School Board Approval

This plan is pending approval by the Hillsborough County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part III: Planning for Improvement

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

All grade levels and subgroups were consistent in their progress last year.

What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?

Grady made a significant amount of growth with learning gains for our BQ students. We want to continue to closely monitor our BQ students to make sure our most needy students are making learning gains.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Our BQ earning gains the previous year, 2020-2021, were very low. This caused a downward trend in both BQ and regular learning gains. We closely monitored all of our BQ students after each test. We also made sure our BQ students across all grade levels were getting at least 45 minutes a week of reading and math.

What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?

BQ learning gains for reading and math.

What were the contributing factors to this improvement? What new actions did your school take in this area?

We closely monitored all of our BQ students after each test. We also made sure our BQ students across all grade levels were getting at least 45 minutes a week of reading and math. We had a spreadsheet that showed the progress of each of our BQ students.

What strategies will need to be implemented in order to accelerate learning?

Continue to use the strategies we were implementing last year.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Teachers will form a PD group to find out what PD our teachers really want and provide it to them.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Based on feedback of PD program, we will see which areas we will keep and which areas we will need to improve.

Areas of Focus

Identify the key Areas of Focus to address your school's highest priorities based on any/all relevant data sources.

:

#1. Instructional Practice specifically relating to B.E.S.T. Standards

Area of Focus Description and Rationale: Include a rationale that explains how it was identified as a critical need from the data reviewed.

Our school had fantastic data. As we transition into the BEST standards, it will be necessary for all teachers to learn how to successfully implement the new standards into their lesson plans. Since all teachers must teacher the standards, it is imperative they know the standards and how to teach them.

Measurable Outcome: State the specific measurable outcome the

objective outcome.

measurable outcome the school plans to achieve.
This should be a data based,

Grady will have 85% of their 3-5 grade students proficient in both reading and math on the FAST test in May 2023.

Monitoring:

Focus.

Describe how this Area of Focus will be monitored for the desired outcome.

PD and walk throughs in classrooms.

Person responsible for monitoring outcome:

Michael Campbell (mike.campbell@hcps.net)

Evidence-based Strategy: Describe the evidencebased strategy being implemented for this Area of

Teachers are taking PD classes to learn more about the standards and how to implement them in their class.

Rationale for Evidencebased Strategy: Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

Teachers need PD to learn about standards before they can be expected to teacher the standards.

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Professional Development during pre-planning. 4 teachers and principal and AP Professional Development during faculty meetings. Jen Cucci and Ann-Marie Gonzalez

Person Responsible Ann-Marie Gonzalez (ann-marie.gonzalez@hcps.net)

Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

Describe how the school addresses building a positive school culture and environment.

We show our teachers how much we appreciate them through positive words, publicly announcing staff and their accomplishments, games to improve morale, allow staff to leave early on occasion, social committee holds events for staff throughout the year, PTA does monthly treats for the staff, and PTA does teacher appreciation week.

Identify the stakeholders and their role in promoting a positive school culture and environment.

Admin and Office Staff - Responsible for all interactions throughout school and creating a positive environment.

Teachers - Meeting and maintaining positive relationships amongst their teams and faculty members throughout.

Social Committee - Teachers keep morale going throughout the year with special events and prizes. PTA - Supporting school and teachers through providing classroom supplies, monthly treats for staff, and teacher appreciation week.
