### Additional Schoolwide Improvement Priorities

Using the <u>SafeSchoolsforAlex.org</u>, compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

The school leadership team meets at least twice each month and reviews behavior and discipline data. Information from stakeholder surveys is reviewed. The student support team plans class and small group lessons based on input from stakeholders and review of data.

#### Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

#### Describe how the school addresses building a positive school culture and environment.

Pride Elementary utilizes PBIS strategies and actively engages our Student Ambassadors, Student Safety Patrols, School Advisory Council, Leadership Team and PTA in building and supporting a positive school culture and environment.

# Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Administration oversees the implementation of all of the programs at Pride Elementary. Our PBIS committee ensures that the procedures of the program are implemented with fidelity and meet regularly to schedule special events in support of PBIS strategies. Our teachers that support our Safety Patrols and Student Ambassadors work with them to be positive role models in promoting a positive culture. The PTA and SAC work closely with the school to reinforce having a positive culture.

### Part V: Budget

#### The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Small Group Instruction	\$0.00
		Total:	\$0.00
