## School Board Approval

This plan was approved by the Leon County School Board on 9/19/2022.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&I, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&l:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below 41\%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.
The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of $D$ or F .

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of $D$ or $F$ (see page 4). For schools receiving a grade of $A, B$, or $C$, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

## School Mission and Vision

Provide the school's mission statement.
The mission of James S. Rickards High School is to produce graduates with skills and competencies to succeed on local, state, national, and international levels and who are responsible, self-supporting, and productive members of our society.

Provide the school's vision statement.
The vision for James S. Rickards High School is to provide students with a caring, supportive learning environment that allows them to reach their maximum potential through quality programs, instruction and experiences.

## School Leadership Team

## Membership

For each member of the school leadership team, select the employee name and email address from the dropdown. Identify the position title and job duties/responsibilities.:

```
Name

\section*{Job Duties and Responsibilities}

Cook, Douglas

Principal

Mr. Cook develops standardized curricula, assesses teaching methods, monitors student achievement, encourages parent involvement, revises policies and procedures, administers the budget, hires and evaluates staff, and oversees facilities.

Assistant Principal for Curriculum: supervises the academic program under

Barnes, Assistant
Deborah Principal
direction of the Principal. The AP for curriculum works with and coordinates the efforts of the academic Department Chairs and Math and Reading Interventionists to monitor and facilitate the academic progress of all students.

Assistant Principal of Attendance and Facilities: Assist the school principal in

Cowart, Assistant Chris Principal overall administration of instructional program and campus level operations, monitors student attendance and prepares reports and supervises the daily function of the school building.
\(\begin{array}{ll}\text { Striplin, } & \text { Assistant } \\ \text { Sam } & \text { Principal }\end{array}\)

Assistant Principal of Student Affairs: Assist the school principal in overall administration of instructional program and campus level operations and coordinates assigned student activities and services.

Dean of Students: Assist the school principal in overall administration of
Thomas, Dean instructional program and campus level operations and coordinates assigned student activities and services.

Chair of Guidance Department: Supervise guidance staff and delegates Jones, School assignments, meeting the academic, career, and personal/social development of Terraca Counselor all students. Coordinate course and summer registration period along with the school counseling program.

Provides ongoing support by guiding the learning every step of the way. Whether

Mitchell, Math
Altovise Coach through collaborative planning, demonstration lessons, co-teaching, or informal discussions, coaches step in to discuss the math content, clarify the math standard, or suggest teaching options or next steps.

Ensures students receive high-quality literacy instruction. The Literacy Coach leads the development and improvement for teachers in a school building via training, observations, model lessons, feedback conversations, data analysis and more. The Literacy Coach serves as the literacy content expert and provides support on curriculum, high-quality interactions, and the science of teaching reading.

\section*{Demographic Information}

\section*{Principal start date}

Sunday 7/1/2012, Doug Cook

Number of teachers with a 2022 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

\section*{Part III: Planning for Improvement}

\section*{Data Analysis}

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?
Trends across all grade levels, subgroups and content areas suggests that there was improvement in proficiency across the board as well as learning gains.

What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?

There was an increase in percentage of proficiency in Math, however Algebra 1 and Geometry still had the greatest need for improvement.

\section*{What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?}

Returning to pre-pandemic form consists of closing the gaps in learning that were caused during the year. Students who were not face to face with their teacher incurred the largest loss. The 2021-2022 school year was the first whole year that all students returned to face-to-face instruction. The school will benefit from new Math and ELA/Reading Interventionists who will analyze data and allow for best outcomes and practices for teaching and learning in the most critical areas, Math and Literacy.

What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?

Based on 2022 state assessments the most improvement was in math and science.
What were the contributing factors to this improvement? What new actions did your school take in this area?

The contributing factors for improvement in Math and Science on the 2022 assessment are most attributed to in person instruction when compared to the 2020-21 school year. Students were also able to receive supplemental face-to-face opportunities with Saturday School.

What strategies will need to be implemented in order to accelerate learning?
The strategies that will need to be implemented in order to accelerate learning are students will consistently receive grade-level materials, tasks, and assignments, along with appropriate scaffolds as students learn new skills. More specifically, leaders and teachers will build upon students' experiences and differentiate learning to focus on students' most critical gaps. This will occur when strategies such as intentional scaffolding prioritizing standards, diagnosing essential missed learning, and utilizing interdependent collaborative student teams are utilized.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Monthly professional development opportunities will focus on standards based instruction, instructional practices, data driven lesson planning, and intervention strategies. Additional training will be provided to all teachers on AVID focused note taking, text marking, questions for rigor, differentiation and lesson planning.

\section*{Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.}

To ensure sustainability in the next year and beyond Improvement of communication among stakeholders, particularly teachers, parents and students will be implemented. Furthermore consistent review of data, department data chats among teachers, department heads and administrators, in addition to ensuring that educators have continuous access to professional development to be able to best support the needs of those they serve will be implemented.

\footnotetext{
Areas of Focus
Identify the key Areas of Focus to address your school's highest priorities based on any/all relevant data sources.
}

\section*{\#1. Instructional Practice specifically relating to Math}

\section*{Area of Focus}

Description and

\section*{Rationale:}

Include a rationale that explains how it was identified as a critical need from the data reviewed.

\section*{Measurable Outcome:}

\section*{State the specific} measurable outcome the school plans to achieve. This should be a data based, objective outcome.

\section*{Monitoring:}

Describe how this Area
of Focus will be monitored for the desired outcome.

\section*{Person responsible for} monitoring outcome:

\section*{Evidence-based} Strategy:
Describe the evidencebased strategy being implemented for this Area of Focus.
Rationale for Evidencebased Strategy: Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

The area of focus will be the Algebra 1 and Geometry End Of Course Exams. 2021-22 proficiency in Algebra 1 and Geometry was 30\% and 22\% respectively. Passing test scores for first time test takers is \(19 \%\) lower from the 2018-2019 (45\%) school year to the 2021-2022 (26\%) school year. It is imperative that the scores increase so students can meet the Algebra 1 graduation requirement.

Passing scores on the Algebra 1 and Geometry EOCs for the 2022-2023 school year will increase by at least 10\% (to at least 29\%) from the 2021-2022 test scores.

In order to track progress throughout the year, students will take a beginning of the year baseline, and a midyear progress monitoring exam and an end of the year progress monitoring exam, prior to the EOC exam.

Altovise Mitchell (mitchella2@leonschools.net)

Students will have weekly assessments. After each assessment, it will be determined which standards have not been met in order to inform lesson planning for re-teaching of certain standards. Additionally students can receive after-school tutoring for help with the concepts.

This strategy has been chosen because it allows the students to track which benchmarks they have mastered. In addition, if they have not mastered the benchmark, it allows them to take ownership in their education and get the support they need to be successful.

\section*{Action Steps to Implement}

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
- Baseline at the beginning of the year

Person Responsible Altovise Mitchell (mitchella2@leonschools.net)
- Weekly assessments

Person Responsible Altovise Mitchell (mitchella2@leonschools.net)
- Tutoring - as needed, students' responsibility to make appointment and take advantage of opportunity

Person Responsible Altovise Mitchell (mitchella2@leonschools.net)
- Midyear progress monitoring exam

Person Responsible Altovise Mitchell (mitchella2@leonschools.net)
- End of year progress monitoring exam

Person Responsible Altovise Mitchell (mitchella2@leonschools.net)

\section*{\#2. Instructional Practice specifically relating to ELA}

\section*{Area of}

\section*{Focus}

Description

\section*{and}

Rationale:
Include a
rationale
that explains
how it was
identified as a critical
need from
the data reviewed.

\section*{Measurable}

\section*{Outcome:}

State the specific measurable outcome the school plans to achieve.
This should
be a data based, objective outcome.
Monitoring: Describe how this Area of Focus will be monitored for the desired outcome.

\section*{Person} responsible
for monitoring outcome:

\section*{Evidence-} based Strategy: Describe the evidencebased strategy being

The area of focus will be to ensure students are demonstrating mastery of the benchmarks identified on the B.E.S.T. Standards to be successful on the new progress monitoring test FAST, which is replacing FSA. This past year a combined \(37 \%\) of 9 th and 10 th grade ELA students achieved Level 3 or higher. Coming out of a COVID year and students not consistently coming to school every day, made it difficult to ensure students received the proper instruction to prepare them for their end of year assessments. It is imperative that scores increase to adequately show learning gains in ELA.

Increase of Level 3 students in 9th and 10th grade for the 2022-2023 school year by at least 5\% from the 2021-2022 test scores.

Teachers will administer Formative Assessments to monitor student progress and mastery of the benchmarks. Students will take a fluency test to determine their reading fluency in order for teachers to drive instructions (remove) to further prepare students for the end of the year assessment. Students will also take two progress monitoring tests (FAST), one in September, and the second in December, leading up to the final progress monitoring in May. This will track student progress throughout the year and provide a summative record of student mastery of the benchmarks by the end of the year. Additionally, students will be required to have quarterly data chats in which they will discuss with the teacher the objectives they have mastered and which objectives they are still learning.

Lisa Ross (rossl@leonschools.net)

Students will receive daily assignments using Study Sync which focuses on the different components and benchmarks they need to master for comprehension. Outcomes from the teacher administered formative assessments will guide teacher adjustments and differentiation of instruction. Remediation will be provided to those students who need further assistance based on the results of their assignments and assessments. Quarterly data chats will provide feedback of all results.
implemented
for this Area
of Focus.
Rationale for
Evidence-
based
Strategy:
Explain the rationale for selecting this specific strategy.
Describe the
resources/
criteria used
for selecting
this
strategy.

\section*{Action Steps to Implement}

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
- Progress Monitoring in September and December
- Daily assignments (Study Sync)
- Remediation
- Quarterly data chats
- Midterm exam
- Practice FAST
- Formative Assessments
- Provide Professional Development for Teachers (i.e. Tiered Interventions, Decision Trees, etc.)

Person
Responsible Lisa Ross (rossl@leonschools.net)

\section*{\#3. Instructional Practice specifically relating to Social Studies}

\section*{Area of Focus}

Description and

\section*{Rationale:}

Include a rationale that explains how it was identified as a critical need from the data reviewed.

The area of focus will be the US History End of Course Exam. Passing test scores fell \(4 \%\) (from 70\% to 66\%) from the 2020-2021 school year to the 2021-2022 school year. Passing scores on the US History EOC have now dropped below \(70 \%\) for the first time since 2018. It is critical that scores increase again to adequately show learning gains in US History.

\section*{Measurable} Outcome:
State the specific measurable outcome the school plans to achieve.
This should be a data based, objective outcome.

\section*{Monitoring:}

Describe how this
Area of Focus will
be monitored for the desired outcome.

\section*{Person responsible} for monitoring outcome:
Evidence-based
Strategy:
Describe the evidence-based strategy being implemented for this Area of Focus.

Passing scores on the US History EOC for the 2022-2023 school year will increase by at least 5\% (to at least 71\%) from the 2021-2022 test scores.

In order to track their progress throughout the year, students will take a pretest at the beginning of the year, a midterm exam and a practice exam prior to the EOC being administered. Additionally, students will be required to have quarterly data chats where they will discuss with the teacher the objectives they have passed and which objectives they are still learning. \(y\) will discuss with the teacher which objectives they have passed and which they are still learning.

\section*{Meaghan Eckerle (eckerlem@leonschools.net)}

\section*{Rationale for}

Evidence-based

\section*{Strategy:}

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

\section*{Action Steps to Implement}

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
Pretest at the beginning of the year (already happened)
Biweekly tests

Remediation - one on one tutoring and opportunity to retake tests
Quarterly data chats
Midterm exam
Practice EOC
Person Responsible Meaghan Eckerle (eckerlem@leonschools.net)
\#4. Instructional Practice specifically relating to Science

\section*{Area of Focus}

Description and

\section*{Rationale for}

Evidence-based

\section*{Strategy:}

Explain the rationale for selecting this specific strategy.
Describe the resources/criteria used for selecting this strategy.

\section*{Action Steps to Implement}

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
Baseline Progress Monitoring during the first three weeks of school
Weekly/Biweekly unit assessments with UNIFY
Midyear Progress Monitoring
Tutoring as needed during officer hours or by appointment
End of Year Progress Monitoring

\section*{Positive Culture \& Environment}

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

\section*{Describe how the school addresses building a positive school culture and environment.}

School culture develops as staff members interact with each other, the students, and the community. It becomes the guide for behavior that is shared among members of the school at large. Culture is shaped by the interactions of the stakeholders. Everyone has a role to play in building a positive school climate. Success depends on a whole school approach that includes the active involvement of school leaders, staff members, students, parents/guardians and community members who are committed to a shared vision of a safe, inclusive and accepting school community. At the beginning of the year, each class is able to hear clear expectations regarding the school culture for the upcoming year.

Identify the stakeholders and their role in promoting a positive school culture and environment.
School Principal and Admin: Set the expectations and provide the model as to what a positive school culture and environment looks like by articulating to all stakeholders the vision and mission of the school.

Teachers and support staff: Assist School and Admin with communicating the school's vision and reiterating expectations to students and other stakeholders.

Parents and community: Reiterating the school's expectations and ensuring that students are complying with expectations as articulated by school administration and teachers.

Students: Adhering to the vision and mission of the school and learning to become good citizens from those who are entrusted with the educational development.```
