### SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s. 1008.22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

#### Additional Target Support and Improvement (ATSI)

A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below 41%.

#### Targeted Support and Improvement (TSI)

A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years.

#### Comprehensive Support and Improvement (CSI)

A school can be identified as CSI in any of the following four ways:

1. Have an overall Federal Index below 41%;
2. Have a graduation rate at or below 67%;
3. Have a school grade of D or F; or
4. Have a Federal Index below 41% in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidence-based interventions, is based on a school-level needs assessment, and identifies resource inequities to be addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and

Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), <https://www.floridacims.org>, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

SIP Sections	Title I Schoolwide Program	Charter Schools
I-A: School Mission/Vision		6A-1.099827(4)(a)(1)
I-B-C: School Leadership, Stakeholder Involvement & SIP Monitoring	ESSA 1114(b)(2-3)

VI: Title I Requirements	ESSA 1114(b)(2, 4-5), (7)(A)(iii)(I-V)-(B) ESSA 1116(b-g)	

Note: Charter schools that are also Title I must comply with the requirements in both columns.

## **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

**Stakeholder Involvement and SIP Development**

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

In June all staff, parents, board member, and community stakeholders were invited to a Data Summit at DMCS to review academic, culture, and financial data for the school. On June 15th the review was conducted and there was an input session to find out what stakeholders felt were working and what areas needed to be address by the '23-'24 SIP and Strategic Plan.

**SIP Monitoring**

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

The SIP will be monitored during Quarterly EESAC meetings after each administration of Stakeholder Surveys, NWEA MAP Growth, NWEA MAP Reading Fluency, and STAR/FAST Assessments. Based on the data, observations, and input at those meeting the plan will be evaluated to determine if can changes are needed.

### III. Planning for Improvement

**Data Analysis/Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources.

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

Student achievement according to the FAST assessment was lowest in 3rd and 5th Grade Reading and 5th Grade Math. Contributing factors in 3rd grade was teacher turnover, many students entering 3rd grade below expectations for reading due to lack of Foundational Reading skills and lack of implementation of a high quality Reading Intervention Plan. 5th Grade Math increased from the year before but scholars still performed significantly below the other grade levels. In 5th Grade, teachers struggled to motivate scholars, protect instructional time, and provide high quality instruction due to

turnover of teachers. Science achievement continues to be low with only 35% of scholars meeting the state expectations for mastery.

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

The greatest decline was in 5th Grade Math declined from 76% of scholars being on grade level in fourth grade to only 45% of them demonstrating grade level mastery by the end of 5th Grade. The factors again were teacher turnover, lack of motivation of scholars, and lack of use of effective behavioral, and instructional strategies.

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

The areas that had the greatest gap compared to the state averages were in the following areas:

5th Grade Reading (School-39%, State-54%)

5th Grade Math (School-45%, State- 55%)

5th Grade Science (School-35%, State- 51%)

Again, the factors were teacher turnover, lack of motivation of scholars, and lack of use of effective behavioral ,and instructional strategies.

**Which data component showed the most improvement? What new actions did your school take in this area?**

The most improvement was observed in ELA:

3rd Grade 2022 was 43% and 4th Grade 2023 was 57%

The most improvement was observed in Math:

3rd Grade 2022 was 53% and 4th Grade 2023 was 67%

5th Grade 2022 was 39% and 6th Grade 2023 was 75%

In both 4th and 6th Grade there were experienced teachers who had excellent student relationships, classroom behavior, strong instructional skills, and deep understanding of the standards.

**Reflecting on the EWS data from Part I, identify one or two potential areas of concern.**

Enrollment and overall 5th grade student performance.

**Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.**

- 1.) High quality K-2 Reading Instruction- Instructional focus on foundational skills using the Science of Reading to guide teacher planning, instruction, practice. For 3-5 work on providing scholars with Tier 2 and Tier 3 instruction with differentiated opportunities, extended day time, after school and on Saturdays support. Implement a School-wide rigorous vocabulary program using 6 Steps to Building Academic Vocabulary.
- 2.) Support the teachers who struggled with student motivation, classroom management, and use of high reliability instructional strategies through consistent feedback, coaching, modeling, and collaboration.
- 3.) Consistent and effective teaching of Science in grade K-5 using the 5 E's method using Elevate.
- 4.) Improve culture for teachers and parents. Promoting local decision making and an open door policy. For teacher provide extended time for professional development, and respect and value their time. Provide parents with increased parent engagement opportunities, and establish an open door policy with school administrators.

**Area of Focus**

(Identified key Area of Focus that addresses the school's highest priority based on any/all relevant data sources)

**#1. Positive Culture and Environment specifically relating to Early Warning System****Area of Focus Description and Rationale:**

Include a rationale that explains how it was identified as a crucial need from the data reviewed. One Area of Focus must be positive culture and environment. If identified for ATSI or TSI, each identified low-performing subgroup must be addressed.

Improving overall scholar and parent experience to ensure that scholars are in a healthy, well-managed learning environment that is promoting healthy behaviors to allow for learning. Ensuring that parents have input into decision-making and an open door policy with school administrators to establish working relationships focused on problem solving and student achievement.

**Measurable Outcome:**

State the specific measurable outcome the school plans to achieve. This should be a data based, objective outcome.

According to Fall and Spring Satisfaction surveys, Parent Satisfaction survey results in the area of local decision making will increase from 45% strongly satisfied to be 55%. Students satisfaction survey results in the school safety will increase from 12% strongly satisfied to be 22%.

**Monitoring:**

Describe how this Area of Focus will be monitored for the desired outcome.

Monitoring Enrollment Monthly through the Board Reports- Ms. Guadamuz will share with Board and EESAC Monthly

Monitoring participation in Parent Nights- Ms. Santos will share with Board and EESAC Monthly

Monitoring Hero points monthly, tracking consequences.- Mr. McDonald

Mid-year Surveys will be analyzed in December - Mr. Bardoni

**Person responsible for monitoring outcome:**

Nicolas Bardoni (924496@dadeschools.net)

**Evidence-based Intervention:**

Describe the evidence-based intervention being implemented for this Area of Focus (Schools identified for ATSI, TSI or CSI must include one or more evidence-based interventions.)

Parents will be expected to attend all parent nights, each event will have translation when needed, food for families, and child care/special event provided by aftercare.

Positive Behavior Intervention and Supports along with the Live School Points and House systems will be implemented and monitored to help establish clear expectations and motivate scholars to be successful.

**Rationale for Evidence-based Intervention:**

Explain the rationale for selecting this specific strategy.
