This plan is pending approval by the Hillsborough County School Board.

## SIP Authority

A Schoolwide Improvement Plan (SIP) is a requirement for Comprehensive Support and Improvement (CSI) ungraded schools pursuant to 1001.42 F.S. and the Every Student Succeeds Act (ESSA) and for DJJ schools receiving a rating of Unsatisfactory pursuant to Sections 1003.51 and 1003.52, F.S. and Rule 6A-1.099813, F.A.C.

CSI schools can be designated as such in 2 ways:

- 1. Have a graduation of 67% or lower; or
- 2. Have an overall Federal Index below 41%.

DJJ Unsatisfactory Ratings are based on percentages by program type:

- Prevention and Intervention: 0%-50%
- Nonsecure Programs: 0%-59%
- Secure Programs: 0%-53%

SIP Plans for Ungraded CSI schools and DJJ schools receiving an Unsatisfactory rating must be approved by the district and reviewed by the state.

## Purpose and Outline of the SIP

The School Improvement Plan (SIP) provides schools and Local Educational Agencies (LEAs) the opportunity to identify the academic and priority goals along with strategies for each school. School leadership teams may refine their SIP annually to define their school's academic and priority goals to increase student achievement.

Schools and LEAs are strongly encouraged to collaborate in the development and implementation of this plan.

## **Part I: School Information**

#### School Mission and Vision

#### Provide the school's mission statement.

As an educational entity we will provide each student with the necessary tools to become productive and responsible citizens.

### Provide the school's vision statement.

Our students will become academically, socially, and behaviorally proficient as we prepare them to transition back to traditional educational settings.

# Briefly discuss the population unique to your school and the specific supports provided to meet the mission and vision.

100% of the student body consist of females ages 13 - 17 in grades 6th - 12th residing full-time in a Department of Juvenile Justice Residential Facility. The students present from all school districts in the State of Florida.

Greater than 95% of the student body arrives at Lake Academy performing 2 or more years below grade level. Many of our students have experienced significant gaps in school attendance.

For many of our students, their enrollment at Lake Academy represents their greatest period of academic success given our mandatory school attendance policy, differentiated instruction, and intensive Tier 2 and Tier 3 academic and behavioral interventions and supports.

## Subgroup Data

## Part III: Planning for Improvement

## Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

# Reflect on the Areas of Focus from the previous school year. What progress monitoring was in place related to the Areas of Focus?

Star and Common Assessment

## Which data component showed the most improvement? What new actions did your school take in this area?

Star, identifying academic areas of deficiency allowed instructors to implement Tier 2 and Tier 3 academic instructions.

## What area is in the greatest need of improvement? What specific component of this area is most problematic? What is your basis (data, progress monitoring) for this conclusion?

Math, Achieve 3000

## What trends emerge across grade levels, subgroups and core content areas?

Student showed slight improvement in the area of Reading.

## What strategies need to be implemented in order to accelerate learning?

Star Testing, Common Assessment, Academic Tier 2 and Tier 3 Interventions.

## Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided to support teachers and leaders.

Teachers will participate in site, district, local, state, and national professional development.

Areas of Focus:

## #1. ESSA Subgroup specifically relating to Black/African-American

## Area of Focus Description and Rationale:

Include a rationale that explains how it was identified as a critical need from the data reviewed.

## Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome. Teachers will utilize differentiated instruction to increase student achievement on common assessments. Teachers will administer computerbased applications to ascertain baseline scores, identify areas of academic proficiency and deficiency, develop individualized academic improvement plans, conduct ongoing progress monitoring, and track academic progress.

All students administered common and statewide assessments will increase their scores in math and reading by 3% over the course of a school year.

All students not achieving level 3 or higher on statewide assessments will receive a minimum of tier 2 academic instructional interventions and an effort to increase academic performance by one bucket level over the course of a school year. I'm going progress monitoring will try students' response to intervention and additional academic supports will be added as needed. Black/African American, Hispanic, and economically disadvantaged students not achieving level 3 or higher on statewide assessments will receive Tier 2 and Tier 3 academic instructional interventions increasing academic performance by one bucket level over the course of a school year.

Ongoing weekly progress monitoring will be conducted by the classroom teacher; ongoing bi-weekly progress monitoring will be conducted by members of the instructional leadership team. Progress monitoring plans will be reviewed and updated every semester.

Incorporation of differentiated instruction via computer-based applications and direct instructions are the evidence-based strategies being implemented.

Students present at various academic levels, with most students presenting significantly below grade level, differentiated instruction allows teachers to meet students at their level of academic proficiency in an effort to mitigate/ improve those academic deficiencies. HCPS offers this research-based strategy as in service to Aid and professional development for teachers throughout the school year.

Teachers will utilize differentiated instruction to increase student achievement on common assessments. Teachers will administer computerbased applications to ascertain baseline scores, identify areas of academic proficiency and deficiency, develop individualized academic improvement plans, conduct ongoing progress monitoring, and track academic progress.

All students administered common and statewide assessments will increase their scores in math and reading by 3% over the course of a school year.

All students not achieving level 3 or higher on statewide assessments will receive a minimum of tier 2 academic instructional interventions and an effort to increase academic performance by one bucket level over the course of a school year. I'm going progress monitoring will try students' response to intervention and additional academic supports will be added as needed. Black/African American, Hispanic, and economically disadvantaged students not achieving level 3 or higher on statewide assessments will receive Tier 2 and Tier 3 academic instructional interventions increasing academic performance by one bucket level over the course of a school year.

## RAISE

The RAISE program established criteria for identifying schools for additional support. The criteria for the 2022-23 school year includes schools with students in grades Kindergarten through fifth, where 50 percent or more of its students, for any grade level, score below a level 3 on the most recent statewide English Language Arts (ELA) assessment.

## Area of Focus Description and Rationale

Include a description of your Area of Focus (Instructional Practice specifically relating to Reading/ELA) for each grade below, how it affects student learning in literacy, and a rationale that explains how it was identified as a critical need from the data reviewed. Data that should be used to determine the critical need should include, at a minimum:

- The percentage of students below Level 3 on the 2022 statewide, standardized ELA assessment. Identification criteria must include each grade that has 50 percent or more students scoring below level 3 in grades 3-5 on the statewide, standardized ELA assessment.
- The percentage of students in kindergarten through grade 3, based on 2021-2022 end of year screening and progress monitoring data, who are not on track to score Level 3 or above on the statewide, standardized ELA assessment.
- Other forms of data that should be considered: formative, progress monitoring and diagnostic assessment data.

## Measurable Outcomes:

State the specific measurable outcome the school plans to achieve for each grade below. This should be a data based, objective outcome. Include prior year data and a measurable outcome for each of the following:

- Each grade K-3, using the new coordinated screening and progress monitoring system, where 50 percent or more of the students are not on track to pass the statewide ELA assessment.
- Each grade 3-5 where 50 percent or more of its students scored below a level 3 on the most recent statewide, standardized ELA assessment and
- Grade 6 measurable outcomes may be included, as applicable.

### **Evidence-based Practices/Programs:**

Describe the evidence-based practices/programs being implemented to achieve the measurable outcomes in each grade and describe how the identified practices/programs will be monitored. The term "evidence-based" means demonstrating a statistically significant effect on improving student outcomes or other relevant outcomes as provided in 20 U.S.C. §7801(21)(A)(i). Florida's definition limits evidence-based practices/programs to only those with strong, moderate or promising levels of evidence.

- Do the identified evidence-based practices/programs meet Florida's definition of evidence-based (strong, moderate or promising)?
- Do the evidence-based practices/programs align with the district's K-12 Comprehensive Evidencebased Reading Plan?
- · Do the evidence-based practices/programs align to the B.E.S.T. ELA Standards?

N/A

## Rationale for Evidence-based Practices/Programs:

Explain the rationale for selecting the specific practices/programs. Describe the resources/criteria used for selecting the practices/programs.

- · Do the evidence-based practices/programs address the identified need?
- · Do the identified practices/programs show proven record of effectiveness for the target population?

## **Positive Culture & Environment**

A positive school culture and environment is critical in supporting sustainable schoolwide improvement initiatives. When schools implement a shared focus on improving school culture and environment, students are more likely to engage academically. A positive school culture and environment can also increase staff satisfaction and retention.

Select a targeted element from the menu to develop a system or process to be implemented for schoolwide improvement related to positive culture and environment.
