* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part III: Planning for Improvement

Data Analysis

Answer the following analysis questions using the progress monitoring data and state assessment data, if applicable.

What trends emerge across grade levels, subgroups and core content areas?

When comparing the school wide data from SY 2021 and SY 2022, our school improved in every component. This includes overall achievement, learning gains, and lowest 25% learning gains in both English Language Arts (ELA) and Mathematics. Our school also improved in overall science achievement.

What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?

Based on the Spring 2022 state assessments, the areas that demonstrate the greatest need for improvement were overall ELA achievement, ELA lowest 25% learning gains, and overall science achievement. These were the three lowest component scores.

What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Last year, our district adopted a new reading series called Benchmark Advance. This adoption required professional development trainings to support our instructional staff as they deliver quality instruction in order to meet the needs of our student learners. In addition, our school serves a large population of English Language Learners (ELLs) and the language barrier puts these students at a greater disadvantage when compared to their peers who speak English as their native language.

What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?

Based on the Spring 2022 state assessments, the areas that showed the most improvement were math learning gains, ELA learning gains, and overall math achievement. These were the three highest component scores.

What were the contributing factors to this improvement? What new actions did your school take in this area?

The contributing factors that led to this improvement were impacted by the school wide instructional focus throughout our grade level Professional Learning Communities (PLCs). Our instructional staff met biweekly to analyze grade level data trends, collaborate within the team to share best practices, and most importantly to plan for small group instruction.

What strategies will need to be implemented in order to accelerate learning?

An ongoing instructional focus to target small group instruction in both reading and math. By incorporating the use of differentiated instruction, our teachers will be able to meet the needs of all our students. In addition, our teachers will receive academic support through our school RTI/MTSS team to better serve the students requiring Tier 2 and Tier 3 instructional services.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

Each grade level will engage in collegial inquiry during their Professional Learning Communities (PLCs). The purpose of these PLCs will be to review and analyze data trends within their individual classrooms and grade level. Our PLC teams share best practices and participate in a Walk-to-Read system that targets multi-tiered instruction to service the students that are required to receive Tier 2 and Tier 3 instructional services. In addition, our support staff will facilitate various Professional Development (PD) workshops that align with the new progress monitoring components as they relate to our new FAST assessments.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Our school offers an additional Extended Learning Opportunity (ELO) through the use of academic camps in reading, math, and science. These camps will take place during the Spring semester to assist in closing student achievement gaps in reading, math, and science. In addition, our English Language Learner (ELL) student population will be supported through small group interventions by our paraprofessionals and resource teachers. This will mitigate the disconnect resulted by the language barriers evident in our school community.

Areas of Focus

Identify the key Areas of Focus to address your school's highest priorities based on any/all relevant data sources.

:

#1. ESSA Subgroup specifically relating to Students with Disabilities

Area of Focus
Description and Rationale:
 Include a rationale that explains how it was identified as a critical need from the data reviewed.

Our school serves a large population of Students with Disabilities (SWD). A large majority of these students makeup the lowest quartile in both English Language Arts (ELA) and Mathematics. Based on the Spring 2022 ELA Florida Standards Assessment (FSA), only 43% of our students that makeup the lowest quartile in ELA made learning gains. Based on the Spring 2022 Math Florida Standards Assessment (FSA), only 58% of our students that makeup the lowest quartile in math made learning gains.

Measurable Outcome:
 State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

The percentage of the lowest quartile in ELA making learning gains will increase from 43% to 55% by the end of May 2023 as measured by school-wide FAST assessment.

The percentage of the lowest quartile in Math making learning gains will increase from 44% to 55% by the end of May 2023 as measured by school-wide FAST assessment.

Monitoring:
 Describe how this Area of Focus will be monitored for the desired outcome.

Our students will participate in the new statewide assessments three times during the year. The monitoring of student progress will be conducted at the end of each period of assessment (PM1, PM2, and PM3). This applies to both ELA and Math.

Person responsible for monitoring outcome:

Catrice Duhart (catrice.duhart@browardschools.com)

Evidence-based Strategy:
 Describe the evidence-based strategy being implemented for this Area of Focus.

The population of Students with Disabilities (SWD) will continue to receive their required instructional services as defined within their Individualized Education Plans (IEPs). In addition, this student subgroup will continue to receive differentiated instruction in both ELA and Math. The classroom teacher as well as the ESE support facilitator will provide small group, multi-sensory accommodations as indicated by the student's IEP. For ELA, the students will participate in daily guided reading at their instructional level. In Math, the students will use reflex math for fluency skills, and teacher-led small group math lessons for intervention as needed for the individual student(s).

Rationale for Evidence-based Strategy:

The teacher and ESE support facilitator will continue to implement differentiated instruction in both ELA and Math to meet the Students with Disabilities (SWD) target goals along with their individualized IEP goals. Small group instruction in both ELA and Math will allow for exposure to grade level material and standards.

Explain the rationale for selecting this specific strategy. Describe the resources/ criteria used for selecting this strategy.

Action Steps to Implement
List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Teachers will provide rigorous instruction aligned to the ELA and Math standards, while also meeting the individual needs through explicit small group lessons aligned with IEP goals.

Person Responsible Clarice Johnston (clarice.johnston@browardschools.com)

Administration, support staff and the RTI/MTSS team will monitor student progress to determine next steps or level of support.

Person Responsible Clarice Johnston (clarice.johnston@browardschools.com)

#2. Instructional Practice specifically relating to ELA**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

Based on the Spring 2022 Florida Standards Assessment (FSA), our English Language Arts (ELA) overall proficiency was 55%. The percentage of students that made learning gains was 62%. The percentage of students in the ELA lowest quartile that made learning gains was 43%.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By May 2023, the percentage of ELA students scoring proficient or higher will increase from 55% to 62% as measured by the school-wide FAST assessment.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

The students in grades K-2 will be participating in the FAST Progress Monitoring (PM) assessment periods (PM1, PM2, and PM3) using the STAR Renaissance platform. The students in grades 3-5 will be participating in the FAST Progress Monitoring (PM) assessment periods (PM1, PM2, and PM3) using the Cambium platform.

Person responsible for monitoring outcome:

Catrice Duhart (catrice.duhart@browardschools.com)

Evidence-based Strategy: Describe the evidence-based strategy being implemented for this Area of Focus.

Teachers and support staff will be meeting for periodic data chats (semester/quarterly) to review the data and track student performance as they progress through the school year. Student performance data will be collected and monitored using the school-wide data sheet template provided to the staff during the school year.

Rationale for Evidence-based Strategy:

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

After reviewing 2021-2022 data measuring students' reading standards mastery, many students in grades 3-5 require additional ELA academic support. The students with significant reading deficiencies will be provided tiered intervention support through the Multi-Tiered System of Supports (MTSS) in attempt to close the achievement gap.

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

The Collaborative Problem Solving Team (CPST) will identify and determine the level of academic support necessary in ELA, based on a Multi-Tiered System of Supports (MTSS) through our school's Response to Intervention (RTI) meetings. The teachers will provide ELA intervention strategies (Tier 2 or Tier 3) to meet the needs of the individual students.

Person Responsible

Clarice Johnston (clarice.johnston@browardschools.com)

Students in grades 3-5 will be provided the opportunity to participate in a before-school academic camp for ELA, Math, and Science. The students will use Florida Success Coach practice consumables textbooks and various other district-approved resources to address learning gaps in ELA, Math, and Science.

Person Responsible

Amy Torres (amy.torres@browardschools.com)

#3. Instructional Practice specifically relating to Science**Area of Focus****Description and Rationale:**

Include a rationale that explains how it was identified as a critical need from the data reviewed.

Based on the Spring 2022 Science Florida Comprehensive Assessment Test (FCAT), 44% of our students demonstrated proficiency. When compared to the district, 50% of the students in Broward County demonstrated proficiency. This reveals that our school is down 6% compared to the rest of the school district, thus indicating additional support with science standards mastery.

Measurable**Outcome:**

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

The percentage of Science students scoring proficient or higher in the science assessment will increase from 43% to 50% by the end of May 2023 as measured by statewide assessment.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Our teachers will monitor student performance through the various unit/topic assessments administered during class. They will analyze the data during their grade level Professional Learning Communities (PLCs) and share best practices as to how to best support student learning and standards mastery.

Person responsible for monitoring outcome:

Catrice Duhart (catrice.duhart@browardschools.com)

Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.

Teachers will use the Speedbag Science Bootcamp curriculum resource to align the grade level science standards. The students will also engage in hands-on science labs to reinforce the various concepts and skills taught in class. Students will participate in the Spring 2023 Science Broward Standards Assessment (BSA) as a means to assess content knowledge and standards mastery relevant to the statewide science assessment.

Rationale for Evidence-based**Strategy:**

Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

After reviewing the 2021-2022 data measuring students' science standards mastery, the students in grades 3-5 require additional science academic support. The statewide assessment targets standards in grades 3, 4, and 5. It is imperative to address the learning needs as early as grade 3, as to not place a burden on students in grade 5 that have not been exposed to the earlier standards that are assessed.

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

The Grade 5 team will analyze the multiple component of the Science Florida Comprehensive Assessment Test (FCAT) test specifications, highlighting the domains and standards that will be assessed. The teachers will develop an Instructional Focus Calendar (IFC) to ensure adequate planning for instruction and standard implementation.

Person Responsible Annette Disarno (annette.disarno@browardschools.com)

After reviewing and analyzing the data from the Spring 2023 Science Broward Standards Assessment (BSA), the teachers will implement a Spring camp to address the learning needs of the students. The purpose of the camp will be to revisit the standards that have not been mastered yet by the students and spiral review through the content that will be assessed in Spring 2023 on the Science Florida Comprehensive Assessment Test (FCAT). This will serve as both an intervention and enrichment opportunity for all students.

Person Responsible Jermaine Vassell (jermaine.vassell@browardschools.com)

Teachers will discuss with school administrators and support staff how their students are performing during the grade level data chats. Additional support will be provided as needed throughout the year regarding content knowledge, standards mastery, best practices, etc.

Person Responsible Clarice Johnston (clarice.johnston@browardschools.com)

#4. ESSA Subgroup specifically relating to English Language Learners

Area of Focus
Description and Rationale:
Include a rationale that explains how it was identified as a critical need from the data reviewed.

Based on the data from the 2022 statewide assessments, the English Language Learners (ELL) subgroup demonstrated 42.9% proficiency on the English Language Arts (ELA) assessment, 55.6% proficiency on the Mathematics assessment, and 24.4% proficiency on the Science assessment. Our school serves a large population of students that makeup this subgroup of English Language Learners (ELLs) and there is an evident language barrier that greatly impacts their academic success.

Measurable Outcome:
State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By May 2023, the students that makeup the English Language Learners (ELL) subgroup will increase their proficiency in ELA, Math, and Science by 5% as measured by the statewide assessments.

Monitoring:
Describe how this Area of Focus will be monitored for the desired outcome.

Student performance data will be monitored to ensure an increase in proficiency in ELA, Math, and Science. Quarterly data chats with teachers will be held as well as classroom walkthroughs that will be conducted to observe the fidelity of small group instruction and standards implementation to better meet the needs of the students within this subgroup.

Person responsible for monitoring outcome:

Catrice Duhart (catrice.duhart@browardschools.com)

Evidence-based Strategy:
Describe the evidence-based strategy being implemented for this Area of Focus.

The teacher will continue differentiated instruction in ELA, Math, and Science to meet the individual student needs. Small group instruction in ELA, Math, and Science will allow for exposure to grade level material and standards using Benchmark Advance along with the new math series enVision, respectively. Guided reading at the students instructional reading level will be conducted daily. Reflex Math will be used for Math Fluency along with small group instruction in math. ELL support will also provide ELL strategies in a small group setting to assist students with gaps in learning.

Rationale for Evidence-based Strategy:
Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

Many students that makeup the English Language Learners (ELL) subgroup need additional support in ELA, Math, and Science. This will be provided by small group instruction in ELA, Math, and Science by the classroom teacher. The ELL student will be provided additional support in a small group setting from our ELL support staff.

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

ELL Support staff will identify students for additional assistance in grades 3-5 and monitor progress in ELA, Math, and Science to determine continuing level of support by reviewing the student performance data and discussing progress of the individual student with the teacher.

Person**Responsible**

Clarice Johnston (clarice.johnston@browardschools.com)

ELL support will conduct small group lessons in ELA to assist the individual learner with gaps in learning as it pertains to reading. Classroom teachers will also meet with our Literacy Coach as needed to improve ELA practices in guided reading to meet the needs of the individual student.

Person**Responsible**

Amy Torres (amy.torres@browardschools.com)

Classroom teachers will meet with Math Coach as needed to improve Math practices in whole group and small group instruction to meet the needs of the individual students.

Person**Responsible**

Kara Sarcione Kerr (kara.sarcione@browardschools.com)

Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

Describe how the school addresses building a positive school culture and environment.

One of the newest initiatives that we highlight at North Andrews Gardens is our Social-Emotional Learning (SEL) plan. We build relationships with our students in many different ways. Our school counselors conduct small groups with students to address specific needs. Our entire school does mindfulness exercises each morning. We also plan school-wide events where families are invited to attend and spend time learning together.

Identify the stakeholders and their role in promoting a positive school culture and environment.

What has become most important to us at North Andrews Gardens Elementary is nurturing the social emotional side of our students to assist in feeding the academic side. We identify different groups in the school and the community to help promote the positive culture. Groups like our School Advisory Council (SAC) and School Advisory Forum (SAF) or our Parent Teacher Association (PTA) play a big role. We also reach out to parents often making sure that they understand how important their partnership with the school is for their child's success.
