School Board Approval

This plan is pending approval by the Marion County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Anthony Elementary School will accomplish the highest academic achievement possible for our students while creating a safe and nurturing school environment.

Provide the school's vision statement.

We believe that "all children can learn and succeed". We will be an exemplary learning community school. We build the foundation of this community through meaningful relationships, relevant and engaging learning, and effective communication.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Johnson, James	Principal	Oversee all programs and processes at the school level. Principal will have specific emphasis on monitoring school data, and progress of bottom quartile students.
Bradshaw, Saundra	School Counselor	Coordinate the MTSS process from the guidance department. Plays lead role in planning staffings, monitoring MTSS process, and facilitating youth mental health plan.
Raney, Karli	Instructional Coach	Support teachers with tier 1 instruction in all subjects. In addition Coaches will also provide support to the teachers with their tier 2 & 3 interventions as well.
Lenon, Veronica	Instructional Coach	Support teachers with tier 1 instruction in all subjects. In addition Coaches will also provide support to the teachers with their tier 2 & 3 interventions as well.
Hamby, Kendra	Assistant Principal	Lead curriculum department, and be the point person for all teachers' curricular needs. Areas of oversight to also include master schedule, master calendar, MTSS process, and staff duty responsibilities.
Smith, Jennifer	Dean	The Dean will be the point person for all things discipline, behavior management, and classroom management. Other duties will include coordination of safety/crisis committee, field trips, and staff duty assignments.

Demographic Information

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest area on the 2019 FSA was overall Math performance. Specifically, our learning gains in Math were particularly low. this trend continued during the 2019-2020 school year. Some of the factors that contributed to the low performance was the elevated emphasis on ELA due to the fact we are in the

bottom 300. Also, there was a lack of a concrete plan for math intervention within the grade levels.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The only area that declined from the prior year was the math learning gains. As stated earlier, an added emphasis on ELA improvement, and the lack of a defined math intervention process contributed greatly to the decline from the prior year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The areas with the biggest gaps when compared to the state average is our overall proficiency in both ELA and Math. When looking at the FSA data from the previous year, we knew that we had to make some significant changes to our reading program, specifically our intervention programs, due to the inflated number of students that require tier 2 and 3 services. I believe that this emphasis on our reading MTSS programs led to the substantial increases in our ELA learning gains (+33%). Now, to sustain our momentum and take it to the next level, we have to focus on increasing the overall proficiency numbers. We will do this by focusing on improving tier 1 instruction, and paying special attention to the students that scored a level 2 last year on the FSA.

Which data component showed the most improvement? What new actions did your school take in this area?

The area that increased the most from the previous year was ELA learning gains, trailed just barely by the learning gains of the bottom 25%. In addition to the extra intervention time afforded to us by being in the bottom 300, we also focused the majority of our PD efforts on improving our teachers' reading instruction, especially in the area of reading intervention. We also closely monitored our MTSS groups to make sure that students were placed appropriately, and receiving the correct intervention to fill their deficits.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

In looking at the EWS data, the most concerning data is the number of students that we have that represent 2 or more of those indicators. This obviously means that they have more than one barrier that is hindering them from being as prepared as they could possibly be to perform optimally in the classroom.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Improving in all areas of Math
- 2. Raise the proficiency percentage in both ELA and Math

3.

4.

5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA	
Anthony Elementary Language Arts We chose ELA proficiency data results indicated that Learn proficiency still fell below our governed that inconsistencies in the delivery/	y School will increase proficiency in English iciency as an overall area of focus because sing Gains increased in the area of ELA, but bals. After further analyzing the data we he use of available curriculum, as well as the ne curriculum, contributed greatly to the
Standards aligned instruction i interventions, then student proficie measurable Outcome: Measurable Outcome: FSA data. Grade 3 proficiency proficiency Baseline	ary teachers consistently deliver Florida In reading, and provide effective reading Ency will increase in the following grades as Baseline 45%, Target 50%; Grade 4 Ency Baseline 41%, Target
Person responsible for monitoring outcome: James Johnson (jar	mes.johnson@marion.k12.fl.us)
higher-level	ovided with professional development in t feedback practices, and purposeful ongoing
Rationale for Evidence-based Strategy: efforts on implementation of viscousing on improving teachers' grade levels. Specifically we will students with	focusing our professional development arious instructional programs, we are tier 1 instruction across all subjects and focus on higher-level questioning, providing and implementation of purposeful formative on.
divo idatio mondo

Person Responsible James Johnson (james.johnson@marion.k12.fl.us)

Support teachers with tier 1 goals weekly, during collaboration meetings

Person Responsible Veronica Lenon (veronica.lenon@marion.k12.fl.us)

Monitor effectiveness of implementation using classroom walk through observational data and other assessments

Person Responsible James Johnson (james.johnson@marion.k12.fl.us)

Admin and/or staff attendance of Model Schools Conference

Person Responsible Kendra Hamby (kendra.hamby@marion.k12.fl.us)

#2. Instructional Practice specifically	relating to Math
Area of Focus Description and Rationale:	Anthony Elementary will increase student proficiency and learning gains in Math. After reviewing multiple pieces of data and 3-year FSA trends, root cause analysis reveals that inconsistencies in the implementation of the math curriculum, and a lack of proper intervention of below-level students,
	contributed to the decrease in all areas of math.
Measurable Outcome:	If teachers use data driven instruction, formative assessments and collaborate with leadership to develop and implement interventions, then Math proficiency will increase in the following grades as measured by FSA data. Grade 3 Baseline 53% Target 53% Grade 4 Baseline 36% Target 50% Grade 5 Baseline 26% Target 41%
Person responsible for monitoring outcome:	James Johnson (james.johnson@marion.k12.fl.us)
Evidence-based Strategy:	Teachers will be provided with professional development in higher-level questioning, student feedback practices, and purposeful ongoing formative assessment.
Rationale for Evidence-based Strategy:	This year instead of focusing our professional development efforts on implementation of various instructional programs, we are focusing on improving teachers' tier 1 instruction across all subjects and grade levels. Specifically we will focus on higher-level questioning, providing students with quality feedback, and implementation of purposeful formative assessment to drive future instruction. In addition to these strategies, we will also provide the teachers with a concrete plan for Math intervention to be used daily in their classrooms.

Action Steps to Implement

Develop professional development plan with leadership team to emphasize tier 1 goals

Person Responsible James Johnson (james.johnson@marion.k12.fl.us)

#3. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups

Anthony Elementary will increase proficiency in all ESSA

subgroups that

are currently under 41%, specifically SWD and African

American Students

Area of Focus Description and

Rationale: We chose to specifically address the needs of our Students

with

Disabilities and African American Students due to the fact that

their

percentage of proficient students fell below the 41% threshold.

If teachers focus on differentiation during Tier 1 instruction and interventions, then subgroups with a federal index below 41%

will

Measurable Outcome: increase as follows: SWD from 35% to 38% and AA from 34%

to 37% as

measured by ESSA Federal Index.

Person responsible for monitoring

outcome:

James Johnson (james.johnson@marion.k12.fl.us)

In addition to the professional development given to all

teachers to

improve overall tier 1 instruction, we will also provide teachers

Evidence-based Strategy: specifically

with strategies to use to be able to better differentiate their

instruction for

the various subgroups that are struggling on campus.

We believe that if teachers do a better job of differentiating their

tier 1

Rationale for Evidence-based

Strategy:

instruction, as well as their interventions, to better meet the

needs of our

students; then overall performance of our struggling subgroups

will

improve markedly.

Action Steps to Implement

Develop professional development plan with leadership team to emphasize differentiating to meet the needs of our struggling subgroups

Person Responsible James Johnson (james.johnson@marion.k12.fl.us)

Support teachers with these goals weekly, during collaboration

meetings

Person Responsible Veronica Lenon (veronica.lenon@marion.k12.fl.us)

Monitor effectiveness of implementation using classroom walk through observational data and other assessments

Person Responsible James Johnson (james.johnson@marion.k12.fl.us)

Admin and/or staff attendance of Model Schools Conference

Person Responsible Kendra Hamby (kendra.hamby@marion.k12.fl.us)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Our areas of focus should be enough to address the school improvement priorities listed in our needs assessment.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

We continuously consult with our teachers, students, families, volunteers and School Advisory Council (SAC) throughout the year. We understand that our stakeholders play a key role in school performance and addressing equity. As such, we start each school year with a meeting (notifications and invitations in English and Spanish) to address the following:

- A description and explanation of the school's curriculum,
- Information on the forms of academic assessment used to measure student progress, and
- Information on the proficiency levels students are expected to meet;
- Explain the school parental Parent and Family Engagement Plan, and school-parent compact;
- Explain the right of parents to become involved in the school's programs and ways to do so;
- Explain that parents have the right to request opportunities for regular meetings for parents to formulate suggestions and to participate in decisions about the education of their children.
- Allow for feedback and open discussion.

In order to increase stakeholder engagement and promote a welcoming environment we will offer different modalities (online and paper based) of communication with to our families such as phone, email, Dojo and/ or Remind App, Twitter, school website, teacher webpage, Skyward Parent Portal and school marquee.

Family and community feedback is requested/collected during quarterly SAC meetings, the Annual Parent Survey, Parent and Family Engagement Plan event surveys and Schoolwide Improvement Plan surveys.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Math	\$0.00
3	III.A.	Areas of Focus: ESSA Subgroup: Outcomes for Multiple Subgroups	\$0.00
		Total:	\$0.00
