## School Board Approval

N/A

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of $D$ or $F$. This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&I, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&l:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below $41 \%$.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.
The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part III: Planning for Improvement

What trends emerge across grade levels, subgroups and core content areas?
Math scores have decreased from the prior year.
What data components, based off progress monitoring and 2022 state assessments, demonstrate the greatest need for improvement?

Math
What were the contributing factors to this need for improvement? What new actions would need to be taken to address this need for improvement?

Student with excessive absences as a result of quarantine did not recieve direct instruction in the classroom. Attendance is mandatory and students with excessive absences will be contacted by the school counselor. Weekly reports are pulled and parent contact is made.

What data components, based off progress monitoring and 2022 state assessments, showed the most improvement?

## Science

What were the contributing factors to this improvement? What new actions did your school take in this area?

Teachers consistently provided data-driven instruction, and a science interventionist remediated the L25s on a weekly basis.

What strategies will need to be implemented in order to accelerate learning?
Teachers need to continue with benchmark-aligned instruction and monitor student progress with miniassessments with fidelity.

Based on the contributing factors and strategies identified to accelerate learning, describe the professional development opportunities that will be provided at the school to support teachers and leaders.

In order to maximize teacher instruction within the classroom, faculty attended B.E.S.T training in the summer of 2022 in preparation of the 2022-2023 school year. Additionally, all of the math teachers will attend multiple professional development workshops on iReady throughout the school year.

Provide a description of the additional services that will be implemented to ensure sustainability of improvement in the next year and beyond.

Adminstration will continue to provide teachers with profssional devlopment throughout the school year and utilize a math instructional coach to provide teachers with support within the classroom. Moreover, low-performing students will be provided with the opportunity to attend Saturday Academy and afterschool tutoring.

## Rationale:

Include a rationale that explains how it was identified as a critical need from the data reviewed.

## Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

## Evidence-based Strategy:

Describe the evidence-based strategy being implemented for this Area of Focus.
Rationale for Evidence-based Strategy: Explain the rationale for selecting this specific strategy. Describe the resources/criteria used for selecting this strategy.

After reviewing data results for the 2021-2022 school year, it was determined math scores need to improve within all subgroups.

To increase learning gains in the L25 population by at least $10 \%$ for the current 4th grade.

Teacher will conduct data chats with the students to review topic assessments. Leadership team will conduct data chats with the teacher to monitor student performance and provide support.
[no one identified]

Teacher will use topic-asseessments and standards mastery on iReady to monitor student progress on a weekly basis.

Programs used are research-baseded proven and aligned to state standards.

> RAISE
> The RAISE program established criteria for identifying schools for additional support. The criteria for the 2022-23 school year includes schools with students in grades Kindergarten through fifth, where 50 percent or more of its students, for any grade level, score below a level 3 on the most recent statewide English Language Arts (ELA) assessment.

#### Abstract

Area of Focus Description and Rationale Include a description of your Area of Focus (Instructional Practice specifically relating to Reading/ELA) for each grade below, how it affects student learning in literacy, and a rationale that explains how it was identified as a critical need from the data reviewed. Data that should be used to determine the critical need should include, at a minimum: - The percentage of students below Level 3 on the 2022 statewide, standardized ELA assessment. Identification criteria must include each grade that has 50 percent or more students scoring below level 3 in grades 3-5 on the statewide, standardized ELA assessment. - The percentage of students in kindergarten through grade 3, based on 2021-2022 end of year screening and progress monitoring data, who are not on track to score Level 3 or above on the statewide, standardized ELA assessment. - Other forms of data that should be considered: formative, progress monitoring and diagnostic assessment data.

## Grades K-2: Instructional Practice specifically relating to Reading/ELA

Implement differentiated instruction
To bridge learning gaps, we will provide data driven instruction utilizing I-Ready data
Students are receiving RTI instruction
Full time ELA/Reading coach will model best instructional strategies to improve overall student achievement

## Grades 3-5: Instructional Practice specifically relating to Reading/ELA

Implement differentiated instruction
To bridge learning gaps, we will provide data driven instruction utilizing I-Ready data Students are receiving RTI instruction
Full time ELA/Reading coach will model best instructional strategies to improve overall student achievement

## Measurable Outcomes:

State the specific measurable outcome the school plans to achieve for each grade below. This should be a data based, objective outcome. Include prior year data and a measurable outcome for each of the following:

- Each grade K-3, using the new coordinated screening and progress monitoring system, where 50 percent or more of the students are not on track to pass the statewide ELA assessment.
- Each grade 3-5 where 50 percent or more of its students scored below a level 3 on the most recent statewide, standardized ELA assessment and
- Grade 6 measurable outcomes may be included, as applicable.

## Grades K-2: Measureable Outcome(s)

The goal of AcadeMir Preparatory is to increase proficiency by a minimum of 5\%

## Grades 3-5: Measureable Outcome(s)

The goal of AcadeMir Preparatory is to increase proficiency by a minimum of 5\%

## Monitoring:

Describe how the school's Area(s) of Focus will be monitored for the desired outcomes. Include a description of how ongoing monitoring will take place with evaluating impact at the end of the year.

Benchmark assessments will be administered throughout the school year and administration will continuously review I-Ready data.
Administration will have data chats with teachers throughout the school year and teachers will have data chats with students. Also, data driven instruction will be given by teachers to students.

## Person responsible for monitoring outcome:

Select the person responsible for monitoring this outcome.

## Evidence-based Practices/Programs:

Describe the evidence-based practices/programs being implemented to achieve the measurable outcomes in each grade and describe how the identified practices/programs will be monitored. The term "evidencebased" means demonstrating a statistically significant effect on improving student outcomes or other relevant outcomes as provided in 20 U.S.C. Â§7801(21)(A)(i). Florida's definition limits evidence-based practices/programs to only those with strong, moderate or promising levels of evidence.

- Do the identified evidence-based practices/programs meet Florida's definition of evidence-based (strong, moderate or promising)?
- Do the evidence-based practices/programs align with the district's K-12 Comprehensive Evidencebased Reading Plan?
- Do the evidence-based practices/programs align to the B.E.S.T. ELA Standards?

AcadeMir Preparatory Academy will be using I-Ready to monitor the students academic progress throughout the school year.

## Rationale for Evidence-based Practices/Programs:

Explain the rationale for selecting the specific practices/programs. Describe the resources/criteria used for selecting the practices/programs.

- Do the evidence-based practices/programs address the identified need?
- Do the identified practices/programs show proven record of effectiveness for the target population?

I-Ready has been a program approved by the state to monitor students' academic progress.

## Action Steps to Implement:

List the action steps that will be taken to address the school's Area(s) of Focus. To address the area of focus, identify 2 to 3 action steps and explain in detail for each of the categories below:

- Literacy Leadership
- Literacy Coaching
- Assessment
- Professional Learning

## Positive Culture \& Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies that impact the school culture and environment. Stakeholder groups more proximal to the school include teachers, students and families of students, volunteers and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services and business partners.

## Describe how the school addresses building a positive school culture and environment.

AcadeMir Preparatory will continue to foster a positive school culture by fostering school-wide activities to promote a safe and healthy environment. The counselor will visit all grade levels throughout the school year to review and discuss the values of the month. Character education is important and teachers receive a training in the beginning of the year on the program implemented at the school-Positive Behavior System (PBS). The school will also continue to promote positive behave and encourage our students to be better scholars.

## Identify the stakeholders and their role in promoting a positive school culture and environment.

Administration, student services and teachers work together in promoting a safe, nurturing learning environment.
