## SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s .1008 .22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

## Additional Target Support and Improvement (ATSI)

A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below $41 \%$.

## Targeted Support and Improvement (TSI)

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32\% for three consecutive years.

## Comprehensive Support and Improvement (CSI)

A school can be identified as CSI in any of the following four ways:

1. Have an overall Federal Index below $41 \%$;
2. Have a graduation rate at or below $67 \%$;
3. Have a school grade of D or F; or
4. Have a Federal Index below $41 \%$ in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidencebased interventions, is based on a school-level needs assessment, and identifies resource inequities to be addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and

Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), https://www.floridacims.org, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

| SIP Sections | Title I Schoolwide Program | Charter Schools |
| :---: | :---: | :---: |
| I-A: School Mission/Vision |  | 6A-1.099827(4)(a)(1) |
| I-B-C: School Leadership, Stakeholder Involvement \& SIP Monitoring | ESSA 1114(b)(2-3) |  |

| III-A: Data Analysis/Reflection | ESSA 1114(b)(6) | 6A-1.099827(4)(a)(4) |
| III-B: Area(s) of Focus | ESSA 1114(b)(7)(A)(i-iii) |  |
| III-C: Other SI Priorities |  | 6A-1.099827(4)(a)(5-9) |
| VI: Title I Requirements | $\begin{aligned} & \text { ESSA 1114(b)(2, 4-5), } \\ & \text { (7)(A)(iii)(I-V)-(B) } \\ & \text { ESSA 1116(b-g) } \\ & \hline \end{aligned}$ |  |

Note: Charter schools that are also Title I must comply with the requirements in both columns.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## I. School Information

## School Mission and Vision

Provide the school's mission statement.
The mission of Lakeview Fundamental is to engage, educate and empower every student every day.
Provide the school's vision statement.
100\% Student Success
School Leadership Team, Stakeholder Involvement and SIP Monitoring

## School Leadership Team

For each member of the school leadership team, select the employee name and email address from the dropdown. Identify the position title and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.:
Name Position Title Job Duties and Responsibilities

Ensuring that academic policies and curriculum are followed, Developing and tracking benchmarks for measuring institutional success. Helping teachers maximize their teaching potential
Meeting and listening to concerns of students on a regular basis
Moses, Encouraging, guiding and assisting student leaders and teachers
Tekoa
Meeting with parents and administrators on a regular basis for problem resolution
Enforcing discipline when necessary
Providing an atmosphere free of any bias in whichstudents can achieve their maximum potential
provide assistance and professional growth to teachers,
Administrative Support including training and mentoring in the use of materials, assessment strategies and best practices to improve student achievement.

Wood, Teacher, Serves as Administrator on duty in the absence of the Principal, Facilitates Jason K-12 Safety Meetings, Interviewing

## Stakeholder Involvement and SIP Development

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

School leadership met with teachers, staff, and a PTA representative to survey the current state of the school and provide their input in the development of the 23/24 SIP.

## SIP Monitoring

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

The SIP will be regularly monitored for effective implementation and impact on increasing student achievement through the weekly SBLT, bi-weekly data chats, monthly leadership walks/observational rounds, and weekly planning and professional development sessions. The plan will be revised as information is gathered through the monitoring cycles.

## Grade Level Data Review- State Assessments (pre-populated)

The data are raw data and include ALL students who tested at the school. This is not school grade data. The percentages shown here represent ALL students who received a score of 3 or higher on the statewide assessments.

An asterisk (*) in any cell indicates the data has been suppressed due to fewer than 10 students tested, or all tested students scoring the same.

## III. Planning for Improvement

## Data Analysis/Reflection

Answer the following reflection prompts after examining any/all relevant school data sources.

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Science showed the lowest performance of $55 \%$. The factors that contributed to these results were limited hands-on learning experiences to build science knowledge and a strong focus on science vocabulary.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA showed a decrease in performance from 68\% to 64\% and Mathematics showed a decrease in performance from $63 \%$ to $60 \%$. The factors that contributed to this decline was limited lesson study and teacher clarity in the new benchmarks, limited student-centered instruction, and limited posing of purposeful questions to assess student thinking.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component that had the greatest gap when compared to the state average was the area of Mathematics. The factors that contributed to this gap was a limited use of mathematics materials to deepen student understanding and posing purposeful questions to strengthen scholar discourse.

Which data component showed the most improvement? What new actions did your school take in this area?

There was not a data component that showed improvement this year, however the science performance data did remain consistent to previous years.

Reflecting on the EWS data from Part I, identify one or two potential areas of concern.
Our current 5th grade cohort is composed of 10 scholars who scored a level 1 in Mathematics.
Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.
1.Collaborative Planning and professional development to participate in lesson study, planning purposeful questions, high yield instructional strategies, and methods to increase student engagement.
2. Bi-weekly data chats, using data and student work samples to drive instruction and plan for differentiation.
3. Leadership walks and instructional rounds to provide feedback to improve practice on strategies provided in collaborative planning and professional development.

Area of Focus
(Identified key Area of Focus that addresses the school's highest priority based on any/all relevant data sources)

## \#1. Instructional Practice specifically relating to Student Engagement

## Area of Focus Description and Rationale:

Include a rationale that explains how it was identified as a crucial need from the data reviewed.
One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.
The area of improving instructional practice related to student engagement was identified as a result of the 2022/2023 FAST data. Only 60\% of scholars scored a 3 or above in Mathematics, $64 \%$ in ELA, and 55\% in Science.

## Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.
Proficiency in Mathematics will increase 10\% from 60\% to 70\%.
Proficiency in ELA will increase 9\% from 64\% to 75\%.
Proficiency in Science will increase 10\% from $55 \%$ to $65 \%$.

## Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.
Monitored through weekly leadership walkthroughs and administrative walkthroughs
Monitored through formative assessments and student work analysis
Monitored through the use of the MTR Coaching Tool

## Person responsible for monitoring outcome:

Tekoa Moses (mosest@pcsb.org)

## Evidence-based Intervention:

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)
Use and connect mathematical representations. Effective teaching of mathematics engages students in making connections among mathematical representations to deepen understanding of mathematics concepts and procedures and as tools for problem solving.

Facilitate meaningful mathematical discourse. Effective teaching of mathematics facilitates discourse among students to build shared understanding of mathematical ideas by analyzing and comparing student approaches and arguments.

Pose purposeful questions. Effective teaching of ELA, Mathematics, and Science uses purposeful questions to assess and advance students' reasoning and sense making about important ideas and relationships.

During Science collaborative planning that occurs within school hours or after-school planning sessions, make strategic decisions about implementation of the curriculum to maximize impact on student learning, including, but not limited to common planning, materials management, and use of collaborative structures for high-level engagement tasks.

Ensure professional development is content-focused, teacher and student-focused, instructionally relevant, and actionable.

Elicit and use evidence of student thinking. Effective teaching of mathematics uses evidence of student thinking to assess progress toward mathematical understanding and to adjust instruction continually in ways that support and extend learning.

## Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.
The evidence-based strategies are from NCTM's landmark publication Principles to Actions, which connects research with practice. This resources offers guidance to teachers, coaches, administrators, and parents.

Classroom discussion is a method of teaching, that involves the entire class in a discussion. The teacher stops lecturing and students get together as a class to discuss an important issue. Classroom discussion allows students to improve communication skills by voicing their opinions and thoughts. Teachers also benefit from classroom discussion as it allows them to see if students have learnt the concepts that are being taught. Moreover, a classroom discussion creates an environment where everyone learns from each other.

Employ instructional practices to motivate and deepen student engagement including, but not limited to positive expectations for success; novel tasks or other approaches to stimulate curiosity; meaningful tasks related to student interests \& cultural backgrounds; opportunities for students to ask their own questions, set their own goals, and make their own choices.

## Tier of Evidence-based Intervention

(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)
Tier 1 - Strong Evidence

## Will this evidence-based intervention be funded with UniSIG?

## No

## Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
Employ instructional practices and routines that promote student-centered learning (Higher-Order Questioning, Pinellas Problem Solving Routine, Play-Explore-Investigate (PEI) Routine, Number Sense Making Routines, Collaborative structures, High-quality feedback and opportunities to use that feedback).
Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: January 2024
Ensure instructional supports are in place for all students during core instruction and intervention, based on data, including supports for students with exceptional needs, English Language supports, as well as extensions/more advanced tasks for students above benchmark in Mathematics, ELA, and Science.
Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: October 2023
Leadership Team and classroom teachers to engage in observational rounds and leadership walks.
Person Responsible: Sara Koch (kochsa@pcsb.org)
By When: August 2023- March 2024
Utilize the MTR Coaching tool to provide feedback to individual teachers as well as communicate and highlight evidence-based practices that are impacting student achievement with the entire staff.
Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: March 2024
Utilize multiple forms of formative assessment and use the District Data PLC Protocol to game plan to utilize differentiated resources to inform future instruction.

Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: To begin by October 2023

## \#2. Positive Culture and Environment specifically relating to Other

## Area of Focus Description and Rationale:

Include a rationale that explains how it was identified as a crucial need from the data reviewed.
One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.
Support academic growth of all learners with regards to B.E.S.T Standards and action plan for scaffolded support using collaborative structures and organizational systems.

## Measurable Outcome:

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.
Lakeview Fundamental scholars will increase attendance physically by $5 \%$ as measured by the 2023-2024 daily average attendance rate.

Lakeview Fundamental scholars will show a decrease in discipline infractions by 5\% monthly as measured by FOCUS discipline data and discipline infraction data.

## Monitoring:

Describe how this Area of Focus will be monitored for the desired outcome.
Bi-weekly CST Meetings
SBLT
Walkthroughs

## Person responsible for monitoring outcome:

Tekoa Moses (mosest@pcsb.org)

## Evidence-based Intervention: <br> Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Implement and monitor for the routine use of collaborative structures and provide students opportunities to work collaboratively in activities such as Socratic Seminar, Philosophical Chairs, and Collaborative Study.

## Rationale for Evidence-based Intervention:

Explain the rationale for selecting this specific strategy.
Scholar achievement increases as student engagement increases as a result of effective collaborative structures.
Tier of Evidence-based Intervention
(Schools that use UniSIG funds for an evidence-based intervention must meet the top three levels of evidence as defined by ESSA section 8101(21)(A).)
Tier 1 - Strong Evidence

## Will this evidence-based intervention be funded with UniSIG?

## No

## Action Steps to Implement

List the action steps that will be taken as part of this strategy to address the Area of Focus. Identify the person responsible for monitoring each step.
Implement and monitor scaffolded supports, including modifications and accommodations, for all students who are struggling with academic concepts, even at high levels.
Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: March 2024

Implement goal setting opportunities where students regularly and visibly participate in setting their own goals, monitoring their academic progress through the year, revising their goals based on data and celebrating successes.
Person Responsible: Tekoa Moses (mosest@pcsb.org)
By When: November 2023

## CSI, TSI and ATSI Resource Review

Describe the process to review school improvement funding allocations and ensure resources are allocated based on needs. This section must be completed if the school is identified as ATSI, TSI or CSI in addition to completing an Area(s) of Focus identifying interventions and activities within the SIP (ESSA 1111(d)(1)(B)(4) and (d)(2)(C).

The process used to review school improvement funding will be based on a problem solving cycle where we research and survey to identify current needs, plan for improvement, utilize available resources, monitor, and repeat. The School based Leadership Team will monitor the progression of this cycle on a quarterly basis.
