### School Board Approval

This plan is pending approval by the Hernando County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

### Part III: Planning for Improvement

#### Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

#### What trends emerge across grade levels, subgroups and core content areas?

Attendance is a key component for virtual education. If student log in and stay on pace with the course they are successful and will score higher on state assessments.

#### What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?

Our EOC scores were missing due to COVID waivers and FTE being pulled in survey 4. We also need to look at our Biology course as we dropped in level 3 by 6 %.

#### What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

We have students pulled in survey 4 which negated the waivers that were given to seat time students. This lowered our percent tested and we have a school grade of an I.

#### What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?

We increased in level 3 and above by 19% in ELA, 22% increase in learning gains for math.

#### What were the contributing factors to this improvement? What new actions did your school take in this area?

We used reports during progress monitoring that showed student pace. We were able to pinpoint those students that were off pace to engage them in the content.

**What strategies will need to be implemented in order to accelerate learning?**

We are implementing Pace Plans this year to keep all students on track in their courses.

**Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.**

Our PD team will continue to offer virtual instruction specific strategies to our teachers, expanding the catalog.

**Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.**

Pace Plans will tie due dates to assignments that will populate in the student's To Do list. This will visually keep them on track with the pace of the courses.

**Areas of Focus**

Identify the key Areas of Focus to address your school's highest priorities based on any/all relevant data sources.

:

**#1. Instructional Practice specifically relating to Instructional Coaching/Professional Learning**

**Area of Focus Description and Rationale:**  
**Include a rationale that explains how it was identified as a critical need from the data reviewed.**

We reviewed the data and determined that we have the progress monitoring tools, it is how we are using them. We will pinpoint My Progress, VSA and Intelliboard, training teachers what to do with the information that they have on their students.

**Measurable Outcome:**  
**State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.**

We will monitor attendance and achieve a 94% attendance rate for our school.

**Monitoring:**  
**Describe how this Area of Focus will be monitored for the desired outcome.**

I will monitor our students each month for attendance and send reports to the teachers for action steps that they need to take with their students.

**Person responsible for monitoring outcome:**

Zana Wiseman (wiseman\_z@hcsb.k12.fl.us)

**Evidence-based Strategy:**  
**Describe the evidence-based strategy being implemented for this Area of Focus.**

We know that when students attend their courses they will finish to gain the credit for the course.

**Rationale for Evidence-based Strategy:**  
**Explain the rationale for selecting this specific strategy.**  
**Describe the resources/criteria used for selecting this strategy.**

Attendance has a direct tie to course completion.

**Action Steps to Implement**

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Teachers will pull a monthly report to monitor their students.

I will follow up by pulling a report for each teacher and sending them an email with action steps for each student.

**Person Responsible**

Zana Wiseman (wiseman\_z@hcsb.k12.fl.us)

**Positive Culture & Environment**

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

**Describe how the school addresses building a positive school culture and environment.**

We have weekly updates and monthly staff face to face meetings. We ambassador at community events throughout the school year. We also incorporated team building dates into our school year.

**Identify the stakeholders and their role in promoting a positive school culture and environment.**

Our internal stakeholders are our staff, students and parents. They promote a positive influence with their monthly contacts and DBAs. Our external stakeholders are the member of the community and district office staff. We promote positive influences by building relationships with them and giving them information about our school.
