Demographics

Principal: Julie Florin

Start Date for this Principal: 7/29/2021

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2020-21 Title I School	Yes
2020-21 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2020-21 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students*
School Grades History	2018-19: B (54%) 2017-18: C (53%) 2016-17: B (54%)
2019-20 School Improvement (SI) Information*	
SI Region	Central
Regional Executive Director	Lucinda Thompson
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

West Shore Elementary is committed to rigorous and individualized instruction in order to achieve high levels of instruction to meet students' needs.

Provide the school's vision statement.

West Shore Elementary will create well-rounded students who achieve academic excellence.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Position Title	Job Duties and Responsibilities
Guyer, Skylaar	Principal	The principal primary responsibility as the instructional leader is to ensure teaching and learning are happening at a highly effective level everyday. Daily walkthroughs and regular feedback, along with PD are critical to achieving success for all students. Ensuring a safe and caring environment is equally critical to success and serves as a primary roll for the principal.
Larcom, Audrey	Teacher, K-12	As the SAC Chair, Audrey is responsible for leading SAC meetings and helps to ensure the SIP in implemented with fidelity.

Demographic Information

Principal start date

Thursday 7/29/2021, Julie Florin

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

1

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

2

Total number of teacher positions allocated to the school

27

Total number of students enrolled at the school

416

Identify the number of instructional staff who left the school during the 2020-21 school year.

11

Identify the number of instructional staff who joined the school during the 2021-22 school year.

11

Demographic Data

Early Warning Systems

2021-22

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													Total

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

Based on the FSA, our ELA Achievement in grades 3-5 decreased from 59% proficiency in 2019 to 51% proficiency in 2021. Only 14% of our SWD students met proficiency on the 2021 FSA. Our science achievement in grade 5 decreased from 46% of students scoring a L3+ in 2019 to 38% of our students meeting proficiency.

What data components, based off progress monitoring and 2019 state assessments, demonstrate the greatest need for improvement?

Science scores were well below the state average with only 38% of students scoring a Level 3+ or higher on the Science State Assessment. Also reading proficiency decreased from 59% in 2019 to 51% proficiency in 2021.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

We believe there is a misalignment between ELA and science assessments to classroom instruction. This year we will implement data-driven instructional techniques that proved to be successful in ELA and use them in science. For example, monthly progress monitoring with common assessments that are aligned to the rigor of the standards and allow us to analyze for misconceptions and re-teach concepts that were not mastered

What data components, based off progress monitoring and 2019 state assessments, showed the most improvement?

Our ELA Gains increased from 57% in 2019 to 58% in 2021.

What were the contributing factors to this improvement? What new actions did your school take in this area?

Our Reading Coach worked with multiple small groups of bottom quartile students in grades 3-5. We also utilized our ELP funds to hire a district resource teacher to work 1:1 on writing conferences and also implemented afterschool ELP for reading and writing with classroom teachers.

What strategies will need to be implemented in order to accelerate learning?

Use of scaffolding to provide on grade level text as much as possible, previewing concepts in small group instruction prior to teaching them, and consistent spiral review of concepts in order to retain learning. We will be implementing several strategies from the Driven by Data in order to provide targeted whole group and small group instruction based on assessment analysis results.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Reading Coach will provide professional development and coaching cycles for our ELA teachers which will focus on acceleration in whole group and small group.
Reading Coach will meet weekly with our teachers to assist with collaborative planning.
iReady consultant will provide professional development for progress monitoring our students' growth between diagnostics.
Our area DRT for science will meet bi-weekly with our 4th and 5th grade teachers.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Standards based collaborative planning for teachers
Goal setting and data tracking for all students
Reading Coach support in planning with small group instruction
Frequent classroom observations with feedback cycles
Walkthroughs to provide feedback and support
ELP for grades 3-5 for Reading, Writing, Math, and Science.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Collaborative Planning

Area of Focus Description and Rationale: Collaborative planning allows us to analyze student data from progress monitoring assessments and plan for differentiated, targeted instruction that meets the needs of all students. Collaborative planning will take place weekly by grade level and will be facilitated by the Leadership Team.

Measurable Outcome: ELA proficiency will improve from 51% to 62% as measured by the FSA assessments in May 2022.

Monitoring: Monthly progress monitoring through common ELA and science assessments will allow us to monitor all student progress and implement necessary interventions as needed.

Person responsible for monitoring outcome: Skylaar Guyer (skylaar.guyer@hcps.net)

Evidence-based Strategy: Data-driven instructional strategies allows us to plan for and provide targeted instruction that meets the needs of all students.

Rationale for Evidence-based Strategy: Research shows that data-driven instruction allows teachers to target specific needs of students and utilize strategies such as aggressive monitoring, small group instruction, spiral and reteach in order to ensure that students master content standards. We will be using the book, Driven by Data.

Action Steps to Implement

- Plan and organize monthly ELA and science assessments to include:
- Create a monthly assessment calendar for each grade level.
- Classroom teachers will analyze assessment results and create action plans to address student learning needs.
- Hold data chats and allow students to reflect on their performance.
- Teachers will plan to spiral and reteach necessary standards as shown through data analysis.

Person Responsible Skylaar Guyer (skylaar.guyer@hcps.net)

During collaborative planning we will monitor the ESSA subgroup who scored below 41% (SWD). Small group instruction will be designed around this subgroup. Additionally, informal data assessment will be monitored more frequently and instructional adjustments will be made to ensure that students with disabilities.

Person Responsible Skylaar Guyer (skylaar.guyer@hcps.net)

#2. Instructional Practice specifically relating to ELA

Area of Focus
Description and Rationale: Our ELA scores have decreased from 59% of our students being proficient in 2019 to 51% being proficient. Our goal will be to improve ELA planning and instruction in reading and writing that aligns with the state standards and best practices of literacy instruction.

Measurable Outcome: ELA proficiency will improve from 51% to 62% as measured by the FSA in 2022.

Monitoring: Monthly progress monitoring through common ELA assessments will allow us to monitor all student progress and implement necessary interventions as needed. Weekly administrative walkthroughs and observations with feedback cycles.

Person responsible for monitoring outcome: Skylaar Guyer (skylaar.guyer@hcps.net)

Evidence-based Strategy: Targeted, small group instruction that provides acceleration to students in order to address their academic needs while also maintaining high expectations.

Rationale for Evidence-based Strategy: We know that our students' ELA proficiency decreased from 59% in 2019 to 51% in 2021. We will implement acceleration strategies to scaffold and support students in small group with grade level text in order to meet the needs while keeping high academic expectations for all.

Action Steps to Implement

Plan and organize monthly ELA assessments to include:
 Create a monthly assessment calendar for each grade level.
 Classroom teachers will analyze assessment results and create action plans to address student learning needs.
 Hold data chats and allow students to reflect on their performance.
 Teachers will plan to spiral and reteach necessary standards as shown through data analysis.

Additional Schoolwide Improvement Priorities

Using the [SafeSchoolsforAlex.org](https://www.safeschoolsforalex.org), compare the discipline data of the school to discipline data across the state and provide primary or secondary areas of concern that the school will monitor during the upcoming school year. Include how the school culture and environment will be monitored through the lens of behavior or discipline data.

Our school ranked low for school incidents. We ranked 385 out of 1395 schools statewide and 23 out of 119 schools in the county Our school utilizes PBIS and CHAMPS behavior systems which allows us to foster a positive and safe school environment. Our school culture Insight survey data supports that we have a positive learning environment where students feel safe.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

At West Shore, we place a strong emphasis on a positive school culture. Our school utilizes PBIS and CHAMPS to create a culture of high expectations for positive behavior. We are also implementing Restorative Practices in our day to day interactions with students to increase a positive schoolwide culture.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

Our guidance counselor will be modeling Restorative Practices in weekly classroom guidance. As well as, monthly Wildcat Roar celebrations for recognizing positive student character traits. All teachers participate in our schoolwide PBIS by rewarding students for modeling our schoolwide expectations - Respect, Responsibility, and Caring.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Collaborative Planning	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
Total:			\$0.00
