School Board Approval

This plan was approved by the Broward County School Board on 10/17/2023.

SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s. 1008.22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

Additional Target Support and Improvement (ATSI)

A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below 41%.

Targeted Support and Improvement (TSI)

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years.

Comprehensive Support and Improvement (CSI)

A school can be identified as CSI in any of the following four ways:

1. Have an overall Federal Index below 41%;
2. Have a graduation rate at or below 67%;
3. Have a school grade of D or F; or
4. Have a Federal Index below 41% in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidence-based interventions, is based on a school-level needs assessment, and identifies resource inequities to be

addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), <https://www.floridacims.org>, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

SIP Sections	Title I Schoolwide Program	Charter Schools
I-A: School Mission/Vision		6A-1.099827(4)(a)(1)

III-C: Other SI Priorities		6A-1.099827(4)(a)(5-9)
VI: Title I Requirements	ESSA 1114(b)(2, 4-5), (7)(A)(iii)(I-V)-(B) ESSA 1116(b-g)	

Note: Charter schools that are also Title I must comply with the requirements in both columns.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

I. School Information

School Mission and Vision

Provide the school's mission statement.

The Quest Center's mission is to provide an environment where all children can realize their highest potential through the joint commitment of home, school, and community.

Provide the school's vision statement.

The Quest Center's vision is to educate today's students to succeed in tomorrow's world.

The Quest Center provides data-driven instruction to students with severe and profound disabilities in the most restrictive environment. Students receive educational services under the IDEA eligibilities for autism spectrum disorder and Intellectual Disability. The Quest Center's priority is to meet the needs of all students through their individualized education and behavior plans. All stakeholders take part in this process to ensure that the students have the opportunity to reach their highest potential

Stakeholder Involvement and SIP Development

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

The stakeholders within the school are involved in the SIP development through SIP brainstorming meetings, during the month of May of the prior school year. The students' parents give their input through the PTO and the president of the PTO who is a member of the SIP development and implementation committee, will share it with the committee. The same process applies to the business and community leaders who are part of the school advisory committee.

SIP Monitoring

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

The SIP development and implementation committee meets quarterly for revisions or modifications if necessary, and S.I.P. plan's latest updates.

Grade Level Data Review– State Assessments (pre-populated)

The data are raw data and include ALL students who tested at the school. This is not school grade data. The percentages shown here represent ALL students who received a score of 3 or higher on the statewide assessments.

An asterisk (*) in any cell indicates the data has been suppressed due to fewer than 10 students tested, or all tested students scoring the same.

III. Planning for Improvement

Data Analysis/Reflection

Answer the following reflection prompts after examining any/all relevant school data sources.

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

After reviewing our school's ESSA data, the three subgroups were identified as low performers which are the SWD (Students With Disabilities), African American, and the students receiving free or reduced lunch. These three subgroups are below 31% for 3 consecutive years. Based on The Quest Center 2023 FSAA, given to students in grades 3-10, 65% of our students scored a level 2 , 27.5 % a level 1, and 7.5 % of our students scored a level 3. On the Mathematics Florida Standards Alternate Assessment, given to students in grades 3-10, 45% of our students scored a level 1, 43% scored a level 2, 8 % a level 3 and 2.7% scored a level 4.

These students have significant cognitive disabilities that impact their ability to learn at a commensurate with their typical peers. A considerable percentage of these students have medical conditions that impair their ability to consistently retain and respond to verbal, gestural, and physical prompts

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The progress monitoring data and the 2023 state assessment data show that the greatest need for improvement is for students with disabilities at all grade levels and in the area of mathematics. Students in the lowest quartile in ELA and Math are also an area for improvement. All of our students have severe cognitive disabilities and intellectual disabilities. They receive instruction at the Access Points and are on a modified curriculum.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The progress monitoring data and the 2023 state assessment data show that the greatest need for improvement is for students with disabilities and English Language Learners at all grade levels and content areas. Students in the lowest quartile in ELA and Math are also an area for improvement. All of our students have severe cognitive disabilities and intellectual disabilities. They receive instruction at the Access Points and are on a modified curriculum.

Which data component showed the most improvement? What new actions did your school take in this area?

The greatest need for improvement areas is ELA and math for elementary and high school. The data component that showed our Students with Disabilities the most improvement based on 2023 state assessments were our sixth - ninth-grade students in Math, increasing 11% from the 2022-2023 FSAA Assessment. the implementation cycle data assessments and individual face-to-face meetings between teachers, support staff, and administration contributed to the emphasized focus on the Access Points Standards. Team PLCs addressed the unique challenges, and peer collaboration of best practices contribute to students' improved growth.

Reflecting on the EWS data from Part I, identify one or two potential areas of concern.

NOTE: Only complete this section for the data for grades 1-8. The Early Warning Systems section and this corresponding question are no longer required to be completed for grades 9-12 for the State SIP, per the Florida Department of Education.

The 2023 EWS data from Part I shows less than 50% percent of students making a learning gain in both ELA and math.

Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.

1. Students' math performance
2. Students' ELA performance

3. Students' transition job training
4. Students' engagement
5. Students' communication abilities

Area of Focus

(Identified key Area of Focus that addresses the school's highest priority based on any/all relevant data sources)

#1. ESSA Subgroup specifically relating to Students with Disabilities**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

The data component that showed our Students with Disabilities the most improvement based on 2023 state assessments were our sixth - ninth-grade students in Math and math increasing 10% from the 2022-2023 FSAA Assessment. Based on our 2023 FSAA data, ELA and Math scored lower than the state average.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By June 2024, per the Math FAST, math and ELA achievement among students with disabilities will increase by 10% as a result of implementing high-yield strategies for ESE and allowing students opportunities to apply Math standards in real-world situations.

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

Describe how this Area of Focus will be monitored for the desired outcome

This area of focus will be monitored through effective support for teachers, and the use of evidence-based practices, strategies, and interventions. in the classrooms. The formative assessments, common assessments, leadership team walkthroughs, and data-analysis chats are the tools to analyze and reflect on the data.

Person responsible for monitoring outcome:

Celeste Humphrey (celeste.humphrey@browardschools.com)

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

The evidence-based interventions being implemented: TouchMath, visualizing and verbalizing, number sense, SMILE, and STAR. The evidenced-based targeted strategies will be various flexible grouping that provides students opportunities to use them during instructional activities in the classroom; Universal design of learning, OTR (Opportunity To Respond), and Concrete Representational and Abstract.

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

These interventions are district approved and they are evidence-based for SWD. They are proven to be effective for SWD to improve their learning and engagement.

Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)

Tier 1 - Strong Evidence

Will this evidence-based intervention be funded with UniSIG?

No

Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.

Teachers will be trained on these evidence-based interventions and they will implement them using evidenced-based strategies such as flexible grouping that provides students opportunities to apply strategies such as OTR-Opportunity To Respond, and UDL,.

#2. Positive Culture and Environment specifically relating to Other**Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed.
One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

The SWD's parents are not visible enough in the school events.

Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

By May 2024, the parents' presence and involvement during school events will increase by 20%

Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.

The president of the PTO and the leadership team will plan events related to the students' performances, and well-being and invite parents and families to attend. The team will send save the dates and reminders

Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Communication between school and home

Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.

"In addition to being less likely to have emotional or behavioral issues in class, we also found that students with engaged parents ended the year with better social skills and were able to focus on tasks easier," Tyler Smith, a senior research associate in the College of Education at the University of Missouri. "This means that when parents are more involved at school, the benefits to their child grow over time."

CSI, TSI and ATSI Resource Review

Describe the process to review school improvement funding allocations and ensure resources are allocated based on needs. This section must be completed if the school is identified as ATSI, TSI or CSI in addition to completing an Area(s) of Focus identifying interventions and activities within the SIP (ESSA 1111(d)(1)(B)(4) and (d)(2)(C)).

Through impactful monthly collaboration with family and district stakeholders, common formative assessments and summative assessments related to academics and behavior are reviewed during behavior chats and student progression chats. During monthly "chat and chews" District Transition specialist along with community agencies assist families with essential information related to community resources and services for students with disabilities' transition from school to community. Information shared during behavior chats, student progression chats and community services "chat and chews" is reviewed and shared during the monthly School Advisory Council (SAC) Meetings. During the monthly SAC Meetings, current accountability funds are reviewed and depending on identified needs in the areas of academics, behavior, and/or transition the SAC committee tiers needs based on data trends provided from behavior chats, student progression chats and community services "chat and chews". School improvement allocations are reviewed during the SAC Budget Presentation and the first SAC meeting of the year. The accountability balance is reviewed at each meeting.

Title I Requirements

Schoolwide Program Plan (SWP) Requirements

This section must be completed if the school is implementing a Title I, Part A SWP and opts to use the SIP to satisfy the requirements of the SWP plan, as outlined in the ESSA, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Provide the methods for dissemination of this SIP, UniSIG budget and SWP to stakeholders (e.g., students, families, school staff and leadership and local businesses and organizations). Please articulate a plan or protocol for how this SIP and progress will be shared and disseminated and to the extent practicable, provided in a language a parent can understand. (ESSA 1114(b)(4))

List the school's webpage* where the SIP is made publicly available.

Describe how the school plans to build positive relationships with parents, families and other community stakeholders to fulfill the school's mission, support the needs of students and keep parents informed of their child's progress.

List the school's webpage* where the school's Family Engagement Plan is made publicly available. (ESSA 1116(b-g))

Send flyers home to inform the parents
Send invites for school events
During OpenHouse

Describe how the school plans to strengthen the academic program in the school, increase the amount and quality of learning time and help provide an enriched and accelerated curriculum. Include the Area of Focus if addressed in Part III of the SIP. (ESSA 1114(b)(7)(ii))

Teachers professional development
Implementation of the interventions with fidelity
Have the support facilitator and enrichment and remediation teacher for targeted students.
Effective new teacher support
Supply teachers with the tools they need to deliver an effective instruction

If appropriate and applicable, describe how this plan is developed in coordination and integration with other Federal, State, and local services, resources and programs, such as programs supported under ESSA, violence prevention programs, nutrition programs, housing programs, Head Start programs, adult education programs, career and technical education programs, and schools implementing CSI or TSI activities under section 1111(d). (ESSA 1114(b)(5))

The Quest is not Title I. The above information is what we do to involve and educate families and other stakeholders.

Optional Component(s) of the Schoolwide Program Plan

Include descriptions for any additional strategies that will be incorporated into the plan.

Describe how the school ensures counseling, school-based mental health services, specialized support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas. (ESSA 1114(b)(7)(iii)(I))

The use of the district-wide SEL curriculum : Rethink available on Canvas for all teachers.
The Youth mental health training for all staff members
The social clubs in school
The social events and celebrations.
The implementation of the school counseling plan.
The specialized support services are available and used when necessary

Describe the preparation for and awareness of postsecondary opportunities and the workforce, which may include career and technical education programs and broadening secondary school students' access to coursework to earn postsecondary credit while still in high school. (ESSA 1114(b)(7)(iii)(II))

The job coach and the transition coach implement the Transition job exploration schedule with teachers and students.
Communicate with the community stakeholders and the community business owner about job training availability for the students.

Describe the implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act. 20 U.S.C. 1400 et seq. and ESSA 1114(b)(7)(iii)(III).
