SIP Authority

A Schoolwide Improvement Plan (SIP) is a requirement for Comprehensive Support and Improvement (CSI) ungraded schools pursuant to 1001.42 F.S. and the Every Student Succeeds Act (ESSA) and for DJJ schools

receiving a rating of Unsatisfactory pursuant to Sections 1003.51 and 1003.52, F.S. and Rule 6A-1.099813, F.A.C.

CSI schools can be designated as such in 2 ways:

1. Have a graduation of 67% or lower; or
2. Have an overall Federal Index below 41%.

DJJ Unsatisfactory Ratings are based on percentages by program type:

- Prevention and Intervention: 0%-50%
- Nonsecure Programs: 0%-59%
- Secure Programs: 0%-53%

SIP Plans for Ungraded CSI schools and DJJ schools receiving an Unsatisfactory rating must be approved by the district and reviewed by the state.

Purpose and Outline of the SIP

The School Improvement Plan (SIP) provides schools and Local Educational Agencies (LEAs) the opportunity to identify the academic and priority goals along with strategies for each school. School leadership teams may refine their SIP annually to define their school's academic and priority goals to increase student achievement.

Schools and LEAs are strongly encouraged to collaborate in the development and implementation of this plan.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

As an educational entity we will provide each student with the necessary tools to become productive and responsible citizens.

.

Provide the school's vision statement.

Our students will become academically, socially, and behaviorally proficient as we prepare them to transition back to traditional educational settings

Briefly discuss the population unique to your school and the specific supports provided to meet the mission and vision.

100% of the student body consist of males ages 13 - 17 in grades 6th - 12th residing full-time in a Department of Juvenile Justice Residential Facility. The students present from all school districts in the state of Florida.

Greater than 95% of the student body arrive at our facility performing below grade level with significant gaps in school attendance. For many of our students their enrollment at the facility represents their greatest period of academic success given mandatory school attendance and intensive Tier 2 and Tier 3 academic and behavioral supports.

Analysis

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

Reflect on the Areas of Focus from the previous school year. What progress monitoring was in place for low performing ESSA subgroups related to the Areas of Focus?

Ongoing Progress Monitoring (Teacher, District, and State Assessments) in conjunction with individualized Tier 2 and Tier 3 interventions were in place to address low performing ESSA subgroups needs.

Based on ESSA subgroup progress monitoring, which data component showed the most improvement? What new actions did your school take in this area?

Data based on Ongoing Progress Monitoring denotes ELA as the area with the greatest amount of improvement.

Data based on Ongoing Progress Monitoring denotes ELA as the area with the greatest amount of improvement. While FSA ELA data denotes 85.4% of the tested population scored below Level 3, 17.1% of the tested population scored a Level 2. Teacher and Computer Based instruction focused on remediating math skills, Tier 2 and Tier 3 intensive math instruction and interventions.

What area is in the greatest need of improvement? What specific component of this area is most problematic? What is your basis (data, progress monitoring) for this conclusion?

A review of our 2020-2021 FSA data denotes a significant decrease in Math Level 3 proficiency. 87.4% of FSA tested students scored below Level 3 proficiency.

What trends emerge across grade levels, subgroups and core content areas?

Improved ELA proficiency is the trend that emerged across grade levels, subgroups and core content areas.

With the increased utilization of Computer Based instructional delivery teachers will be able to identify and remediate specific areas of academic deficiencies. Specific academic lessons will be created to address students' specific needs.

What strategies need to be implemented in order to accelerate learning?

Edgenuity training along with subject area professional development will be available for teachers through Department, District and State professional learning communities.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Classroom teachers will participate in Department, District, State, and other Professional Learning Communities to improve instructional practices.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Differentiation**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

Teachers will utilize "Differentiated Instruction" to increase student achievement on Common Assessments. Teachers will administer computer based applications to ascertain baseline scores, identify areas of academic proficiency and deficiency, develop individualized academic improvement plans, conduct on-going progress monitoring and track academic progress.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

All students administered Common and State-wide Assessments will increase their scores in Math and Reading by 3% over the course of a school year.

All students not achieving Level 3 or higher on statewide assessments will receive a minimum of Tier 2 academic instructional interventions in an effort to increase academic performance by one bucket level over the course of a school year. On-going Progress Monitoring will track student's response to intervention and additional academic supports will be added as needed.

Black/African American students not achieving level 3 or higher on statewide assessments will receive Tier 2 and Tier 3 academic instructional interventions increasing academic performance by one bucket level over the course of a school year.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

On-going weekly progress monitoring will be conducted by the classroom teacher; On-going bi-weekly progress monitoring will be conducted by members of the Instructional Leadership Team. Progress Monitoring Plans will be reviewed and updated every semester.

Person responsible for monitoring outcome:

Joanne Brabham (joanne.brabham@hcps.net)

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Incorporation of "Differentiated Instruction" via computer based applications and direct instruction are the evidence based strategies being implemented.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

Students attending present at various academic levels of proficiency, Differentiated Instruction allows teachers to meet students at their level of academic proficiency in an effort to mitigate/ improve those academic deficiencies. HCPS offers this research based strategy as in-service to aid in professional development for teachers throughout the school year.

Action Steps to Implement:

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Black/African American students not achieving level 3 or higher on statewide assessments will receive Tier 2 and Tier 3 academic instructional interventions increasing academic performance by one bucket level over the course of a school year.

Person Responsible

[no one identified]

Monitoring ESSA Impact:

If this Area of Focus is not related to one or more ESSA subgroups, please describe the process for progress monitoring the impact of the Area of Focus as it relates to all ESSA subgroups not meeting the 41% threshold according to the Federal Index.

Black/African American students not achieving level 3 or higher on statewide assessments will receive Tier 2 and Tier 3 academic instructional interventions increasing academic performance by one bucket level over the course of a school year.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment.

Youth Services will conduct monthly Professional Learning Community meetings to promote positive school culture and environment. Positive behavior Systems will be utilized in the classrooms to promote positive school culture and environment amongst the student body.

Identify the stakeholders and their role in promoting a positive culture and environment at the school.

All Site and Youth Services staff is tasked with promoting a positive school environment either through direct student contact, instructional support or student support (academic and/or behavior). A positive culture and environment is vital in maintaining a peaceful and productive learning environment for student, given students spend 24 hours per day, 7 days per week for extended periods of time together.

Given the unique needs of our students and their learning environment, classroom can provide some normalcy to their day thus the classroom teacher has the primary responsibility for creating a positive school culture and environment for their students. Everyone thrives in a positive culture and environment as students are more focused on academic success.
