## School Board Approval

This plan is pending approval by the Hillsborough County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part III: Planning for Improvement

### Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

**What trends emerge across grade levels, subgroups and core content areas?**

Our bottom quartile students make progress but not at the rate of the rest of our student population in both reading and math.

**What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?**

Bottom quartile students in reading and math.

**What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?**

We need to find new ways to differentiate our delivery of instruction to meet the needs of our students.

**What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?**

Our overall proficiency increased and number of level 1's decreased.

**What were the contributing factors to this improvement? What new actions did your school take in this area?**

Working with grade level team planning and identifying individual needs of students.

**What strategies will need to be implemented in order to accelerate learning?**

We will be utilizing PLC's to disaggregate data as well as differentiating instruction to meet the needs of each child.

**Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.**

Pre-planning PD on differentiated instruction, walkthroughs, and continuous feedback will all be used to support teachers.

**Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.**

Scheduling walkthroughs and feedback with a targeted focus of differentiated instruction.

**Areas of Focus**

Identify the key Areas of Focus to address your school's highest priorities based on any/all relevant data sources.

:

**#1. Instructional Practice specifically relating to Differentiation**

**Area of Focus Description and Rationale:**  
 Include a rationale that explains how it was identified as a critical need from the data reviewed.

We will be focusing on differentiation for all students to meet the needs of all students with a focus on our bottom quartile in reading and math.

**Measurable Outcome:**

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

**Monitoring:**

Describe how this Area of Focus will be monitored for the desired outcome.

**Person responsible for monitoring outcome:** [no one identified]

**Evidence-based Strategy:**

Describe the evidence-based strategy being implemented for this Area of Focus.

**Rationale for Evidence-based Strategy:**

Explain the rationale for selecting this specific strategy. Describe the resources/ criteria used for selecting this strategy.

**Action Steps to Implement**

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

*No action steps were entered for this area of focus*

**Positive Culture & Environment**

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

**Describe how the school addresses building a positive school culture and environment.**

We work to empower our students and staff throughout the year. One-on-one meetings happened prior to the school year started with staff to build connections, relationships, and trust. Administration, patrols, and staff greet students daily as they enter the building. The student-run morning show starts our day in the

classrooms. Positive feedback to staff happens daily. Celebrations of achievements are continuous. Our amazing PTA supports our students and staff throughout the year.

**Identify the stakeholders and their role in promoting a positive school culture and environment.**
