School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Sabal Palm is a friendly, school-based community, where we foster positive relationships and provide educational excellence for the whole child in a productive and safe learning environment for every classroom, every student, every day.

Provide the school's vision statement.

Sabal Palm's vision is to inspire and prepare students for success at every level: elementary, middle, high school, college or a career, and life.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Graham, Linda	Principal	Lead and supervise the work of the instructional programs in a safe and productive learning environment, where all students and employees are valued respected.
Jones, Georgette	Assistant Principal	Assist with monitoring and supervising the implementation of the instructional program and safety of students.
Jacob, Sonya	Assistant Principal	Assist with monitoring and supervising the implementation of the instructional program and safety of students.
Malewicki, Christine	School Counselor	Serves as the LEA Designee for the Exceptional Student Program
Mondestin- hillamng@duvalschools.org, Georgine	School Counselor	Serves as guidance support for students who have experienced traumatic situations: emotional instability, divorce, death of a parent, self-harm, etc.
Gualano, Leonore	Teacher, K-12	serves as the math lead teacher
Kumer, Christine	Teacher, K-12	Serves as the Professional Development Facilitator and contact for new teachers
Nichols, Victoria	Teacher, K-12	serves as the reading lead teacher
Bell, Sherrie	Teacher, K-12	serves as the general education reading teacher for students with disabilities
Adams, Jamie	Teacher, K-12	Kindergarten teacher who supports in leading the academic focus and social well-being in primary grades.
Kelly, Terri	Teacher, ESE	Using her past experiences, she will brainstorm ideas to improve the school culture and promote the positive aspects of the school community.

Demographic Information

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Based on i-Ready midyear data, students demonstrated a slight decrease in proficiency in math from the previous year students. According to mid-year iReady data, the overall math proficiency was 31% compared to last year 33%. In addition, the lowest performing quartile students demonstrated a decrease in proficiency from 26% last year to 23%this year. This indicates that there is a continuous need to differentiate instruction based on formative and summative assessment to maximize student achievement.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math Lowest 25th Percentile showed the greatest decline. Small group instruction was not consistent for struggling learners, and learning tasks were not always grade level appropriate.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Sabal Palm data components are above the state average.

Which data component showed the most improvement? What new actions did your school take in this area?

Based on the I-Ready midyear data, students demonstrated the most improvement with reading proficiency, with an increase from 31% last year to 38% this year. Contributing factors include identifying students deficiencies and rendering small group instruction. In addition, each administrator had an accountability list and pulled students 3 times a week for intensive support. Our final contributing factor was ensuring all students received differentiated, rigorous, and grade level standard based instruction to increase student achievement.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

One area of most concern on the EWS data is attendance. There are a number of excessive tardies, early check -out, and absences that negatively impact student achievement. We will brainstorm ideas to increase student attendance.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Teachers will fully and skillfully implement standard-based instruction
- 2. Provide differentiated data-based instruction
- 3. Utilize formative data to monitor student progress and adjust instruction
- 4. Utilize common assessment data to identify students that require additional instruction
- 5. Teachers will utilize effective lessons aligned to standards to meet student needs

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of

Math Lowest Performing Quartile

Focus
Description
and

Rationale:

The last FSA 2019, students in the lowest 25% percentile did not meet the expected learning gains on the math FSA. Student learning gains will increase with targeted interventions implemented by teachers, VE support facilitators, and administrators.

Measurable Outcome:

Learning gains will increase from 55% to 65% on the 2021 math FSA

Person responsible

monitoring outcome:

Evidencebased
Stratogy:

Math Reasoning
Math Fluency

Strategy: Rationale

Evidence-

based

for

Reasoning- Teachers need an instructional strategy to encourage students to be more savvy interpreters of graphics in applied math problems. One idea is to have them apply a reading comprehension (word problems) strategy. Question-Answer Relationships (QARs) as a tool for analyzing math graphic *Continue building Fluency - To promote mastery of

Strategy: math facts through incremental rehearsal

Action Steps to Implement

- 1. Using common assessments and i-Ready data, teachers will plan and provide targeted small group instruction for all students.
- 2. Using the MTSS Model, additional support for Tier 3 students will be provided by teachers at least 3 times

per week.

- 3. Teachers will create differentiated centers to address the varying levels of students' academic needs.
- 4. Students will be provided an opportunity to attend before and after school tutoring (at least twice a week)

for remediation and enrichment of math concepts and standards.

- 5. During common planning, we will use the Equip rubric to calibrate and ensure students' work meets the complexity of the standards.
- 6. Set high standards for student and work with them to achieve those goals.

Person Responsible

Georgette Jones (jonesg1@duvalschools.org)

#2. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale:

Reading Proficiency and Reading Lowest Performing Quartile

Continue building on the work put forth by teachers and students, we will implement a common approach to literacy. The goal is to decrease the deficiencies in our data by providing teachers with professional development on best practices for students and Close Reading strategies when dissecting complex text. All teachers will facilitate opportunities for all students to select and use strategies for Close Reading, rigorous instruction and responding to text dependent questions.

Measurable Outcome:

Using Close Reading strategies, the lowest performing quartile, reading proficiency will increase by 5%, from 55% to 60% on the 2021 FSA reading and proficiency will increase from 72% to 77%.

Person responsible

Georgette Jones (jonesg1@duvalschools.org) for

monitoring outcome:

Evidence-

The implementation of Close Reading in the classroom with different groups of students has shown that when students study and analyze texts closely reflect rigor and purposeful

based Strategy:

learning. Rationale

for Evidencebased

Close reading provides students with the knowledge and skills necessary to be career and or college ready. Close reading sets a foundation for developing critical thinking skills. It shows a deeper connection and understanding to the written word.

Strategy:

Action Steps to Implement

- 1. To provide weekly common planning on Close Reading strategies
- 2. To conduct focus walks for evidence of implementation
- 3. At weekly PLC meeting, grade level team members will bring samples to show evidence that the steps of

the Close Reading process are in use

- 4. The leadership team will collaborate to analyze data and tier teachers for targeted coaching support
- 5. The leadership team will monitor lesson plans to ensure inclusion of Close Reading instruction
- 6. Set high standards for student and work with them to achieve those goals.

#3. Leadership specifically relating to Instructional Leadership Team

Area of Focus Description and Rationale:

In the mot recent 5Essentials Survey, Sabal Palm rated as "Moderately Organized" with improvements needed in the area of Effective Leaders. As a team, we will focus on building a more positive school culture in instructional leadership, teacher influence, and teacher-principal trust.

Measurable Outcome: With the implementation of Lastinger protocols and collaboration, the rating for Effective Leadership of the 5 Essentials will increase from 35-Weak to a rating of at least 45 Neutral.

based

Promote team-building activities (Lastinger) to boost morale and trust. This will improve communication among staff and administrators

Strategy: Rationale for

Evidencebased Strategy: Lastinger is research- based protocols that promote high quality instruction, which work effectively with peers to improve instructional practice and learning. 5Essentials.

sed effectively with peers to improve instructional practice and learning, bessential rategy:

Action Steps to Implement

- 1. Conduct effective coaching conversations with colleagues
- 2. Create data displays based on a teacher-selected instructional focus.
- 3. Provide suggestions and encouragement to inspire teachers and share attainable methods.
- 4. Engage teachers in professional learning that takes into consideration the criteria of high quality professional development (modeling, book studies, etc.)

Person Responsible

Georgette Jones (jonesg1@duvalschools.org)

- 1. Utilize district resources to implement cultural competence training with all staff members.
- 2. Assist teachers in setting higher goals for quality instruction.
- 3. Conduct regular check-ins and informal conversations to monitor progress and provide immediate feedback.
- 4. Provide incentives or "shout-outs" to recognize teachers, frequently.

#4. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale:

A focus will be placed on aligning grade appropriate tasks with standards. Administrators will work closely with teachers to analyze student data and identify learning activities that support the state standards. Based on the need to provide deeper and more rigorous instruction, . Past data have shown that when teachers demonstrate solid knowledge of grade level content and standards, student performance improves as they become actively engage in their learning and apply knowledge.

Measurable Outcome:

At least 70% of students in grades 3-5 will demonstrate mastery of grade level standards in reading and math, as evidence by their performance on grade-appropriate tasks.

monitoring outcome:

Evidence-Implementing Best Teaching Practices and rigorous instruction to teach grade appropriate standards.

Strategy: Rationale

based

for According to the calibration on the Standards Based Dashboard, some learning tasks were Evidencesimple and at times, did not align with grade level standards.

based Strategy:

Action Steps to Implement

- 1. Teachers will analyze and use student data to create grade level learning tasks that reflect rigor.
- 2. Teachers will participate in weekly common planning sessions to plan standards based instruction and assessments with grade level/ departmental teams.
- 3. Administrators will conduct instructional rounds using the Standards Based Walk-Through Tool to calibrate within the first few weeks of school and thereafter, use the results to help teachers plan prescriptive professional development.
- 4. Encourage teachers to participate in proessional development opportunities to gain a thorough understanding of the curriculum and standards to guide their teaching and deliver effective instruction.
- 5. Administrators will empower teacher leaders to facilitate training for their colleagues on the implementation of Standards-based instruction.

#5. Instructional Practice specifically relating to Collaborative Planning

Area of Focus Description and Rationale:

During common planning, early dismissal training and grade level meetings, administration and school leadership teams will focus on improving collaboration among teachers, which is one of the 5 Essentials: Collaborative Teachers. This area was rated as "weak". Teachers will participate in a variety of shared collaboration settings that will promote professional growth and increase student success. Teachers will use a variety of resources and learning tools to promote effective teaching and learning through collaborative practices, collective responsibility, and teacher influence.

Measurable Outcome:

The rating scale for "Collaborative Teachers" (1 of the 5Essentials addressed) will move

from 22 (weak) to 49 (neutral).

monitoring outcome:

Evidence-

The 5Essentials based

Strategy:

Rationale

for In reviewing the 5Essentials, teacher emphasis on student development, school improvement, and professional growth indicate a positive difference for Collective Evidencebased Responsibility.

Strategy:

Action Steps to Implement

Teachers engage in shared collaboration where teachers observe each other's practices and work with their assigned grade levels and administrators to disaggregated data, review student work, develop instructional strategies and plan purposeful instruction for all students.

Person Responsible

Georgette Jones (jonesg1@duvalschools.org)

Work with the Leadership Teams to create several opportunities for "Team Building" activities during common planning, early release training, and faculty meetings.

Person

Linda Graham (grahaml@duvalschools.org) Responsible

Collaborate with the Leadership Teams to determine ways to increase the frequency of school-wide motivational activities that recognize students who adhere to the Student Code of Conduct guidelines.

Person

Responsible

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Restructure the PBIS school plan to gain a better understanding of managing student discipline and implementing Restorative Justice more effective. This will be a team effort from all stakeholders, which will build stronger more trusting and respectful relationships among staff, students, and school administrators. It will also improve student-teacher relationships in all areas of the school, classroom and common areas.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Based on the 2020 5Essentials data, Sabal Palm has created a positive and productive school environment where students thrive with the support and involvement of all stakeholders: parents, students, staff and community members. All stakeholders play an important role in educating our youth, and their involvement makes a positive difference to ensure student success. Communication is key when involving stakeholders.

At Sabal Palm Elementary, we use communicate with our parents through various channels: school newsletters, School Messenger (Automated Phone messages), school website, translation of forms/letters and other essential forms of communication in parent's native language, provide interpreters for parent meetings to ensure that the parent understands and is able to respond in an effective manner.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
